The house of Richard Waldron, Esq. at the plains, accidentally took fire and was consumed, together with most of the records of Probate Court, and many other public papers.

Doctor Nathaniel Rogers, the son of the Rev. Nathaniel Rogers of this town, was born in the year 1700, and was graduated at Harvard College 1717. He studied the theory of physic and surgery with Doctor Bailey of Ipswich, commenced the practice here and followed it several years with some success. He died in November, 1745, aged 45.

GENERAL HOOKER.—With the single exception of Gen. Grant, Gen. Hooker at present ranks the highest of all our military leaders, in the public estimation. He has done more actual fighting, and displayed greater personal bravery than even the hero of Fort Donelson and Vicksburg.

— It is stated that there are six million Spiritualists in this country.

— The rebels have appointed a national fast to be held April 8th.

— The entire police force of St. Paul, Minnesota, has been removed by the Mayor, on account of their general neglect of duty.

— The largest blockading fleet ever stationed off Mobile is at present rendezvoused there.

— The English steamer Olympus, on her last voyage from Liverpool, reports passing an iceberg one hundred and fifty miles long.

— At a meeting of the colored people of New Orleans, it was voted to invite Fred. Douglas to visit that city.

— Tennessee is moving for a reconstruction of government, and her old place in the Union.

— A contemporary says: "The man who gets up early in the morning to steal his daily reading from his neighbor's door-step, had better skip this paragraph."

— The Harris Street Society, Newburyport, have invited Rev. Benjamin Y. George, of Missouri, to settle with them in the ministry.

— F. P. Hill, the conductor who embezzled moneys belonging to the Reading Railroad Company, has been sentenced to one year's imprisonment in the penitentiary.

— The Connecticut Democratic State Convention, on Wednesday, nominated Judge Orizen S. Seymour for Governor by a nearly unanimous vote on the first ballot.

— The Bohemian makes the twenty-fourth steamship which has been lost at sea since the commencement of communication by steam to Europe.

— The Navy Department has issued a circular to local inspectors of machinery for naval vessels, charging them to be more careful in future in relation to their several duties with the Government contractors.

— Four ice houses at Fresh Pond were burned on Wednesday night, and two men perished in the flames. The loss of property is estimated at $35,000; insured for $21,750.

— The bodies of 16 of the Bohemian's passengers have been found; 13 are still missing. An inquest is to be held on the bodies of those drowned, which will probably elicit the cause of the disaster.

— Richard Cobden sends his autograph by request to the Brooklyn Fair, placing over it the expressive sentence—"Free Trade—The International Law of the Almighty!"

— The Savannah News puts this question: "Except Franklin Pierce and Thos. H. Seymour, where is the Northern man of prominence fit to direct the destinies of a nation?"

— Some boys, from 12 to 15 years of age, sons of respectable parents, went to Brunswick from Bath, Me., on Monday evening, got drunk and made so much noise that an officer ordered them home.

— The beautiful Marchioness Doria, the wealthiest and most beautiful lady in Rome, has just died in the full bloom of youth and loveliness, at the age of twenty, from a disease brought on, it is said, by constantly having flowers in her rooms.

— It is reported that the Danes have evacuated Duppel, and concentrated their defence upon Alsen Island. No further fighting is reported in Schleswig. The London Morning Post announces that England, supported by France, Russia and Sweden, has proposed an armistice, preliminary to a conference.

— Last fall the shoe thread factory of Henry Sprout, Pittstown, N. Y., was robbed of 1200 pounds of thread. Last week the thief was caught, and the property recovered. Meanwhile its value has increased 25 cents per pound, so that the owner of the goods makes a profit of $300 by the robbery.

— The terror of the great desert of Sahara is being removed by the application of science. In 1860 five wells had been opened, bringing fishes to the surface from a depth of five hundred feet. Vegetation is springing up around the wells, and the "desert will blossom like the rose."

— Mr. Wynfield, an English photographer, is said to excel all his compeers in his art. He does not require immobility in the sitter, but directs him to move slightly, so that "all the lines and boundaries of his form shall be modified and softened. The ugly features of a photographic likeness are by these simple modifications entirely removed."

— Levi Bacheller, who died in Milford, Mass., on the 13th inst., aged sixty-five years, had been out of his native State but once, and then only for a day or two. He never had visited Boston or Providence, never had seen a ship or salt water; rarely had he ever visited Worcester, having been there but once for twenty years. He quietly tilled his little farm contented and happy.

— The U. S. Senate passed on Saturday last a bill for the relief of Commander George Henry Preble who was dismissed from the naval service under a misapprehension of the facts connected with the escape of the Oreto into Mobile, and was subsequently restored. The bill gives him full pay as a commander during the period of his suspension.

NEW HAMPSHIRE ITEMS.

—— Paul R. George, of Contoocook, who has been dangerously sick for a few days past, is now recovering. His sickness was an attack of apoplexy.

—— The shop of Dr. S. Hardy, of Cornish Flat, was consumed by fire on Friday last, with all its contents, consisting of papers, medicine stock, &c. Loss estimated at $1500.

—— Asa Morse, of South Charlestown, fell dead on Wednesday, the 10th inst. He was in his usual health, and at work in his barn at the time. He was between 70 and 80 years old.

—— A small boy, about six years of age, a few days since while sliding, in Laconia, fell from the sled and struck his head against it, biting his tongue nearly half off in one place, and tearing it badly in another, both wounds nearly severing it from his mouth.

—— Mr. Joseph Matthews, of Lancaster, about 70 years old, while assisting in digging a well in Jefferson, accidentally fell to the bottom of it, a distance of forty feet, breaking his hip bone and seriously bruising his head.

— The Middle Street Universalist Society in Newburyport has invited Rev. G. W. Quinby, of Melrose, to become their pastor.

☞ A St. Louis letter in the New York Post says the President's amnesty proclamation is playing the mischief with the rebel armies west of the Mississippi, and especially among Missourians who are in the rebel service. The latter class of rebel soldiers are flocking to our lines in large numbers, and the desertets even embrace a large number of commissioned officers.

☞ Hon. Aaron P. Hughes of Nashua, died on the evening of the 23d inst., at Worcester, Mass., of congestion of the lungs. He was a prominent man in the State and an able lawyer. He had been to New York on political business, and on his return when he arrived at Worcester he felt so sick that he stopped with his sister and sent for a physician. His age was about 47.

☞ When the news of the disaster to the Bohemian reached Portland twenty men were immediately sent to the Cape to secure whatever baggage came ashore; wagons were sent out to bring all the sufferers to the city, and food and lodgings were provided at Sailors' Home and Grand Trunk House, and some of the passengers were sent to the best hotels in the city, and provision was made for sending the sufferers to their destination, all at the expense of the Steamship Company.

☞ The public reception of George Thompson, at the Music Hall, Boston, on Tuesday night was most enthusiastic. The hall was packed an hour before the time appointed for the meeting, and thousands were turned away, unable to gain an entrance. Gov. Andrew presided, and in opening the exercises said he esteemed it an agreeable service, and in the direct line of his official duties to welcome George Thompson to the shores of America and the hospitalities of the old Bay State.

THURSDAY EVENING, MARCH 3D.

Tickets - - - - - - - - - 25 Cents,

At Preston's, Thacher's, Shores's and Cobb's Stores, and at the Door

☞ It is well known that the largest halls in the country have been wholly inadequate to accommodate those who have been desirous of seeing Mr. Barnum, and listening to his intensely interesting lecture. In Providence, the street in front of Howard Hall was densely packed before six o'clock, although the lecture did not commence until eight, and it was estimated that more than five thousand persons were unable to obtain even standing room. The large hall of the Cooper Institute, New York, one of the largest halls in the country, was crowded to excess long before the hour of the lecture, thousands having been turned away. At Albany, N. Y., and at Springfield, Mass., every seat was sold days before the lecture.

That all may have an equal chance to obtain a good seat on the evening of the lecture here, the **Doors will be open at 6 1-2 o'clock,** although the lecture will not commence until 8. To save confusion and avoid the crowd at the door, it is advisable that as many as possible should purchase their tickets at the Bookstores before the evening of the lecture. F19

—OF—

Valuable Real Estate,

ON RICHARDS AVENUE.

Under a license from the Hon. Judge of Probate, I shall sell at public auction, on the premises,

On SATURDAY, the 26th day of March next, at 12 o'clock, noon,

The Real Estate of the late JOSEPH GREEN, situate on the westerly side of Richards Avenue, (formerly Auburn street,) being the homestead occupied by the deceased in his lifetime. The lot has a frontage of thirty feet on the Avenue, and a depth of eighty feet, extending back as far as the estate of Dr. Wm. R. Preston. It has upon it a convenient house, two-story high, and large woodshed. The garden has many excellent fruit trees in good bearing order. The fine situation of this estate, with its extensive prospect, the excellence of the neighborhood, and its accessible location, render this a rare opportunity for purchase, either for investment or occupancy.

Terms of sale—Cash. The purchaser will have no difficulty in obtaining any reasonable sum upon a mortgage of the premises, if desired.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a freedom from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only true theory by which THROAT and LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, when local causes make almost all such complaints indifferent in effect, I would ask confidence which will be sacred, in COLDS, CORYZA, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, WHOOPING COUGH, all THROAT and LUNG COMPLAINTS which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

Local.

IN BOARD OF ALDERMEN, on Thursday, Messrs. J. E. Rider and A. Q. Wendell presented their protest against the report of the committee on contested seats.

The petition of S. W. French and others, asking for the appointment of a committee to investigate the recent case of alleged fraud in counting the votes, &c., in Ward 5, and to submit it to the arbitrament of the law, was referred to Aldermen Wiggin, Brown and Rider.

Ald. Rider and Wendell presented an answer to the report of the special committee to whom was referred the petition of Samuel W. French and Joshua Stackpole for seats in the Board.

The application of school Committee of District No. 2, for desks and seats in the school-room under the Court House, was referred to the committee on school-houses.

The bonds of E. A. Dresser, City Marshal, and Daniel L. Randall and George Fredson, Assistant Marshals, &c., were accepted.

☞ We understand that the first instalment of the U. S. Government bounty to Volunteers has been paid to the City of Portsmouth in part.

Messrs. Editors:—Please publish the following. SPECULATING IN NICKEL CENTS has got to be very common, which accounts for the scarcity of the same.—There are storekeepers here in our city who are known to sell nickel cents at a premium, and their names shall be given to the public soon. A farmer who lives near by called at a store on Market Square a few days ago, and inquired if any nickel cents were wanted, to which the storekeeper replied, "Yes, and be glad of them." "What premium do you pay?" "Not any premium, sir—and the man ought to be ashamed of himself who would *take* a premium on cents, such times as these."—"Well, Mr. —— will buy all he can get, and give a good premium." Could there be any thing so small? And are not such people the whole cause of the scarcity of cents? S.
Portsmouth, Feb. 25, 1864.

☞ An Augusta correspondent of the Portland Courier, in speaking of the prominent members of the present Maine Legislature, describes Lewis Barker, Esq., who is to speak in this city at the Temple this evening, as "sharp as a two edged sword, and with an inexhaustible fund of humor beaming from his clear, honest eye. He is eloquent because his whole soul comes out when he speaks, and if the better feelings of the House are to be touched Lew. Barker is just the man to do it."

☞ It is said that the Secretary of the Navy has decided to add another fleet to our national squadrons. The new craft are to be entirely of iron and are not intended for participation in actual battle. Their hulls are to be built in the strongest manner, and the machinery to be as circumstances will permit.

Screw-steamer Niagara, now at the Brooklyn Yard, has been ordered to be prepared for sea immediately.

☞ The overseers of Harvard College have voted to raise the charge for instruction in the undergraduate department from seventy-five dollars as heretofore to one hundred and four dollars a year. The property which now constitutes the foundation of the University, leaving out of the account the buildings, grounds and libraries, amounts to $1,627,468.55.

☞ The Parisians are delighted with themselves as skaters. England skates stiffly, they declare, but largely and boldly; the German in an ungainly way; the Dutch in a mercantile way, as though bent on doing a distance with a tub of butter on the head; Portugal and Spain timidly, as tho' they disbelieved in the strength of the ice; but France—ah!—France skates elegantly and spontaneously.

☞ Three new emancipation daily papers are soon to be started in Tennessee at Nashville, Murfreesboro' and Chattanooga. The New Regime, a daily newspaper, is to make its appearance in Norfolk, Va., next Monday. It is to be edited by Capt. John Clark, late of the Boston Courier, and now of Gen. Butler's staff, and Col. E. M. Brown of Vermont—the two officers who conducted the Delta during Gen. Butler's administration in New Orleans.

☞ General Fremont writes to Maj. Gen. Schenck, Chairman of the House Military Committee, that he requested to be relieved from the Army of Virginia because he "regarded the order which reduced him to serve under General Pope as an unmerited insult;" that since then he has been waiting orders; that he was once promised a command, but did not get it; that he has kept part of his staff, to have their services when he should be recalled to active service; and that he has drawn his pay, "since the close of the last session of Congress, to be applied where it might alleviate distresses resulting from the war, and it has been used accordingly."

THE NEW MAYOR OF NEW ORLEANS. Capt. Stephen Hoyt, a native of Salem, Mass., has just been appointed by Gen. Banks Mayor of the city of New Orleans. Capt. Hoyt served with distinction as an officer in the Mexican war, at the close of which he repaired to St. Louis, Mo., and engaged in commercial pursuits. He filled several offices of municipal honor in St. Louis, including those of City Comptroller and Mayor.

☞ The rebel Senate have passed a bill for the establishment of a volunteer navy. It authorizes the Secretary of the Navy to commission vessels either in or out of the Confederate States.

ATTENTION, SOLDIERS! — PROTECT YOUR HEALTH!—No sensible man will leave the city without a supply of Holloway's Pills and Ointment. For wounds, bruises, sores, fevers and dysentery, these medicines are the best in the world. Every English and French soldier uses them. Only 30 cents per box or pot. 22S

He is the happiest who does most to make others happy. The inventor of Herrick Allen's Gold Medal Saleratus must be the happiest man in existence, for we hazard nothing in saying that the use of the Gold Medal Saleratus cannot fail to make a happy household. Our better half says she does not fear of our ever frowning, as long as she can get the genuine Herrick Allen's. We say success to the inventor, and if everybody knew how good it is, no other would be used. A good many of our Merchants have it. Their depot is 112 Liberty Street. New York.

Constitution Life Syrup,

COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depot, under Gov. Edwin D. Morgan.

Constitution Life Syrup

HAS PRODUCED
A REVOLUTION IN MEDICINE!
What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.
Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate disease, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are
Invited to use Constitution Life Syrup.
During the past five years we have contended with obstacles and overcome opposition as herculean as ever encountered by any Reformers.
Rapidity of Cure.
Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases can only be cured by the "slow recuperative process of Nature." This is our reply:
In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.
CONSTITUTION LIFE SYRUP,
A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.
Paralysis.
Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.
It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.
Dyspepsia.
Indigestion, Liver Complaint, Constipation, Weight at Stom'h, Biliousness, Want of Appetite, Flatulence, Bad Breath.
Scrofula.
Strume, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.
This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.
Rheumatism,
(Arthritis), Neuralgia, Gout, Lumbago, Sciatica, The Dolorous.
If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicious, of 20 or 30 years standing, have been cured by us.
Nervousness.
Nervous Debility, Confusion of Thoughts, Spileepy, Loss of Power, Shattered Nerves, St. Vitus' Dance.
Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering woman will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.
Mercurial Disease.
Salivation, Pricking of Wearisome, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.
Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the teeth as firmly as ever.
Constitution Life Syrup
Eradicates, root and branch, all Eruptive Diseases of the Skin, like
ULCERS, PIMPLES, BLOTCHES.
And all other difficulties of this kind, which so much disfigure the outward appearance of both male and females, often making them a disagreeable object to themselves and their friends.
CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,
Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which delay for so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to these swellings in the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.
All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelling of the Throat, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, but will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other parts of the body will be completely reduced without resorting to the knife or operations of any kind.
Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a grating or filing sound), Dropsy of the Heart Case and all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.
Broken Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain in the Back, Loss of Memory, Sleeplessness, Horror of Disease, Nervous Irritability, Fear of Disease, Dimness of Vision, Dry Hot Skin and Extremities, Want of Sleep, Restlessness, Pale Haggard Countenance and Languid Movements of Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.
For all Venereal or Secretive Diseases, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved its equal.
MANY FEMALES upon whom nature is depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.
In Diseases of the Liver, giving rise to lassitude, dizziness, indigestion, weak stomach, or a diseased or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.
☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*
Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.
THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.
PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.
TO MOTHERS AND MARRIED LADIES. It is the safest and most efficacious medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the food.—Those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.
Constitution Life Syrup
Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

THE GOLDEN SUNSET.

The golden sun's mirror spreads
Beneath the golden skies,
And but a narrow strip heaves
Of land and shadow lies.

The cloud-like rock, the rock-like clouds,
Dissolved in glory float,
And midway of the radiant flood
Hangs silently the boat.

The sea is but another sky.
The sky a sea as well,
And which is earth, and which the heavens,
The eye can scarcely tell.

So when for us life's evening hour,
Soft fading, shall descend,
May glory, born of earth and heaven,
The earth and heaven blend.

Flooded with peace the spirit floats,
With silent rapture glows,
Till where earth ends and heaven begins
The soul shall scarcely know.—(Longfellow.

☞ It appears from accounts in the Cape Town journals, that the Tuscaloosa returned to Simon's Bay on the 26th of December, after three months' cruise, during which, out of nearly one hundred vessels, she had encounted but one Federal ship, and as she had an English cargo on board, she was bonded. In the meantime she had been ordered away from a Brazilian port, in consequence of which her crew were placed upon short allowance. Her commander, Lieut. Lowe, hoped to obtain supplies and effect repairs to his vessel on his return to Simon's Bay. But no sooner had she entered the port than the privateer was taken possession of by the British admiral. The Tuscaloosa was formerly the bark Conrad of Baltimore. She was captured by the Alabama and converted into a privateer. The United States Consul lodged a claim to the vessel on behalf of her former owners; and it is likely that the question raised as to the legality of her condemnation by Capt. Semmes will have to be decided in the Admiralty Court.

The Old Established Hospital,
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians in the Old World) of obtaining the select as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and sure cure, to be obtained at no other place in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and spermatic cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody—containing disclosures Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy! Or, Secrets to Lovers and Married Men—a complete work on Midwifery. It contains hundreds of secrets, never before published—Warranted to be worth three times the amount asked for it. 25 cents, in silver or postage stamps, inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. Teller still remains the only Agency in America, for the sale of Dr. Nichols' Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine. For stoppage, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid these pills, as they never see directions which accompany each package, for the guidance of patients. On the receipt of $1, the price per box, these pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 9 A. M. to 8 P. M., and on Sundays from 9 to 4 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines sent by express from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students nor boys employed. Notice this, address all letters to

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Inflammations of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Gravel, Brick Dust, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus or Whites in females, where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an only assistant to the Cherokee Remedy, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, causing the immediate removal of all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *injections heretofore.*

☞ By the use of the Cherokee Remedy and Cherokee Injection—the two medicines at the same time, improper discharges are stopped, and the weakened organs are speedily restored to full vigor and strength.

☞ Full pamphlets get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Prices—CHEROKEE REMEDY, $2 per bottle, or three bottles for $5.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-abuse, such as Loss of Memory, Dimness of Sight, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Languor, Want of Energy, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the Cherokee Cure will restore you to perfect health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail, free of charge, to any one desiring the same, a full treatment in pamphlet form.

☞ Prices, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

LAST AND BEST.

THE MODEL COOK.
AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either size, when needed.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it unsurpassed by any other for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and comfort are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

A Great Variety of Cheaper Stoves
FOR WOOD OR COAL.
E. A. STEVENS'S
House Furnishing Establishment,
NO. 46 MARKET STREET.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meat is prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objections aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry W. Wendell,	John Sise, and others.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, to just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

"THE CONSTITUTION AS IT IS."—This Constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the SUPREME LAW of the land; and the judges in every State shall be bound thereby, anything in the *Constitution* or laws of any *State* to the *contrary* notwithstanding.

The Senators and Representatives before mentioned, and the members of the several State Legislatures, and all executive and judicial officers, both of the United States and of the several States, shall be bound by oath or affirmation, to support this Constitution.—*Constitution U. S.*

☞ The N. Y. News, the chief copperhead print, makes a spiteful hissing at Hon. James Brooks, one of its own party members of Congress. It says:—

Had his departure been a silent one, we should not have objected to the transfer of his affecti ons from the Democracy to Abolitionism, for the highway is strewn with the bones of just such men, dead for want of honest principles, but he has made a speech—a sort of dying confession. * * *
While truth will not allow us to congratulate the Abolition party on its accession, for such we do not consider it, truth will allow us to say that, in reference to the man and his speech, living or dead, the same inscription will answer—"Here *lies* James Brooks!"

The same paper says, in the same article:—

As we understand Democracy, as taught by the early fathers of the party, its very corner stone rests upon State rights.

State rights are very well in their place, but there are no such State rights as have been claimed, for each *State*, when it came into the Union, conceded Sovereignty and the Supreme Law to the United States, acknowledging itself subordinate.

What the Democratic party, or its fathers, or the N. Y. News taught is one thing:—what the Constitution says, is quite another thing: they are opposite.

U. T.

☞ The Confederate Congress, in an address to the Southern people, say that "the election of a President and Vice President by a party confessedly sectional and hostile to the South and her institutions," caused "these States" to withdraw "from the former Union," and to form "a new Confederate alliance, as an independent Government, based on the proper relations of labor and capital." This is the most complete and perfect announcement of the Confederate "base" yet made. Slavery, it seems, is the proper relation of capital to labor!

The Boston Transcript asks how will those working men of the North who retain some lingering attachment to the party of Vallandigham and the Woods, like this statement that the proper relation to their employer is that of slaves to owners? The Confederate Congress, it will be seen, announces a general principle, making no discrimination as to the workman's *color*, but asserting that "propriety" demands that capital should own labor. Certainly Davis and his satellites are "marvellous proper men."

Our foreign fellow citizens, many of whom are educated into voting for men who give aid and comfort to the rebels, should understand that the Solons of the Confederate Congress look upon them as slaves, and propose to be, in case they succeed in rebellion, not the representatives of laboring men, but their *masters*. That, it appears, is the "proper" relation.

A Jockey, who incautiously burned his finger by taking up his toast from the fire, and broke the plate by letting it fall, observed that it was too bad to lose the plate after having won the heat.

DR. TEBBETTS'
PHYSIOLOGICAL
HAIR REGENERATOR
—AND—
UNIVERSAL HAIR RESTORER.
ITS MODUS OPERANDI.
Immediately beneath the scalp there are very small Glands, or, more commonly Roots of the Hair. It is from these Glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall out, and in many cases, if not arrested, will produce a complete baldness of the scalp.
To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only Preparation yet known that can boast of such wonderful results.
Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Jannin, Sulphur, &c., and producing only a sort of yellow or flax color, it will, if properly applied, restore the hair to its former appearance and beauty.
The Physiological Hair Regenerator is warranted in all cases to produce the following results:
1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in its application.
2. It will certainly RESTORE the hair from a gray to a beautiful *Black, Brown, Auburn*, or whatever might have been its original color.
3. It will effectually prevent the hair from falling off, remove all Heat, Inflammation and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.
4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.
5. It will cure the most inveterate itching and tenderness of the scalp, and being highly perfumed, it affords a most delightful article for the toilet.
We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator; if it appears to be certain that at the very short time it will have a world wide reputation.
HOME TESTIMONY.
BEDFORD, N. H., Dec. 17, 1863.
Messrs. Tebbetts Brothers—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and now it is almost *black*. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diphtheria; it stopped it immediately on its application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only used one bottle, and I think one more will fix our heads up in good shape. J. C. CUTLER.
MANCHESTER, Dec. 20, 1863.
Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be prepared. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, when at out two months ago, I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. JACOB S. ABBOTT.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, FEBRUARY 22, 1864.

THE REBELLION.

There has been another battle in Florida. Our troops captured and destroyed over a million and a half dollars' worth of rebel property, and afterwards returned to Jacksonville.

The 4th N. H. regiment, with other troops, made a successful reconnoissance up the Savannah river to Williams Island on Sunday, Feb. 21.

Gen. Peck is preparing at Newbern, N. C., to resist an expected movement by the rebels to dispossess us of our possession in Eastern North Carolina, with the assistance of three rebel iron clads, plated ten inches thick, which are nearly ready to move simultaneously down the Neuse, Roanoke and Tar rivers, conjointly with land forces, on our three most important points on those three rivers, viz: Newbern, Plymouth and Washington.

The Memphis Bulletin of the 24th has information "from high military authority at Vicksburg," confirming the report that Gen. Sherman had occupied Selma, Ala., which, it says, was gained by a severe fight. No particulars have been received. The Bulletin says it is understood that the next point of attack would be Montgomery, the capital of Alabama.

From the news that comes from all points of Texas occupied by the Union army, it is inferred that the campaign in that State is over. It has been found impracticable to push into the interior.

Deserters state that there are about 20,000 rebel troops in and around Mobile.—Two rebel iron-clads, the Tennessee and Nashville, are in the harbor. The former mounts ten guns. The rebel programme is stated to be, an ascent of the Mississippi by these vessels, capture New Orleans, and blockade the river between there and Natchez. In this they were to be assisted by Gen. Magruder and Taylor's forces.

Our troops in Florida, under Gen. Seymour, have met with a reverse.—On the 20th, our troops met the enemy, 15,000 strong, 55 miles beyond Jacksonville and eight miles beyond Sanderson, on the line of the Jacksonville and Tallahassee Railroad. The battle was desperately fought during three hours, and at sunset our forces, overpowered by numbers, retired to Sanderson, taking with them the greater part of the wounded. The 7th N. H. regiment was among those engaged. The enemy captured five guns; their loss is not known. The rebel troops are supposed to have come from Bragg's army; Hardee was in the field, having gone to Florida to visit his family, and to form a second marriage. Our loss is estimated at from 500 to 1300.

A Washington dispatch states that Gen. Sherman never intended to go to Mobile, and is now in a safe position.

Our loss in the engagement at Tunnel Hill was 300; the rebels suffered more severely. The place will be held; the rebels are in force at Dalton. The Richmond Examiner says, if Grant defeats Johnston, Georgia and Alabama are open to him, and Mobile will fall without a struggle.

Longstreet is said to be falling back to Atlanta, Ga.; a large portion of his troops are said to be without shoes, and many nearly naked.

☞ The N. Y. Times' Paris letter says: "Since M. Mercier's arrival from Washington he has joined his efforts with those of Mr. Dayton in setting the government right on the state of the war in America, and is using his influence to prevent any breach of international law in connection with the Confederate ships in French ports. The decision of the government in the case of the Rappahannock has therefore been changed, and she will probably be detained."

Severe on Pure Ivory.—An exchange says, maliciously:

"You carry a beautiful cane—it costs $3.50—$1.50 extra on account of its beautiful pure ivory head. Your wife has a costly fan, with a pure ivory handle. In your pocket is a pure ivory-handled penknife, very pretty and fine. On your table is a set of knives and forks, with pure ivory handles, and a little extra expense they have cost for being pure ivory. The napkin rings are of pure ivory. The ring in which are the reins of your costly double harness is pure ivory. The handles of beautiful parasols are of pure ivory—and so on, with many articles useful and ornamental. But it happens that this "pure ivory" is manufactured from the shin bones of the dead horses of the U. S. army."

A handful of common sense is worth a bushel of learning.

A Wisconsin newspaper describing a large farm which the advertiser wants to sell, adds the following: "The surrounding country is most beautiful; the scenery celestial, divine; also two wagons, and a yoke of oxen."

NEW HAMPSHIRE ITEMS.

—— Mr. Rufus I. Merrill, of Concord, has been appointed Lieutenant in the Third Regiment, Corps d' Afrique, commanded by Col. H. W. Fuller, of Concord.

—— The editor of the Peterborough Transcript saw quite a number of grasshoppers hopping about on the grass-ground near his house one day last week.

—— The Wolfborough News states that one of the witnesses in the draft case last summer, recently put up his horse in Trickey's stable in Jackson, and while there the animal was completely shaven and the harness cut in pieces. There are some small men in that little place.

—— A donation visit was recently made on a clergyman in the western part of this state, who is suspected of inclining very strongly towards the rebels, and among the gifts was found $15 of confederate bills. The Rochester Courier calls this "paying the devil in his own coin," which isn't respectful.

Condition of the Troops.—As regards the troops in the defenses of Washington a most satisfactory statement is made by Dr. Julius Nichols, Inspector for the Sanitary Commission, who has just completed the entire command. He gives a consolidated report, showing the rate of sickness in each regiment, furnishing an exhibition of the most satisfactory state of health. He reports the prevalence of most excellent morals among the men, and says that there is no tendency to any form of epidemic disease. Scarcely any typhoid exists, and there is a universal absence of scurvy. Everywhere throughout the forces the great est satisfaction was expressed by the men as to the quantity and quality of the Government rations; and in every regiment the "company fund," well gathered and used, provided a variety in the dietary of such articles as butter, milk, eggs, vegetables, &c., &c. A very general inclination to re-enlist among the veterans is reported by Dr. N., thus confirming the oft expressed belief of patriotic observers of the National army, that its soldiers are thoroughly in earnest in their devotion to the good cause, and determined to "see the thing out," as some of them commonly call the Rebellion. What Dr. Nichols says of the high morals of the forces within the defenses of Washington is true of the entire Union army, with scarcely an exception. The lapse of more than two years, and the trials of repeated and severe campaigns, have eliminated from the army much of the poor material that clogged its ranks during the earlier period of their enlistment. We have now a rapidly increasing army of veterans.

☞ A conspiracy of the rebel prisoners confined in the penitentiary at Columbus, Ohio, to escape, was discovered a few days since. Col. Basil Duke, who was out of prison on parole, requested to be sent back to the penitentiary, and this led the authorities to suspect that all was not right. An investigation confirmed the suspicion, and showed that the prisoners had planned to overpower the guard when they were in the hall, and force their way out at whatever cost. They had armed themselves with knives which they had stolen from the tables, from time to time, and sharpened for the work. They had also provided themselves with files, one of which was ground so as to serve as a screw-driver, and one of the men had nearly completed a wooden key, which could be used, if necessary. They were deprived of their implements, and placed in closer confinement.

As a rising among the prisoners in Camp Chase was also in the programme, Gen. Heintzelmann stationed a double guard there.

"Tear Down the Flaunting Lie."—The N. Y. Tribune of last Friday re-publishes the whole of the song containing these words; showing that the song was not an utterance of contempt for the flag; but a sorrowful and indignant cry at seeing it disgraced. In Frank Pierce's administration, when no merchant vessel would take Anthony Burns from Boston to Virginia, the U. S. Cutter Morris was ordered to do it; and the song was designed to speak for freedom. It did so: but no copperhead journals have published it in full! none of them dare to do so: for this would condemn their flaunting lie.

Mr. Sears, an elderly gentleman of New York City, and Miss Bell, of Swanton Falls, Vt., a young, healthy girl, budding into womanhood, have lately been sent to their graves from the effects of laughing gas.—Another victim is now to be added to the record. As an effort is making to hush the matter in the grave of the lady deceased, her name is not forthcoming. She lived at Allentown, Pennsylvania, and, until her application to this dentist, was generally considered a very healthy woman. This lady applied to have laughing gas administered for painless dental surgery. After having inhaled the gas, a few hours placed her in her grave. How much longer are the lives of the people to be trifled away in this manner?—*N. Y. Tribune.*

☞ Surgeon Augusta, colored, was turned out of the Supreme Court room at Washington, on Saturday. So say the papers. And Judge Taney, of that Court, told us in his special plea for slavery in the Dred Scott case, that one hundred years ago everybody treated the negro as if he had no rights which a white man was bound to respect. He made this the basis of his plea. But the world has moved since that time,—and will move again.

An Appeal *from the State Fair Association of the Women of Maryland, for the benefit of the Christian and Sanitary Commissions,—to the Patriotic in the other Loyal States:—*

Having engaged in a great enterprise for National objects, the Women of Maryland look for encouragement from other loyal States. They ask for donations of money and contributions of suitable articles for the Fair, which is to be held in Baltimore on the 18th of April, to be continued one week, at which time they hope to see visitors from every part of the country, enlivening the city by their presence, and adding to our fund by their purchases. All donations of money or contributions for the Fair may be sent to the care of the Treasurer, Mrs. Alph. Hyatt, Christian Commission Rooms, No. 77, West Baltimore street, Baltimore, Md. By the liberality of Adams' Express, packages may be sent from all parts of the country free of charge.

The State Fair Association are preparing to publish a "National Book," to be entitled "Our Country—Its Past, Present, and Future." They have materials promised from several of our best writers; they ask the gifted in intellect to send in their offerings, while contributions in money are needed to defray the expenses of publication. Booksellers and others wishing a supply of the book will please give their orders. All donations or communications on the subject of the book to be addressed to Mrs. Lincoln Phelps, Corresponding Secretary, Eutaw Place, Baltimore, Md. Mrs. Governor Bradford, Chairman Executive Com.

In addition to the above appeal we quote the following from a circular sent to the people of Maryland, and signed by Mrs. Reverdy Johnson, Mrs. John P. Kennedy, Mrs. Henry Winter Davis, and other ladies of prominence:—

This Fair is two-fold in importance. It is to be a great *Union Demonstration*, held during the week of the 19th of April, to help obliterate the sad anniversary of three years ago; and it is to aid those Commissions (Christian and Sanitary) which have saved so many lives and so much anguish.

The appeal has met a hearty response from many of our towns and cities. It is hoped that it will receive the same here, and that our ladies will do all in their power to make the "New England Table" the most brilliant and attractive of the Fair.

It is hardly necessary to state that the Unionists of Maryland, in all their patriotic endeavors, have still to contend with secession opposition; and great success in Baltimore, where the loyalists have been untiring in their care for our soldiers, and upheld the cause of the Government amid scenes and terrors unknown in Northern cities, aside from benefitting the Commissions, will be a great triumph over local disloyalty.—How better can be manifested our grateful appreciation of Baltimore's philanthropy and patriotism, than by liberal responses to the call? We understand that the ladies of the different parishes are already exerting themselves to prepare a box of fancy articles for the Fair. Contributions may be sent to Miss M. H. Brookings, (who has recently visited us, by authority of the Maryland S. Fair Association, to solicit aid) care of Mrs. Alph. Hyatt, Christian Commission Rooms, 77 West Baltimore street, Baltimore, Md., and will be sent free by Adams' Express, as stated in the appeal.

Harper's Magazine, for March, contains the eighth of the admirable series of illustrated articles on the War of 1812; an article copiously illustrated, describing the Armories; and the usual quantity of miscellaneous reading matter. Nobody hits the popular taste closer than "Harper." It is a favorite everywhere. The publishers announce that a new novel, by Charles Dickens, will be commenced in the April or May number, simultaneously with its publication in England. For sale by J. H. Foster.

☞ Barnum announces that he will give $100 for a six-pound trout, alive and in good condition.

Piano Fortes Tuned and Repaired.
Mr. W. C. ELLIS, from HALLET & CUMSTON'S, Boston, will be in this city March 2d, 3d and 4th, and all orders left at Cobb's Music Store, H. H. Ham's Jewelry Store and at Kimball's Apothecary Store, will be promptly attended to. F29—3t

☞ It is well known that the largest halls in the country have been wholly inadequate to accommodate those who have been desirous of seeing Mr. Barnum, and listening to his intensely interesting lecture. In Providence, the street in front of Howard Hall was densely packed before six o'clock, although the lecture did not commence until eight, and it was estimated that more than five thousand persons were unable to obtain even standing room. The large hall of the Cooper Institute, New York, one of the largest halls in the country, was crowded to excess long before the hour of the lecture, thousands having been turned away. At Albany, N. Y., and at Springfield, Mass., every seat was sold days before the lecture.
That all may have an equal chance to obtain a good seat on the evening of the lecture here, the **Doors will be open at 6 1-2 o'clock,** although the lecture will not commence until 8. To save confusion and avoid the crowd at the door, it is advisable that as many as possible should purchase their tickets at the Bookstores before the evening of the lecture. F19

—OF—
Valuable Real Estate,
ON RICHARDS AVENUE.
Under a license from the Hon. Judge of Probate, I shall sell at public auction, on the premises,
On SATURDAY, the 26th day of March next, at 12 o'clock, noon,
The Real Estate of the late JOSEPH GREEN, situate on the westerly side of Richards Avenue, (formerly Auburn street,) being the homestead occupied by the deceased in his lifetime. The lot has a frontage of thirty feet on the Avenue, and a depth of eighty feet, extending back as far as the estate of Dr. Wm. H. Preston. It has upon it a convenient house, two stories high, and large woodshed. The garden has many excellent fruit trees in good bearing order. The fine situation of this estate, with its extensive prospect, the excellence of the neighborhood, and its accessible location, render this a rare opportunity for purchase, either for investment or occupancy.
Terms of sale—Cash. The purchaser will have no difficulty in obtaining any reasonable sum upon a mortgage of the premises, if desired.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 40 different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER. jn20

Local.

☞ Mr. Henry Yeaton, son of Mr. Moses Yeaton, of this city, was very severely injured at the Portsmouth Navy Yard on Saturday afternoon. He was stepping from one beam to another, above the shafting in a machine shop, and the lower part of his overalls caught in the shafting, by which he was drawn in until his left leg was broken in pieces. When the speed was checked, he fell, with his leg broken, fifteen feet to the ground. He was conveyed to the hospital, where his leg was amputated by the Surgeon, about four inches below the knee. He bore the operation bravely, without complaint.

POLICE COURT, Saturday.—Julia M. Weeks, for keeping a noisy and disorderly house on Penhallow street, was required to give bonds in the sum of $60 for her appearance before the S. J. Court, and for the want thereof was committed to jail.—We understand that the night watch made a raid on this establishment between the hours of 12 and 2 on Friday night, and succeeded in creating quite a sensation. They arrested five persons and conveyed them to the Station House.

William Donelson, for disorderly conduct, was fined $3, and costs taxed at $5.40, which he paid. He was one of the five persons arrested, as above, and rendered himself particularly obnoxious, — being drunk,—by cursing, screaming, dancing, stamping, and several other objectionable performances, any one of which was richly worth the $8.40 he paid.

☞ A man, supposed to be in a fit, fell overboard from the U. S. ship Colorado, lying at the Portsmouth Navy Yard, on Saturday, and when sinking for the third time, was caught by another man who jumped over after him. Both were rescued when almost exhausted.

☞ Charles W. March, Esq., of Greenland, is reported to have died recently at Alexandria, Egypt, of lung fever. We have no particulars as yet.

☞ The ordnance tug-boat "Bluelight" was successfully launched at the Portsmouth Navy Yard on Saturday afternoon last.

☞ See the advertisement of Newcomb's Minstrels, for a Concert by the Mammoth Troupe of the World, next Friday.

☞ The young Temperance Lecturer, Miss Susannah Evans, is creating some interest in the temperance cause in this country, and efforts are making to have her visit this city. She seems to be raised up by Providence for the reclamation of that immense and increasing hell-bound army of tipplers, who are passing on the way to destruction with very few manifestations of care for their lives or their souls. Her history is a singular one. She is a native of Aberdare, in Wales; her father was a drum-seller, and a drunkard. A Sunday School recitation pronounced by her at an anniversary was the means of reforming her father. Discovering that she possessed a gift for persuasive speaking she began, at 12 years, to address her Welsh country folks on temperance. In London and Manchester she was soon welcomed by crowds of auditors, and last year she determined on a mission to America. Large audiences have gathered to hear wherever she has been, and invitations crowd upon her from every quarter. We hope she will be able to create a revival not only among drunkards, but among the old friends of the cause, that they may awake and do their first works over again.

☞ The Boston Courier comes to the rescue of slavery which has been stabbed in the house of its friends. It says that "Mr. James Brooks, the New York Member of Congress, can hardly fail to perceive before long that he has put his foot on treacherous ground;" declares that it has no confidence in the soundness of his prognostications that slavery is dead; expresses surprise that he should repeat "a sort of shibboleth on this subject, to which interested parties have striven to give currency," and affirms that "the consent of Northern sentiment to the dogma that 'Southern slavery is dead,' would not effect that result; but would, on the other hand, render a restored Union impossible." In fine, "Mr. Brooks' theory could only lead to irretrievable and permanent disunion." If all this were sound, it would appear that nothing but the salvation of slavery will save the country! but the people don't see it. U. T.

HUMBUG GOLD STORIES.—A correspondent of the Chicago Tribune says the story about that fifteen millions in gold in Idaho awaiting transportation, is all bosh; and adds that there is not gold enough dug out in the whole territory to pay the expenses of getting the emigrants back home, and that all the big stories telegraphed from St Paul and New York, just before the spring opens, are the fabrications of speculators to get up a rush of deluded emigrants.

☞ We are indebted to Hon. John P. Hale, for valuable public documents, for which he has our thanks.

☞ The U. S. corvette Housatonic, Capt. Charles W. Pickering, was destroyed in Charleston harbor Feb. 18th by the propelled rebel torpedo Davis which some time since made the attack on the New Ironsides. It struck her on the starboard quarter, and in a short space of time she sunk off Beach Inlet. Two officers and three men were lost. The rest of the officers and crew were saved by clinging to the rigging until rescued by the boats of the fleet. O. Muzzey, Captain's clerk, and Mr. Hazeltine, Ensign, are the officers lost.

☞ Under the act of Congress approved March 2, 1863, there are three classes of persons entitled to prize money, namely:—First, persons who, at the time of presenting their claims, are on board of United States vessels-of-war; second, persons who have been discharged the service; and, third, representatives or heirs of officers, marines, and seamen. The Treasury Department is ordered to credit the Navy department with the amount held for distribution from prizes sold, and the officers, sailors, &c., sharing in the prize-money are credited in their accounts with the latter Department with the amounts to which they are respectively entitled.

☞ A Court Martial, of which Capt. Taylor, of the Charlestown Navy Yard, is President, convened on Thursday for the trial of Matthew H. Merriam, the Master Machinist of the Yard, on a charge of complicity with certain parties who have been arrested for stealing metal from the department over which he had charge.

Our young friend Geo. P. Edgerly, late clerk at the Provost Marshal's office in Portsmouth, has gone to Point Lookout, Md, to be Gen. Marston's clerk. He will be the right man in the right place; his penmanship is grace itself, his habits and his figures are correct and his honesty unquestioned.—*Rochester Courier.*

UNION MEETINGS.

On Wednesday evening, March 2, Gen. Richard Busteed, of New York.

On Saturday evening, March 5, Hon. John P. Hale.

Music will be given at each of these meetings by the Portsmouth Glee Club.

PERHAM'S MIRROR OF THE REBELLION, in connection with his "National Home enterprise for Invalid Soldiers" will open in this city on Wednesday evening, March 9th. Full particulars in a few days. Tickets now ready and for sale at Head's, N. P. Thacher's and Avery's.

ATTENTION, SOLDIERS! — PROTECT YOUR HEALTH!—No sensible man will leave the city without a supply of Holloway's Pills and Ointment. For wounds, bruises, sores, fevers and dysentery, these medicines are the best in the world. Every English and French soldier uses them. Only 30 cents per box or pot. 225

☞ He is the happiest who does most to make others happy. The inventor of Herrick Allen's Gold Medal Saleratus must be the happiest man in existence, for we hazard nothing in saying that the use of the Gold Medal Saleratus cannot fail to make a happy household. Our better half says she does not fear of our ever drowning, as long as she can get the genuine Herrick Allen's. We say success to the inventor, and if everybody knew how good it is, no other would be used. A good many of our Merchants have it. Their depot is 112 Liberty Street. New York.

Constitution Life Syrup,

COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospital, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigation of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as herculean as ever encountered by any reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases can only be cured by the "slow recuperative process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause there goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stom'h, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrotula.

Strumo, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritis], Neuralgia, Gout, Lumbago, Sciatica, The Dolourieux.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St. Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering women will this medicine come as unstainable as sunlight, directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of Mercury, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dropsy; Dropsy, of the limbs or abdomen, and in the female, Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the ovaries, tumors of the liver, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a grating or filing sound), Dropsy of the Heart Case and all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly benefited by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pains in the Back, Loss of Memory, Forebodings, Horror of Calamity, Fear of Disease, Dimness of Vision, Dry Hot Skin, and Extremities, Want of Energy, Dullness, Pale Haggard Countenance and Lassitude of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases**, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved equal.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Disease of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, Spinal or Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES.

It is the safest and most effectual medicine ever discovered for purifying the system and relieving children suffering attendant upon teething. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the food—those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Morning Chronicle.

☞ We learn from the Halifax, N. S., Morning Chronicle of the 18th inst. that during the past month (January) an average daily labor of 55 men engaged in mining in the Sherbrook Gold District obtained 326 oz. 5 dwt. 14 gr. of gold, equivalent at the present rate of premium to $10,524.46 for the month. In the Wine-Harbor District, during the same period, 39 men obtained 183 oz. 5 dwt. 22 gr., or equivalent to $5453.92 in U. S. currency. The above statement, says the Chronicle, is indicative of a highly satisfactory state of affairs in the Nova Scotia gold mines. We should certainly think so—the Sherbrook yields giving, it will be perceived, a little over $300 a month return for each miner employed. Miners' wages in the Provinces are 90 cents per day.

The N. H. Patriot cautions the copperheads not to be disheartened because Newcastle will be carried by the Republicans at the town election on Tuesday (the week before the State election.) The old motto "As goes Newcastle so goes the State," it thinks should be disregarded. Should this sign be not sufficient to convince parties how the State is going, there is one unmistakable sign that betrays the state of the Democratic thermometer. Frank Pierce, the copperhead candidate for U. S. Senator, has been upon a protracted "bust" for the past fortnight, which neither the entreaties of Minot nor the blarney of George could check. The inference is that Frank gives up the State to the "abolitionists," and that "blood in our streets" is not as plenty as he had hoped for.—*Cor. Ballot.*

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend in counsel and a Physician who has cured thousands, in almost every part of the United States who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. TELLER's great work, for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid, 50 cts., and 5000 sold the past year. The single Married and the Married Dr. TELLER's lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. Sent in cents in specie or postage stamps, inclosed, will secure a copy, by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions of the female.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see diagnosis which accompanies each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or observation.

Office hours from 9 A. M. to 9 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.
CURES FROM ONE TO THREE DAYS
CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus (or Whites in females) where all the old numerous nostrums have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an auxiliary or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites, where there are pain, smarting, soreness and weakness, removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all impurities are speedily removed, and the weakened organs are speedily restored to full vigor and strength.

For further particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

Sent by Express to any address on receipt of price. Sold by all druggists everywhere.

LAST AND BEST.
THE MODEL COOK.
AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!

☞ At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either side, when ordered.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it is superior to all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and comfort are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

A Great Variety of Cheaper Stoves
FOR WOOD OR COAL.
E. A. STEVENS'S
House Furnishing Establishment,
NO. 46 MARKET STREET.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the ovens larger than usual. The oven plates are covered with plaster, by which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper reservoir for hot water, also a tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, so no dust can possibly escape into the room, and the shoveling up of the ashes is entirely done away with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headaches so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The fire or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of air below the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the best generated, making the chimney the hottest part of your Furnace.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus complicating, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

IMPORTANT TO THE AFFLICTED.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a
PRIVATE OR DELICATE NATURE.
By a long course of study and extensive experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never failed to cure those introduced them, failed to cure the most alarming cases of
GONORRHŒA AND SYPHILIS.
Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Secretion Gonorrhœa, Ulcers, pain and distress in the regions of generation, inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Tumors, Tight Swellings, and the long train of horrible s. mptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.
SEMINAL WEAKNESS.
Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the victim for the duties of business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the Heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The feeble victim of this sad habit should be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self distrust, love of solitude, timidity, &c., are among the evils produced. Such persons should before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.
Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.
Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three for $1, and a red stamp.
Highly Important!
To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, continues to cure all of all diseases incident to the female system, Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.
Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
☞ All letters must contain four red stamps, or they will not be answered.
Office Hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Dr. Dow may be consulted daily, from 9 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Three for $1, and a red stamp.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every inn fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

"THE CONSTITUTION AS IT IS."—This Constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the SUPREME LAW of the land; and the judges in every State shall be bound thereby, anything in the *Constitution* or laws of any *State* to the *contrary* notwithstanding.

The Senators and Representatives before mentioned, and the members of the several State Legislatures, and all executive and judicial *officers*, both of the United States and of the several States, shall be bound by oath or affirmation, to support this Constitution.—*Constitution U. S*

DR. LYMAN BEECHER.—A most interesting, amusing, and instructive book, has lately come out from the Harpers, viz: the first volume of the "Autobiography, Correspondence, etc., of Lyman Beecher, D. D., edited by Charles Beecher," with illustrations.

Dr. Beecher was born October 12, 1775. He was descended from one Hannah Beecher, a widow, and a midwife, who came over from England to New Haven with Davenport's company in 1638. Her husband died as the ship was about to sail, and she intended to remain behind with her little boy, but was, on account of her profession, promised an equal share of land if she would come with them—and thus she sailed to America. Her grandson, Joseph Beecher, was of great muscular strength, being able to lift a barrel of cider and drink out of the bung-hole. Nathaniel Beecher, the son of Joseph, was the grandfather of Dr. Beecher. He was not quite as strong as his father, being only able to lift a barrel of cider into a cart. He was six feet high, and a blacksmith by trade.

David Beecher, the son of Nathaniel, was short, like his mother, and could lift a barrel of cider and carry it into the cellar.—He was a blacksmith and worked on the same anvil his father had used before him, on the old oak stump. In summer he worked on his farm and raised the nicest rye, white as wheat. Also, he made the best hoes in New England; a well read man, fond of politics, but absent-minded.

"Your Aunt Esther says she has known him at least twelve times come in from the barn and sit down on a coat pocket full of eggs."

Dr. Beecher says his mother was "tall, well-proportioned, dignified in her movements, fair to look upon, intelligent in conversation and in character lovely.

"I was her only child. She died of consumption two days after I was born. I was a seven months' child; and when the woman that attended on her saw what a puny thing I was, and that the mother could not live, she thought it useless to attempt to keep me alive. I was actually wrapped up and laid aside. But, after a while, one of the women thought she would look and see if I was living, and, finding I was, concluded to wash and dress me, saying, 'It's a pity he hadn't died with his mother.'"

This was a narrow escape for one destined to be the father of a famous family. He was brought up in the family of his uncle, Lot Benton, a thrifty New England farmer; and here is a picture of a New England kitchen in the last century:

"I can see her now as plain as I can see you. She and Annis got breakfast very early. We had wooden trenchers first, then pewter, and finally earthenware. Our living was very good. Rye bread, fresh butter, buckwheat cakes and pie for breakfast. After the dishes were washed, Annis and I helped aunt milk. Then they made cheese and spun till dinner. We dined on salt pork, vegetables and pies; corned beef also; and always, on Sunday, a boiled Indian pudding. We made a stock of pies at Thanksgiving, froze them for winter's use and they lasted till March. After dinner aunt put things 'to rights,' Annis spun, and I worked at flax and foddering. In the evening we visited, chatted, ate apples, drank cider, and told stories. On Sunday nights the boys went a-courting."

☞ Dr. Holmes says, in the Atlantic,—"Mr. Henry Ward Beecher is a strong, healthy man in mind and body. His nerves have never been corrugated with alcohol; his thinking-marrow is not brown with tobacco fumes, like a meerschaum, as are the brains of so many unfortunate Americans; he is the lusty, warm-blooded, strong-fibred, brave-hearted, bright-souled, clear-eyed creature that he was when the college boys at Amherst acknowledged him as the chiefest among their foot-ball kickers."

He laughs best who laughs last.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private disease, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose and Shin Bones, Cutaneous Eruptions, Blles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
☞ DR. TELLER'S GREAT WORK.
A book for every body.—Startling disclosures. Dr. TELLER'S great work for the married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Lichot's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.

TUESDAY, MARCH 1, 1864.

THE REBELLION.

General Seymour, who commanded the expedition in Florida, had been placed under arrest, by order of Gen. Gilmore. His successor is Gen. Vodges, who has left Hilton Head with reinforcements for Jacksonville, consisting of an entire division. Gen. Seymour is severely censured in not throwing out scouts and skirmishers as our troops advanced. As it was, our troops were led into a trap.

Longstreet is reported to be falling back to Richmond with his original troops, leaving Johnston and Buckner to protect the Virginia border. Gen. Schofield is pursuing with his troops, but, owing to the rapid retreat of the enemy, no engagement is expected beyond the Virginia line.

Arrivals at Memphis from Vicksburg reassert the previous reports that Gen. Sherman had occupied Selma, Ala. The reports from Gen. Smith's cavalry are not so good, although not perfectly reliable.—Stragglers state that the delay of one of Gen. Smith's divisions gave the rebel Generals Forrest, Adams, Lee and Roddy time to concentrate their forces, and Gen. Smith was slowly falling back towards Memphis.

Later accounts show that Gen. Smith returned to Memphis on the 25th. They had a severe battle at West Point, Forrest, Lee, Chalmers and Roddy having combined and endeavored to cut our line in two, in which they failed. But we have lost four field-pieces, 4-pound steel guns, which were spiked before captured. All the ammunition was saved. Otherwise the expedition was successful, although it failed of making a junction with Gen. Sherman. Our troops destroyed over one million bushels of corn, tore up and destroyed miles of the Memphis and Ohio railroad track, burned many bridges and trestles, captured and brought in over 1500 mules and horses, about 2000 negroes and over 300 rebel prisoners. It is impossible to give our loss, but it is much less than the rebels.

The Army of the Potomac was in motion on Saturday and Sunday.

FOREIGN.—There was at last accounts a questionable report in England, that two first class English houses, sufferers by the rebel croisers, are about to dispatch one of the fastest steamers afloat in pursuit of the rebel pirates. It is suggested that this may be another rebel dodge.

Preliminary proceedings in the case of the suspected steamer Pampero, seized in the Clyde, commenced in the Exchequer Court at Edinburg, on the 11th. The indictments are similar to those in the Alexandra case. The defendants put in a general denial, and appealed to a jury. Case adjourned until the 18th.

It is confirmed that England has proposed an armistice on the basis of the evacuation of Schleswig, except Alsen, by the Danes. Russia, France and Sweden support the proposition. It is said that Prussia has refused. The Germans were receiving large reinforcements, and were making preparations against Alsen. The Prussians had occupied Altona in spite of the Federal protest. The Danes were capturing German vessels. Mazzini is indicated as an accomplice in the late plot against Napoleon.

It is asserted that Italy is arming.

A COPPERHEAD DESERTER.—The Portland Press of Saturday, tells the following tale:

Yesterday a fellow named Edward G. Gilman, of Gorham, was brought before Judge Kingsbury on complaint of J. W. Hall, Esq., of Gorham, one of the selectmen of that town, charged with drunkenness and disturbance. The facts in brief were as follows: On Saturday evening of last week, the school house at Great Falls village in Gorham was obtained for a meeting for Mr. Jackson, the late coachman of Jeff. Davis. The house was crowded with respectable ladies and gentlemen, when this Gilman and some half a dozen other fellows of the baser sort, all from copperhead families, came in and soon commenced to disturb the meeting. Gilman appeared to be the ring-leader. He was evidently intoxicated, and there was little doubt that his associates were in the same condition, though the evidence in their case was not so palpable. They indulged in insulting remarks, sneezing, shuffling their feet, and almost everything calculated to annoy the speaker and to break up the meeting.—A proposition to put them out was opposed by Mr. Hall, but he warned them of the consequences of their conduct.

Yesterday Gilman was brought before Judge Kingsbury on complaint of Mr. Hall and with him came quite a retinue of witnesses, but before the hearing came off the most of them were in too balmy a state to be serviceable to their friend, who, under advice of counsel, pleaded guilty, and was fined $6 and costs, making about $16.—This was paid by the aid of friends, but no sooner did he get clear from Judge Kingsbury's jurisdiction, than Ex-Marshall Rose had him in a tight place on a charge of desertion from the army. He had been regularly discharged, but the evidence of his own confession will show that he obtained that discharge by false pretense. No sixteen dollars will now release him but he will probably be returned to the army.

NEW HAMPSHIRE ITEMS.

—— Hon. John P. Hale speaks every night this week, as follows: At Nashua, Monday; Keene, Tuesday; Claremont, Wednesday; Lebanon, Thursday; Manchester, Friday; and Portsmouth, Saturday. Crowded houses will undoubtedly greet him.

—— Hon. Paul R. George (brother to Col. John H. George of Concord) a prominent Democrat, and formerly Navy Agent at New York under President Tyler, died last Saturday night at his home in Contoocook from a third stroke of palsy, after lingering ten or twelve days.

—— The Union canvass of the State is said to foot up as follows:—

Gilmore,	34,268
Harrington,	32,972
Doubtful,	1,337

Dividing the doubtful equally, gives Gov. Gilmore a majority of 1,296.

—— On Friday morning, the down freight train on the Boston, Concord and Montreal Railroad, when a short distance below the Weirs Station, was thrown from the track by some means, and seven cars in the middle of the train went down some 18 feet into the lake. They were badly smashed, and considerable damage was done.

—— The U. S. transport steamer Admiral Dupont arrived at Boston, on Saturday night, having on board 172 men of the N. H. 2d, 159 men of the 5th, and 119 men of the 12th, 450 in all. The detachments were under the command of Capt. A. G. Cummings, of the 5th. The troops were quartered at the Beach street barracks until Sunday forenoon, when they took their departure for Concord.

—— To an inquiry of Hon. Daniel Clark if the quota of New Hampshire was full under all calls that have up to this time been made upon the State, Provost Marshal Fry replies as follows:—

"In reply to your inquiry I have the honor to inform you that the records of the War Department show that New Hampshire has at this time filled all calls made on her for troops for the service of the United States during the present rebellion. In making up the accounts of the State for men furnished, she has been credited with all men who under the late draft paid commutation, furnished substitutes, or have gone to service in person. The patriotism displayed by New Hampshire in promptly filling the calls made, has been both gratifying and serviceable to the Bureau of the War Department charged with reinforcing our armies now in front of the enemy.

FIRE AT LAWRENCE, MASS.—A large three-story wooden block in Lawrence, leased by the Pacific corporation as a boarding house for operatives, was burnt on Saturday afternoon. Three steam and two hand fire engines were soon at work, and the vast quantity of water thrown by the untiring steamers prevented the flames from spreading to many dwelling houses of wood in the immediate vicinity. From twenty to twenty-five Irish families (several of whom lost all their furniture) were rendered temporarily homeless by the conflagration, which is reported to have been caused by children at play setting fire to shavings.—The block was partially insured.

THE ADVANCE ON IRON.—There is no article of merchandise, says the "Scientific American," that has advanced more steadily since the war commenced than iron. Within a short time there has been an advance of 50 cents per keg on nails, and ten dollars per ton on iron. This makes an advance, within the past thirty days, of one dollar per keg on nails, and twenty-five dollars per ton on iron. Some statistics of the consumption of iron and steel in this country, since the war began, would afford valuable information.

☞ As a lady was walking through a room in Newark, N. J., on Thursday evening, with a small kerosene lamp in her hand, the lamp suddenly exploded, enveloping her in flames. Her husband being near by, picked her up and ran down into the street with her, and there endeavored to put out the fire by rolling her on the sidewalk. He was badly burned while so doing, and a brother-in-law was also injured while rendering assistance.

☞ Mr. Hale, of New Hampshire, uttered the following striking sentiments in the U. S. Senate, Feb. 19:

"I will take this occasion to say that in my humble judgment, if there was one single, palpable, obvious duty that the Republican party owed the country, owed to humanity, owed to God when they came into power, it was to drive a plough-share from turret to foundation of the Supreme Court of the United States. They should have done it."

☞ The N. Y. Herald's Washington dispatch says Gen. Sickles is expected to start on Wednesday next for the West, and thence to the Atlantic coast, visiting Nashville, Chattanooga, Arkansas, Hilton Head, Fortress Monroe, &c., to investigate concerning rebel deserters, prisoners of war, and parties taken within our lines, the result of which is to be laid before the President for the guidance of his future policy in relation to Southern disloyalty.

— P. S. Gilmore, as conductor, was announced to lead a grand national concert, on Washington's Birthday, at the foot of Canal street, New Orleans; the band being composed of all the available musicians in the city, and the finale, representing the "Din of Battle," to be accompanied by forty pieces of Gen. Arnold's artillery.

— The debate on naval questions has elicited the original cost of our navy yards. It was as follows:—

New York, $40,000; Philadelphia, $37,000; Boston, $39,214; Portsmouth, N. H., $5,300; Norfolk, $12,000; Washington, $4,000; Pensacola, $100,000; Benicia, California, $200,000. The only vessel built at the latter was a failure.

— A St. Louis dispatch speaks of vast shipments of stores of all kinds to Gen. Grant's army. They comprise horses, commissary and quartermasters' stores in amount overtaxing the capacity of the railroads, and making large drafts upon the rolling stock of all the railroad companies of the West. A similar state of things is reported at Chicago.

FRENCH SOLDIERS' DOGS.—The dog of the French soldier follows him to camp, often accompanies him into action, and has been found at his side when wounded or dying on the field of battle. A private was condemned to be shot, and his executioners were ready to fire upon him. Just as the bandage was about being placed over his eyes, his dog flew into his arms and began to lick his face. This touching incident for a few moments arrested the proceedings; but after a short delay his comrades, with tears in their eyes, gave the fatal volley, and the two friends expired together. A youthful conscript, desperately wounded in battle, was conveyed indiscriminately with hundreds of others to a hospital. In the course of a few days a little dog made his appearance, and searching amidst the dying and the dead, discovered at length his expiring master, and was found licking his hands. After his death a comrade took charge of the faithful animal, but no kindness could console him. He refused all food, pined away, and died.—*Philosophy of Natural History.*

P. T. Barnum's Lecture

Was delivered with great eclat at St. James' Hall in London, England, 17 different times, and repeated 60 times in various portions of Great Britain.

READ THE FOLLOWING

NOTICES OF THE PRESS!

Troy Daily Times, Dec. 6, 1862.

MR. BARNUM'S LECTURE.—In the annals of the Young Men's Association we hardly know a more thoroughly successful lecture than that of P. T. Barnum last evening. The admission fee of 50 cents did not prevent the accumulation of an audience that filled every seat in Rand's Hall. A more brilliant, appreciative and delighted assemblage never gathered in the room. Mr. Barnum held them for nearly two hours, without a manifestation of weariness, and sent them home in the best humor, with enlarged ideas as to the art of money-making.

The good points of the lecture are thoroughly unreportable. No sketch could do justice to Mr. Barnum's inimitably told anecdotes and personal reminiscences. The more serious portions of the lecture were admirable in their maxims and advice.—They evinced, also, a scholarship and elegance of diction in the manner in which they were put together that few gave Mr. Barnum credit for. His delivery was deliberate and clear, and was rendered appropriate to each part of the theme. We had known the speaker as a wonderful showman, but as a successful lecturer, he appeared in a new and triumphant role.

Albany Knickerbocker, Dec., 1862.

BARNUM BEATS BEECHER.—Eighteen hundred of our first ladies and gentlemen crowded Tweddle Hall on Thursday evening, to hear the great showman discourse on the art of making money. This is four hundred more than Henry Ward Beecher drew to the same hall last week. Barnum's lecture gave immense satisfaction. Indeed, it was *the* lecture of the season. It was not only a great pecuniary triumph for our Young Men's Association, but the shrewd, practical suggestions and rules for success in business, illustrated by the droll-est witticisms, and the most original side-splitting anecdotes, were worth double the price paid for admission. The audience was kept in a roar from beginning to end, and left in the best possible humor.

Troy Daily Whig, Dec. 6, 1862.

Every seat in Rand's spacious Hall was occupied last evening by an audience as refined and intelligent as any that ever greeted a public lecturer in this city. Both speaker and the subject were interesting—the former to be *seen*, the latter to be listened to. People outside of the Metropolis have heard so much of Barnum, and of the various enterprises—both good and bad—with which he has been connected, that, in the minds of many persons, he had come to be regarded in the light of a "curiosity"—a genuine *lusus naturæ*. But far from it. Of a commanding personal appearance, a face beaming with good nature, and a countenance remarkable for sharpness and acuteness, the "great showman" looks anything but the humbug or charlatan.

At eight o'clock he made his appearance on the stage, accompanied by the President and Corresponding Secretary of the Association, and met with a good reception.

After the customary introduction, Mr. B. proceeded to address the audience in a clear, practical, off-handed manner. We merely present a few of the leading points discussed by the speaker—a full report being im possible, as he spoke for full two hours.

[Here follows a report of the lecture.]

London Morning Herald, Jan. 7th.

Mr. Barnum last night repeated his entertainment at St. James' Hall to a very crowded audience, who entered very heartily into the sense of American jokes, which excited much applause. The hour named for commencing was eight o'clock, but, though we reached the hall at a quarter before that hour, we could not obtain a seat where it was possible to see or hear well.

London Morning Advertiser, Dec. 30th.

Mr. Barnum's lecture breathes a wholesome, healthy air, is varied in subject, and delivered in such a genial and pleasant style as to constitute an intellectual treat which one does not meet with every day, even in London.

GO EARLY.

☞ It is well known that the largest halls in the country have been wholly inadequate to accommodate those who have been desirous of seeing Mr. Barnum, and listening to his intensely interesting lecture. In Providence, the street in front of Howard Hall was densely packed before six o'clock, although the lecture did not commence until eight, and it was estimated that more than five thousand persons were unable to obtain even standing room. The large hall of the Cooper Institute, New York, one of the largest halls in the country, was crowded to excess long before the hour of the lecture, thousands having been turned away. At Albany, N. Y., and at Springfield, Mass., every seat was sold days before the lecture.

That all may have an equal chance to obtain a good seat on the evening of the lecture here, the **Doors will be open at 6 1-2 o'clock,** although the lecture will not commence until 8. To save confusion and avoid the crowd at the door, it is advisable that as many as possible should purchase their tickets at the Bookstores before the evening of the lecture.

One of Hunnewell's Great Remedies.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned notoriety, is a tincture from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only true theory by which THROAT and LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, when local causes make almost all such complaints different in effect, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, WHOOPING COUGH, all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

For sale by all Wholesale and Retail Dealers.

☞ Capt. Charles W. Pickering, of this city, was slightly injured by the explosion at the time of the destruction of the Housatonic by the rebel topedo in Charleston harbor, but is now doing well. The Boston Herald's correspondent states that it is a wonder that Capt. Pickering was not instantly killed, as he was directly over where the explosion took place. He escaped, however, with some severe cuts and bruises and will soon be well again.

BARNUM, the great inimitable, lectures at the Temple next Thursday evening—and we advise all who wish to be amused and entertained,—not to mention being instructed,—to get tickets in sure season.—Our neighbor of the Journal calls him a humbug—and deems the first lesson in money-getting to be money-*saving*;—which is true as any other preaching to a certain extent: but then how can the farmer have a chance for a crop, if he refuses to risk his seed in the ground? And whether Barnum imparts business knowledge sufficient to offset a "quarter," or not, all who hear him agree that his *fun* is worth double the amount. He is beyond question, one of the most pleasing speakers in the world; and many folks—we among the number, believe that he knows whereof he speaks, and testifies to what he has seen and learned.

☞ A loyal friend, whose word is as good as his bond, offers Uncle Toby $100, if he will engage to write a book recording the saying and doings of the Copperheads in this neighborhood, for the information of those who may come after us. The offer has not yet been accepted; though there is a plenty of materials for such a work, and the record is accumulating every day.

☞ Miss Evans, the distinguished and youthful oratress of fifteen years, of whom we made mention in our issue of Monday, has been engaged to lecture in this city on Sunday evening, March 13th. Great curiosity will be excited to hear her.

☞ Chief Engineer R. M. Bartleman, U. S. N., has been ordered to special duty at the Portsmouth Navy Yard.

☞ We learn that Dr. James Rundlett May, of this city, has received an appointment as Assistant Surgeon in the U. S. Navy.

Mr. J. Lewis Harris has been appointed Acting Master's Mate in the U. S. Navy.

☞ Mr. J. H. Foster has the Union League Melodies, a little collection of patriotic hymns and tunes, gathered by Rev. J. W. Dadmun, whose Army and Navy Melodies have been so deservedly popular.

THE VETERANS.—The veteran regiments are almost unanimously re-enlisting for the war. Notwithstanding they might claim that they had performed their duty, and had done their full share in the war, and are entitled to retire, yet they most patriotically discard all such pleas, and come forward with the determination, as they have already borne the heat and burthen of the day, to be in at the death of the rebellion, and not let the eleventh hour men have the entire credit of the result, as they would appear to do. The following scenes with a Connecticut regiment, as narrated by a correspondent, show the feelings and principles which are actuating these veterans, in inducing the brave fellows to devote themselves anew to the service:—

"One man who told me he had 'signed again,' said he had already lost in this war two brothers, two brothers-in-law, and two uncles, and he was 'not going to quit now.' He would 'see it through.'"

"Another said, when I asked if he had re-enlisted, 'Oh, yes; if I was out now, I couldn't keep out while this thing was going on. My two brothers were in service too. One of them was killed on picket at Aquia Creek, but the other is in and he and I will stay in."

"There is one who first entered with a twin brother. While himself sick in hospital he heard of that brother's death, but neither this loss nor his desire to be at home giving help and cheer to his maimed father, prevented his pledging anew his devotion to the country he has faithfully served."

"Another is from one of our good Connecticut families; his father a well-known, patriotic citizen of Hartford county, in comfortable worldly circumstances; himself the head of a promising family; his mother lying in enfeebled health, probably near her end; his parents, wife, children, looking with hope and longing for his return to their midst, ere long, to be again a blessing to them all. It was hard for him to bind himself for another three years of absence, privation and danger. He did not decide at once. He is an earnest, consistent Christian, a good, faithful soldier. His hand trembled and the perspiration started from his face, as he sat over the rolls considering the subject, while he aided his captain in making up the lists.

"He said, and doubtless sincerely, that not money enough to cover all the campground could tempt him to this new sacrifice, but if he enlisted it would be because he felt it his duty to come forward again, as before; and come forward he did, God bless him! As I write this sentence, there steps to the table a lad whose father's body, shot through by a rebel bullet, lies yet unburied at the regimental hospital, and with steady hand the brave boy again subscribes his name in affirmation of his willingness to stand by the Government, for which his father has just laid down his life."

☞ Rev. Edward Hitchcock, D. D., LL. D., Professor in Amherst College, and President of that institution from 1845 to 1854, died of consumption on Saturday morning, at the age of 70, having been born in Deerfield, May 24, 1793. He had long been in feeble health.

☞ George Thompson referred the other night at Portland, to the "musk-scented, rose tinted" aristocracy of England, and suggested that their ideas of propriety were shocked by the elevation of a once poor boy, who had practised rail splitting, to be the head of our nation.

☞ The Grand Jury in the U. S. District Court of New York have found four bills against John H. Andrews, the rioter of July. One for "treason," another for "conspiracy to levy war against the United States," another for "resisting and counselling and aiding resistance to the draft," and the last for "inciting, setting on foot and engaging in a rebellion and insurrection against the United States."

☞ A package containing $100, sent from Pittsfield to Coleraine, a few days since, was received from the express at Greenfield by the Coleraine stage driver, but on his arrival at Coleraine it was not to be found. The driver suspected a passenger from Heath of stealing it, and accompanied by an ex-sheriff, followed, searched and relieved him of $115, which was placed in the hands of a third party. But when the driver returned to Coleraine, he found the original package in his own pocket.

SMILE WHEN YOU CAN.—The sad of this world need your smiles; and the world itself may be better for them. They do not cost much, and oftentimes bring their own sweet reward; and none but the Infinite One can estimate the amount of good one little smile may do.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y.
Formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteers, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cases which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as herculean as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cure is too quick," while others doubt their permanence, and think that diseases can only be cured by the "slow recuperative process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all hereditary DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Palsy, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stom'h, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Strume, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritic, Neuralgia, Gout, Lumbago, Sciatica, Tic Doloureux.

If there is any disease in which the Constitution Life Syrup is a Sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or rheumatic, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St Vitus' Dance.

Thousands who have suffered for years will bless the day on which they first read these lines. Particularly to weak, suffering woman will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, such as

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be seen as soon as any swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon glandular Constitution. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the parts, are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove in time. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without patience. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as palpitation, Disease of Valves—producing a grating or filing sound), Dropsy of the Heart Case and all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Insanity, Fear of Disease, Nervous Fever, Dry Hot Skin and Extremities, Want of Sleep, Restlessness, Pale Haggard Countenance and Lassitude of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases**, either of the Throat, Tongue, Nose, Forehead or Scalp, no remedy has ever proved its equal.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an uneasy sated or cancerous condition that organs accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from disease for which they were at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES. It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the food—Those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Morning Chronicle.

Dr. Pari was celebrated for the unsparing severity with which he could deal out his dumbfounders, when the occasion justified their infliction. A flippant character, after having spoken slightingly of the miracle, exclaimed: "Well, but doctor, what think you of the mark of the cross upon the ass's back, which, they say, indicates the precise spot where the animal was smitten by Balaam?" "Why, sir," replied the doctor, "I say that if you had a little more of the cross, and a good deal less of the ass, it would be much better for you."

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)

76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to procure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers pertaining to Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions; and legal opinions rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below prove that more is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twelve years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

Thus, besides his extensive library of legal and mechanical works, and full access to all patents granted in the United States and Europe, renders him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay thereby, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person in my judgment *more trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all the first of which patents have been granted, and that is *now pending* with unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

EYE, N.H., Feb. 28, 1866. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large portion of her time was spent in the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and wherever many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, N.H., April 1, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give me relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not been troubled by the second any of these complaints since, and I enjoy good health. M. LOWD.

FORT ELDER I. CHESLEY, *Lee, Sept 21, 1861.*

Dr. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1860, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 2 Higby street, Portsmouth, N. H., promptly attended to.

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus or Whites, when none of all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious excess which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent;* removing all scalding, heat, chordee and pain, and of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full pamphlet.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

LAST AND BEST.

THE MODEL COOK.

AN AIR-TIGHT STOVE,

WITH TWO OVENS,

And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or corn of cobs, than with double the quantity in any common stove or range—and in less time also

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either size, when needed.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and *dirtwatch* are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

A Great Variety of Cheaper Stoves
FOR WOOD OR COAL.
E. A. STEVENS'S
House Furnishing Establishment,
NO. 46 MARKET STREET.

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats or fish is prevented from escaping into the room. With the extension oven there is a large copper Reservoir for hot water; also a large tin water closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection of cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used over a second time, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The great objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, requiring skill to manage, and frequent over furnace methods, while many have proved a total failure. The reason for this is obvious. The contents of the fuel-chamber, when first put on, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the intense heat of coal air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 25 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe of flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Aaron B. Hill, Henry F. Wendell, Albert R. Hatch, Esq., Charles H. Mendum, John Sise, and others.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar under at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unfailing success, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Ulcers, pain and distress in the region of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest allings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Cause of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Dangerous or fatal Diseases of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a person of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capottes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the womb, Menstrual Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. He is peculiarly certain in the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

DR. DOW has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. DOW, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unrivalled attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7, Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all:
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is soon its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

"THE CONSTITUTION AS IT IS."—This Constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the SUPREME LAW of the land; and the judges in every State shall be bound thereby, anything in the *Constitution* or laws of any *State* to the *contrary* notwithstanding.

The Senators and Representatives before mentioned, and the members of the several State Legislatures, and *all* executive and judicial *officers*, both of the United States and of the *several* States, shall be bound by oath or affirmation, to support this Constitution.—*Constitution U. S.*

☞ Some readers may like to see the paragraph in Brooks' speech in Congress, which has so stirred the ire of his brother copperheads. Here it is:—

"Sir, the abolition of slavery is a 'fixed fact,' a fact accomplished. I must accept it. I cannot close my eyes to it any more than upon the sun, or upon the sunshine, or upon the tornado or the storm. What is written is written, and I must read it, and I should be blind if I did not see that slavery is abolished, and the African too, with it. I cannot help it, I cannot avoid it. Massachusetts has ordained it, and the *country accepts it*, and, if she is a wise man, at least as a public man, I must abide by and act upon it. When the Border States voted upon the floor of this House at an early period of the session, and by their votes organized this House, it was written, it was decreed, irrepealably decreed, that slavery is abolished, and there was no help for it."

The same man published a letter in 1838, in which he said:—

"Slavery is the poison destroying our institutions. It is the root of all the mischief, and all the bad feeling toward us in the South; and we solemnly believe the Union cannot stand forty years [!] unless something is done gradually to rid us of this vice. Hence it is an all-important momentous question which must be met, and immediately, unless Virginia is willing to descend from her proud position on the pages of American story to be the slave-nurse of the southwestern States."

AFFECTION OF THE MARTIN.—The nest of a martin had fallen from the eaves of a house when full of young. They were taken up and placed in a basket, where their parents attended them as before. All were fledged, and soon left their place of refuge, except a feeble and helpless one, which remained there. When thus left alone he was exposed to the severity of the cold east winds, which began to prevail at the time. The old birds not only continued to supply him with food, but in order to protect him from the winds, built up a wall three inches high upon that side of the basket which was exposed to it.

Politeness is like an air-cushion—there may be nothing solid in it, but it eases jolts wonderfully.

OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known.
We have, in our possession, any quanity of certificates, some of them from
EMINENT PHYSICIANS,
who have used it in their practice, and given it the pre-eminence over any other compound.
It does not dry up a Cough, but loosens it, so as to enable the patient to expectorate freely.
☞ *Two or three Bottles will invariably cure TICKLING IN THE THROAT.* ☜
A HALF Bottle has often completely cured the most
STUBBORN COUGH.
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In cases of CROUP we will guarantee a cure, if taken in season. No Family should be without it. It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident that one trial will secure for it a home in every household.
Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured hundreds, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vicholi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. Portsmouth, N. H.

WEDNESDAY, MARCH 2, 1864.

THE REBELLION.

The siege of Charleston seems to be renewed. 146 shots were fired at the city, Feb. 24, and 100 on the 26th.

The rebels report heavy fighting with Gen. Smith's Union cavalry at Pontotoc, Miss., Feb. 21, and state that they killed 40 and captured over 100 of the Union troops. Their own loss they did not know; but Col. Forrest, brother of Gen. Forrest, was killed, and Cols. Barksdale and McCullough badly wounded. A dispatch, 26th, says:—"The Yankees have left Pontotoc. We (the rebels) have lost many officers and men. Sherman's advance has reached Pearly Pear."

Rebel dispatches also report that the Union troops have retreated from before Dalton, Ga., toward Chattanooga, with Gen. Wheeler in pursuit; also, that Longstreet has withdrawn his forces "to a point not prudent to mention."

A Louisville dispatch, 29th, states that information from Cumberland Gap, deemed reliable, says the Union forces have reached Morristown. A Union officer, from the vicinity of Rogersville, reports that Longstreet's forces were going East at double quick time on each side of Holsten river.

The N. Y. Tribune's dispatch from the Army of the Potomac states that up to 10 o'clock Monday morning, no battle had occurred, but there was severe skirmishing on our right on Sunday. It was thought that Lee does not intend to leave his intrenchments to fight, unless compelled to do so by Gen. Meade.

Details of the late battle in Florida are published. Our force engaged was 4500 infantry, 400 cavalry, and 20 pieces of artillery. The enemy's strength is reported at 13,000, posted between swamps, and protected by earthworks and rifle-pits. The report that no skirmishers were thrown out is denied. Our troops fought nobly against superior numbers and retreated in good order. The rebels were commanded by Gen. Gardner, of Port Hudson fame. Our troops are in a position to check the enemy. The report of the arrest of Gen. Seymour is not confirmed. The expedition will be continued.

The Richmond Examiner of the 27th ult. states that Gen. Taliaferro left Savannah 22d, to assume command of all the forces in Florida. Gen. Bragg is assigned to duty at Richmond, under the direction of Jeff. Davis, and charged with the conduct of military operations in the armies of the Confederacy. The same paper refers to the "dispersion or withdrawal" of Gen. Sherman's forces. A Washington letter, 27th, says Gen. Logan's cavalry from Huntsville, Ala., has joined Gen. Sherman at Selma, Ala.

Nearly 2000 soldiers left New York and vicinity on Sunday for the front. The number leaving the city and, passing thro it from the Eastern States averages about 1000 per day.

A REAL HUMBUG.—The managers of the New York Sanitary Fair, having "decided not to allow raffling at their fair"—the Boston Transcript thus happily hits the absurd decision.

HOPE FOR NEW YORK.—Now that the commercial metropolis has put its ban on "raffles" at charitable fairs, and has undergone a remarkable sudden moral conversion, there is reason to hope that gambling speculations in Wall street may come to an end, corporation corruptions cease, and riots go out of fashion. If the Knickerbockers are right in their ethics as to the wickedness of deciding by lot the question of ownership, among a company of friendly subscribers to a fund to purchase some costly article for the benefit of the soldiers, it is certainly evident that they are straining awfully at a gnat whilst daily swallowing several enormous heavy camels. One thing is certain, no more will hereafter be heard of the straight-laced Puritanism of New England. Are the "hells" of Broadway to be closed during the time of the "fair?"

We wonder that these hypocrites will take the risk of having fair weather for their grand show, and of receiving money enough to pay expenses—they are so wise above what is written.

☞ A dispatch from Bombay, Jan. 29, reports the pirate Alabama off the west coast of India. She had burnt the ship Emma, of New York. This is supposed to be either the Emma Jane, which was last reported from Bombay, Dec. 26, or the Esmeralda, of New York, from Calcutta Jan. 9, for Bombay.

☞ The President by message informed the House on Tuesday that he had approved the bill reviving the grade of Lieut. General; and shortly afterwards he sent to the Senate the nomination of Gen. Grant for that position.

— The number of emigrants is still large for the season. The number landed at New York week before last was 1237, making a total of 10,018 since Jan. 1. The number landed in the corresponding period of 1863 was 4185, or considerably less than half the number this year.

THE U. S. SUPREME COURT.

Speaking on the subject of the United States Courts, a cotemporary says:

Changes in the Judiciary which are real improvements, are, like changes in every other department of government, to be hailed with welcome; but change merely for the sake of novelty, above all, changes for vulgar *partisan* purposes, must be regarded as the most dangerous portents of democratic government. If there be one bench which should be kept free of all such contamination, it should be the Supreme Court of the United States. How to keep that Court free of all political taint, all sectional bias and all narrow minded and unprincipled men should be the great study of all who would see the American Judiciary respected at home and respected abroad.

This is well said, and true. The writer adds:—

Of course it is of the first importance that at the head of that bench should be a great lawyer, a great statesman, and a great Judicial philosopher. There is no doubt that John Marshall reached this standard, and his influence was deservedly high.

Then speaking of Judge Taney, he says:

The American people do not sufficiently estimate the value of his abilities on that bench or begin to see the danger from his loss with the present probable successor. Chief Justice Taney is conservative in his constitutional opinions, and rather cautious than radically progressive in his general legal propossessions, but he has in most exquisite proportions that calm equipoise and nice balance of the faculties of the mind which constitute the first rate judicial character. And he is as honest as he is able.

Now, says Uncle Toby, this is daubing on the praise a trifle too thick. The writer of this puff must know how Judge Taney got upon the Supreme Bench, viz: that he was put there to reward him for a lawyer-like defence of an illegal act. He was once *rejected* by the Senate;—and then, by a change in the *partizan* character of the Senate, his second nomination was confirmed,—and he was jumped over the heads of older and better judges, to the Chief Justiceship.

The most memorable act of his judicial career was the memorable Dred Scott decision, and the promulgation of his *dicta* on that case, which are neither law nor gospel.

The reader can judge, perhaps, how free Judge Taney is from "all political taint and all sectional bias",—and can also make up his own mind as to the relative honesty of Judge Taney.

That the Judge ought *not* to be an unprincipled man, all will allow. It is to be hoped that the *new Judges* will be men of high, noble principle,—lovers of honesty, liberty, and law, for all men. U. V.

☞ The U. S. Senate, on Monday, confirmed the nomination of Maj. Gen. U. S. Grant, of Volunteers, as Major General in the regular army, with his commission dating from July 4, 1863, to fill an original vacancy. The following were confirmed as Brigadier Generals in the Regular Army: Maj. Gen. George G. Meade of Volunteers, commission dating from July 3d, 1863, vice Sumner, deceased; Maj. Gen. Wm. T. Sherman of Volunteers, dating from July 4, 1863, to fill an original vacancy; Maj. Gen. James B. McPherson of Volunteers, dating from August, 1863, vice Harney, retired; Maj. Gen. G. H. Thomas of Volunteers, dating from October, 1863, vice Anderson, retired. Brig. Gen. Alfred Pleasanton and Brig. Gen. G. K. Warren have been confirmed as Major Generals of Volunteers, the former dating from Jan. 22, 1863, and the latter from May 3, 1863.

☞ By a new order, surgeons in charge of hospitals must furnish the nearest relatives of commissioned officers who die, with an inventory of the effects left by deceased. The articles, if not called for at the expiration of two months, will be sold at auction, and the proceeds sent to the Treasury, as prescribed by the regulations for the effects of enlisted men. Swords, watches and trinkets will not be thus sold, nor any articles of that class, but will be labeled with the deceased officer's name, rank and regiment, and date of his death, and deposited with the Second Auditor.

☞ The entire business portion of Downeyville, Sierra County, Cal., was burned on Sunday night. The fire commenced in the centre of the town and spread so rapidly that but little property was saved. The loss is about $200,000, on which there is little insurance. The contents of several cellars, which had been considered fire proof, were destroyed. But three buildings remain in the business part of the town. Both newspaper establishments were consumed.

☞ Among the killed at the explosion of the Housatonic, near Charleston, last week, was Lieut. Edw. C. Haseltine, son of Mr. L. A. Haseltine of Concord. He was twenty three years of age, a graduate of the U. S. Naval School, and a young officer of much promise. During the opening of the Mississippi river young Haseltine was for a long time on board the Hartford, flag-ship of Commodore Farragut.

THURSDAY EVENING, MARCH 3D.

P. T. Barnum's Lecture

Was delivered with great eclat at St. James' Hall in London, England, 17 different times, and repeated 60 times in various portions of Great Britain.

READ THE FOLLOWING

NOTICES OF THE PRESS!

Troy Daily Times, Dec. 6, 1862.

MR. BARNUM'S LECTURE.—In the annals of the Young Men's Association we hardly know a more thoroughly successful lecture than that of P. T. Barnum last evening. The admission fee of 50 cents did not prevent the accumulation of an audience that filled every seat in Rand's Hall. A more brilliant, appreciative and delighted assemblage never gathered in the room. Mr. Barnum held them for nearly two hours, without a manifestation of weariness, and sent them home in the best humor, with enlarged ideas as to the art of money-making.

The good points of the lecture are thoroughly unreportable. No sketch could do justice to Mr. Barnum's inimitably-told anecdotes and personal reminiscences. The more serious portions of the lecture were admirable in their maxims and advice.—They evinced, also, a scholarship and elegance of diction in the manner in which they were put together that few gave Mr. Barnum credit for. His delivery was deliberate and clear, and was rendered appropriate to each part of the theme. We had known the speaker as a wonderful showman, but as a successful lecturer, he appeared in a new and triumphant role.

Albany Knickerbocker, Dec., 1862.

BARNUM BEATS BEECHER.—Eighteen hundred of our first ladies and gentlemen crowded Tweddle Hall on Thursday evening, to hear the great showman discourse on the art of making money. This is four hundred more than Henry Ward Beecher drew to the same hall last week. Barnum's lecture gave immense satisfaction. Indeed, it was *the* lecture of the season. It was not only a great pecuniary triumph for our Young Men's Association, but the shrewd, practical suggestions and rules for success in business, illustrated by the droll-est witticisms, and the most original side-splitting anecdotes, were worth double the price paid for admission. The audience was kept in a roar from beginning to end, and left in the best possible humor.

Troy Daily Whig, Dec. 6, 1862.

Every seat in Rand's spacious Hall was occupied last evening by an audience as refined and intelligent as any that ever greeted a public lecturer in this city. Both speaker and the subject were interesting—the former to be *seen*, the latter to be listened to. People outside of the Metropolis have heard so much of Barnum, and of the various enterprises—both good and bad—with which he has been connected, that, in the minds of many persons, he had come to be regarded in the light of a "curiosity"—a genuine *lusus naturæ*. But far from it. Of a commanding personal appearance, a face beaming with good nature, and a countenance remarkable for sharpness and acuteness, the "great showman" looks anything but the humbug or charlatan.

At eight o'clock he made his appearance on the stage, accompanied by the President and Corresponding Secretary of the Association, and met with a good reception.

After the customary introduction, Mr. B. proceeded to address the audience in a clear, practical, off-handed manner. We merely present a few of the leading points discussed by the speaker—a full report being im possible, as he spoke for full two hours.

[Here follows a report of the lecture.]

London Morning Herald, Jan. 7th.

Mr. Barnum last night repeated his entertainment at St. James' Hall to a very crowded audience, who entered very heartily into the mass of American jokes, which excited much applause. The hour named for commencing was eight o'clock, but, though we reached the hall at a quarter before that hour, we could not obtain a seat where it was possible to see or hear well.

London Morning Advertiser, Dec. 30th.

Mr. Barnum's lecture breathes a wholesome, healthy air, is varied in subject, and delivered, in such a genial and pleasant style as to constitute an intellectual treat which one does not meet with every day, even in London.

GO EARLY.

☞ It is well known that the largest halls in the country have been wholly inadequate to accommodate those who have been desirous of seeing Mr. Barnum, and listening to his intensely interesting lecture. In Providence, the street in front of Howard Hall was densely packed before six o'clock, although the lecture did not commence until eight, and it was estimated that more than five thousand persons were unable to obtain even standing room. The large hall of the Cooper Institute, New York, one of the largest halls in the country, was crowded to excess long before the hour of the lecture, thousands having been turned away. At Albany, N. Y., and at Springfield, Mass., every seat was sold days before the lecture.

That all may have an equal chance to obtain a good seat on the evening of the lecture here, the **Doors will be open at 6 1-2 o'clock,** although the lecture will not commence until 8. To save confusion and avoid the crowd at the door, it is advisable that as many as possible should purchase their tickets at the Bookstores before the evening of the lecture.

—OF—

Valuable Real Estate,

ON RICHARDS AVENUE.

Under a license from the Hon Judge of Probate, I shall sell at public auction, on the premises,

On SATURDAY, the 26th day of March next, at 12 o'clock, noon,

The Real Estate of the late JOSEPH GREEN, situate on the westerly side of Richards Avenue, (formerly Auburn street,) the house the deceased occupied by the deceased in his lifetime The lot has a frontage of thirty feet on the Avenue, and a depth of eighty feet, extending back as far as the estate of Dr. Wm. H. French. It has upon it a convenient house, two stories high, and large woodshed. The garden has many excellent fruit trees in good bearing order. As the situation of this estate, with its extensive prospect, the excellence of the neighborhood, and its accessible location render this a rare opportunity for purchase, either for investment or occupancy.

Terms of sale—Cash. The purchaser will have no difficulty in obtaining any reasonable sum upon a mortgage of the premises, if desired.

OFFICE LIGHT-HOUSE BOARD,
February 15, 1864.

SEALED PROPOSALS will be received at this office until 1 o'clock P. M. on SATURDAY, the 19th day of March, 1864, for supplying the Light-house Establishment with fifteen thousand gallons of the best quality pure winter strained lard oil, and thirty thousand gallons of the best quality pure winter strained sperm oil, to be divided into four lots, and to be delivered at the times undermentioned, alongside of the government supply-vessels, or at the warehouse or other place of deposit, to be designated by the Inspecting Officer or other authorized agent of the Light-house Board, in strong, tight, well-made casks, suitable for shipping, in good order, of an average capacity, each, of from eighty to one hundred gallons.

The lard oil will be delivered at Boston, Mass., for special inspection.

Any one of the lots of sperm oil, or all of them, may be delivered at New York, New London, Sag Harbor, Boston, New Bedford, Edgartown, or Nantucket, at the option of the bidders. The place of delivery must be distinctly stated in the bids, and will be embraced in the contracts.

The four lots will be delivered as follows, viz:

LOT No. 1. Ten thousand (10,000) gallons sperm oil on the 15th day of April, 1864, or as soon thereafter as the proper tests and gauging can be completed.

LOT No. 2. Fifteen thousand (15,000) gallons lard oil on the 1st day of May, 1864, or as soon thereafter as the proper tests and gauging can be completed.

LOT No. 3. Ten thousand (10,000) gallons sperm oil on the 1st day of June, 1864, or as soon thereafter as the proper tests and gauging can be completed.

LOT No. 4. Ten thousand (10,000) gallons sperm oil on the 1st day of August, 1864, or as soon thereafter as the proper tests and gauging can be completed.

No part of the oil proposed for and to be embraced in the contracts under this advertisement will be accepted, received, or paid for, until it shall have been proved to the entire satisfaction of the person or persons charged with its examination, test and inspection, to be of the best quality pure winter strained or bagged oil, and free from mixture with other or inferior oils and adulterations.

The usual means for determining the character and quality of the oil will be employed, viz: specific gravity, burning the amount of evidence, and any other proper tests to arrive at correct conclusions that may be deemed necessary.

The oils must be delivered under the direction and personal supervision of the inspecting officer, by a custom-house or other legally authorized and sworn gauger, according to the United States standard, and must be marked and accepted before they are removed from the cellar or warehouse of the contractor. The temperature of the oil will be accurately noted, and the measurements reduced to the standard temperature of 60° Fahrenheit by tables prepared for the purpose.

Proposals will be received and considered for each lot separately, or for all of the lots at the option of the bidder; but no bid will be considered for a less quantity than that specified as one lot, to be delivered at one time and place. Each bid must state plainly and fully, in figures and in writing, the number of the lot or lots bid for, and the time and place of delivery, conforming to this advertisement.

Bids submitted by different members of the same firm or copartnership will not be considered.

The Light-house Board, under the authority of the Department, reserves the right to reject any bid, although it may be the lowest, for other considerations than the price.

No bid will be considered for any other kinds or descriptions of oils than those specifically called for in this advertisement.

A bond, with security to the satisfaction of the Department, in a penalty equal to one-fourth of the amount of each contract made under these proposals, will be required of each contractor, conditioned for the faithful performance of the contract, to be executed within ten days after the acceptance of the bid.

Every offer must be accompanied by a written guarantee, signed by one or more responsible persons, and known to the Department, such, or certified by a United States district judge, attorney, navy agent, or collector of the customs, to the effect that, if the bid or bids be accepted, the bidder or bidders will duly execute a contract in good faith, according to the provisions and terms of this advertisement, within ten days after acceptance; and that in case the said party or parties offering shall fail to enter into the contract as aforesaid, he or they guaranty to make good the difference between the offer of the said party or parties and the next lowest bidder.

All bids must be sealed and endorsed "Proposals for oil for light-houses," and then placed in another envelope, and directed, prepaid, to the Secretary of the Light-house Board, Washington City.

All bids will be opened, publicly, at the hour and on the day specified.

Payments will be made for the several lots of oil within thirty days after they shall have been received by the United States.

BY ORDER OF THE LIGHT-HOUSE BOARD:

W. B. SHUBRICK,
Chairman.

Local.

☞ We were pleased on Tuesday morning to receive a call from Mr. John F. Dearborn, of this city, one of the original members of Company K, 24 N. H. Vols., who has passed through all the varied and hazardous experiences of that noble regiment, and, taken prisoner at Gettysburg, was confined for a while in Richmond. He has now, with several others of his comrades in arms, returned on a brief furlough to his friends in this city. "That same old 'coon" didn't exactly come with him, though he did bring an opossum, a native of Maryland, which he confiscated and has partially tamed, and which has excited no little curiosity among the many here who had never before seen one.

BARNUM at the Temple to-morrow night. The London "Press" said, after hearing him, that they were "satisfied that, when Mr. Barnum takes his departure from England, he will have succeeded in effacing a number of disagreeable prejudices, and leave behind him nothing but pleasing recollections and good wishes, while the association henceforth of the words 'Barnum' and 'Humbug' will be made in a kindlier spirit, and with more just comprehension of the significance of both." The London Sunday Times says "we can't take leave of Mr. Barnum without commending his advice as to the best mode of getting money and keeping it." And we say don't fail to secure tickets—which are for sale at the usual places, and may be had at the door.

THE FIRST GUN of New Hampshire Election was fired on Tuesday, and made a good report for the Old Granite State and the Union. New Castle Election for Town Officers resulted, for Moderator, in 76 Republican votes, and 35 Democratic. Rep. majority, 41. Last year Dem. majority, 15. There was little or no contest for other officers, this time—the Republican nominees being elected without opposition.

☞ Every one who has at heart the true interests of the country; every one who wishes to decide understandingly and wisely how to cast his vote at the coming election; every one who from patriotic motives wishes to hear the Union cause presented in an eloquent and effective manner, should go to the Temple to-night, to hear Gen. Richard Busteed, of New York. We are informed that he will certainly be present. Go early, and take your doubting friends.

☞ Some unknown contributor has sent in a parcel of bills and receipts, signed by teachers of the Christian Shore School, and District No. 1 School, from 1815 to 1819.

Among the teachers' names are Joseph C. Hilliard, Sarah S. Hart, Robert Ayer, Lloyd B. Hall, Selina Tripe, Olive Brown, Jesse Fillmore, and Samuel Kelley. The women's pay was $12 per month; the men's from $27 to $32.

REPUBLICAN WARD MEETINGS.—On Friday evening, March 4th, at half past 7 o'clock, for the purpose of nominating Representatives to the General Court, &c:—

Ward One, at ward room on Elm street.
Ward Two, at Court House.
Ward Three, at Mercantile Hall, Exchange Buildings.

☞ Capt. Brinkerhoff, who spoke at the Union meeting in this city on Monday evening, spoke in Hampton last evening, and will speak in Exeter this evening; in Rye to-morrow, Thursday, evening; in North Hampton on Friday afternoon, and in Seabrook on Friday evening.

☞ Henry D. Spinney, a carpenter employed on the Portsmouth Navy Yard, and belonging in South Eliot, Me., cut his foot severely with an axe on Monday last.

☞ The National Glee Club will give a Concert at Rechab Hall, Thursday evening, March 3d. They are fine performers.

☞ Miss Haskell's new class in Gymnastics, at Rechab Hall, this, Wednesday evening.

☞ We are requested to state that there will be no lecture before the Citizens' Lyceum this week.

☞ Rather unique, but tasty, the Courier thinks, was the dress of an emigrant lady who passed up Middle street, Portland, the other day. It consisted of two skirts, familiarly called petticoats, one fastened at the waist, and hanging to within eight inches of the ground, and of a dark color, while another white flannel garment of the same name was fastened at the neck and reached to below the waist. The head-dress consisted of a piece of flannel, while the feet were encased in men's boots. The ladies may rest assured that this is the latest style just arrived per steamer Hibernia.

☞ It is ex-Senator Borland, of Arkansas, not Brodhead, as reported by telegraph whose death in Texas has just been heard of. Borland is the great man whose head was hit by a bottle in Central America, and who was avenged by the bombardment of Greytown by Hollins.

STEEL RAILROADS.—The Philadelphia Press says that the Pennsylvania Railroad Company, by way of a beginning, have ordered 150 tons of rails made wholly of cast steel, and it is also giving a trial to the steel capped rails. This may be the beginning of a revolution which is destined to do more to improve railways and railway travelling than any other of recent date. The steel used is probably that made by the Bessemer process, and if so, will be about one-third cheaper than steel made in the old way.

☞ A special dispatch to the Boston Herald states that official advices have been received at the Navy Department that on the 3d of February two French frigates entered the port of Capulca, Mexico, and threatened to bombard the town. They likewise overhauled all the American vessels in port. This proceeding in regard to neutral vessels is regarded as of a very high-handed character.

— The War Department has directed that the Salem forts shall be called Forts Glover and Conant. The first in honor of Gen. John Glover of Marblehead, and the last in honor of Roger Conant, the founder of the first plantation in Massachusetts Bay.

— A bill introduced into the Senate by Mr. Grimes appropriates $40,000 for protection of emigrants crossing the plains, $10,000 of which is to be expended on the route between Fort Abercrombie and Fort Benton, and $15,000 on the route to Idaho by the Niobrarah River.

— Mr. Wilson stated in the Senate, on Monday, that we were enlisting men more rapidly than we could provide for them.—We were enlisting them at the rate of 2000 per day. If we had to make a draft, it would be a small one, to fill the quota of 500,000 men. We had over 300,000 men already, under this call.

He is the happiest who does most to make others happy. The inventor of Herrick Allen's Gold Medal Saleratus must be the happiest man in existence, for we hazard nothing in saying that the use of the Gold Medal Saleratus cannot fail to make a happy household! Our better half says she does not fear of our ever running, as long as she can get the genuine Herrick Allen's. We say success to the inventor, and if everybody knew how good it is, no other would be used. A good many of our Merchants have it. Their depot is 112 Liberty Street, New York.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,

Graduate College of Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate disease, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacle and overcome opposition as Sacrilegious as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others say, "Your pretensions are too high, that diseases can only be cured by the "slow recuperative process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stom'h, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Sycosis, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Tetter, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

[Arthritis], Neuralgia, Gout, Lumbago, Sciatica, Tic Doloureux.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or virulous, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering woman will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, And Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES,

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as these symptoms are detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy of the Chest or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the Stomach; are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove, but a long time and care should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra efforts. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a grating or filing sensation), Dropsy of the Heart Case and all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Calamity, Fear of Disease, Dimness of Vision, Hot and Cold Extremities, Want of Sleep, Restlessness, Pale Haggard Countenance and Lassitude of the Muscular System, all respond to the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases**, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved so effective.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition of the organ, accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup is unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES. It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the food. Those who have used it think it indispensable. It is highly esteemed both before and after confinement, as it prevents disease attendant upon childbirth.

Morning Chronicle.

RESOURCES OF THE UNITED STATES—SUPPLY OF GOLD.—The Senate of the United States have directed the publication of the report on the resources of the United States, presented to the International Statistical Congress, by Mr. Samuel B. Ruggles, delegate to that body from our Government. Its statements excited much attention in the Congress and throughout Europe, intended, as they were, to exhibit the ability of the United States to pay in gold any debt which it might incur in repressing the existing rebellion. The subject was presented under the heads: First, of Territory, exhibiting the vast field of fertile land open to gratuitous occupation, and inviting immigrants from Europe; second, of Population, with its irrepressible growth at the rate of 35 per cent. for every succeeding decade; third, of Production, and consequent creation of taxable property, with its arithmetical rate of increase, showing that the last decade has added, and that each succeeding decade must add, an amount far exceeding any probable amount of public debt; and fourth, of precious metals, unfolding the vast deposits of dormant wealth in gold and silver in our metalliferous regions between the Missouri River and the Pacific. The report concludes with the suggestion peculiarly proper for a Statistical Congress that measures should be immediately adopted to ascertain by authentic evidence the present and probable future supply of gold and silver by the United States, by Russia, by British America and Australia.

The Chamber of Commerce of the city of New York, at a recent meeting, manifested their opinion of the pre-eminent importance of the subject, by ordering the report to be entered at large on their records—and still more significantly by raising a Special Committee, of which Mr. Ruggles is Chairman, to open the necessary correspondence with the different civilized nations, to determine as nearly and as promptly as practicable, the present supply and probable future production of gold and silver. It may reasonably be expected that our Government will afford to the committee any proper facilities for prosecuting an inquiry so important to our commerce and our currency, and to ascertain reports of such consequence in relation to the payment in gold of our large and rapidly increasing public debt.

DR. TEBBETTS'
PHYSIOLOGICAL
HAIR REGENERATOR
—AND—
UNIVERSAL HAIR RESTORER.

ITS MODUS OPERANDI.

Immediately beneath the scalp there are very small glands, or, more commonly Roots of the Hair. It is from these Glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, the color fades, becomes brittle, loosens or falls; the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.

To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.

Like thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Tannin, Sulphur, &c., and producing only a sort of yellow dye, color, it will, if properly applied, restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in its application.

2. It will certainly prevent the hair from a gray to a beautiful *Black, Brown, Auburn*, or whatever might have been its original color.

3. It will effectually prevent the hair from falling off, remove all Dandruff, and keep the head free from Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.

4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.

5. It will cure the most inveterate Itching and Scaling of the scalp, and heal the skin, and when it affords a most delightful article for the toilet.

We have a great abundance of testimony to prove beyond a doubt that we claim for the Regenerator; and it is positively certain that in a very short time it will have a world wide reputation.

HOME TESTIMONY.

BEDFORD, N. H., Dec. 17, 1862.

Messrs. Tebbetts Brothers—The preparation you recommend me to try on my hair, which I used a week ago, has had a wonderful effect. My hair was then almost white and now it is almost black. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diphtheria; it stopped it immediately on its application. My wife has also been troubled for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only used one bottle, and I think anywhere will fix our heads up in good shape. J. C. CUTLER.

MANCHESTER, Dec. 20, 1862.

GENTS—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be procured. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, when about two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only dressing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. Glad News for the Unfortunate!
The Long Sought For Discovered at Last.

CURES FROM ONE TO THREE DAYS

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is probably unsurpassed in the cure of Fluor Albus (or Whites in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have created disease.

CHEROKEE INJECTION is intended as an auxiliary assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent*; removing all scalding, heat, chordee and pain, instead of the burning, painful and exceedingly disagreeable pain that is experienced with nearly all the cheap quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a pamphlet.

Price—CHEROKEE REMEDY, $3 per bottle or three bottles for $8.

Price—CHEROKEE INJECTION, $1 per bottle, or three bottles for $3.

LAST AND BEST.
THE MODEL COOK.
AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and at least time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept at hand, if desirable.

A Water Tank and Hot Closet can be applied to either side, when needed.

In neat, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and cleanliness are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

A Great Variety of Cheaper Stoves
FOR WOOD OR COAL.
E. A. STEVENS'S
House Furnishing Establishment,
NO. 46 MARKET STREET.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and and iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about renovating or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headaches so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from the smallest amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off into the flue, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Gleet, Pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D., devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Dangerous of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded—viz: Loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No. 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledged superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 9 a. m. to 9 p. m.

CERTAIN CURE

is all cases, or No Charge Made.

Dr. Dow is consulted daily, from 9 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stande higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

[In the hands of Ass B. Hutchinson, to be set to Music.]

Fling out the bright banner, the Red, White and Blue!
The glad day is dawning for me and for you.
For Freedom her union at length has returned,
And Peace stands a-tip-toe to gladden the world!
Then down with Rebellion and Tyranny too;
And up with the banner to Liberty true!
The triple-hued banner, the time-honored banner,
The glory-hung banner, the Red, White and Blue!

Wake! mountain and hill-top, rock, river and sea!
Come join in our chorus: The land shall be free!
No despot shall rule it with tyranny's thong,
The slaves shall be freemen, the weak shall be strong.
Then down with Rebellion and Tyranny too;
And up with the banner to Liberty true!
The triple-hued banner, the time-honored banner,
The glory-hung banner, the Red, White and Blue!

Oh! RED are the fields where the foemen have trod,
And WHITE are the faces laid under the sod;
But BLUE are the skies from whose portals of light
Is dawning the day-star that gladdens our night.
Then down with Rebellion and Tyranny too;
And up with the banner to Liberty true!
The triple-hued banner, the time-honored banner,
The glory-hung banner, the Red, White and Blue!

LYMAN BEECHER'S SCHOOL DAYS.—"I went to school first in North Guilford, in a great barn of a school house, with desks around, and a long desk through the centre. The best writer sat at the end next the fire. The fireplace took in wood cart length, and it was hot enough at that end to roast an ox, and that was all the heat there was. I was about the fourth or fifth from the fire, and the ink always froze in my pen. So it was, 'Master, may I go to the fire?' all day long.

They had a parish meeting once to see about moving the old thing, but quarrelled and broke up in a row. It never would have been set straight if it hadn't been for our old neighbor Tim Baldwin.

Next morning he said he wasn't going to have any quarelling about the school-house; so he yoked his oxen and Tim Rossiter's, and went down, hitched on—'Whoa, haw, Bright—gee up!' and dragged the school-house along where he wanted it. Then he unhitched and left it there, and there it stood. And when the people found it was done, they stopped quarrelling. * * *

Then came Augustus Baldwin. He really took hold and gave us a start. We thought him the most wonderful man in the world. He was 'college-learned,' and a little vain. After lecturing us on manners, he would wind up by saying, 'Be as I am!' and strutted about. We swallowed it all, admiring. I went in arithmetic through the Rule of Three; but nobody ever explained anything. We only did sums. The only books we had at Uncle Benton's were the great Bible and Psalm-book. Father came over once and made me a present of Robinson Crusoe and Goody Two-Shoes. They thought me a genius because I took Robinson Crusoe out to the barn to read, and beat flax. But I was not much of a reader."

At sixteen he went to New Haven to school and lived with his uncle Williston, a preacher, pious, fond of his pipe, and given to inflicting his sermons in advance on Lyman and a young cousin, who were "bored alike."

"I remember the Association met there, and dined at Uncle Benton's. As soon as Aunt Benton saw them coming, she threw the irons in the fire, and ran down cellar to draw a pail of beer. Then the hot irons were thrust in, hissing and foaming, it was sweetened and the flip was ready. Then came pipes, and in less than fifteen minutes you could not see across the room."

Dr. Thompson, a celebrated physician in his day, and equally remarkable for the cleanliness of his person, could not endure the sight of muffins, and in his medical capacity always spoke of them as very unwholesome. On his breakfasting once at Lord Melcombe's, when Garrick was present, a plate of muffins was introduced, when the doctor grew outrageous, and vehemently cried out, "Take away the muffins!"—"No, no!" said Garrick, seizing the plate, "take away the ragamuffins!"

Idleness is the sepulchre of a living man.

THURSDAY, MARCH 3, 1864.

NEW HAMPSHIRE ELECTION.

In the midst of a gigantic civil war, forced upon us by a monstrous rebellion, we are called upon once more, to elect state officers and legislators for New Hampshire.

Local matters have little to do with the election, and are hardly mentioned;—but the questions to be settled, are mainly national; and as they are few in number, can be easily defined.

One ticket, headed by Governor Gilmore, is put forward for election, by men who propose to strengthen the Government of the United States by *aiding* the Administration with men and money and votes, to put down the rebellion:—while the other, headed by Mr. Harrington, is put forward by men who propose to strengthen the Government by *paralyzing* the Administration, by refusing men and money, and by voting against every measure which the Administration proposes.

The issue was nearly the same last year: and the only representative then sent to Congress by the latter party, has voted uniformly in strict accordance with the above statement, and so as to embarrass the officers of our government as much as possible, in finances, in men, and in every thing. He is truly a representative man, carrying out the views of the leaders who placed him in power,—of the Batchelders of last year, and the Pierces and Vallandighams of this.

But our *conditions* have changed since last year, though the *issues* remain nearly the same.

Last year our election was influenced, and the opposition was aided, by the election of the Woods and Seymour in New-York, for which Charleston, S. C. was illuminated!—and by Pennsylvania, Ohio and other states voting in the same way:—but now all this is *reversed*; Vallandigham is buried beneath 100,000 majority; and of the free states New Jersey stands alone, out in the cold, while the border slave states are voting, not only for the administration, but also for emancipation!

How many votes may be changed *here*, by these changes *abroad*, we cannot say;—but judging from what we see in our own city and in New Castle, we suppose Gov. Gilmore will be elected by the people, and that the Senate and House will have larger Union and Administration majorities than last year.

This will not be done without effort;—for the vote will be larger—and no stone left unturned which the opposition can possibly move. U. T.

THE REBELLION.

A special dispatch, 1st, states that Gen. Thomas had been reinforced and had advanced on the enemy at Dalton, Ga., from Tunnel Hill. If this is correct a severe engagement will probably take place very soon.

A Cairo dispatch states that Gen. Smith had arrived at that place, and that the object of his recent cavalry expedition, which was 7000 strong, was to clear the country of straggling rebel forces, and if possible, make a diversion in favor of Sherman, and join him if practicable. Our total loss was about 150. The column burned about 3000 bales of Confederate cotton and over a million bushels of corn, and captured over 100 prisoners, 1000 mules and a multitude of negroes. At West Point, where we lost 40 killed and wounded (much less then the rebels reported) we drove the enemy and destroyed a number of cars and culverts, the depot, several miles of railroad track and a large amount of corn and cotton.

The brief rumors prevalent for some days respecting a movement of the Army of the Potomac, begin to take shape, and although it appears to be mainly confined to the cavalry, it is of a nature sufficiently bold to have important results. The N. Y. Tribune's dispatch reports that Gen. Sedgwick was sent to the extreme left of the enemy to engage his attention and direct his vigilance from the Rapidan fords. Gen. Kilpatrick, seizing advantage of this, crossed the river and proceeded to make a rapid detour to the southwest of the enemy's main position around Orange Court House and Gordonsville, penetrating at once to Spotsylvania Court House; while Gen. Custer swung rapidly around on the extreme right of Sedgwick via Madison Court House and Standardsville, and on Tuesday morning was sharply engaged with the enemy beyond Madison Court House, on Lee's left flank.

Rebel accounts admit that Gen. Sherman was 30 miles east of Meridian, Miss., Feb. 21.

It is said that the torpedo vessel, which sank the Housatonic, was also destroyed at the same time.

— The N. Y. Tribune's Washington dispatch says Gen. Butler has succeeded in making arrangements with Commissioner Ould which will probably lead to the exchange of prisoners.

BOSTON CORRESPONDENCE.

[From our Regular Correspondent.]

BOSTON, Feb. 29th, 1864.

Editor Chronicle:—Again we have news of disaster to our arms in the Department of the South, making the fourth time our forces have been defeated in that department with great slaughter. On the 16th of June, 1862, on James Island, S. C., the Union forces, under Gen. H. W. Benham, were repulsed in an attack on Secessionville, with a loss of 700 in an aggregate of less than 7000. In October, 1862, the battle of Pocotaligo was fought, our troops being commanded by Gen. J. M. Brannon, and losing 400 in an aggregate of 4000.—On the 18th of July, 1863, occurred the assault on Fort Wagner, Morris Island, where our loss was over 1000, in an aggregate of 5000 troops engaged, and where our list of killed contained such honored names as Col. Henry S. Putnam, of the 7th N. H., and Col. Robert G. Shaw, of the 54th Mass. On the 20th of this month we are again defeated, with a loss of probably 1000 in an aggregate of 5000 troops engaged. At the assault on Fort Wagner our forces were under the immediate command of Brig. Gen. Truman Seymour, who strongly advised the assault at a Council of War, and which assault was opposed by Col. Putnam, then Act. Brig. Gen., Com'g 2d Brigade.—Gen. Seymour was slightly wounded; Gen. Strong, com'g 1st Brigade, was mortally wounded, and Col. Putnam killed in the assault. Gen. Seymour was a Captain in the Regular Army at the breaking out of this war, and was stationed at Fort Sumter at the time of its capture by the rebels in 1861: for his steadfast loyalty to the old flag he was promoted to Brig. Gen. of Volunteers, and was Chief of Staff to Gen. Hunter at the time he commanded the Department of the South. Gen. Seymour is a brave and determined officer, and, although reported to be placed under arrest, will probably be relieved from all blame, on examination by the proper authorities.

In all the above battles New Hampshire troops have sustained the credit of the Old Granite State. On James Island a long list of killed and wounded testified to the bravery of the 3d N. H. regiment; at Pocotaligo the 4th is their first battle behaved like veterans. At Fort Wagner the 3d and 7th were actively engaged, and now in Florida again the gallant 7th are in the advance guard. The 40th Mass. regiment were also engaged and suffered severely.—Five of the members of the latter regiment are reported at the Adjt. General's office as residents of New Hampshire. Gen. Israel Vodges, who has relieved Gen. Seymour in Florida, was Major in the regular army, and was one of the officers under Gen. Twiggs at the latter's surrender to the rebels in 1861. He was kept prisoner by the rebels for a year, every means being adopted to induce him to join them, but all to no purpose; and soon after his exchange he was promoted to be Brig. General of Volunteers, and is now Colonel of the 1st U. S. Artillery. In character he is the opposite of Gen. Seymour, being a careful, cautious commander.

Last Tuesday the 2d and 23d regiments left here, the first for Tennessee, the last for Newbern; every man reported, and quite a number of recruits were in their ranks. A portion of the 18th Massachusetts arrived here Saturday night. Mr. George L. Stokell, of Portsmouth, is a member of Co. A, in this regiment. He is hale and hearty,—and has gone in for the war.

On Wednesday, in the Police Court, H. P. Livingston, alias P. H. Pease, on complaint of cheating a wool firm, and whose operations I gave you an account of, was discharged, Messrs. Reilly & Co. having received the wool and acknowledged satisfaction.

The resolve in favor of East Tennessee did not pass the House, many of the members who would subscribe liberally thinking it would establish a bad precedent to vote $100,000 for this object. Meanwhile large amounts are being subscribed by our citizens, and Hon. Edward Everett has acknowledged the receipt of $11,000 for the assistance of the suffering Unionists.

In our Legislature the House passed a bill to allow towns to recruit in any part of the State, to secure their quota, but the bill was rejected in the Senate by a tie vote, and then reconsidered. It will give our country friends the privilege of foraging in Boston for recruits, if the bill becomes a law.

Efforts are being made to unite the Worcester and Western railroads. At the annual meeting of the stockholders of the Worcester road, some weeks since, an attempt was made, and failed, to unite these Corporations; petitions were immediately put in circulation, and numerously signed, petitioning Legislative action, and last Friday, before the Committee on Railways and Canals, the subject came up for a hearing. Harvey Jewell, Esq., for the Boston Board of Trade, urged the advantage of the proposed union. On Saturday, the 20th inst., by invitation of Hon. Geo. A. Shaw, one of the Directors of the Western Railroad, the President of the Senate, one of the members of the Executive Council, and several other prominent gentlemen of this vicinity, visited Albany, received many hospitable attentions, and returned on the 22d, much pleased with their visit. What effect this visit will produce on the above movement remains to be seen.

1st Lieut. Charles B. Dexter, Co. A, 5th Maine regiment, passed through this city, Wednesday, on his way to his regiment.—Lieut. Dexter was formerly of Portsmouth, and will be remembered by many of your citizens. He has been stationed at Mackey's Island, Portland Harbor, at the Draft Rendezvous, for about 7 months, acting as Post Commissary and Quartermaster. He went into the service as Sergeant, and now has a Captain's commission waiting his arrival at his regiment.

Mr. Charles G. Robinson, of the 24th Mass., whose arrival I noticed three weeks since, returned to New York to-night, via Stonington. He started for Port Royal 10 days ago, but an attack of "shakes" caused the surgeon to extend his furlough.

Gen. Edward W. Hinks was in the city to-day, looking finely.

Gov. Andrew has gone to New York for a few days' vacation.

203 of the 3d N. H. had re-enlisted up to the 22d. MANNING.

—— James Parker Esq., a prominent citizen of Reeds' Ferry, died very suddenly on Tuesday morning in an epileptic fit.

—— Mr. Justus D. Watson, of Manchester, Paymaster of the Amoskeag Machine Shop, died on Monday afternoon, suddenly, of apoplexy. He was for some time Paymaster of the Salmon Falls Manufacturing Company. He was about 44 years of age.

—— Our friend, Col. Henry O. Kent, of the Lancaster Republican, as is well known, has been for a few months past in Washington. He has recently returned temporarily, and in his paper for this week makes the following pathetic appeal:

If the person who stole the Editor's hay, during the recent absence of his family, will return the pitchfork, he will confer a favor.

—— In the recent battle in Florida the loss of the 7th N. H. was about 150. The following are some of the names:—Dennis Shaw, A, thigh; H. Maynard, C, arm; John Van Vost, D, leg; John Burns, D, arm; T. H. Simington, Sergt., B, right thigh; Corp. W. H. Hayes, B, back and hip; G. A. Curtis, D, ankle; C. D. Callis, B, back; D. G. Higgins, F, head; Chas. Pyer, B; A. F. Hill, H, foot; W. Clifford, left side. Surgeon W. W. Brown accompanied the regiment into the fight, took the best of care of the wounded, assisted in taking them back to Jacksonville, and was then placed in charge of a large hospital, where he was unceasing in his care of his patients.

— Within the past three weeks nearly 200 aliens have been discharged from the Charlestown Navy Yard.

— Adelina Patti has re-appeared at Paris, and met with her old success in "Sonambula." Carlotti has gone on to Belgium, to return to Paris very shortly.

— The Senate Committee on Foreign Relations have decided to recommend an appropriation of $1800 for the American Cemetery at Constantinople.

— It is proposed to create in New York a new bureau, the duties of whose officers will be to see to the proper storage of gunpowder, oils, and other combustible materials in that city.

— M. Mercier, the French Minister at Washington, now at Paris, has asked to be transferred to some other post, and it is thought he will go to Munich, and M. Coureo, now at Athens, to Washington.

— Benjamin Meredith, an old resident of Downieville, Cal., has returned to that place after an absence of six years in other mining regions, Pike's Peak, Boise River, &c., and says he finds no better mines than those he left in California.

☞ It is said that the Bureau of Freedmen's Affairs will be placed under the charge of Col. John F. Potter, well known as the man who made Bully Pryor back out. Col. Potter is a native of Maine, and was educated at Phillips Academy, Exeter, N. H. but he has for some years past been a prominent citizen of Wisconsin.

☞ Rev. J. S. C. Abbott is about to publish a work entitled "Heroic Deeds of Heroic Men," in which the achievements of our more prominent patriotic soldiers will be commemorated. He is just the man to write a book of this character.

THE PRINCE OF PATRONS.—It is pleasure to add our testimony to that of hundreds of other publishers to the straightforward manner in which Dr. J. Teller, of Albany, conducts every department of his extensive business. The Doctor has advertised with us to a large amount for the last fifteen years, and he has always been as punctual in making his payments on the hour as the sun is to rise. This is a boast which too few Union men can make, but the Doctor has reaped an abundant reward in the great popularity his preparations have won. Seldom has merit been more deserving.—*Schenectady Democrat and Reflector.*

We have no doubt that every word of the above, in regard to Dr. Teller's promptness, is true as the Holy Bible, for the Doctor has advertised with us many years, and has always served us the same way. And this is not all that can be said of Doctor Teller. He is one of the most learned, experienced, skillful and reliable practitioners in the country, and has attained an enviable reputation and a high position in his profession by acknowledged merit.—*N. Y. Paper.*

☞ In the U. S. House of Representatives, Feb. 29, Mr. Long, of Ohio, (who seems by mistake to have got into the wrong Congress,) proposed a resolve requesting the President to appoint ex-President Pierce, ex-Vice-President Fillmore, the Hon. Thomas Ewing, and any others he may select, Commissioners to meet like Commissioners from the South to agree upon a restoration of the Union. The resolution was voted down, only 22 voting for it, 96 against. In other words, the twenty-two are a hopeless minority, less than 20 per cent.

THURSDAY EVENING, MARCH 3D.

P. T. Barnum's Lecture

Was delivered with great eclat at St. James' Hall in London, England, 17 different times, and repeated 60 times in various portions of Great Britain.

READ THE FOLLOWING

NOTICES OF THE PRESS:

Troy Daily Times, Dec. 6, 1862.

MR. BARNUM'S LECTURE.—In the annals of the Young Men's Association we hardly know a more thoroughly successful lecture than that of P. T. Barnum last evening. The admission fee of 50 cents did not prevent the accumulation of an audience that filled every seat in Rand's Hall. A more brilliant, appreciative and delighted assemblage never gathered in the room. Mr. Barnum held them for nearly two hours, without a manifestation of weariness, and sent them home in the best humor, with enlarged ideas as to the art of money-making.

The good points of the lecture are thoroughly unreportable. No sketch could do justice to Mr. Barnum's inimitably told anecdotes and personal reminiscences. The more serious portions of the lecture were admirable in their maxims and advice.—They evinced, also, a scholarship and elegance of diction in the manner in which they were put together that few gave Mr. Barnum credit for. His delivery was deliberate and clear, and was rendered appropriate to each part of the theme. We had known the speaker as a wonderful showman, but as a successful lecturer, he appeared in a new and triumphant role.

Albany Knickerbocker, Dec., 1862.

BARNUM BEATS BEECHER.—Eighteen hundred of our first ladies and gentlemen crowded Tweddle Hall on Thursday evening, to hear the great showman discourse on the art of making money. This is four hundred more than Henry Ward Beecher drew to the same hall last week. Barnum's lecture gave immense satisfaction. Indeed, it was *the* lecture of the season. It was not only a great pecuniary triumph for our Young Men's Association, but the shrewd, practical suggestions and rules for success in business, illustrated by the droll-est witticisms, and the most original side-splitting anecdotes, were worth double the price paid for admission. The audience was kept in a roar from beginning to end, and left in the best possible humor.

Troy Daily Whig, Dec. 6, 1862.

Every seat in Rand's spacious Hall was occupied last evening by an audience as refined and intelligent as any that ever graced a public lecturer in this city. Both speaker and the subject were interesting—the former to be *seen*, the latter to be listened to. People outside of the Metropolis have heard so much of Barnum, and of the various enterprises—both good and bad—with which he has been connected, that, in the minds of many persons, he had come to be regarded in the light of a "curiosity"—a genuine *lusus naturæ*. But far from it. Of a commanding personal appearance, a face beaming with good nature, and a countenance remarkable for sharpness and acuteness, the "great showman" looks anything but the humbug or charlatan.

At eight o'clock he made his appearance on the stage, accompanied by the President and Corresponding Secretary of the Association, and met with a good reception.

After the customary introduction, Mr. B. proceeded to address the audience in a clear, practical, off-handed manner. We merely present a few of the leading points discussed by the speaker—a full report being impossible, as he spoke for full two hours.

[Here follows a report of the lecture.]

London Morning Herald, Jan. 7th.

Mr. Barnum last night repeated his entertainment at St. James' Hall to a very crowded audience, who entered very heartily into the mass of American jokes, which excited much applause. The hour named for commencing was eight o'clock, but, though we reached the hall at a quarter before that hour, we could not obtain a seat where it was possible to see or hear well.

London Morning Advertiser, Dec. 30th.

Mr. Barnum's lecture breathes a wholesome, healthy air, is varied in subject, and delivered in such a genial and pleasant style as to constitute an intellectual treat which one does not meet with every day, even in London.

GO EARLY.

☞ It is well known that the largest halls in the country have been wholly inadequate to accommodate those who have been desirous of seeing Mr. Barnum, and listening to his intensely interesting lecture. In Providence, the street in front of Howard Hall was densely packed before six o'clock, although the lecture did not commence until eight, and it was estimated that more than five thousand persons were unable to obtain even standing room. The large hall of the Cooper Institute, New York, one of the largest halls in the country, was crowded to excess long before the hour of the lecture, thousands having been turned away. At Albany, N. Y., and at Springfield, Mass., every seat was sold days before the lecture.

That all may have an equal chance to obtain a good seat on the evening of the lecture here, the

Doors will be open at 6 1-2 o'clock,

although the lecture will not commence until 8. To save confusion and avoid the crowd at the door, it is advisable that as many as possible should purchase their tickets at the Bookstores before the evening of the lecture.

Valuable Real Estate,

ON RICHARDS AVENUE.

Under a license from the Hon. Judge of Probate, I shall sell at public auction, on the premises,

On SATURDAY, the 26th day of March next, at 12 o'clock, noon,

The Real Estate of the late JOSEPH GREEN, situate on the westerly side of Richards Avenue (formerly Auburn street,) being the homestead occupied by the deceased in his lifetime. The lot has a frontage of thirty feet on the Avenue, and a depth of eighty feet, extending back as far as the estate of Dr. Wm. H. Preston. It has upon it a convenient house, two stories high, and is well wooded. The garden has many excellent fruit trees in good bearing order. Besides the beauty of this estate, with its extensive prospect, the excellence of the neighborhood, and its accessibility to education, render this a rare opportunity for purchase, either for investment or occupancy.

Terms of sale—Cash. The purchaser will find no difficulty in obtaining any reasonable time upon a mortgage of the premises, if desired.

A BOGUS FIRM.—A case of considerable public interest was brought before the Police Court in this city on Wednesday. It seems that business cards and circulars had been sent to New York, Philadelphia and perhaps other places, stating that "J. W. Goodwin & Co.," were engaged in business in this city. One of these cards was enclosed in an order to John Allen, New York, and in response nine casks of whiskey were sent to this city by Mr. Allen,—to be paid for on delivery, in accordance with the proposition of the order sent. The business card read as follows: "J. W. Goodwin & Co., Dealers in Wines, Liquors and Cigars; also Choice Family Groceries.—Congress Block, Portsmouth, N. H. City Dealers supplied at lowest market prices." Mr. Allen, however, being led to suspect that all was not right, wrote to a legal gentleman in this city about the matter. Such a firm being unknown here, and there certainly being none such engaged in business in Congress Block, the liquors, which had arrived, were attached, and City Marshal Dresser soon detected the only operator known to be concerned in the business. At the Piscataqua House this man had registered his name as William B. Tonnett.—The City Marshal arrested him near the C. & P. R. R. depot, whither he had gone to make some inquiries regarding the arrival of the liquor. He was brought before the Court, and waiving examination, was ordered to give bonds in the sum of $200 for his appearance before the S. J. Court, in default of which he was committed to jail.

OBITUARY.—Died at Alexandria, Egypt, on the 24th of January, aged 47 years, Charles W. March, eldest son of the late Joseph W. March of Greenland, New-Hampshire. Mr. March was formerly associated in the editorial management of the Tribune, a Washington correspondent of the Evening Post, and the "Pequot" of the Boston Courier, under which nom de plume he contributed a series of political letters. He will also be recollected in the literary world, as the author of a lively and pleasant journal of his travels in the Andalusias and Madeira, and his Reminiscences of Congress, which latter gives an interesting sketch of Daniel Webster, who was an intimate friend of Mr. March and his family.—His political life was one of promise, by neglected by somewhat of a poco curante disposition, and the sacrifice of much of his time to an invalid relation. Time suddenly cut off in the full tide of life and health and fortune, his death will be deeply felt by his friends, and he had many, far and wide, to whom he had endeared himself by his singularly bright and genial temperament and generous character. There are a few more closely connected with him, to whom his loss will cause aching hearts, and leave a void in life, not easily to be filled.—*New York Tribune.*

The death of Charles W. March, at Alexandria, Egypt, on the 24th of January, is announced. He was 47 years of age, a native of Greenland, N. H., a writer of acknowledged ability, and socially one of the best fellows that ever lived.—*Boston Post.*

☞ Lieut. Col. Ward Marston has been detached from the Portsmouth Navy Yard and ordered to the Charlestown Navy Yard, as successor to Lieut. Col. John G. Reynolds, who has been appointed to the command of the marine barracks at Brooklyn, N. Y.

☞ The Albany Evening Journal says, "As a lecturer, Mr. Barnum is really among the best of the day. He speaks well, while his discourse is invariably full of sharp points and shrewd suggestions." The London Times says, "We are bound to admit, Mr. Barnum is one of the most entertaining lecturers that ever addressed an audience on a theme universally intelligible." And the London Telegraph says, "Mr. Barnum's method of telling an anecdote is exactly suited to the extraction of its most telling points. His address may be heartily recommended as highly entertaining and interesting, and may be listened to with attention and profit by people of every class."

Mr. Barnum will appear before our citizens this evening, rain or shine; and under favorable circumstances, the old Temple will not hold all who will wish to hear him. But those who secure tickets and go early, will be sure of a seat—whether they all learn how to get rich or not.

☞ The Portsmouth correspondent of the Portland Press sends the following items:—

The rotten old hulk Colorado, which some are trying to have ordered to protect Portland harbor, ought, if placed there, to be put in a situation that the tide would leave her dry a part of the time, so that the rats on board might not become web-footed.

More ship timber has been cut in this State than for years, on the Portsmouth and Concord Road. If all of the rolling stock was employed exclusively in its transportation it would take till the last of June to bring what is to be brought to this city.

Such activity in preparation for fishing has not been known for years. Such is the demand for the smaller boats that the builders are unable to fill one-half their orders.

☞ Many readers will be glad to learn by the special announcement in another column, that Sunday evening, the 13th inst., is the time when Miss Evans, the eloquent orator, from the old country, will lecture on temperance at the Temple in this city.

☞ A Washington dispatch states that Maj. John C. Sherburne, Assistant Adjutant General and Chief of Gen. Martindale's Staff, has been commissioned by the Governor of the State of New York, Colonel of the cavalry regiment known as "Scott's Nine Hundred." Maj. Sherburne is a native of this city.

☞ The Portland Argus states that Sir L. Lafontaine, Chief Justice of the Court of Queen's Bench, Canada, died very suddenly on Friday last. While in the act of putting his signature to a writ of Habeas Corpus, he was suddenly seized with a fit and expired in a few minutes. When first attacked he had written two letters of his name. He settled back in his seat, but on being urged to complete his signature as the writ was a very important one, he rallied and did so, and in a few minutes breathed his last. This eminent jurist who has presided over the highest judicial tribunal of Canada for many years, was a "rebel" in the Canadian rebellion of 1837-8, and a reward was offered for his head. He was subsequently pardoned and appointed to the highest judicial office in the Province.

☞ The Washington correspondent of the New York Times says that Representative Pendleton's bill to permit Heads of Departments to occupy seats on the floor of the House, and to require them to answer questions, excites much comment, and is gaining favor with all parties. It is understood that the majority of the Select Committee having the matter in charge are in favor of the plan.

PERHAM'S MIRROR OF THE REBELLION, in connection with his "National Home enterprise for Invalid Soldiers" will open in this city on Wednesday evening, March 9th. Full particulars in a few days. Tickets now ready and for sale at Head's, N. P. Thacher's and Avery's.

STARTLING! BUT TRUE.—The volunteers are braving the dangers of fever, scurvy, wounds and cholera. Many a gallant fellow will leave his bones to bleach, who, by the aid of Holloway's Pills and Ointment, would have returned to his family strong and healthy.—Soldiers, try them! Only 30 cents per box or pot. 225

WESTWARD HO!—Those who intend locating themselves on the plains of the far West, should not fail to provide themselves with a remedy for most of the minor accidents of life, by taking with them a supply of Grace's celebrated Salve. With that in the log cabin they may do without sending miles for a doctor, and save his bill into the bargain. The Salve is a sure cure for those nasty eruptions caused by the use of scrub oak leaves. It also cures burns, scalds, fresh wounds, boils, and all skin complaints. 25 cents a box.

"Be thou chaste as ice and as pure as snow, thou shalt not escape using unhealthy compounds in your food," was a true maxim, until Herrick Allen's Gold Medal Saleratus came to our relief. Since using it, we feel that there is one article in the way of Saleratus that all can use with healthy results. We have almost cured our dyspepsia, and thanks to the Gold Medal Saleratus for it. Try it, and you will say with us, that perception has been obtained, and the inventor has immortalized his name forever. Most of the Merchants have it.

LIFE ASSURANCE.

"A POLICY OF LIFE ASSURANCE is always an EVIDENCE OF PRUDENT FORETHOUGHT; no man with a dependent family is FREE FROM REPROACH if not insured."—LORD LYNDHURST, late Lord Chancellor of England.

"A POLICY OF LIFE ASSURANCE is the CHEAPEST AND SAFEST mode of making a CERTAIN PROVISION FOR ONE'S FAMILY. Many a widow and orphan have had great reason to be grateful that the advantage of LIFE ASSURANCE was understood and embraced by the husband and father."—BENJ. FRANKLIN, 1769.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y.
formerly Assistant Physician to Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigation of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as heroic as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that disease can only be cured by the slow "preparative process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Strumes, Glandular Swellings, Ulceration, Rickets, Erysipelas.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritic, Neuralgia, Gout, Lumbago, Sciatica, The Dolorous.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St. Virtus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering woman will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of Mercury, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of the kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their forming ulcers, producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few bottles of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia, Dropsy of the limbs or abdomen, and in the female, Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus, are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as palpitation, Disease of Valves—producing a gurgling or rushing Dropsy of the Chest and all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Calamity, Fear of Disease, Dimness of Vision, Dry Hot Skin and Extremities, Weak Nerves, Restlessness, Pale Haggard Countenance and Lassitude of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases**, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved its equal.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unpleasant to the young and middle aged. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup is unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES. It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the food—those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Castination Life Syrup.

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

LATE JOHN LANE SHEAFE.

We announced recently the death of this gentleman at New Orleans, the last surviving son of the late Jacob Sheafe, Esq., of this city. We have seen letters, which state that he was apparently in perfect health until Wednesday, the 27th of Jan. when he was suddenly struck by a paralysis, while dressing for breakfast. His only words were to his physician, who was a fellow boarder, "I shall never be better, do not leave me." He died on Monday night, Feb. 1st.

Mr. Sheafe had for many years been a prominent member of the bar at New Orleans. He was a true friend of the Union, through the troublesome times in the South. At a meeting on the 6th inst. of the "Pioneer Lincoln Club" of New Orleans, of which he was Vice President, resolutions were passed and published, expressing "admiration for his character as a sound, consistent and worthy man, whose devotion to the cause of the Union never flagged even when most in peril." His age was 73.

The Miss Evans, a Welch girl of 16, whose lectures on Intemperance draw full houses, is no less a prodigy than Camilla Urso on the violin. At the close of her Boston Lecture last week it was announced that her photograph likenesses which she had caused to be struck, were for sale, for the benefit of the Sanitary Commission. Four or five hundred were at once sold at 25 cts., and the young lady was "almost smothered with attentions." She will soon lecture in Portsmouth.

A number of persons assembled on the ice of the Connecticut River, in Wethersfield, on Sunday, to witness the ceremony of baptism. Unfortunately the ice broke and there were a large number of unexpected immersions.

Review of Fisheries.—About fifty fishing vessels, from George's Banks, arrived at Gloucester Sunday night, bringing good fares. They received but little damage in the recent severe gale.

CHECK LIST NOTICE.

THE Selectmen of Ward No. Three, of the City of Portsmouth, give notice that they will meet at the Haven School House, at seven o'clock in the evening of Saturday, preceding Tuesday, the 5th day of March next, (the day of Election,) and on the morning of the day of Election, from 8 to 10 o'clock, for the purpose of receiving evidence of the qualification of Voters, and of correcting the List of Voters by adding thereto such names as may have been omitted, and by erasing therefrom the names of those who have not a right to vote.

The List of Voters, as corrected, will be left with the Town Clerk of said ward, and at the store of Thacher Emery, (Pleasant street,) also at the office of the Clerk of the City of Portsmouth, for the inspection of the inhabitants, until the day of Election.

AARON L. RAND,
BENJAMIN RUSSELL,
CALVIN DAVIS,
Portsmouth, Feb. 20, 1864. Selectmen of Ward 3.

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all affections of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Secretory Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus (or Whites to females) where all the old numerous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have long disturbed it.

CHEROKEE INJECTION is intended as an only or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, soothing and demulcent, removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

Sent by Express to any address on receipt of price. Sold by all druggists everywhere.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Sight, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Dryness on the Face, Pimples on the Face, Blotches, Emptiness, Consumption, and the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one requiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old systems of medicine.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few doses cure Dyspepsia in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of manhood.

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses will cure Nervousness.

One bottle restores mental power.

A few doses bring the rose to the cheek.

This medicine restores to health a broken and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The ladies, or married couples, the over-tasked man or business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

LAST AND BEST.

THE MODEL COOK.

AN AIR-TIGHT STOVE,

WITH TWO OVENS,

And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can best be accomplished by using a MODEL COOK STOVE. More cooking can be done in this with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept at slight expense, if desirable.

A Water Tank and Hot Closet can be applied to either size, when needed.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

We have some large or small, where economy, convenience and comfort are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

A Great Variety of Cheaper Stoves

FOR WOOD OR COAL.

E. A. STEVENS'S

House Furnishing Establishment,

NO. 46 MARKET STREET.

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodeling or erecting dwellings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headaches so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while others have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold atmospheric air, which greatly increases the heat of the fire-pot, which, by thus consuming them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your building.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus amplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Aaron H. Hill, Henry F. Wendell, Albert S. Hatch, Esq., Charles H. Mendum, John Sise, and others.

It is a spirit not to be encouraged—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

"THE CONSTITUTION AS IT IS."—This Constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the SUPREME LAW of the land; and the judges in every State shall be bound thereby, anything in the *Constitution* or laws of any *State* to the *contrary* notwithstanding.
The Senators and Representatives before mentioned, and the members of the several State Legislatures, and *all* executive and judicial *officers*, both of the United States and of the several States, shall be bound by oath or affirmation, to support this Constitution.—*Constitution U. S.*

REV. LYMAN BEECHER ON HEALTH AND TEMPERANCE.—In 1798, after passing through college and studying divinity, young Beecher was called to preach at East Hampton, on Long Island. In 1799 he married.

Two years after he fell sick. "Old Deacon Talmadge" came in to comfort him, and advised "exercise, go out; run down cellar; run up garret; stir round."

"As spring opened, weary of confinement, I longed to get out. One day I took my fishing-tackle, and drove to Three-mile Harbor. Got some clams, and rowed out to the chicquot ground. Baited lines and threw out, and set the boat drift. Fish would strike; I would haul them in, row back, and drift again. Easy exercise—opening the chest, and breathing the fresh air—how good it was! Caught a dozen chicquot, from one to three pounds weight apiece.

Gained in this way till I could try gunning instead. Dr. Huntington used to go with me. We were netups—chronies; though he was rather skeptical, we were on friendly terms; we used to shoot plover together.

Then I worked at making turf fences and at haying; my appetite improved and I began to grow strong. Bought a horse-cart; and hauled seaweed from Three-mile Harbor to mix with the barnyard manure for corn, riding home, wet through, on top of the load at night."

All the time, for about a year, he was unable to preach. At East Hampton he set up a school, which was successful, owing, however, in great part to Mrs. Beecher's efforts. After the Burr and Hamilton duel he preached and printed a sermon against duelling, which was held in those days to be a "political sermon," and aroused opposition accordingly, and gave him a kind of fame. In 1810 he left East Hampton because of the insufficiency of the support given by the people—only four hundred dollars per annum. He removed to Litchfield, in Connecticut. Here he spent some happy years. He began there a temperance movement. It was then the fashion to use strong drink; even ministers drank freely. At any official gathering all kinds of liquors were served.

When they had all done drinking, and had taken pipes and tobacco, in less than fifteen minutes there was such a smoke you couldn't see. And the noise I cannot describe; it was the maximum of hilarity. They told their stories, and were at the height of jocose talk. They were not old-fashioned Puritans. They had been run down. Great deal of spirituality on Sabbath, and not much when they got where there was something good to drink. I think I recollect some animadversions were made at that time by the people on the amount of liquor drank, for the tide was swelling in the drinking habits of society.

I was a member of a General Association which met at Sharon, June, 1812, when a committee reported. They said they had attended to the subject committed to their care; that intemperance had been for some time increasing in a most alarming manner; but after the most faithful and prayerful inquiry, they were obliged to confess they did not perceive that anything could be done.

The blood started through my heart when I heard this, and I rose instanter, and moved that a committee of three be appointed immediately, to report at this meeting the ways and means of arresting the tide of intemperance.

The committee was named and appointed. I was chairman, and on the following day brought in a report, the most important paper that ever I wrote."

It was thorough, and it did its work at once. It stirred up all New England to temperance and total abstinence zeal.

For a Medicine that will cure COUGHS, INFLUENZA, TICKLING IN THE THROAT, WHOOPING COUGH, Or relieve CONSUMPTIVE, COUGH, as quick as
COE'S COUGH BALSAM.
OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known.
We have, in our possession, any quantity of certificates, some of them from
EMINENT PHYSICIANS,
who have used it in their practice, and given it the pre-eminence over any other compound.
It does not dry up a Cough, but loosens it, so as to enable the patient to expectorate freely.
☞ *Two or three Bottles will invariably cure TICKLING IN THE THROAT.* ☜
A HALF Bottle has often completely cured the worst
STUBBORN COUGH,
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In cases of CROUP we will guarantee a cure, if taken in season. **No Family should be without it.** It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and trial does not "back up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident that one trial will secure for it a home in every household.
Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate, of speedy and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. Life single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
Caution.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. Sent to receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 9 to 5 P.M.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, MARCH 4, 1864.

THE REBELLION.

Gen. Custar has returned to this side of the Rapidan, having successfully accomplished the work assigned him, and not lost a man. He harrassed the flank of Lee's army considerably, near Stanardsville surprised a rebel camp, which he totally destroyed, and captured 50 prisoners, a large number of negroes, and about 300 valuable horses. It is stated that Gen. Custar's movement was to deceive or draw off the attention of the rebels while Gen. Kilpatrick proceeded in another direction.

The Richmond Examiner of Feb. 24 reports that Gen. Sherman's forces had evacuated Meridian, and were retreating in two columns in the direction of Vicksburg.

A dispatch from Mobile, Feb. 23d, states that the Union forces opened fire on Fort Powell at half-past 10 o'clock on the morning of that day. Six mortars and four gunboats shelled all day, firing 364 shots.

A letter from St. Louis says that expeditions for operating on the southern tributaries of the Mississippi are preparing in that and other cities, to be floated down to their destination as soon as river navigation is entirely unobstructed. One flotilla has already gone down.

No more passes are to be granted to the wives and families of officers, to the front of any of the armies in the southwest.

Col. Streight confirms the reports of our soldiers at Richmond being starved and left to perish with cold by Gen. Winder.—Not one-half of the clothes and provisions sent by us ever gets to them, being stolen by the rebels. He recommends retaliation, and is very anxious to get command under Gen. Butler, to enable him to operate against Richmond.

— Adm. Dahlgren will soon return to Charleston and resume command of the naval forces there.

— Com. Wilkes is ordered to appear before a court martial on the 9th inst. to answer to charges of mismanaging the West India flying squadron.

— A note from Cyrus W. Field, in London, states that the steamer Great Eastern has been chartered by Messrs. Glass, Elliott & Co. to lay the Atlantic Cable in the summer of 1865.

— Joshua Dewey, the oldest living graduate of Yale College, died at Watertown, N. Y., on the 24th ult., being nearly 97 years old. Mr. Dewey was James Fennimore Cooper's tutor. Rev. Daniel Waldo, of Syracuse, N. Y., of the class of 1788, is now the oldest living graduate.

☞ The steamship Great Eastern has been sold by auction to the newly formed Great Eastern Steamship Company, for only 25,000 pounds sterling. The Company had, however, previously purchased bonds of the old company to the extent of 70,000 pounds, which must be added to the above purchase money. Another person claims to have bid 25,000 pounds at auction, and demands the ship.

☞ The Chicago Tribune reports that a bed of cannel coal has been found in the Minnesota Valley on the Cottonwood river, a little more than 100 miles from St. Paul. The bed is 88 feet below the surface where the shaft was sunk, and is six feet in thickness. All indications are that immense coal beds exist in that locality. A company has been organized in St. Paul to work the mines.

☞ A committee of the Maryland Senate have reported in favor of the purchase of 20 acres of the battle-field of Antietam, jointly with the State of New York, which agrees to bear half the expense, and to reinter therein the remains of the soldiers of the Union who fell in the battle. They also propose the purchase of three acres on South Mountain, upon which to erect a monument to Gen. Reno.

☞ Last Friday evening, a gentleman, while walking through Willoughby street, Brooklyn, N. Y., at a late hour, observed two persons walking behind him, but paid no attention to them. As they passed him one of them threw a blanket over his head, while the other secured it with a strong India rubber band, about four inches in width, and then both assisted to rob him of about sixty dollars in money. The victim was helpless, for the band was so placed as to prevent the slightest movement of the hands.

☞ Provost Marshal General Fry has issued an order directing Boards of Enrollment to "commence Mar. 10th, to make the draft in all sub-districts which had not filled their quotas before the 1st inst. All volunteers who may enlist before the draft is actually made will be deducted from the quotas by the Board of Enrollment, in accordance with orders to be given in each case by the A. A. Provost Marshal Generals of States. If the quota shall not be filled by the first draft, the Board shall make further drafts until the entire quota is obtained." But New Hampshire is out of the draft.

NEW HAMPSHIRE ITEMS.

—— Quite an extensive revival of religion is in progress in the Calvinist Baptist Society at New Boston. Considerable religious interest is also manifested in Londonderry.

—— The Manchester Mirror disposes of the copperhead story that 10,000 uniforms had recently been sent to this State, from which they argued an immediate draft for 10,000 men! The Mirror says:—

The idea is a rascally, daring, desperate attempt to swindle readers to catch their votes. 1000 cavalry uniforms have come for the new Cavalry regiment, a volunteer affair, and not another uniform since what came to fill the quota of October, has been received by the civil or military authorities of this State.

PARTON'S LIFE OF GEN. BUTLER.—Among the subjects of this most interesting and valuable book are the following:

Gen. Butler before the War.
In the Charleston Convention
Annapolis.
Baltimore.
Consequences of Great Bethel.
Recall from Virginia.
Recruiting for Special Service.
Ship Island.
Reduction of the Forts.
The Banks at New Orleans.
New Orleans will not Surrender.
Capture of New Orleans.
Feeding and Employing the Poor.
The Woman Order.
Gen. Butler and the Foreign Consuls.
The Sheep and the Goats.
More of the Iron Hand.
The Negro Question—First Difficulties.
Representative Negro Anecdotes.
Routine of a Day in New Orleans.

This volume is pronounced a faithful and valuable history by the most competent judges, and yet it has the charm and fascination of a romance. It deals with an era and a locality of the rebellion that will eventually constitute one of the richest themes of the historian. It fixes and photographs forever some of the most curious, thrilling and mysterious events of the war.

Such is the power of Mr. Parton's captivating style that one who begins this book cannot easily deny himself the pleasure of its entire perusal. It is a genial and instructive companion for the fireside and the railway, and as a book of reference, it is said by one of the first military magazines of America to be "a treasury of facts and statistics."

1 vol., 650 pp., crown 8vo., with portraits, $2. Published by Mason Brothers, New York. For sale by Mason & Hamlin, 274 Washington street, Boston.

CONGRESSIONAL RESOLUTIONS.—On Monday a Democratic member of Congress from Ohio offered a resolution to the effect that Thomas Ewing, Millard Fillmore and Franklin Pierce be sent as peace commissioners to Richmond. One member suggested Vallandigham, and another Mr. Buchanan as additional commissioners.—Twenty-two Democrats—none from New England—voted for the resolution.

Mr. Schenck then submitted three resolutions. The first, declaring the rebels "public enemies," was agreed to. The second, declaring that "the cause of the rebellion should be permanently removed," was also unanimously agreed to—the Democrats explaining that "abolition" was among the causes. The third, affirming that there is no middle ground on which any true patriot can now stand, was likewise unanimously adopted. The House appears by this time to have been in a happy frame of mind, for Mr. Cox offered the following resolution:

Resolved, That the rebellion be and the same is hereby abolished.

This was agreed to amid laughter.

☞ Mr. Thomas Tileston the distinguished New York merchant, whose death was announced on Monday, was left, says Hunt's Merchant's Magazine, without any other legacy than that of a good name, and at the age of 13 entered the printing and publishing house of Grenough & Stebbins of that city, as a printers' boy, at a salary of 30 dollars a year and board. The character of the boy at that time is well illustrated in the remark made to his mother; "Mother, by going into a printing office, I hope to educate myself, and trust to be able to take care of you and the whole family." With such a purpose in view it was impossible for the boy not to succeed.

☞ Iron-clad Camanche, 2, sunk in places on board the ship Aquila in San Francisco harbor, is now being successfully raised. About sixty plates, weighing from five hundred to one thousand and fifty pounds each, have been already secured in a single day. Two large copper magazines, filled with ammunition, have been landed in a lighter. As fast as landed the plates are cleaned and repaired, so that in a short time enough will be secured to make a beginning of the reconstruction. Of the fourteen hundred tons on board the Aquila, one hundred and fifty have been reclaimed. The work is in charge of Captain Merritt, who was sent out by the government, expressly for this purpose, from the Atlantic coast.

☞ There are but two daily papers in the world—that is, there are only two papers published seven times a week. They are the Alta California and the New York Herald—one on the Pacific and the other on the Atlantic coast of the United States of America. Not a single paper appears seven times a week in England, France, Germany, Spain or Italy.—This fact the Alta discovered.

— The Boston Post thinks dollars and sense a rare combination.

— Gen. Grant has been confirmed by the Senate as Lieutenant General.

— The story that Miss Braddon has married her publisher is contradicted.

— Adm. Lee has ordered all his prizes to be sent to Boston for adjudication.

— 5000 copies of the exquisite poems of Jean Ingelow have already been sold in this country, and it is a "first book."

— Advices of Jan. 5th, from Cape Town, confirm the seizure of the pirate Tuscaloosa by the British authorities.

— They are going to have a fancy dress ball in Bangor on the last night of this month, for the benefit of the Sanitary Commission.

— President Lincoln has commuted all death sentences for desertion to imprisonment at the Dry Tortugas, Fla., during the war.

— The punishment of death is about to be abolished in Portugal, except for military crimes committed during a war with a foreign power.

— The Unitarian Society of Springfield, Mass., at a parish meeting on Monday evening, voted to call Rev. Horatio Stebbins of Portland to become its pastor.

— A private of the Invalid Corps was last week passed by the Casey Examining Board for the rank of Colonel of a colored regiment.

— In a recent debate in the English House of Lords, it was stated that the American claims against England, for depredations by the Alabama, amounted to two millions of pounds sterling.

— The prices at nearly all of the first-class hotels in New York were raised on the 1st inst. to $3 and $3.50 per day. The increased cost of food and labor is assigned as the reason for this rise.

— The result of the Court of Inquiry in the matter of the publication, in Commodore Wilkes's name, of a severe letter to the Secretary of the Navy, it is said will result in a Court-Martial of that officer.

— The Bath Times understands that several fishermen residing on Cape Cod are removing to Boothbay, Me., and vicinity, as the Cape is being rapidly washed into the sea.—This accords with the prophecy of Prof. Agassiz—that the Cape would soon be among the things that were.

— The Maine Legislature in 1836 passed a resolve that the members should be paid in gold and silver. This resolve has been virtually obsolete for years, but a man who was ousted from his seat in the present House, on the ground of illegality in the election, now demands payment in gold.

— The Charleston Mercury complains that 'greenbacks' are crowding out the Confederate currency down south. They should follow Dr. Franklin's advice to the gentleman who complained that his servants stole his beer. "Set a cask of wine by the side of it, and they won't touch the beer."

— The Paris correspondent of the New York Commercial says that several Confederate army and navy officers, now in Europe, have asked to be employed by Maximilian in his Mexican army and navy, and it is probable that a large number of rebel officers will find their way ultimately into Max's service.

— The friends of William and Mary Howitt, who may have been pained at hearing that their sympathies were against the North, from time to time, will be pleased to learn that now at least they see things truly and feel warmly. "Everybody," said Thomas Hughes, is "coming round, but disgustingly slow."

— The Louisiana State election, Feb. 22d, resulted in the triumph of the straight Free State ticket, Hon. M. Hahn being elected Governor by about 3000 majority, out of a vote of 8000. There was great rejoicing by the Free State party, which was manifested by illuminations and firing of cannon in the evening.

— An intelligent correspondent of the Montreal Witness says, the frame or skeleton of an iron ship, like that of the Bohemian, can be made much stronger than that of any wooden ship; but the skin, composed of half or three quarter inch boiler plate, is perforated or ripped off in sheets by the slightest contact with a hard substance, be it ice or rock.

— The New England Agricultural Association met at Worcester, Mass., Mar. 2, and organized. The New England States were represented by their most distinguished agriculturists, and the meeting was large and interesting. Dr. George B. Loring, of Salem, was chosen President: Fred. Smyth of Manchester, is one of the Vice Presidents.

Army drawers are given out by contractors to be made in Portland at five cents per pair. A woman sewing all day could not make more than two pairs, then earning the enormous sum of ten cents a day. If the thread given out with the drawers falls short, as it is apt to do, the poor seamstress is told she must supply the deficiency!—*Transcript.*

A COOL OPERATION.—Married, on Moose Head Lake, forty rods from the shore, on Wednesday, Feb. 17th, (Mercury 20 deg. below zero,) by J. H. Eveleth, Esq., Mr. Samuel Dalton to Miss Maria Harford.—*Clarion.*

LYNN SCHOOLS.—We are indebted to T. G. Senter, Esq., formerly of this city, but now one of the most successful teachers in Lynn, Mass., for a copy of the annual report of the school committee of that city for the year ending Dec. 31, 1863. The report is finely written, readable, and would prove of interest and value to all interested in the education of youth. Lynn now has fifty-seven teachers, in forty-eight schools, which are classed as follows, viz: one High, six Grammar, eight Intermediate, one Mixed, and thirty-two Primary. From the report we make the following extracts:

Flowers and boughs, pictures and other more permanent decorations, serve, we are sure, a beneficent purpose, if they make upon the children but a tithe of the pleasant impression they have made on the committee. Gymnastics and calisthenics, vocal exercises in appropriate variety, lessons on the blackboard or from blocks and cards, for relaxation and instruction, with little puzzles and pictures for amusement, judiciously introduced and well timed, make the model Alphabet schools of to-day very different from the Infant schools of the olden times. No teacher deserves high rank who is not accomplished in these things.

The committee have not suffered to pass unheeded the expressed opinion of many of our citizens that Latin should not be a *required* study in the High School, and that provision should be made for an exclusively English course. The change suggested has not been made, but full attention and discussion have been given to the matter.—The limits of this Report will not permit an extended view of the subject, and we can only say, that while the alteration is not now deemed expedient, more thoroughness and some addition in the English department have already been determined upon. Among the things contemplated is the practical study of surveying by the young gentlemen in the senior year, with practice with instruments in the field.

Music has been happily termed one of the lubricating influences of life. It has its appropriate place, and exercises some of its most pleasing influences in the school-room. It refines, cheers, and strengthens, and as a science some knowledge of it is requisite to a really good education. It has been noticed how grateful is the introduction of a song during a visit to the school, lasting only a single session—how refreshing thus to break the monotony of daily routine.—The singing is really charming in some of our schools, and in many it is very creditable.

There are schools where the voices of the boys are never heard in the singing, and in but few do the boys bear a prominent part. Probably it is difficult to train their voices to pleasing tone and unison, and this only shows that there is the more need of special effort in their behalf.—Their voices add greatly to the charms of the performances, and the refining influences of music are here profitably exerted. The backwardness of the boys must, in most instances, be charged to the indifference of the teacher. We say, emphatically, let us hear the boys sing.

The Salaries of the Teachers, which since the commencement of our national troubles had been materially reduced by a voluntary per centage of reduction, were at the beginning of the year restored by a unanimous vote of the board; and the whole expense for the past year, was $31,429,86.

Every room should be provided with a thermometer. This will not, unaided, regulate the temperature or ventilate the room, but it will, if occasionally observed and kept in perfect condition, give some reliable data to those teachers whose physical condition will permit eighty degrees to be reached unnoticed, unless the appearance of the sweltering children betrays the injurious temperature. Increased attention to ventilation has been noticed with pleasure; let every teacher give thought to it.

— It is stated that nearly every railroad company in the country gives free passage to the agents of the Christian Commission.

Treasury Department.
OFFICE LIGHT-HOUSE BOARD,
February 15, 1864.
SEALED PROPOSALS will be received at this office until 1 o'clock P. M. on SATURDAY, the 19th day of March, 1864, for supplying the Lighthouse Establishment with fifteen thousand gallons of the best quality pure winter strained lard oil, and thirty thousand gallons of the best quality pure winter strained sperm oil, to be divided into four lots, and to be delivered at the times undermentioned, alongside of the government supply-vessels, or at the warehouse or other place of deposit, to be designated by the Inspecting Officer or other authorized agent of the Lighthouse Board, in strong, tight, well-made casks, suitable for shipping, in good order, of an average capacity, each, of from eighty to one hundred gallons.
The lard oil will be delivered at Boston, Mass., for special inspection.
Any one of the lots of sperm oil, or all of them, may be delivered at New York, New London, Sag Harbor, Boston, New Bedford, Edgartown, or Nantucket, at the option of the bidders. The place of delivery must be distinctly stated in the bids, and will be embraced in the contracts.
The four lots will be delivered as follows, viz:
LOT NO. 1. Ten thousand (10,000) gallons sperm oil on the 15th day of April, 1864, or as soon thereafter as the proper tests and gauging can be completed.
LOT NO. 2. Fifteen thousand (15,000) gallons lard oil on the 1st day of May, 1864, or as soon thereafter as the proper tests and gauging can be completed.
LOT NO. 3. Ten thousand (10,000) gallons sperm oil on the 1st day of June, 1864, or as soon thereafter as the proper tests and gauging can be completed.
LOT NO. 4. Ten thousand (10,000) gallons sperm oil on the 1st day of August, 1864, or as soon thereafter as the proper tests and gauging can be completed.
No part of the oil proposed for and to be embraced in the contracts under this advertisement will be accepted, received, or paid for, until it shall have been proved to the entire satisfaction of the person or persons charged with its examination, test and inspection, to be of the best quality pure winter strained or bagged oil, and free from mixture with other or inferior oils and adulterations.
The usual means for determining the character and quality of the oil will be employed, viz: specific gravity, burning the amount of residuum, and any other proper tests to arrive at correct conclusions that may be deemed necessary.
The casks must be gauged, under the direction and general supervision of the inspecting officer, by a custom-house or other legally authorized and sworn gauger, according to the United States standard, and accompanied by and accepted before they are removed from the cellar or warehouse of the contractor. The temperature of the oil will be accompanying the gauging measurements reduced to the standard temperature of 60° Fahrenheit by tables prepared for the purpose.
Proposals will be received and considered for each lot separately, or for all of the lots at the option of the bidder, but no bid will be considered for a less quantity than that specified for one lot, to be delivered at one time and place. Each bid must state explicitly the rate per gallon, in writing, the number of the lot or lots bid for, and the time and place of delivery, conforming to this advertisement.
Bids submitted by different members of the same firm or copartnership will not be considered.
The Light-house Board, under the authority of the Department, reserves the right to reject any bid, although it may be the lowest, for other considerations than the price.
No bid will be considered for any other kinds or descriptions of oils than those specifically called for in this advertisement.
A bond, with security to the satisfaction of the Department, in a penalty equal to one-fourth of the amount of each contract made under these proposals, will be required of each contractor, conditioned for the faithful performance of the contract, to be executed within ten days after the acceptance of the bid.
Every offer must be accompanied by a written guarantee, signed by one or more responsible persons, and known to the Department as such, or certified by a United States district judge, attorney, navy agent, or collector of the customs, to the effect that, if the bid or bids be accepted, the bidder or bidders will duly execute the contract in good faith, according to the provisions and terms of this advertisement, within ten days after acceptance; and that in case the said party or parties offering shall fail to enter into the contract as aforesaid, he or they guaranty to make good the difference between the offer of the said party or parties and the next lowest bidder.
All bids must be sealed and endorsed "Proposals for oil for light-houses," and then placed in another envelope, and directed, prepaid, to the Secretary of the Light-house Board, Washington City.
All bids will be opened, publicly, at the hour and on the day specified.
Payments will be made for the several lots of oil within thirty days after they shall have been received by the United States.
BY ORDER OF THE LIGHT-HOUSE BOARD:
W. B. SHUBRICK,
F25—3aw3w Chairman.

Sore Throat. Cough. Cold.

And similar troubles, if allowed to progress, result in serious Pulmonary, Bronchial and Asthmatic affections, oftentimes incurable.

Brown's Bronchial Troches

are compounded so as to reach directly the seat of the disease and give almost instant relief.

One of Hunnewell's Great Remedies.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a freedom from every component calculated to debilitate, and by some to allow the greatest freedom of use, day or night, as the only true theory by which THROAT and LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, when local causes make almost all such complaints different in effect, I would ask confidence which will be scored, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, WHOOPING COUGH, all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

For sale by all Wholesale and Retail Dealers.

Local.

IN BOARD OF ALDERMEN, on Thursday evening, the Mayor presented the following:—

Gentlemen of the City Council:—I embrace the earliest opportunity that circumstances would permit, to communicate to you a few facts relative to our municipal affairs.

The City debt, as appears by accounts made up to Dec. 31, 1862, was $115,530.06. On Dec. 31, 1863, it was $163,889.56.

The funded debt at this date is	$156,200 00
Due on temporary loans	59,543 56
	215,743 56
Amount of interest due on city debt (partly accumulated) with sundry unpaid bills is	4,950 00
Funded notes, upon which interest is to be paid, being funds held by the city in perpetual trust, the principal of which is not payable	2,075 15
	222,768 71
From this amount of indebtedness should be deducted the balance of uncollected taxes	6,296 71
Due from U. S. rent Jefferson Hall	250 00
Amount of U. S. bounty assigned by our quota of Volunteers	28,146 00
Claims against the State for aid to families of Volunteers	14,000 00
Real estate bill on behalf of the city, for unpaid taxes	266 44
	58,899 15
Balance of indebtedness	163,869 56

Many causes have combined to increase the expenditures of the city during the past year, most of which must be apparent to every citizen, while the raising of volunteers and the various expenses connected therewith, show our extraordinary expenditures to have been such as could not have been avoided.

The unfortunate public disturbance during the draft was not without its cost to the city, in our increased force needed to preserve order. And in this connection I cannot omit to return, officially, in behalf of the city, my thanks to Col. Ward Marston, of the United States Marine Corps, and to Lieut. G. W. Wainwright, of the Heavy Artillery at Fort Constitution, and their respective commands, for their prompt and signal aid on the occasion, and to those citizens, lovers of law and good order, who by their personal presence so gallantly and patriotically sustained the officers of the city in their endeavors to maintain good order.

During the last year the Old South Church was purchased, and as a matter of safety was taken down. The site is one upon which a new building should be erected, in which can be combined a school-house, ward-room and bell-tower.

There has been erected east of the Court House, a new building for the use of the Hook & Ladder carriage, an Engine, &c. In the construction of this building we save to the city the cost of the rental of several buildings formerly hired for the storage of the property now kept in the new building. At the request of many citizens every endeavor was made to procure a different site for the building, but as none that were regarded as suitable locations could be had except at an exorbitant price, we were compelled to adopt the one selected.

The school house on Hanover street, formerly the Chapel, was purchased during the year at a cost of $5000. The building was much needed for the purpose of schools and was in good order; and when it is considered that this was the only building or lot of the kind that could be had in the district suitable for the purpose, it will be admitted that the expenditure was a judicious one.

Our increasing population is making daily demands upon us for more extended school facilities, and you will doubtless see the necessity of a liberal appropriation for these objects.

The streets are in good condition. The increased price of labor will suggest to you the necessity of an enlarged appropriation for street purposes, to keep our thoroughfares in the usual state of repair.

The Sagamore bridge needs to be replanked the coming season, and other essential repairs will be needed there, at a cost at least of $1500.

It is our good fortune that the great demand for labor has in some degree tended to prevent an increase of expenditures on account of the poor; and with the good husbandry and efficient management that prevails at the City Farm, we are enabled to protect the unfortunate poor without such a proportionate increase of cost as the advanced price of commodities might lead us to expect.

I am not aware of any extraordinary expenditures that are required to be made other than those referred to.

☞ The cellar of Mr. Lyman D. Spalding's house, on State street, was entered on Wednesday night through a window, by some person or persons, and pretty thoroughly ransacked. Some bottles of currant wine, etc., were carried off. Other premises in that vicinity were visited, but nothing is known to have been stolen from them. The thieves had a hand-sled, on which to carry away their booty.

☞ Capt. P. W. Peuballow of this city, with his family, left on Thursday, 25th ult., for New York, whence they sailed in the steamer City of Manchester for Liverpool. Capt. Peuballow goes out to assume command of the duties of Underwriter's agent at Liverpool for the Boston Insurance offices, a position which his experience as a shipmaster and owner, and his business talents and strict integrity admirably adapt him to fill.

No little amount of machinery is standing idle in our Mills for the want of houses in which operatives can reside. There ought to be a hundred houses erected in Portsmouth this spring to supply the demand already existing for tenements, and yet there will probably be more houses erected in Kittery by men of small means, during the year, than the combined capital of Portsmouth will construct.—*Cor. Ballot.*

☞ Commander Jos. M. Bradford, has been released at his own request, as Fleet Captain at Charleston.

☞ Pressed hay is now being brought in from our neighboring towns to be shipped to Washington. 500 tons are now piled up on Pier Wharf, waiting for vessels to freight it to the Potomac. $20 per ton is the price paid by the purchasers.

☞ The Boston Advertiser states that Maj. Jacob Zeilin and Capt. C. D. Hebb have been ordered from the Brooklyn Navy Yard to this naval station.

☞ Our friends in Rockingham county will oblige us by sending early and *full* returns of the election in their several towns. Please give names of town officers, &c., &c.

☞ Newcomb's famous Minstrel Troupe give one of their bang-up entertainments at the Temple to-night—and all who love music and fun, should go. They are wakers, sure.

☞ Mr. Christopher C. Jackson has been elected a Director in the Bank of New Hampshire.

☞ Several aliens have recently been discharged from the Portsmouth Navy Yard.

A COPPERHEAD SUBSTITUTE PUNISHED. Horace B. Mondeville, Co. K, 14th N. H. Vols. has just been tried and sentenced by Court Martial to the Albany Penitentiary for five years at hard labor. He was a substitute, and was tried for declaring, while on a transport going from Boston to Fortress Monroe, that "his friends were all in the Southern army, that he gloried in them, and that he never intended to fire a gun for this d—n Abolition Government, and that he would be in the Southern army, only it paid so much better being a substitute in the Northern army." He was also tried for desertion and convicted on that charge.—*Herald.*

Ward Two, at Court House.
Ward Three, at Mercantile Hall, Exchange Buildings.

PERHAM'S MIRROR OF THE REBELLION, in connection with his "National Home enterprise for Invalid Soldiers" will open in this city on Wednesday evening, March 9th. Tickets now ready and for sale at Head's, N. P. Thacher's and Avery's.

STARTLING! BUT TRUE.—The volunteers are braving the dangers of fever, scurvy, wounds and cholera. Many a gallant fellow will leave his bones to bleach, who, by the aid of Holloway's Pills and Ointment, would have returned to his family strong and healthy.—Soldiers, try them! Only 30 cents per box or pot. 225

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

"Be thou chaste as ice and as pure as snow, thou shalt not escape using unhealthy compounds in your food," was a true maxim, until Herrick Allen's Gold Medal Saleratus came to our relief. Since using it, we feel that there is one article in the way of Saleratus that will pay with healthy results. We have almost cured our dyspepsia, and thanks to the Gold Medal Saleratus for it. Try it, and you will say with us, that perfection has been obtained, and the inventor has immortalized his name forever. Most of the Merchants have it.

LIFE ASSURANCE.

"A POLICY OF LIFE ASSURANCE is always an EVIDENCE OF PRUDENT FORETHOUGHT; no man with a dependent family is FREE FROM REPROACH if not insured."—LORD LYNDHURST, late Lord Chancellor of England.

"A POLICY OF LIFE ASSURANCE is the CHEAPEST AND SAFEST mode of making a CERTAIN PROVISION FOR ONE'S FAMILY. Many a widow and orphan have had great reason to be grateful that the advantage of LIFE ASSURANCE was understood and embraced by the husband and father."—BENJ. FRANKLIN, 1769.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!
What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.
Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. I hose who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians are **Invited to use Constitution Life Syrup.**
During the past five years we have contended with obstacles and overcome opposition as heroic as ever encountered by any Reformers.

Rapidity of Cure.
Some say, "Your cures are quick," while others doubt their permanence, and think that diseases can only be cured by the "slow recuperative process of Nature." This is our reply:
In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,
A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all hereditary DISEASES transmitted from PARENT TO CHILD.

Paralysis.
Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.
It is so universally admitted that Constitution Life Syrup is the only effective remedy for restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.
Indigestion, Liver Complaint, Constipation, Weight at Stom'h, Billiousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.
Struma, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.
This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.
[Arthritis], Neuralgia, Gout, Lumbago, Sciatica, The Dolorous.
It there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or rheumatic, of 20 or 30 years standing, have been cured by us.

Nervousness.
Nervous Debility, Confusion of Thought, Epilepsy, Loss of Power, Shattered Nerves, St. Vitus' Dance.
Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering women will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.
Salivation, Pricking of Ivory Bones, Bad Complexion, Aches in Bones, Depressed Spirits.
Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

Constitution Life Syrup
Eradicates, root and branch, all Eruptive Diseases of the Skin, like
ULCERS, PIMPLES, BLOTCHES.
And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,
Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.
All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus, are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without some effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.
Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a gratuitous Fatty Degeneration of the Heart Case and all the affections of this important organ, or persons suffering from any disorder in this region of the human heart, will be greatly relieved by Constitution Life Syrup.
Broken-Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain in the Back, Loss of Memory, Forbodings, Horror of Consumption, Fear of Disease, Dimness of Sight, Pimples on Skin and Extremities, Want of Sleep, Restlessness, Pale Haggard Countenance and Lassitude of the Muscles, all will find relief, and the aid of the CONSTITUTION LIFE SYRUP.
For all forms of **Ulcerative Diseases**, either of the Nose Throat, Tongue, Stomach, Bowels or Scalp, no remedy has ever proved its equal.
MOTH PATCHES upon the female face, depending upon Uterine Disease, and for which are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.
In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition that generally is accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.
☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*
Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.
THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.
PURE BLOOD produces healthy men and women, and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.
TO MOTHERS AND MARRIED LADIES. It is the safest and most effectual medicine ever discovered for purifying the system and replenishing the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and purifies the food—Those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.
Constitution Life Syrup
Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Morning Chronicle.

☞ A new comic illustrated journal was to make its first appearance in New York city on the first of March, under the title of "The Moon," to which our best known humorists are to contribute. The title is an ominous one; but whether it foreboded that the new candidate for public favor is to shine with borrowed splendor, or that the projectors of so desperate an enterprise are lunatics, will in due time be apparent.

GEN. McCLELLAN says, in his new book on the War:—

I am convinced that by the proper employment of our resources it is entirely possible to bring this war to a successful military issue. I believe that a necessary preliminary to the re-establishment of the Union is the entire defeat or virtual destruction of the organized military power of the confederates; and that such a result should be accompanied and followed by conciliatory measures.

It is little troubles that wear the heart out; it is easier to throw a bomb shell a mile than a feather—even with artillery.

DR. TEBBETTS'
PHYSIOLOGICAL
HAIR REGENERATOR
AND
UNIVERSAL HAIR RESTORER

ITS MODUS OPERANDI.

Immediately beneath the scalp there are very small glands, or, more commonly Roots of the Hair. It is from these Glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies always remain healthy, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.

To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Tannin, Sulphur, Rosin, and Nitrate, only short of yellow or Blue color, it will, if properly applied restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in its application.

2. It will certainly prevent the hair from a gray to a beautiful *Black, Brown, Auburn*, or whatever might have been its original color.

3. It will effectually prevent the hair from falling off, remove all Heat, Inflammation and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.

4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.

5. It will cure the most inveterate itching and pearing of the scalp, and being highly perfumed, it affords a most delightful article for the toilet.

We have a great abundance of testimony to prove beyond a doubt what we claim for the Regenerator; and it is positively certain that in a very short time it will have a world wide reputation.

HOME TESTIMONY.

BEDFORD, N. H., Dec. 17, 1863.

Messrs. Tebbetts & Bradbury—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and now it is almost black. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diptheria, it stopped it, immediately on its application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only used one bottle, and I think we shall fill our heads up in good shape. J. C. CUTLER.

MANCHESTER, Dec. 26, 1863.

Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all who hold Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be prepared. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, when, about two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. JACOB J. ABBOTT

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus (or Whites as the term is) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor, thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites, to wash out the parts affected, healing and soothing, removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION, these two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES.

CHEROKEE
CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nervous Debilitation, and all diseases caused by self-pollution; such as Loss of Memory, Confusion, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Dyspepsia, Pain in the Face, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the paths of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not*; the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

We have a great abundance of testimony to prove beyond a doubt what we claim for the Regenerator; and it is positively certain that in a very short time it will have a world wide reputation.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.
Prepared from Pure Vegetable Extracts,
Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and shortest medical system, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent men living, and is the first and only preparation announced to be one of the greatest medical discoveries of the age.

Use bottle will cure General Debility.

A few doses cure Hysterics in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses cure the low spirited.

One bottle restores mental power.

A few doses bring the pale to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and languishing victims of sensual pleasure.

The listless emaciated youth, the over-tasked man of business, the victim of nervous depression, the mental suffering from anxiety, care, study, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

LAST AND BEST.

THE MODEL COOK.

AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, will an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are fined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to Ranges, when needed.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and comfort are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

A Great Variety of Cheaper Stoves
FOR WOOD OR COAL.
E. A. STEVENS'S
House Furnishing Establishment,
NO. 46 MARKET STREET.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and may be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot; which forces them as they pass off from the coal, thus saving at least 30 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large proportion of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to insure the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment and those not in want of a clock will find the Calendar alone worth more than the price of the Clock. They will be set up in any part of the city, and regulated without extra charge.

SPEER'S SAMBUCI WINE.
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS
SAMBUCUS TREE, OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and bene ficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

a few well known gentlemen and physicians who have tried the Wine.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every lam fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the purest form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

"THE CONSTITUTION AS IT IS."—This Constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the SUPREME LAW of the land; and the judges in every State shall be bound thereby, anything in the *Constitution* or laws of any *State* to the *contrary* notwithstanding.

The Senators and Representatives before mentioned, and the members of the several State Legislatures, and *all* executive and judicial *officers*, both of the United States and of the several States, shall be bound by oath or affirmation, to support this Constitution.—*Constitution U. S*

☞ When, in the year 1861, the Eighth Wisconsin Regiment marched from that State to the seat of war, it carried with it an eagle. From that time, through all the marches, battles, sieges and vicissitudes of war, this bird has remained with the command and shared its hardships, dangers and adventures. Whenever the regiment has joined battle with the foe, the eagle has been at his post with the soldier who owns him, at the head of Company D. As the engagement waxed hot—as the roar of the heavy guns shook the earth, and the rattle of small arms pierced the dun and sulphurous cloud that hung about the line of battle—the eagle would flap his wings and mingle his voice with the tumult in the fiercest and wildest of his screams. Twice has he been wounded in action, one ball cutting away a great portion of his tail feathers. But he has never turned tail to the foe. He has gone with his regiment through seven States, a fit companion and emblem of the heroes of the Northwest. He is now at home with the veterans recruiting, and there is not a banner or a "broker" in the United States that brings men to the regimental flag as fast as the war-eagle of the Eighth Wisconsin. Thousands flock to see him, and his sharp, shrill cry is always heard, at morning and evening, with the fifes and drums of the guard. The people of Wisconsin are determined that when the war is over, and the eagle comes home again, he shall be kept at the public expense, in the Capitol grounds at Madison.

PROF. LABOULAYE ON AMERICAN AFFAIRS. The following is an extract from a letter written by Prof. Laboulaye to a friend in New York, dated the 7th ult.:—

The return of Louisiana and Arkansas is a good augury, and I hope the year 1864 will witness at last the victory of the Union. I think that the South has nothing longer to hope in Europe; on one hand its love of slavery has destroyed it in the opinion of honest men and religious minds; on the other, its want of success has destroyed it in the politicians'. Besides, Europe is so much occupied at home, there is such disquietude on all sides, we feel ourselves so truly on the eve of a universal war, that no one cares to compromise himself with America.

The Mexican war, so universally condemned in France, has at least had the advantage of making every one understand that trans-oceanic expeditions are something too costly, too uncertain and too difficult for it not to be to one's advantage to stay at home. It is also beginning to be said in many directions that the United States are the natural allies of France, and that it would be wrong to concur in their dismemberment. Succeed in re-establishing the Union and extirpating slavery, and you will soon exercise an immense moral influence on the Old World, and will send us liberty by force of example.

The army correspondent of the Houlton Times relates an incident of camp life, showing the precocity of a youth of sixteen, the son of a General, on a visit to his father in the field. On one occasion, when the General's purse was getting low, he remarked that he would be obliged to draw on his banker for some money. "How much do you want, father?" said the boy. "I think I shall send for a couple of hundred," replied the General. "Why, father," said his son very quietly, "I can let you have that amount." "You can let me have it!" exclaimed the General in surprise; "where did you get so much money?" "I won it playing draw-poker with your staff, sir," replied the hopeful youth. It is needless to say that the 9.40 train next morning bore the "gay young gambolier" toward his home.

Give a rogue an inch, and he will take an ell.

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the sale Fever for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some of Swett's pills, five bottles of Dr. Swett's PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicine can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicines failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.
From ELDER I CHESLEY, *Lee, May* 31, 1841.
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has improved so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

For a Medicine that will cure COUGHS, INFLUENZA, TICKLING IN THE THROAT, WHOOPING COUGH, Or relieve CONSUMPTIVE COUGH, as quick as
COE'S COUGH BALSAM.
OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known.
We have, in our possession, any quanity of certificates, some of them from
EMINENT PHYSICIANS,
who have used it in their practice, and given it the pre-eminence over any other compound.
It does not dry up a Cough,
but loosens it, so as to enable the patient to expectorate freely.
☞ *Two or three Bottles will invariably cure TICKLING IN THE THROAT.*
A HALF Bottle has often completely cured the most
STUBBORN COUGH.
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In cases of CROUP we will guarantee a cure, if taken in season. No Family should be without it. It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident that one trial will secure for it a home in every household.
Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syhilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Legs, Tender Shin Bones, Cutaneous Eruptions, Blisters, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and manhappy. The reader is of course aware that the delicacy of this subject will admit of a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. J. has a great work on the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid, for 50 cts. Sent 3 cts. the past year. The single Married and the Married happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Michoi's Italian Female Monthly Pills. The sale of more than 30,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in female.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 9 to 5 P.M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

SATURDAY, MARCH 5, 1864.

THE REBELLION.

The army in Texas is inactive.

The Mobile papers, thinking that Gen. Sherman is marching on that city, call upon the people cheerfully to submit to their approaching doom—Yankee rule.

Letters from the Gulf report that Farragut opened on Fort Morgan, and also give rumors that Beauregard is now in command of Mobile. There are obstructions in the harbor the same as at Charleston. Among Farragut's fleet are ten mortar boats. They also renew the report that Gen. Sherman is marching on Mobile after the capture of Selma and Montgomery. All the noncombatants have left Mobile. There is very little cotton there, it having been removed to Georgia.

An officer has arrived at Cairo from Vicksburg, 28th ult., bearing dispatches from Gen. Sherman when 12 miles east of Meridian. On the 11th, he says, the enemy only numbered seven or eight thousand, and were much demoralized. No fighting had occurred after passing Jackson, Miss. Gen. Sherman had sent a force to Meridian at that date.

The Louisville Journal learns from private sources that Gen. Dodge's army from Pulaski, Tenn., as well as Logan's from Huntsville, has been on the move for several days, acting, it is supposed, in concert with Sherman's army.

A letter from Maj. John Hay states that our total loss, killed and wounded, in the recent battle in Florida was 800 instead of 1200, and that Gen. Seymour acted contrary to orders, or at least, without orders, in pushing his advance so far, and upon him the responsibility for the disaster mainly rests.

A Washington dispatch states the President has received a dispatch from Gen. Butler, saying that Gen. Kilpatrick arrived within our lines on Thursday, with a loss of less than 150 men. Among the missing are Cols. Dahlgren, Cook and Litchfield. The two former are supposed to be prisoners.—Gen. Kilpatrick destroyed a large portion of the Virginia Central Railroad, and several mills along the James River. Long-street is said to have arrived at Richmond before them.

Gen. Kilpatrick penetrated to the suburbs of Richmond.

BOUNTY SYSTEM.—The Secretary of War, in response to a note addressed to him by Senator Wilson, requesting his views regarding the joint resolution of the House to continue the payment of bounties, says that in his opinion the requisite troops can be more expeditiously raised by continuing the payment of bounties, as proposed, than by any other means; 2d, that at present great exertions are being made in the several States to raise their quotas by volunteers, so as to avoid a draft, the people preferring that method of raising troops; 3d, that Generals Burnside and Hancock, the State Legislatures and Executives are earnestly requesting the continuance of the bounties until the 1st of April; 4th, that in his opinion the joint resolution of the House is wise and judicious, and that its speedy passage by the Senate would greatly promote the public welfare and strengthen the military force more quickly and effectually than can be accomplished in any other mode.

☞ The Rockland, Me., Democrat states that among the indictments at the recent term in that city, was one against three boys in St. George, for attempting to rob and murder. The oldest was fifteen years of age, and he with the other two had learned that an old man named Holland had about $400 in money by him, and they matured a plan to go armed in the night time, partially disguised, on the twenty-sixth of January last, in a small boat, across from St. George where they lived, to Cushing, and rob the old man of his money; and accordingly proceeded upon their enterprise, boarded the old man's fishing smack, and Thomas presented a pistol at him, demanded his money, and fired upon him, when the old man being wounded, went below, where he had a gun, and the boys then fled.

☞ Gen. Wild has sentenced Rev. S. H. Wingfield, of Portsmouth, Va., an avowed secessionist, to three months' labor in cleaning the streets of Norfolk and Portsmouth, Va., as a wholesome example to men of education and ability, who use the talents God has given them for the purpose of stirring up strife against the government of the United States.

— The Albany Journal figures the Union gain in the late town elections in New York to be twenty-eight. The numbers stand 269 Union and 108 Democratic. In towns where the Democratic tickets have been elected, there have been greatly reduced majorities.

— Regulars serving in the District of Columbia or in the field can select the State in the quota of which they desire to be included.

NOTES OF FORMER DAYS.

Collected and Collated — By UNCLE TOBY.

Louisburg in 1744.

It may interest some readers to peruse a fuller and clearer account of the great exploit of taking Louisburg, than the mere mention we have already made. We begin with Belknap's description of the place as it was 120 years ago:

The harbor of Louisburg lies in latitude 45° 55. Its entrance is about four hundred yards wide. The anchorage is uniformly safe, and ships may run ashore on a soft muddy bottom. The depth of water at the entrance is from nine to twelve fathoms. The harbor lies open to the south-east.—Upon a neck of land on the south side of the harbor was built the town, two miles and a quarter in circumference; fortified in every accessible part with a rampart of stone, thirty to thirty-six feet high, and a ditch eighty feet wide. A space of about two hundred yards was left without a rampart, on the side next to the sea; it was enclosed by a simple dike and a line of pickets. The sea was so shallow in this place that it made only a narrow channel, inaccessible from its numerous reefs to any shipping whatever. The side fire from the bastions secured this spot from an attack.—There were six bastions and three batteries, containing embrasures for one hundred and forty-eight cannon, of which sixty-five only were mounted, and sixteen mortars.—On an island, at the entrance of the harbor was planted a battery of thirty cannon, 28-pounders; and at the bottom of the harbor, directly opposite to the entrance, was the grand or royal battery of twenty-eight cannon, forty-two pounders, and two eighteen pounders. On a high cliff, opposite to the island battery, stood a light-house; and within this point, at the north-east part of the harbor, was a careening wharf, secure from all winds, and a magazine of naval stores.

The town was regularly laid out in squares. The streets were broad; the houses mostly of wood, but some of stone. On the west side, near the rampart, was a spacious citadel, and a large parade; on one side of which were the governor's apartments. Under the rampart were casements to receive the women and children during a siege. The entrance of the town on the land side was at the west gate, over a draw bridge, near to which was a circular battery, mounting sixteen guns of twenty-four pounds shot.

These works had been twenty-five years in building; and though not finished, had cost the crown not less than thirty millions of livres. The place was so strong as to be called "the Dunkirk of America." It was, in peace, a safe retreat for the ships of France bound homeward from the East and West-Indies; and in war, a source of distress to the northern English colonies: its situation being extremely favorable for privateers to ruin their fishery and interrupt their coasting and foreign trade; for which reasons, the reduction of it was an object as desirable to them, as that of Carthage was to the Romans.

In the autumn, Shirley wrote to the British ministry, representing the danger of an attack on Nova-Scotia, from the French in the ensuing spring; and praying for some naval assistance. These letters he sent by Captain Ryal, an officer of the garrison, which had been taken at Canseau, who, "from his particular knowledge of Louisburg, and of the great consequence of the acquisition of Cape-Breton, and the preservation of Nova-Scotia, he hoped would be of considerable service to the northern colonies, with the lords of the admiralty."—Thus early did Shirley conceive and communicate to Wentworth his great design; and the most prudent step which he took in this whole affair was to solicit help from England. His petition, supported by that worthy officer, was so favorably received by the ministry, that as early as the beginning of January, orders were despatched to Commodore Warren, then in the West-Indies, to proceed to the northward in the spring, and employ such a force as might be sufficient to protect the northern colonies in their trade and fishery, and distress the enemy; and for this purpose to consult with Governor Shirley. Orders of the same date were written to Shirley, inclosed to Warren, directing him to assist the king's ships with transports, men and provisions. These orders, though extremely favorable to the design, were totally unknown in New England, till the middle of April following, before which time the expedition was completely formed.

— There are three men in the Maine State Prison, from Androscoggin county, for killing their wives.

— Gen. Butler has sent a North Carolina negro regiment, 1000 strong, to guard the rebel prisoners at Point Lookout.

— Gov. Gilmore has received a dispatch from Hon. Daniel Clark saying that Government bounties will be continued.

— Senator Wilson telegraphs that enlistments in the Navy are credited to cities and towns.

— The Common Council of Lynn, Mass., have appropriated seven thousand dollars for the purchase of two steam fire engines for the use of the city.

— A schooner, with a crew of eleven men and a boy, brought into Lynn, on Friday, 26,000 pounds of fish, mostly haddock, which was sold for $738.50. The fish numbered upward of 6000.

— The U. S. steam revenue cutter Miami is ordered to St. John, N. B., to receive the pirates captured on the Chesapeake, they having been handed over to the American Consul; and to convoy the Chesapeake to New York.

— The Lancaster, Pa., Trumpet says that after the death, a few days since, of a young woman in Rapho township, "a beautiful white rose and bud made their appearance on her lips, said phenomenon being hard like ivory, and continuing to grow until her interment."

NEW HAMPSHIRE ITEMS.

—— George W. Nourse, Esq., has been appointed Postmaster of Newport.

—— The 14th N. H. regiment, which arrived at Concord on Tuesday, is 780 strong.

—— The Republican canvass of the State does not count the soldiers returning to the State, on either side.

—— We notice that several of our State exchanges make frequent allusions to political matters, just at the present time.

—— C. C. Woodman, Esq., of Boston, and Hon. Edmund Burke had a "tilt" at a political meeting in Newport on the evening of the 1st,—the former in behalf of the Union.

—— The 4th N. H. regiment were successful in their recent reconnoissance to Bell's Island, not a man being injured and 20 rebels being captured. They have since been ordered away and have gone to join our forces at Jacksonville, Fla.

—— The Claremont Eagle predicts that Gov. Gilmore will have a majority of from 2,000 to 3,500; and that the Union party will elect at least three of the five Councillors, eight of the twelve Senators, and forty to sixty majority of the Representatives.

—— Corp. Kennedy, of Tuftonboro', 5th N. H. Regiment, was lost overboard near Fortress Monroe, on the late return of that regiment, and was drowned. Three others belonging to the 5th fell overboard at the same time, but were saved; also Corp. Welch, of the 12th.

—— The Concord Independent states that a list of all the towns in the State, with their quotas and credits, has been made out by Gen. Hinks, which lists show that the State as a whole has furnished 600 men in *excess* of all calls; but that there are *fifteen* towns which *severally* have not furnished their full quotas—a few men more or less being lacking in each—making a total deficiency *as to those towns*, of 80 men. These towns are fast making up the deficiency.

PENNSYLVANIA. — The Legislature of Pennsylvania, which met on the 5th of January, has been kept unorganized by Jeff. Davis till March 1. The people are for the Union; they gave an anti-Copperhead majority of 15,325 last October, on the fullest vote ever cast in that State. They then elected a Union War majority to either branch of the Legislature, and supposed the whole matter settled. But Jeff. Davis held one of the Union Senators (Col. White) prisoner of war at Richmond, and his friends in Pennsylvania determined to make the most of their good luck, knowing they could count on Jeff.'s standing by them to the last. So they demanded half the offices of the Senate, and would consent to no organization without such concession. Every effort to effect an exchange of Col. White was of course defeated. But means were at last found to procure and forward his resignation; whereupon a special election was held in his District, and another good and true Unionist, Dr. St. Clair, chosen in his stead by 2000 majority. Dr. St. Clair having reached Harrisburg with his certificate of election in his pocket, was escorted to the Capitol by a procession of four thousand Unionists, took the oath of office after the reading of the official returns; when the bill enabling the soldiers of Pennsylvania who may be in service next Fall to vote where they are, was at once called up and passed. Yeas, seventeen; Nays, sixteen—a square party vote. There *was* a little cheering when that vote was announced—only about equal to a good-natured earth-quake. Then the old clerks were re-elected by seventeen votes to sixteen blanks; and the Legislature settled itself to the long-deferred work of the session. The Democrats filibustered, to prevent business going on, and finally refused to vote at all. Their rage at the possibility of the soldiers voting was as bitter as it was impotent.

Pennsylvania, tried as by fire, stands fast by the Union cause.

Why did these legislators wish to prevent the soldiers from voting? Because they know that a large majority of the soldiers would vote against them and their schemes.

This fact gives the only true answer; and it applies as well to New Hampshire and other States, as to Pennsylvania. U. T.

— By authority of a joint resolution passed by Congress on Thursday, the payment of bounties will be continued until further orders.

— Gov. Curtin, of Pennsylvania, has written to the President, requesting him to postpone the draft until April 10th, stating that the quota of Pennsylvania would be filled by that time.

— A captain of a blockade running schooner lately landed at Point Isabel with $19,000 in gold in his possession, and was captured by our forces. He did not know the rebels had been driven from there.

— Foreign advices report that the rebel privateer Georgia quietly slipped away from Cherbourg Roads at midnight, Feb. 15th, and stood out to sea. Three American vessels arrived in the Roads about the time of the Georgia's departure, from Callao for Havre.

LOUISIANA ELECTION. — The whole Free State ticket has been elected by an overwhelming majority. An unexpectedly large vote was thrown. The election passed off without tumult of any kind although the interest and enthusiasm manifested surpassed any previously exhibited. There were three tickets in the field: the regular state and Administration ticket, headed by Hon. Michael Hahn; the Conservative ticket, with J. Q. A. Fellows for its standard bearer, and the one nominated by the bolters from the Free State Convention (the Radical ticket) led by B. F. Flanders. The vote stands as follows, as far as heard from: Hahn, 5797; Fellows, 2776; Flanders, 1925; total vote of the State, 9898. Hahn's majority over Fellows, 3621; over Flanders, 3872; over both, 1696. The few country parishes to hear from will probably swell the total State vote to 11,000, and give Hahn a majority over all opposition of over 2000.

The result is a great triumph for the Free State party and the Administration. The vote will be nearly three-tenths as large as the one cast at the last Presidential election, while only one-tenth was required to bring back the State into the Union. The dispatch says Gen. Banks is, if possible, more popular than ever with the Free State men. Even his opponents admit the justice of the statesmanship which has marked his course. Preparations have already commenced for the election of delegates to the Constitutional Convention.

ITALY.—The Paris correspondent of the London Times says that rumors not unlike those preceding the Italian war are in circulation. Now, as then, it is said agents are in France, buying arms and munitions of war of all descriptions, for account of the Italian Government, and naval stores are purchased by them with the permission of the French Government. It is consequently conjectured that an attack on some port of the Adriatic is contemplated by the Italian Government.

DR. TEBBETTS'

PHYSIOLOGICAL

HAIR REGENERATOR

AND

UNIVERSAL HAIR RESTORER.

ITS MODUS OPERANDI.

Immediately beneath the scalp there are very small glands, or, more commonly Roots of the Hair. It is from these Glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.

To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Iandin, Sulphur, &c., and producing only a sort of yellow or flax color, it will, if properly applied restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in application.

2. It will certainly RESTORE the hair from a gray to a beautiful *Black, Brown, Auburn*, or whatever might have been its original color.

3. It will effectually prevent the hair from falling off, remove all Heat, Inflammation and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.

4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.

5. It will cure the most inveterate itching and neuralgia of the scalp, and being highly perfumed, it affords a most delightful article for the toilet.

We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator; and it is positively certain that in a very short time it will have a world wide reputation.

HOME TESTIMONY.

BEDFORD, N. H., Dec. 17, 1863.

Messrs. Tebbetts Brothers—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and now it is almost dark. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diphtheria, it stopped it immediately on its application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only used one bottle, and I think one more will fix our heads up in good shape. J. C. CUTLER.

MANCHESTER, Dec. 20, 1863.

Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be prepared. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, when about two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. JACOB J. ABBOTT

Administrator's Sale

—OF—

Valuable Real Estate,

ON RICHARDS AVENUE.

Under a license from the Hon. Judge of Probate, I shall sell at public auction, on the premises,

On SATURDAY, the 26th day of March next, at 12 o'clock, noon,

The Real Estate of the late JOSEPH GREEN, situate on the westerly side of Richards Avenue, (formerly Andrews street,) being the homestead occupied by the deceased in his lifetime. The lot has a frontage of thirty feet on the Avenue, and a depth of eighty feet, extending back as far as the estate of Dr. Wm. R. Preston. It has upon it a convenient house, two stories high, and large woodshed. The garden has many excellent fruit trees in good bearing order. The fine situation of this estate, with its extensive prospect, the excellence of the neighborhood, and its accessible location, render this a rare opportunity for purchase, either for investment or occupancy.

Terms of sale—Cash. The purchaser will have no difficulty in obtaining any reasonable sum upon a mortgage of the premises, if desired.

Local.

☞ One of Uncle Toby's friends in the Democratic party suggests that the *masses* of that party are as heartily devoted to the interests of the country, and as earnestly desirous of subduing the rebellion as any other citizens whatever; and that he and they are willing to devote men and money to the object, though they differ with the Administration as to measures of reconstruction.

This is well—and we believe it mainly true;—and we have said nothing to the contrary,—though we have spoken very plainly against the policy of the men who *lead the party here*,—and with whom and at whose bidding these masses *have* voted. These leaders, some of whom we named, and more whom we could name, have opposed every measure of *our* government from the beginning of the war!—their only representative does so!—their only press does so.

If these masses, as we believe, really wish to uphold our own government, and not aid the rebels,—it is hard to see why they should *continue* to vote exactly as these leaders and the rebels would have them.

To vote for Vallandigham in Ohio—and to vote for his particular friends here, is to vote *for the rebellion*, and against the United States—neither more nor less. Wise men will not do it. U. T.

BARNUM's Lecture at the Temple, Thursday evening, was, of course, an interesting performance—and no less valuable and instructive than laughable and amusing. The audience was an intelligent and appreciative one, but not so large as it would have been did not politics run so high just now—and there is no question but that the general anticipations of a jam, prevented such an occurrence.

Barnum says he has tried being both poor and rich, and he *prefers* the latter, as the most comfortable—and he says every body else, almost, does too, no matter how they talk. But he reasons very sensibly about the matter, and so does not set wealth above virtue, integrity, or intelligence, by any manner of means. Nor does he recommend meanness, parsimony, overreaching, or dishonesty, as a method of getting rich. On the contrary, he advises industry, economy, and honesty as the best policy—and he gave the best argument we ever heard, that honesty is a policy, as well as a virtue. Neither does he inculcate a desire for sudden or great gains—but rather to make haste slowly.

Altogether, the lecture,—which was, rather, a familiar, colloquial talk,—was one of the most satisfactory evening's entertainments we have enjoyed for a long while; and all who were so fortunate as to hear "the Prince of Showmen," as Mr. Head introduced him to his audience—came away fully impressed that Mr. Barnum is a very pleasant speaker, a most agreeable and accomplished gentleman, and in no small or low degree, a scholar. Certainly, there was no sentiment or idea advanced which the strictest constructionist could object to—and Franklin (whom he justly termed one of the greatest philanthropists) was his authority for many a precept and maxim. We are sure all who saw and heard Barnum will cherish the most pleasant memory of him.

☞ The concert given at Rechab Hall, in this city, on Thursday evening, by the "National Quartette," (consisting of Mrs. Rebecca P. Maloon, Messrs. Charles D. Perry, Wm. G. Joy, and Adams Perry,) was an agreeable entertainment; and it being local talent, we were pleased to observe that it was appreciated by a well-filled hall, and a quiet and attentive audience. Their programme was very good, although not varied quite enough to suit the tastes of all. But it is well worth the price of admission to hear Messrs. Joy and C. D. Perry sing the duett, "Larboard Watch." The songs and choruses entitled "Star of Freedom," "Uncle Sam's Hotel," and some other pieces well calculated to bring out the voices of the four, were rendered exceedingly well. We trust they will soon give an exhibition of their musical talent in the Temple, where we will guarantee them a full house and a fair remuneration, if they will charge 25 cents admission instead of 15. G.

☞ Union caucuses for the nomination of Representatives to the General Court were held in the several Wards on Friday evening, and the following nominations were made:—

Ward One—Horton D. Walker, William C. Hatch, Alfred W. Haven, and John H. Moran.

Ward Two—Aaron H. Hill, William H. Hackett, George W. Tucker, and Henry A. Yeaton.

Ward Three—Ezra A. Stevens and John E. Ham were unanimously elected.

☞ In the list of Patents issued during the week ending Mar. 1, we notice one to Rosanna Carpenter, of Portsmouth, N. H., for improved raisin stoner.

PERHAM'S MIRROR OF THE REBELLION, which is to open at the Temple on Wednesday evening next, we learn from our exchange papers, is meeting with great success wherever it goes, and we predict for it a brilliant career in this city. It is a splendid exhibition, and its merits as a work of art alone are enough to ensure its full success; and then the object to which it is devoted commends itself to every lover of his country, and the brave men who have been disabled in its defence.

☞ Rev. T. Starr King died at San Francisco, on Friday morning, of diptheria. The announcement will bring sadness to many hearts.

— A man was convicted of blasphemy in a Canadian town last week, and sentenced to three month's imprisonment at hard labor and to pay a fine of five dollars.

— Some of the Confederate sympathizers in New Brunswick are very indignant that the Police Magistrate should say that the capture of the Chesapeake was the "act of a coward and villian."

— Rev. Dr. Worcester of Salem, one of the most earnest and able preachers of the Orthodox Congregational faith, preached all day, last Sabbath, for the Universalist Society in that city—Rev. Willard Spaulding's.

— A Connecticut doctor was killed by joy the other day. He received a dispatch saying that his son, a soldier, was "no more;" went on, found that he was "no worse," and the reaction brought on an illness, terminating fatally in four days.

— A lady writing from Richmond says of Jeff. Davis—"President Davis seems discouraged, and I fear is failing rapidly. The responsibilities, disappointments and fault findings of his friends have broken him down, and it is hardly probable that he will live to see the end of the war."

STARTLING! BUT TRUE.—The volunteers are braving the dangers of fever, scurvy, wounds and cholera. ☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. ty.

"Be thou chaste as ice and as pure as snow, thou shalt not escape using unhealthy compounds in your food," was a true maxim, until Herrick Allen's Gold Medal Saleratus came to our relief. Since using it, we feel that there is one article in the way of Saleratus that all can use with healthy results. We have almost cured our dyspepsia, and thanks to the Gold Medal Saleratus for it. Try it, and you will say with us, that perfection has been obtained, and the inventor has immortalized his name forever. Most of the Merchants have it.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as heroic as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases can only be cured by the "slow recuperative process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is needed is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all diseases of DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Parsis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stom'h, Billiousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Strums, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritis, Neuralgia, Gout, Lumbago, Sciatica, The Dolorous.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings reduced. Cases, curable or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St. Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering women will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES,

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the first one is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the youngest portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Coldness of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with intermittent pain and ulceration, may be permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much stir is being made.

This bread is the most economical and healthful ever made, and is very palatable when properly prepared. Good results depend upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.

The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

Every housekeeper should have one.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES. It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases the quantity and quality of the food—Those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

THE CHRISTIAN REGISTER, Boston.—This old and favorite organ of the Unitarian denomination has been greatly improved by recent changes in its management, and is thus adding to its well-earned reputation. The proprietor, Mr. David Reed, who has given scores of years to the conduct of his journal with conscientious diligence and strict loyalty to the religious views it was established to advocate, has engaged the services of Rev. Solon W. Bush as editor, and associated with him an attractive list of regular contributors, including some of the most prominent of the clergymen of Boston. This enlargement of the home force of writers is accompanied by the engagement of trustworthy English correspondents. Mr. Bush has always shown that he possesses the right qualities for his position. He has introduced several changes in the "make up" of the paper, giving to each issue spirit and life and vivacity. One of the new features is the weekly digest of foreign religious intelligence, quite compendious and carefully arranged. The Register deserves well of its old, and should secure hosts of new friends, for adding to its long services in the past this enterprising movement, which promises to increase the attractiveness and usefulness of its instructive columns.

☞ The Municipal Election in Alexandria, Va., where J. P. L. Westcott, Esq., was the candidate on the "Reform ticket," came off on Monday, March 1st. On the Friday evening preceding, Mr. Westcott addressed a great meeting of "Reformers," in reply to a Mr. Massey, who had been put forward as the advocate of Mr. Ware, the present Mayor, and the opposing candidate. His speech is published in the Alexandria Gazette. He advocated free schools, a good police, a better fire department, and the maintenance of all the rights of the city. He stated that in the last two years, with 18,000 population, the vote had only been 127 and 137. It was expected now to go to 500, and he predicted that in another election it would be two or three times that number.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (see the Act of 1837.)

76 State street, opposite Kilby street,

Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American and Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is a MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, place him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a more *skilful, more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all the most of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JONAS WOGGARY.

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SEVEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus or Whites to female; where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent*; removing all scalding, heat, chordee and pain, instead of the burning and intense irritation while pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write to us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $1 per bottle, or three bottles for $5.

Price—CHEROKEE INJECTION, $1 per bottle, or three bottles for $5.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the dreadful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which dependence can be placed in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been so efficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, trust not the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatise in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

BEFORE TAKING THE Elixir. AFTER TAKING THE Elixir.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few doses cure Hysterics in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses cure the Nervous Headache.

One bottle restores mental power.

A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, broken-down and despairing devotee of sensual pleasure.

The ladies enervated youth, the over-tasked man or business, the victim of long-wrought oppression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

CHEROKEE PILLS!

SUGAR-COATED.

FEMALE REGULATOR.

Health Preserver!!

CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Insurance of Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Hesitness, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, Fits of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it all the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to situate strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, *except during the first three months*, during which the unfeeling nature of their action would inevitably prevent pregnancy.

All letters for advice or information or advice will be promptly, freely and discreetly answered.

Full directions accompany each box.

LAST AND BEST.

THE MODEL COOK,

AN AIR-TIGHT STOVE,

WITH TWO OVENS,

And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single piece of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either side, when needed.

In fact, no pains or expense have been spared to make this a PERFECT STOVE, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, comfort and convenience are desirable, should be without one.

We refer to some parties who have purchased the Model Cooks.

A Great Variety of Cheaper Stoves

FOR WOOD OR COAL.

E. A. STEVENS'S

House Furnishing Establishment,

NO. 46 MARKET STREET

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given quantity of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former modes, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron M. Hill,	Charles H. Meadum,
Henry F. Wendell,	John Sise, and others.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

FEMALES, WEAKLY PERSONS, INVALIDS

SAMBUCUS TREE, OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by British physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is esteemed for its peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

"Bound to no party—to no sect confineds the world our home; our brethren all mankind. Love truth, do good, be just and fair with all; Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—It is common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

"Essay on the Mule."—*By Josh Billings.*—The mule is half hoss and half jackass, and then comes to a full stop; natur discovers her mistake. Tha weigh more accordin' to their heft than any other creetur except a crowbar. Tha kant hear any quicker nor further than the hoss, yet ther ears are big enuff for snow shoes. You kant trust them with any one whose life aint worth more than the mule's. The only wa to keep them in a pastur, is to turn them into a medder jinein, and let them jump out. Tha are reddy for use jest as soon as tha will do to abuse. Tha haint got no more friends than a Chatam street Jew, and will live on a huckle-bury bush, with an ocksional chase at Kanada thistles. They are a modern invenshun; I don't think the Bible deludes to them. Tha sell for more munney than enny other domestic animals. You kant tell ther age by looking into ther mouth enny more than you kould a Mexican kannon's. Tha never had no disease that a good club would not heal.—If tha ever die, tha must kum rite to life again, for I never heard nobody say "dead mule." Tha are like sum men, very korrept at hart; I've known them to be good for six months jest tew git a chance to kick sumbuddy. I never owned one, nor never mean to, unless there is a United States law passed requirin it. The only reas'n tha are so patient is becos tha are ashamed of themselves. I have seen educated mules, in a surkus—tha would kick and bite tremenjis. I would not say what I am forced to say agin the mule, if his birth want an outrage, and he haint to blame for it. Enny man who is willin to drive a mule ought tu be exempt from running for the Presidency. Tha are the strongest kreeturs on arth, and heviest according to their size: I heerd tell ov one who fell oph the tow-path on the kanawl, and sunk; but as soon as he tuched bottom, he kept rite on towin the bote to the nex stashun, breathin thro his ears 3 feet 6 inches. I didn't see this, but an auctioneer told me uv it, and I never knew an auctioneer to lie unless he knew he would make sumthin out of it.

Horse Instinct.—A cart horse, noted for its sagacity, once found a wagon obstructing the way which led to his stable. The space was too narrow to allow him to pass on either side. Placing his breast against the vehicle, he pushed it onward till he came to a part of the road which was wide enough to enable him to go by it. On another occasion, a large wide drain had been dug in the same road, and planks laid over it, on which he could cross. It was winter, and one morning, the planks being covered with snow and ice, in stepping upon them his feet slipped. He drew back, and seemed at a loss how to proceed. Near the plank was a heap of sand; he put his forefoot into this and looked wistfully to the other side of the drain, where stood the boy who was accustomed to attend him. Seeing his hesitation, the boy called him. The horse immediately turned round, and first with one foot and then with the other, scraped the sand over upon the planks till they were completely covered. He then, without hesitation, trotted directly into the stable. Some horses kept in an enclosure together were supplied with water by a trough which was filled from a pump. One of them learned, of his own accord, to supply himself and his companions, by taking the pump handle between his teeth and working it with his head. The others, finding that he could thus supply their wants, would force him, by biting and kicking, to pump for them, and would not allow him to drink till they were satisfied.

Rebel Honor.—Two years ago Jeff. Davis's agents in Europe raised several hundred thousand dollars by selling bonds, based upon several millions of bales of cotton, held by his government. The Richmond Enquirer now seriously proposes to raise money by selling this cotton which has already been pledged to European bondholders. The cotton loan is to be repudiated like Jeff. Davis's Mississippi loan. Another exhibition of the honor of slaveholders.

Rye, N.H., Feb. 28, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—so much so as to be badly so as to prevent her labor, or even rest—as it affected her faces very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrups, &c., but to no effect. At this time I procured some ten or twelve bottles of Dr. Swett's Panacea, and several bottles of his Humor Syrup, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it.
Joseph Jenness.
Portsmouth, April 21st, 1862.
I have for several years been afflicted with dizzines at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of Dr. S. Swett's Panacea, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health.
M. Lowd.
From Elder I. Chesley, *Lee, May* 31, 1841
Dr. Swett: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your Panacea and Humor Wash. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named.
Israel Chesley
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to Dr. S. Swett, No 7 High street, Portsmouth, N. H., promptly attended to. may26

OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known.
We have, in our possession, any quantity of certificates, some of them from
EMINENT PHYSICIANS,
who have used it in their practice, and given it the pre-eminence over any other compound.
It does not dry up a Cough,
but loosens it, so as to enable the patient to expectorate freely.
☞ *Twenty or five Bottles will invariably cure TICKLING IN THE THROAT.* ☜
A HALF Bottle has often completely cured the most
STUBBORN COUGH.
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In cases of CROUP we will guarantee a cure, if taken in season. No Family should be without it. It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident that one trial will secure for it a home in every household.
Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

MONDAY, MARCH 7, 1864.

THE REBELLION.

There was heavy firing in front of Newbern, N. C., on the 1st, and all the citizens were arming themselves, to be ready for any emergency.

The N. Y. Tribune's dispatch says that the rumor concerning the attack upon Mobile and Selma by Sherman was simply to divert the public attention from the real object of the expedition, which aims at an invasion of Georgia somewhere between Trenton and Lafayette.

Gen. McPherson's corps is reported to be at Jackson, Miss., again; and Gen. Sherman, it is said, is on his way thither.

Gen. Kilpatrick reports that Col. Dahlgren was ordered to make a diversion with 500 men on James river, and on Tuesday afternoon attacked and drove the enemy in on Richmond. The main attack having failed, Col. D. attempted to rejoin Gen. K., near Meadow Bridges, but he with Col. Cook and 50 men, in the advance guard, became separated from his main force, since which nothing has been heard from him.—The main force reached Gen. Kilpatrick with slight loss.

The N. Y. Times' dispatch says Gen. Meade has been summoned to Washington by the President, to answer the charges preferred against him by Generals Sickles and Doubleday before the Committee on the Conduct of the War.

It is said, Gen Grant recommends Gen. Smith as Gen. Meade's successor.

NEW HAMPSHIRE ITEMS.

—— A fire caught in Smyth's Block, Manchester, on Thursday evening, from a stove, and although the steamers soon extinguished it, the damage by fire and water was considerable.

—— Surgeon William H. Thayer of the 14th New Hampshire regiment has been fully restored to rank by order of the President, and will return at once to Concord to rejoin his regiment, which will sail on the 12th March for New Orleans.

—— The Mirror says: "Never but once have we known business so good in Manchester, as now, and if it increases as it has since January it will be larger than in 1857. The payroll for labor in our leading corporations is now over one hundred thousand dollars per month, and increasing. There is demand for hundreds of more laborers, male and female, than can be obtained, at high wages."

WITH FORCE AND ARMS.—A loyal paper in Maine has the following paragraph:

It cannot be too earnestly impressed alike upon the Government and the people, that the one great work of the hour is the destruction of the military power of the rebellion. All other considerations—all other duties—sink into insignificance beside this. Until it is done there can be no hope of peace, and no certain assurance of the safety of the Union and the salvation of the country. As long as we are confronted by powerful armies; as long as the enemy defies our arms within a few leagues of the National Capital; as long as he seeks not only to hold his own but to drive us from the territory which we have already conquered; we can make no effective use of any other agency or instrument but the sword. All arguments but the arguments of hard blows will be vain. All legislation but the legislation of the bayonet and the bullet will prove impotent for the public good. All appeals but such appeals as are issued from the mouth of the cannon will fail to bring the enemy to terms.

There is truth in this: even Gen. McClellan says in his new book:—

I believe that a necessary preliminary to the re-establishment of the Union is the entire defeat or virtual destruction of the organized military power of the confederates!

Yet we have our Woods, Vallandighams, Pierces, and others of less note, who propose to halt, withdraw our forces, and in fine, *submit* to a clan of rebels, thieves, and incendiaries. But are the people ready for all this? If not, they should vote against the rebels and their tools the traitors. U. T.

☞ The N. Y. Tribune's special dispatch from Washington states that "the fact which transpired before the War Committee, that Gen. Meade, on the night of the first day's fight at Gettysburg, gave an order to retreat, which was rendered impossible by one of his corps commanders getting into a fight, (some of the newspaper correspondents knew that the commander had a copy of the order in his pocket at the time,) was made the subject of a speech in the Senate on Wednesday. It was also made the opportunity last Sunday of a demand upon the President, by an eminent Senator, for the removal of Gen. Meade. It is said that the War Committee called upon the President on Thursday and renewed this demand."

GREAT GUNS.—The pair of great guns which government is having cast—one in New Jersey and the other in Pennsylvania—are to carry shot weighing about one thousand pounds each, which will penetrate the iron armor of vessels as a rifle ball will go through a sheet of tin. The weight of each will be in the vicinity of 110,000 pounds, and the cost of each about $30,000. They are to be smooth-bores, but the Ordnance Bureau is now laying "rifled" on the James plan all the smoothbore heavy guns on the fortifications around Washington.

STARR KING (the name by which we love to call him) has passed from earth away; silently, suddenly; to us sadly, but to him gloriously. At the age of forty, in the midst of ministerial and civil usefulness, honor and power, his eye undimmed, his heart unchilled, his domestic circle happy and unbroken,—like a flower he is cut down—and tears unbidden come to moisten the eyes of thousands who have listened to his eloquent words of manly, patriotic and christian appeal.

But he lives on, in the hearts of those who loved him, in the gratitude of those who were blessed by him; in the presence of that Redeemer who said, Whoever liveth and believeth in me shall never die! and of the God of Abraham, Isaac and Jacob, who is the God, not of the dead, but of the living.

The San Francisco dispatch of Friday says: "The sudden and unexpected death of Rev. Thomas Starr King to-day at once surprised and saddened the whole community. Business was nearly suspended. The courts adjourned, the public offices were closed, and the flags on every flag-staff put at half-mast, including those on every church that ever raised a flag.

It is universally conceded that no man had ever done so much as he towards making California loyal, while his untiring zeal in promoting every benevolent enterprise made him generally beloved."

A similar record might be made of him in Boston and Charlestown.

Rev. Thomas Starr King was born in New York city, Dec. 17, 1824. His father, Rev. Thomas F. King, removed to Portsmouth in the year 1828, and remained here till near the close of 1835, so that Starr spent a portion of his early school-boy days here, of which he made ample mention when he met here with "the sons."

From this place his father removed to Charlestown, Mass., as pastor of the Universalist society there, and in that city Starr King went through a course of study preparatory to entering College. This last project, however, was frustrated by the death of his father. But while discharging the duties of a public school teacher, and clerk in the Navy Yard at Charlestown, he pursued an extensive course of study, and made rapid progress. In September, 1846, at the early age of twenty-one, he was ordained the pastor of his father's parish in Charlestown, as the immediate successor of Rev. E. A. Chapin. On the 17th of December, 1848, he married Miss Julia M. Wiggin, of East Boston, who, with two children, survives him. In the same month he was installed as the successor of Rev. David Fosdick, in the pastoral charge of the Hollis Street Church, Boston, where he continued until the spring of 1860, when he relinquished his charge, to the regret of his society, impelled by a conviction that a wider field of usefulness was opened to him in San Francisco. The result justified his hopes and his expectations. He built up a flourishing society, which has just completed a new and beautiful church, to which he gave an organ, purchased with funds which he had earned by lecturing.

Letters have been received from him within a few days, full of joy at the success which attended the erection of his new church, and replete with buoyant anticipations of the future. In a letter to the editor of the Transcript, written about a month ago, he said he should employ all his leisure hours in the spring, in advocating the claims of the Sanitary Commission in the interior of California.

——But "the silver cord is loosed and the golden bowl is broken."

Mr. King was a man of genius and eloquence. And it was not alone as a pulpit orator that this was displayed. As a lecturer and author his talent was scarcely less conspicuous. He was a frequent contributor to the periodical and newspaper press, availing himself of every agency for extending an influence which was ever exerted on the side of justice, humanity, patriotism and Christian morality. His usefulness in the West was not limited to his own society, or even to the city of his temporary residence, but was felt throughout the whole of California, where his eloquent and patriotic appeals in behalf of the Government have strengthened the cause of the nation, and contributed to firmly fix that State in the galaxy of the Union.

☞ A newspaper correspondent writes as follows in relation to the loss of the U. S. steamer Housatonic:—

The torpedo was seen as it approached the ship in the darkness of the night. Capt. Pickering, who was below, was called and instantly gave orders to slip the chain, and get under way, but before this could be accomplished the torpedo struck her in the quarter, and literally blew her stern away, and she soon went down. Five men went down with her, the rest were saved.—We have understood that a ship-of-war, when lying at anchor, always has a boat rowing guard around her, when the weather permits, but in this case we have not yet heard anything of a guard boat. It seems to us if there had been one, those on board of her would have been able to have given the alarm in season to save her. The Housatonic was a first class sloop-of-war, about two years old, and one of the best in the Navy. She was built at Charlestown Navy Yard, mounted 9 guns, was a propeller and measured about 1,240 tons.

— Oyster-house arithmetic—"One's two."

— Temperance leagues are forming in all the principal towns in Vermont.

— The Nova Scotia grindstones are now largely superseded by those obtained in Ohio.

— Gen. Scott has nearly completed his autobiography, tracing his personal history downward from the earliest period.

— It is said that the donor of $90,000 to Yale College, for the erection of a new dormitory, is A. T. Stewart, the wealthy dry goods dealer of New York.

— Harry Macarty, well-known as the "Arkansas Comedian," and author of the popular rebel air "The Bonnie Blue Flag," died lately near Atlanta, Ga.

— Col. John Glidden, one of the heaviest shipbuilders of Maine, died at his residence in Newcastle 20th ult., lacking a few months of 80 years of age.

— The bell on the Globe Steam Mill, Newburyport, rang out its merry peals on Tuesday morning, 23d ult.,—the first time for the past two years and a half.

— The prisoners of war held in Richmond on the 26th ult. numbered 9,116, including 1,021 commissioned officers. The number had been deceased by 2,400 sent to Americus, Georgia.

— It appears from a letter of the Commissioner of Pensions that only twelve of the Revolutionary soldiers are now living, whose ages range from 94 to 105 years, and whose pensions only amount to from $24 to $96 per annum.

— A dispatch from Provost Marshal Fry states that the "orders requiring a draft on the 10th instant are suspended," and that "a subsequent day for commencing the draft will be announced in time to make all necessary preparations."

— Green Clay Smith, Representative in Congress from Kentucky, has been dangerously ill with diphtheria, in Washington:—At one time he was saved from strangulation by a friend, who, with his finger, tore from his throat the false membrane, as it is called.

— During a search at a house in Gloucester for goods stolen during the recent fire, a ready-made coffin was found (stolen from one of the dealers) with the top knocked off, and rockers upon the bottom, making a serviceable cradle, in which a babe was comfortably snoozing.

— Some time since Gen. Thomas assessed a number of Tennessee rebels in the sum of $30,000 for the murder by guerrillas of one Michigan and two Wisconsin soldiers. A few days since, the widow of one of the soldiers, living near Delevan, Wis., received her share, $10,000 in cash, and invested it in Government securities.

— A Columbia (S. C.) journal says that another swift steamer, armed and equipped for her peculiar vocation, has made her escape from British clutches, and is by this time playing havoc among Yankee merchantmen. She is under the command of Capt. North, with Capt. Hamilton of South Carolina as First Lieutenant.

— The real estate owned by the city of New Orleans, and free from all incumbrances, is assessed at $11,235,000, which before the war produced a large revenue, and it is said a proper city charter will bring the expenses of the city government down to such a degree as to require no taxes on property except for the payment of city bonds.

— The sentence passed by Gen. Wild upon the Rev. Mr. Wingfield of Portsmouth, Va., compelling him to work with a chain gang in sweeping the streets, has been remitted by Gen. Butler, who, in his order, says—"his punishment is remitted not from respect for the man, or for his acts, or because it is unjust, but because its nature may be supposed to reflect upon the Christian Church, which, by his connection with it has been already too much disgraced."

UNPLEASANT SEQUEL TO A PRACTICAL JOKE.—Samuel W. Day, who was convicted of sending a false marriage notice to the Boston Journal, was sentenced at Taunton last week to pay a fine of $25 and cost of prosecution. Another complaint for sending a similar notice to the Taunton Gazette, was laid on file. Bad Day's work for him.

☞ Gen. Butler has sentenced Geo. M. Bane and W. H. W. Hodges of Portsmouth, Va., to hard labor at Halteras, for fraudulent disposal of the funds of the Portsmouth Savings Bank and the Mechanics' Savings Bank of that city. Bane was cashier of the first named institution, and Hodges cashier of the latter. All the funds of the two banks, it seems, were sent to Richmond, and the two officers refused to divulge to the Bank Investigating Committee by whose authority the transfers were made.

☞ The Richmond Whig of February 23 has a noteworthy article, entitled "The Hour of Trial," in which the military and financial condition of the Confederacy is considered, and Fernando Wood, Franklin Pierce and Seymour of Connecticut are boldly claimed as champions of the South. The article in the Richmond paper says:

On moral grounds the justice of our cause has been vindicated by the ablest intellects in Europe and by the best men at the North. Fernando Wood, Franklin Pierce, Seymour of Connecticut sustain us, in the moral sense at least.

YOUNG BLOOD.—Gen. Kilpatrick and Gen. Custar, whose exploits are to-day the leading theme of newspaper comment and of social remark, are both of them men in the bey-day of youth. Kilpatrick is twenty-eight years old, and has been a widower for about a year. Custar, the youngest general in our service, is but twenty-four years of age and was married only three or four weeks ago. Both of these brave young men are West Pointers, and were graduated in the same class—that of 1861. Gen. Averill, who made the brilliant raid into Western Virginia, is a little the senior of these two. He is now lying in Washington with both feet suffering severely from frost-bite. During the dash into Southwestern Virginia he was at one time forty-eight hours in the saddle, exposed to the fury of a bitter cold storm, and he has been disabled ever since. He is recovering, and will be, before long, once more in the saddle.

☞ On all stoves, when in use, there should be a gallon of water, and in all rooms where there is a fire, there should be a thermometer. B.

OFFICE LIGHT-HOUSE BOARD,
February 15, 1864.

SEALED PROPOSALS will be received at this office until 10 o'clock P. M. on SATURDAY, the 19th day of March, 1864, for supplying the Light-house Establishment with fifteen thousand gallons of the best quality pure winter strained lard oil, and thirty thousand gallons of the best quality pure winter strained sperm oil, to be divided into four lots, and to be delivered at the times undermentioned, alongside of the government supply-vessels, or at the warehouse or other place of deposit, to be designated by the Inspecting Officer or other authorized agent of the Light-house Board, in strong, tight, well-made casks, suitable for shipping, in good order, of an average capacity, each, of from eighty to one hundred gallons.

The lard oil will be delivered at Boston, Mass., for special inspection.

Any one of the lots of sperm oil, or all of them, may be delivered at New York, New London, Bay Harbor, Boston, New Bedford, Edgartown, or Nantucket, at the option of the bidders. The place of delivery must be distinctly stated in the bids, and will be considered in the contracts.

The four lots will be delivered as follows, viz:

LOT NO. 1. Ten thousand (10,000) gallons sperm oil on the 1st day of April, 1864, or as soon thereafter as the proper tests and gauging can be completed.

LOT NO. 2. Fifteen thousand (15,000) gallons lard oil on the 1st day of May, 1864, or as soon thereafter as the proper tests and gauging can be completed.

LOT NO. 3. Ten thousand (10,000) gallons sperm oil on the 1st day of June, 1864, or as soon thereafter as the proper tests and gauging can be completed.

LOT NO. 4. Ten thousand (10,000) gallons sperm oil on the 1st day of August, 1864, or as soon thereafter as the proper tests and gauging can be completed.

No part of the oil proposed for and to be embraced in the contracts under this advertisement will be accepted, received, or paid for, until it shall have been proved to the entire satisfaction of the person or persons charged with its examination, test and inspection, to be of the best quality pure winter strained or bagged oil, and free from mixture with other or inferior oils and adulterations.

The usual means for determining the character and quality of the oil will be employed, viz: specific gravity, burning the same in the lard lamps, and any other proper tests to arrive at correct conclusions that may be deemed necessary.

The casks must be gauged, under the direction and personal supervision of the inspecting officer, by a custom-house or other legally authorized and sworn gauger, according to the United States standard, and must be marked and accepted before they are removed from the cellar or warehouse of the contractor. The temperature of the oil will be accurately noted, and the measurements reduced to the standard temperature of 60° Fahrenheit by tables prepared for the purpose.

Proposals will be received and considered for each lot separately, or for all of the lots, at the option of the bidder; but no bids will be considered for a less quantity than that specified as one lot, to be delivered at one time and place. Each bid must be explicitly the rate per gallon, in writing, the number of the lot or lots bid for, and the time and place of delivery, conforming to this advertisement.

Bids submitted by different members of the same firm or copartnership will not be considered.

The Light-house Board, under the authority of the Department, reserves the right to reject any bid, although it may be the lowest, for other considerations than the price.

No bid will be considered for any other kinds or descriptions of oils than those specifically called for in this advertisement.

A bond, with security to the satisfaction of the Department, in a penalty equal to one-fourth of the amount of each contract made under these proposals, will be required of each contractor, conditioned for the faithful performance of the contract, to be executed within ten days after the acceptance of the bid.

Every offer must be accompanied by a written guarantee, signed by one or more responsible persons, and known to the Department as such, or certified by a United States district judge, attorney, marshal, or collector of the revenue, to the effect that, if the bid or bids be accepted, the bidder or bidders will duly execute a contract in good faith, according to the provisions and terms of this advertisement, within ten days after acceptance; and that in case the said party or parties offering shall fail to enter into the contract as aforesaid, he or they guaranty to make good the difference between the offer of the said party or parties and the next lowest bidder.

All bids must be sealed and endorsed "Proposals for oil for light-houses," and then placed in another envelope, and directed, prepaid, to the Secretary of the Light-house Board, Washington City.

All bids will be opened, publicly, at the hour and on the day specified.

Payments will be made for the several lots of oil within thirty days after they shall have been received by the United States.

BY ORDER OF THE LIGHT-HOUSE BOARD:
W. B. SHUBRICK,
F25—2aw3w Chairman.

DR. TEBBETTS'
PHYSIOLOGICAL
HAIR REGENERATOR
—AND—
UNIVERSAL HAIR RESTORER.

ITS MODUS OPERANDI.

Immediately beneath the scalp there are very small Glands, or, more commonly Roots of the Hair. Like those these Glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the hair therefrom retains its appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the morbid disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.

To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Jasmin, Sulphur, &c., and producing only a sort of yellow or flax color, it will, if properly applied restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in its application.
2. It will certainly restore the hair from a gray to a beautiful *Black, Brown, Auburn*, or whatever might have been its original color.
3. It will effectually prevent the hair from falling off, remove all Heat, Inflammation and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.
4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.
5. It will cure the most inveterate itching and neuralgia of the scalp, and being highly perfumed, it affords a most delightful article for the toilet.

We have a great abundance of testimony to prove beyond a doubt that we claim for the Regenerator; and it is positively certain that in a very short time it will have a world wide reputation.

HOME TESTIMONY.

BEDFORD, N. H., Dec. 17, 1863.
Messrs. Tebbetts Brothers—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and now it is almost dark. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diphteria; it stopped it immediately on its application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only used one bottle, and I think one more will fix our heads up in good shape. J. C. CUTLER.

MANCHESTER, Dec. 20, 1863.
Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be prepared. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, when at out two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. JACOB J. ABBOTT.

Under a license from the Hon. Judge of Probate, I shall sell at public auction, on the premises,
On SATURDAY, the 26th day of March next, at 12 o'clock, noon,

The Real Estate of the late JOSEPH GREEN, situate on the westerly side of Richards Avenue, (formerly Auburn street,) being the homestead occupied by the deceased in his lifetime. The lot has a frontage of thirty feet on the Avenue, and a depth of eighty feet, extending back as far as the estate of Dr. Wm. R. Preston. It has upon it a convenient house, two stories high, and large woodshed. The garden has many excellent fruit trees in good bearing order. The fine situation of this estate, with its extensive prospect, the excellence of the neighborhood, and its accessible location, render this a rare opportunity for purchase, either for investment or occupancy.

Terms of sale—Cash. The purchaser will have no difficulty in obtaining any reasonable sum upon a mortgage of the premises, if desired.

Local.

OUR VETERAN SOLDIERS.—We publish below a preamble and resolution which have been passed by the Board of Aldermen, in relation to the re-enlistment of some of our veteran soldiers, in the Second and other regiments. The circumstances of the case are peculiar, and there seems to be somewhat of a conflict between the demands of justice and the law. When measures were being taken, last December, to fill the quota of our city, under the draft, the City Officials having the matter in charge wrote to the regiments in the field, inquiring whether any of the soldiers would re-enlist towards the city's quota. Several soldiers did re-enlist, in full time to receive the city bounty, and a record of the same was forwarded to the officials here. By some means this record failed to be received in due season, and the time allowed in which to fill the quota, which nearly expired, the officials proceeded to enlist such men as offered themselves, and these men received the bounties. The State law authorizes the city to pay a bounty only to a sufficient number of men to fill the quota, and accordingly the authorities are unable to pay a bounty to these soldiers. It is manifestly not more than just that they should receive it. They have borne the heat and burden of the day; they went to the war at first without a bounty; they have re-enlisted in full season to receive the bounty; and the mere miscarrying of a letter has deprived them of it. They, of course, being in excess of all calls upon us, will be credited to our city in any future call for troops which may be made, and would then be entitled to such bounty as might be offered; but should no further call be made, the city will be unable to pay them anything without further legislation. If our citizens are unable to cut the Gordian knot, we trust every proper means will be employed to secure the speedy passage of an act by the Legislature authorizing the city to pay these soldiers the bounty received by others.

IN BOARD OF ALDERMEN, on Thursday evening, the following preamble and resolutions, presented by Ald. Shannon, were passed:—

Whereas, Several members of the New Hampshire regiments now in the field have re-enlisted for three years as a part of the quota of this city; and *whereas*, intelligence of the same did not reach the authorities in time to have them accredited to the City, and entitle them to the city bounty, therefore

Resolved, That the fidelity of these brave patriots deserves our heartfelt thanks, and should be held in grateful remembrance by all loyal citizens.

Resolved, That inasmuch as these men were among the first to enlist, without inducement, save their devotion to their country, we believe they should receive the city bounty, and we doubt not our citizens would cordially endorse such legislation as would authorize the payment of the same; and we pledge ourselves to use all legal means to bring about such a result.

☞ Friends, communicating with this office, are requested, if any occurrences of an interesting character take place in their several abodes on town-meeting-day, to write and forward them, if time will admit. But let us, at any rate, have the earliest correct returns it is possible to procure.

It is not unfrequently the case, that when returns are in from the most distant places, a town remains unheard from which is not five miles from a printing-office. Some very annoying instances of this kind occur almost every year. Will our friends guard against it this year?

☞ The following is the assignment of the quotas for the towns in Maine in this vicinity, under the call for 500,000 men. On this call will be allowed those who entered service under the draft, paid commutation or furnished substitutes; also, all who have enlisted since July 6, 1863:

Berwick 41, Eliot 44, Kittery 69, North Berwick 38, South Berwick 55, Wells 66, York 50.

☞ Major Addison Garland has left Brooklyn, N. Y., to assume command of the marines at the Portsmouth Navy Yard. Maj. Garland is a Virginian, and has been in the service for nearly forty years.

☞ The ship Typhoon, 1,611 tons, built in this city in 1851, has been sold at Singapore for $39,000.

SIGNS OF ALARM.—Hon. Daniel Marcy has left his post at Washington to come home to vote on Tuesday next. While his absenting himself from the performance of his duty in Congress may be a positive advantage to the country, it is nevertheless proof enough of the desperation of the copperheads that a man of his talents and accomplishments has to be called from an important place in the government to throw a solitary vote for his faction, especially as the leading newspapers of the copperheads have been full of articles denouncing the administration for permitting our soldier citizens to return and exercise their rights of suffrage. We do not see why the soldiers should not come home to vote, as well as the Congressman. U. T.

UNION MEETING.—Gen. Daniel P. Tyler, of Connecticut, will address the citizens of Portsmouth, at the Temple, this (Monday) evening, at half past 7 o'clock. Music by Portsmouth Cornet Band.

The meeting on Saturday evening was very large and enthusiastic. The Cornet Band was in attendance, and added not a little to the interest of the meeting. Hon. John P. Hale, who was the first speaker, delivered a most powerful, eloquent and effective address, convincingly bringing home to the minds of all unprejudiced persons the justice of the cause which he advocated, and the only true course left open to those who love the American Union and are determined that it shall be preserved. Mr. S. M. Wheeler was also quite happy in his remarks, and both speakers were cheered repeatedly.

☞ Com'r Joseph M. Bradford, U. S. N., left this city last week to resume his position as Fleet Captain at Charleston, he not having asked to be relieved, as stated.

POLICE COURT, Saturday.—Parker Cook, for being drunk, was fined $3. and costs $3.86.

☞ The five-story granite and brick store of Messrs. Weeks & Potter, Druggists, 179 Washington street, Boston, was burnt on Saturday morning. It is thought it was set by an incendiary. The building was owned by the heirs of Francis Amory, and was valued at about $130,000, on which there was $20,000 insurance. Messrs. Weeks & Potter have insurance amounting to $80,000 in all. Within a few days past they had added about $30,000 worth of goods to their previous stock, the whole value of which they estimate at from $135,000 to $150,000. Messrs. C. Patch & Co., agents for the Florence Sewing Machine, occupied one of the upper rooms, and were burnt out, losing in sewing silk, machines and other stock, from $8000 to $10,000, on which they have $3000 insurance.

☞ Senator Wilson introduced recently a resolution which was promptly passed, tendering the thanks of Congress to the noble soldiers, who, after two years gallant service, "present the sublime spectacle of again voluntarily enrolling themselves in the army of the Union." This is a merited tribute to as heroic a body of men as ever responed to the call to arms, and is but the earnest of that exhaustless national sentiment evoked in behalf of every soldier who has raised his arm in defence of an assaulted flag and a threatened nationality.

A citizen of New Hartford tells that the first time he attended church, he, a little four year old, was seated in a pew. Upon his coming home he was asked what he did in church, when he replied, "I went into a cupboard, and took a seat on the shelf."

PERHAM'S MIRROR OF THE REBELLION, which is to open at the Temple on Wednesday evening next, we learn from our exchange papers, is meeting with great success wherever it goes, and we predict for it a brilliant career in this city. It is a splendid exhibition, and its merits as a work of art alone are enough to ensure its full success; and then the object to which it is devoted commends itself to every lover of his country, and the brave men who have been disabled in its defence.

☞ Our friends in Rockingham-county will oblige us by sending early and *full* returns of the election in their several towns. Please give names of town officers, &c., &c.

LIFE ASSURANCE.

"A POLICY OF LIFE ASSURANCE is always an EVIDENCE OF PRUDENT FORETHOUGHT; no man with a dependent family is FREE FROM REPROACH if not insured."—LORD LYNDHURST, late Lord Chancellor of England.

"A POLICY OF LIFE ASSURANCE is the CHEAPEST AND SAFEST mode of making a CERTAIN PROVISION FOR ONE'S FAMILY. Many a widow and orphan have had great reason to be grateful that the advantage of LIFE ASSURANCE was understood and embraced by the husband and father."—BENJ. FRANKLIN, 1769.

STARTLING! BUT TRUE.—The volunteers are braving the dangers of fever, scurvy, wounds and cholera. Many a gallant fellow will leave his bones to bleach, who, by the aid of Holloway's Pills and Ointment, would have returned to his family strong and healthy.—Soldiers, try them! Only 30 cents per box or pot. 226

French Roll Pans.

A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much stir is being made.

This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.

The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

Every housekeeper should have one.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y.
formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are **invited to use Constitution Life Syrup.**

During the past five years we have contended with obstacles and overcome opposition as inscrutable as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases can only be cured by the "slow recuperative process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the original balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stom'h, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Strumo, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritis, Neuralgia, Gout, Lumbago, Sciatica, The Dolorous.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St. Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering woman will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy, of the limbs or abdomen, and in the female, Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the tumor, if exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Breast, or in the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a grating or filing sound), Dropsy of the Heart, in Case and all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken-Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Insanity, Fear of Disease, Dimness of Vision, Dry Hot Skin and Extremities, Want of Sleep, Restlessness, Pale Haggard Countenance and Lassitude of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases**, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved its equal.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very stubborn to the removal and must yield. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is disfigurement to the face.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an uncasted or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, Sciatica, Spinal Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women, and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES.

It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the food—those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

A KIND ACT BY PRESIDENT LINCOLN. Our Washington correspondent writes that a few days ago a half crazy Massachusetts woman arrived at Washington, to make inquiries in refrence to a son of hers, who had been enlisted into the army under the age of eighteen, and who, it seems, is peculiarly unfitted for life in the army. She made repeated attempts at the War Office to get him back, but was met with a flat refusal. Finnally she applied to Mr. Dawes, member of Congress from Massachusetts, who had an interview with the President and the latter, upon hearing the facts, and finding it a clear case of hardship, at once ordered the discharge of the young man. His name is Andrew Lovejoy, of Western Massachusetts. Though not 16 years old, he was seduced into the army by a substitute broker, who took all but $45 of the $300 which was paid by the principal. It was an infamous outrage. The boy, while on a visit to New Haven, Conn., being literally abducted, his mother never seeing him afterwards; and Mr. Lincoln very promptly set it right.—*Traveller.*

LIBERAL DONATION.—George M. Barnard, Esq., after attending the recent hearing before the Committee on Charitable Institutions, has generously offered to the State of Massachusetts, through that committee, the sum of $5000 toward the purchase of an additional school ship. This is not only a noble gift, but a precious piece of testimony from one who knows alike the wants of our mercantile marine and the needs of exposed boys, and who has taken pains to learn something about the State Nautical School.

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.

CURES FROM ONE TO THREE DAYS

CHEROKEE REMEDY
AND
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is specially recommended in those cases of Venereal Affection Which so frequently where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its original purity and vigor, thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites, its effects are healing, soothing and diuretic; removing all scalding, heat, chordee and pain, instead of the burning and almost intolerable pain it has generally been attended with nearly all the cheap quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full circular.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

Sent by express to any address on receipt of price. Sold by all druggists everywhere.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES.
CHEROKEE
CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Impotency, Pimples on the Face, Pale Countenance, Insanity, Consumption, and all those premature graves crowded by disease from the path of nature.

☞ This medicine is a simple vegetable extract and from the unbounded success it has met with in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not*, the CHEROKEE CURE will restore you to health and vigor, and unfy all equal to Cupid's darts.

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full circular, in a pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

A few doses will cure the rose in the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The fallen victim of youthful indiscretion, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Insurance of Regularity, in the Occurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They Cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the head and lower parts of the Body, Hearburn, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they will do.

They may be safely used at any age and at any period, *except during the first three months*, during which the unfailing nature of their action would inevitably prevent pregnancy.

All letters seeking information or advice will be promptly answered, enclosing a stamped envelope.

Full directions accompany each box.

LAST AND BEST.
THE MODEL COOK.
AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either side, when needed.

In neat, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and cleanliness are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

A Great Variety of Cheaper Stoves
FOR WOOD OR COAL.
E. A. STEVENS'S
House Furnishing Establishment,
NO. 46 MARKET STREET

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet introduced, there is large baking heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and and iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With these extensions, there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior, to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, so as to be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES,
The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable institution.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for the purpose, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The Rust Proof Iron used by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The contained hot gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 40 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe of flue on the top of the cone can be made to consume the gases of the coal, without a great amount of the heat generated, making the chimney the hottest part of your dwelling.

This furnace is made away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a
CRIMINAL OR DELICATE NATURE.
By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of
GONORRHŒA AND SYPHILIS.
Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Ulcers, Pains and distresses in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D., devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervous Debility, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, irritability and distress

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

"THE CONSTITUTION AS IT IS."—This Constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the SUPREME LAW of the land; and the judges in every State shall be bound thereby, anything in the *Constitution* or laws of any *State* to the *contrary* notwithstanding.

The Senators and Representatives before mentioned, and the members of the several State Legislatures, and all executive and judicial *officers*, both of the United States and of the several States, shall be bound by oath or affirmation, to support this Constitution.—*Constitution U. S.*

REBEL DILEMMA.—If they increase their army they cannot feed it. Unless they increase their army they are whipped.

Unless the press speaks out, their liberties are gone. If the press speaks out, their government will be gone.

Unless they draft the whole population they must surrender. If they draft the whole population they must starve.

Unless they recover East Tennessee they can get no saltpetre. If they undertake to recover East Tennessee they will get more saltpetre than they want.

Unless Jeff Davis repudiates his present debts he can't borrow from any body. If he repudiates nobody will lend to him.

If they fight they lose the day. Unless they fight they lose every day.—*Chicago Tribune.*

☞ As Cleanliness is akin to godliness, so muscular christianity is eminently desirable in these days. The last Phrenological Journal has a portrait of Tom King, the English prize fighter, "to show the wonderful effects produced on the organization by physical training. There are many, very many, weakly children of both sexes in this country who might be saved from premature graves by judicious and systematic bodily training.

In most of our schools and colleges we have only mental culture, while the bodily condition is not regarded till used up or broken down by complete exhaustion. Let us realize that the human body may be so trained as to increase its strength, double its tenacity, and treble its endurance and in doing this, we need not in the least neglect in the slightest degree the more important part, the mind and the immortal spirit."

OUR CAUSE IN IRELAND.—The Ulster (Belfast, Ireland) Observer, contains a report of a lecture delivered in Newry by its editor, Mr. McKenna, on the "Footprints of Irishmen in Foreign Lands." From the reception given to the following remarks on Irishmen in America, it would seem that our cause is heartily appreciated by the people of that country:

"Their eloquence re-echoed in the Senate; their talents had raised great institutions; their arms wielded the sword in defense of the country which had given them a home, and of the flag which had given them protection. (Cheers.) And long may it be before one star is torn from that glorious banner. (Vociferous cheering.)"

☞ The Scientific American for last week contains a description of Mr. Sylvester Marsh's patent locomotive for ascending and descending steep grades. The important feature seems to be a spur-driving-wheel, which acts on a third rail, with cogs, in the centre of the track. The State of New Hampshire has granted Mr. Marsh an exclusive charter for twenty-five years, to ascend the White Mountains by steam, and the inventor is sanguine that this project can be accomplished.

☞ Richmond is described by one of the prominent inhabitants as follows: "Society here is utterly broken up. All fondness for fashion and pleasure seems to have been lost, and day after day passes with nothing to relieve the prevailing dullness. We see nothing but soldiers and the paraphernalia of war. The whole city is converted into hospitals, prisons and barracks, and our eyes have grown weary with the signs of strife."

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no doubt, but in this case was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with diseases at my stomach, loss of appetite, and often omitted up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.
From ELDER I CHESLEY, *Lee, May 31, 1841*
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without or natural rest by day or night. She had applied to a number of physicians, but continued to row weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named. ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No 7 High street, Portsmouth, N. H., promptly attended to. may26

OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known.
We have, in our possession, an quantity of certificates, some of them from
EMINENT PHYSICIANS,
who have used it in their practice, and given it the pre-eminence over any other compound.
It does not dry up a Cough,
but loosens it so as to enable the patient to expectorate freely.
☞ *Two or three Bottles will invariably cure TICKLING IN THE THROAT.*
A HALF Bottle has often completely cured the most
STUBBORN COUGH,
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In cases of CROUP we will guarantee a cure, if taken in season. No Family should be without it. It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident that one trial will secure for it a home in every household.
Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

Portsmouth, N. H.

TUESDAY, MARCH 8, 1864.

THE REBELLION.

Richmond papers admit that Kilpatrick penetrated within three miles of the city, and relate how narrowly Gen. Lee escaped capture. Gen. Wise also had a narrow escape, being at the residence of the rebel Secretary of War. The N. Y. Times' dispatch gives the following additional statement of the result of the raid:

Miles of railroad track on the two principal roads over which Lee transports his supplies for the northern army to Virginia have been so thoroughly destroyed that it will be long before the roads can be put in running order again. Deposits of commissary, ordnance and quartermaster's stores were burnt or destroyed. Six gristmills and one sawmill—principally at work for the rebel army—were burnt. Six canal boats loaded with grain, several locks on the James River Canal and the almost invaluable coal pits at Manikin's Bend, were destroyed. Nearly 300 prisoners were captured and several hundred horses pressed into service. Hundreds of negroes availed themselves of this opportunity to come into our lines.

Scouts report that Longstreet has sent his wagons to Richmond by railroad, and is mounting his men on the horses and mules thus released, and is pressing into his service all the horses that can be found.

Some apprehension is felt of a raid by Morgan on our railroad communications with Chattanooga.

A Newbern, N. C. dispatch states that official intelligence has been received confirming the report that Jeff. Davis has issued an order for the immediate seizure of all the important points in that state now in our possession. Our officers are making every exertion to be ready to repel the expected attack.

Admiral Farragut continues his attack on the forts below Mobile. A letter from our fleet of the 23d says the whole mortar fleet had kept up an incessant fire on Fort Powell, which commands Grant's Pass, since daylight. The rebel ram Tennessee was off Fort Morgan, and was expected to attack our fleet. Our regiments from the Teche were daily arriving in New Orleans, and were sent out on transports to co-operate with Farragut.

It is now stated that none of Gen. Sherman's forces had reached Jackson, Miss., on the 24th, and Vicksburg advices of the 27th make no mention of his arrival there or of any contemplated new movement. McPherson's corps, which reached Jackson after the 24th will probably remain there for the present.

Parties from Gen. Grant's front says it is not probable that any fighting will take place there for some time.

The N. Y. World's letter from Hilton Head says Gen. Gilmore has sent orders to Florida that in future only Jacksonville will be held by our troops, and no effort whatever will be made to occupy other towns.

The rebel war department has set on foot measures to conscript 20,000 negroes to work on the fortifications of Richmond and elsewhere.

The N. Y. Tribune's correspondent announces the safe arrival at Fortress Monroe of Col. Dahlgren and 100 of his men.

It is reported in New Orleans that 20,000 rebel troops are marching through Western Louisiana. Gen. Banks has sent a large cavalry and infantry force into the Teche country. Our troops are rapidly returning from Pass Cavallo, Texas, and those already arrived have gone to the Teche, where some 12,000 of our men are concentrated.

THE FORCE OF HABIT.—In the Dublin University Magazine we have a biographical sketch of Peter Burrows, the celebrated barrister, and among the personal anecdotes told of him is the following, which will do until the next tough one is told:

A friend called upon him one morning in his dressingroom and found him shaving, with his face to the wall. He asked why he chose so strange an attitude. The answer was, to look in the glass.

"Why," said his friend, "there is no glass there."

"Bless my soul," said Burrows, "I did not notice that before."

Ringing the bell, he called his servant, and questioned him respecting his lookingglass.

"Oh, sir," said the servant, "mistress had it removed six weeks ago."

— San Francisco experienced a severe earthquake at one quarter to nine o'clock Saturday forenoon.

— A San Francisco dispatch, 5th, states that the Rev. T. Starr King was to be buried beneath his own pulpit on Sunday.

— Owing to the recent storm, the steamer Bohemian is fast breaking up. Part of the stem, main and mizzen masts, part of the deck, a quantity of goods, and some bodies have come ashore.

— They've got a ghost at an engine-house in Springfield, Mass., which throws wood about promiscuously, and startles the people generally. A watchman has had two fair shots at it, at short pistol distance, without making it wink.

NEW HAMPSHIRE ITEMS.

— The 3d and 4th N. H. regiments arrived in New York on Saturday night, and left on Sunday noon for Concord.

— The Rochester Courier states that as Mr. Larkin D. Moulton, a carpenter and builder, of that town, was standing in company with Mr. C. D. Stiles, on one of the stringers of a bridge he was building, it suddenly canted and he was thrown off, falling about twelve feet to the rough ice of the river. Stiles saved himself by seizing one of the other stringers. Mr. Moulton, though very severely bruised, fortunately had no bones broken, and is now doing well.

— A dwelling-house, with the stable, owned by Mr. H. H. Tebbets and occupied by Mr. Alfred A. Young, in Rochester, was burnt on Saturday, Feb. 27. Mr. Young was absent from home at the time. Very little of the furniture was saved and Mrs. Young narrowly escaped with her life. The fire was caused by a little boy, living in the family, setting it in the hay in the stable. There was no insurance on the house or furniture.

HUMORS OF THE FIRE.—The Gloucester Telegraph states that considerable property, stolen during the recent fire in that place, has been discovered by the police officers, under authority of search warrants. One woman, who has applied for aid almost every day since the committee was organized, was found to have stolen more than she lost by the fire. One dealer got out a search warrant to find some goods. He did not succeed in recovering his property, but madame was so indignant that she came down next day and settled her bill of several years standing. The dealer secured something, if he did not find his stolen property. Much of the rubbish has been cleared away. Some Irishmen were loading a wagon with debris last week, when their wagon commenced smoking. They dumped their load instanter, and found they had been shovelling up burning coal.

A SAGACIOUS DOG.—They have a good dog in Memphis, and he is to be found at the engine house on Poplar street. Ring, the dog's name, is the property of Mr. Mike Waters, and makes the engine house of the DeSoto steam engine No. 3 his head quarters—in truth, he is an indispensible article in that institution. His sagacity, watchfulness and attachment to every fireman belonging to the 3's has made him the general favorite of everybody who knows him. No matter how far away Ring happens to be, the first tap of the fire bell finds him heeding his steps at double quick time untill he reaches the No 3. When there, his first object is to bark and growl until the men whose business it is to hitch the mules are awaked, and have done their work; this being accomplished, Ring takes his stand on the top of the hose carriage—reminds one of Jupiter riding his car—and continues growling until the scene of conflagation is reached, when he instantly jumps off and follows the hose to its destination; then he takes a lamp from the first fireman he finds and goes to the end of each section that the men may see to tighten the hose—during the fire, Ring never leaves the engine, and woe to the man who attempts to steal an article of any kind that belongs to the company. When the fire has been extinguished Ring's first object is to take the lamp and precede the engine that the driver may see the road homeward, and he is always sure to take the best and shortest way to the house.

AN UNKIND CUT.—The London Index, the rebel organ in Europe, gives a very unkind cut to the copperheads. "It is said," says the Index, "that northern democrats are about to publish a national address, advocating a vigorous prosecution of the war, but opposing the unconstitutional measures of the administration. That is, they uphold the cause but object to the effect. There must be very few such people, or else the United States must have more than an average number of citizens who are not capable of the simplest process of reasoning."

☞ Jeff. Davis has suppressed the Raleigh Standard. A Newbern dispatch states that the editor, Hon. W. W. Holden, the leader of the opposition party, will doubtless be the next Governor of North Carolina, the people having so expressed themselves at the various public meetings held in all parts of the State. This act creates great excitement, and makes Mr. Holden's election more certain next Fall.

EXTRACTING TEETH.—They have a novel mode of extracting teeth on board one of the Russian frigates. Attached to the vessel is a Russian surgeon—known as Dr. Philiskxographwotmabdgzki — who gets those of his crew who may be afflicted with the toothache, to pronounce his name, which instantaneously draws out the troublesome tooth, carrying along with it two or three others. A gentleman having an aching tooth, and having heard of the method of extraction adopted by the Russian surgeon, got a letter of introduction and visited the vessel. After seventeen attempts, the patient at last succeeded in pronouncing the name; but, alas! it not only drew eleven teeth, but broke his jaw into the bargain!

To be happy, the passions must be cheerful and gay, not gloomy and melancholy. A propensity to hope and joy is real riches; one to fear and sorrow, real poverty.

He who has made time his friend, will have little to fear from his enemies; but he that has made it his enemy, will have little to hope from his friends.

THE DRUNKARDS OF THE U. S. SENATE.—It would be really amusing, if it were not thoroughly disgusting, to witness the drunken vagaries of Senator Richardson, of Illinois, as he reels from place to place in the capitol buildings, drunk at morning, drunk at noon, drunk at night; drunk in his seat, and drunk out of his seat, drunk at assembling and drunk at adjournment. As he passes the street corners, the little boys point their fingers at his bloated features and mock his unsteady gait. It is sad, indeed, to look at him rolling rather than walking to the Senate chamber, and to think that he should have a voice in the enactment of laws to govern a great nation; sad, indeed, to think that his voice should be as potent in the decision of momentous questions as that of Mr. Sumner, or any other member of the Senate; sad, indeed, to see the homage due to a United States Senator paid to a poor drunken fool like him; and sad, indeed, to see half of the great State of Illinois represented by such a sot.

We boast of the freedom of the press in this country, yet here is a living disgrace to a State and to a nation, against which a word is rarely uttered. Citizens of the United States ought to take pride enough in the highest legislative body in the land to see that worthless drunkards are excluded from it, and when one gets in occasionally, the press ought to write him out, or if that will not do, the people ought to kick him out.

McDougal, of California, and Richardson, of Illinois, are the only habitual drunkards of the Senate. McDougal is harmless in his cups. He goes out horseback riding, falls into the gutter, and the small boys rally around him and have a little fun at his expense. He seldom troubles the Senate chamber with his presence. Richardson, however, is disgusting with his bacchanalian revelries—always obtrudes himself upon the Senate when scarcely able to stand erect—always, unfortunately for himself and his State, in his seat, to be pointed at from the galleries, and to have his name given in reply to the oft-repeated question, "Who is that drunken fellow over there?" *Washington Cor. Cin. Commercial.*

☞ There is a lady down in Maine who recently said that she did not dare to run her tongue out for fear of losing it in attempting to pronounce the Indian Geographical names of the Androscoggin. Is it to be wondered at? If you think it is, read the following from an account in the Oxford Democrat of a trip to Amitigonpontook Falls, where are situated the flourishing towns of Auburn and Lewiston:—

Hesitating whether to take the cars up to Rokomoko, or go down to Sawacook, we finally recrossed the bridge, took a glance up the Amoscoggin, and took the cars near the burying ground of the Anasaguntickooks and proceeded towards Casco. Crossed the Westecustego river where we spent our boyhood, and not long after the Presumpsut, and stopped at Casco where is now a large city. Across the harbor is Poorpoodunk, to the west is Spurwink, and northwest is Saccarib. These are all delightful places and worthy a visit.

☞ A man who sells hay in Fall River, Mass., is complained of by some of his customers, because he, believing that flesh is grass, or for some other to him good and sufficient reason, allows himself to be weighed with the hay, but not with the empty wagon. With hay at $20 per ton, the worthy man (who weighs about 200 pounds) sells himself for $2 a trip.

DR. TEBBETTS'
PHYSIOLOGICAL
HAIR REGENERATOR
AND
UNIVERSAL HAIR RESTORER.
ITS MODUS OPERANDI.
Immediately beneath the scalp there are very small Glands, or, more commonly Roots of the Hair. It is from these Glands that every hair of the head is formed and secreted. When the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.
To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.
Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Tannin, Sulphur, &c., and producing only a sort of yellow or flax color, it will, if properly applied restore the hair to its former appearance and beauty.
The Physiological Hair Regenerator is warranted in all cases to produce the following results:
1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in its application.
2. It will certainly RESTORE the hair from a gray to a beautiful *Black, Brown, Auburn*, or whatever might have been its original color.
3. It will effectually prevent the hair from falling off, remove all heat, inflammation and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.
4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.
5. It will cure the most inveterate itching and neuralgia of the scalp, and being highly perfumed, it affords a most delightful article for the toilet.
We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator; and it is positively certain that in very short time it will have a world wide reputation.

HOME TESTIMONY.
BEDFORD, N. H., Dec. 17, 1863.
Messrs. Tebbetts Brothers—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and now it is almost *black*. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diptheria; it stopped it immediately on its application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only used one bottle, and I think one more will fix our heads up in good shape. J. C. CUTLER.

MANCHESTER, Dec. 20, 1863.
Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be prepared. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, when about two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. JACOB J. ABBOTT.

OFFICE LIGHT-HOUSE BOARD,
February 16, 1864.
SEALED PROPOSALS will be received at this office until 1 o'clock P. M. on SATURDAY, the 19th day of March, 1864, for supplying the Light-house Establishment with fifteen thousand gallons of the best quality pure winter strained lard oil, and thirty thousand gallons of the best quality pure winter strained sperm oil, to be divided into four lots, and to be delivered at the times undermentioned, alongside of the government supply-vessels, or at the warehouse or other place of deposit, to be designated by the Inspecting Officer or other authorized agent of the Light-house Board, in strong, tight, well-made casks, suitable for shipping, in good order, of an average capacity, each, of from eighty to one hundred gallons.
The lard oil will be delivered at Boston, Mass., for special inspection.
Any one of the lots of sperm oil, or all of them, may be delivered at New York, New London, Sag Harbor, Boston, New Bedford, Edgartown, or Nantucket, at the option of the bidders. The place of delivery must be distinctly nated in the bids, and will be embraced in the contracts.
The times will be delivered as follows, viz:
LOT NO. 1. Ten thousand (10,000) gallons sperm oil on the 15th day of April, 1864, or as soon thereafter as the proper tests and gauging can be completed.
LOT NO. 2. Fifteen thousand (15,000) gallons lard oil on the 1st day of May, 1864, or as soon thereafter as the proper tests and gauging can be completed.
LOT NO. 3. Ten thousand (10,000) gallons sperm oil on the 1st day of August, 1864, or as soon thereafter as the proper tests and gauging can be completed.
LOT NO. 4. Ten thousand (10,000) gallons sperm oil on the 1st day of August, 1864, or as soon thereafter as the proper tests and gauging can be completed.
No part of the oil proposed for and to be embraced in the contracts under this advertisement will be accepted, received, or paid for, until it shall have been proved to the entire satisfaction of the person or persons charged with its examination, test and inspection, to be of the best quality pure winter strained or bagged oil, and free from mixture with other or inferior oils and adulterations.
The usual means for determining the character and quality of the oil will be employed, viz: specific gravity, burning the amount of residuum, and any other proper means to arrive at correct conclusions that may be deemed necessary.
The casks must be gauged, under the direction and personal supervision of the inspecting officer, by a custom-house or other legally appointed and sworn gauger, according to the United States standard, and must be marked and accepted before they are removed from the cellar or warehouse of the contractor. The temperature of the oil will be accurately noted, and the measurements reduced to the standard temperature of 60° Fahrenheit by tables prepared for the purpose.
Proposals will be received and considered for each lot separately, or for all of the lots, at the option of the bidder; but no bid will be considered for a less quantity than that specified as one lot, to be delivered at one time and place. Each bid must state explicitly the rate per gallon, in writing, the number of the lot or lots bid for, and the time and place of delivery, conforming to this advertisement.
Bids submitted by different members of the same firm or copartnership will not be considered.
The Light-house Board, under the authority of the Department, reserves the right to reject any bid, although it may be the lowest, for other considerations than the price.
No bid will be considered for any other kinds or descriptions of oils than those specifically called for in this advertisement.
Bids must be with security to the satisfaction of the Department, in a penalty equal to one-fourth of the amount of each contract made under these proposals, will be required of each contractor, conditioned for the faithful performance of the contract, to be executed within ten days after the acceptance of the bid.
Every offer must be accompanied by a written guarantee, signed by one or more responsible persons, and known to the Department as such, or certified by a United States district judge, attorney, navy agent, or collector of the customs, to the effect that, if the bid or bids be accepted, the bidder or bidders will duly execute a contract in good faith, according to the provisions and terms of this advertisement, within ten days after acceptance; and that the said party or parties offering shall fail to enter into the contract as aforesaid, he or they guaranty to make good the difference between the offer of the said party or parties and the next lowest bidder.
All bids must be sealed and endorsed "Proposals for oil for light-houses," and then placed in another envelope, and directed, prepaid, to the Secretary of the Light-house Board, Washington City.
All bids will be opened, publicly, at the hour and on the day specified.
Payments will be made for the several lots of oil within thirty days after they shall have been received by the United States.
BY ORDER OF THE LIGHT-HOUSE BOARD:
W. B. SHUBRICK,
F25—2aw8w Chairman.

—OF—
Valuable Real Estate,
ON RICHARDS AVENUE.
Under a license from the Hon. Judge of Probate, I shall sell at public auction, on the premises,
On SATURDAY, the 26th day of March next, at 12 o'clock, noon,
The Real Estate of the late JOSEPH GREEN, situate on the westerly side of Richards Avenue, (formerly Auburn street,) being the homestead occupied by the deceased in his lifetime. The lot has a frontage of thirty feet on the Avenue, and a depth of eighty feet, reaching back as far as the estate of Dr. Wm. R. Preston. It has upon it a convenient house, two stories high, and large woodshed. The garden has many excellent fruit trees in good bearing order. The fine situation of this estate, with its extensive prospect, the excellence of the neighborhood, and its accessible location, render this a desirable opportunity for purchase, either for investment or occupancy.
Terms of sale—Cash. The purchaser will have no difficulty in obtaining any reasonable sum upon a mortgage of the premises, if desired.

STARR KING.—In his sermon on Sunday morning, Rev. Mr. Patterson made the following allusion to the decease of Rev. T. Starr King of San Francisco:

On Friday the telegraph from the shore of the Pacific bore these heavy tidings, "Thomas Starr King died this morning of diptheria. He was conscious to the last."

His early life was passed in your midst, as a member of this Society and Sunday School. Many of you remember the promising boy, who went out from this home to take on the harness of life's active toils. You have watched him with joy and pride as the flying years deepened and broadened the field of his labors. You have read in the daily sheet of his power and fidelity as a preacher of the word—of his fame and usefulness as a lecturer upon themes calculated to educate and liberalize the vast assemblies who listened with rapture to his eloquence. You watched, with tears and prayers, his embarkation for that new State which opened its golden gate to receive him, on the shore of the Pacific.

Four little years ago, he left the congregation where he had ministered twelve years, to build up the cause of the liberal church in San Francisco. It seemed well that *he* should become the pioneer of a better faith in that growing city. He was strong and brave—as they need to be who sow in new lands. For the Church he labored like a Hercules; and a new house of worship just dedicated, and filled with an intelligent people, stands as a monument of his fidelity to the faith.

None of us knew as he sailed out of New York harbor, that the east was sending a missionary of civil liberty to its western sister. These were his *sealed* orders. Massachusetts sent him as a preacher of *religious* liberty; but God, who cares for all the interests of his children, commissioned him to save California from the whirlpool of rebellion. His clarion appeals, ringing through her valleys, echoing from peak to peak of her mountains, have saved the State. His pathetic entreaties going hand in hand with the trumpet of warning, have poured into the treasury of relief hundreds of thousand dollars.

When we read the record of his labors it seems impossible that man could accomplish so much, in so brief a space.

He has finished his work and it is well done. While the whole land mourns his early departure, none of us can fail to see that in labor for his race, he has lived to a green old age. Few have done more though spared to three score years and ten.

May his fidelity to principle quicken the hearts of all who read of his labors, so that the seed of his sowing may still bring forth its harvest, now that he is gathered "like a shock of corn whose ears are fully ripe" into the Lord's garner above.

☞ Those of our readers who have cruised in low latitudes cannot have failed, while leaning listlessly over the taffrail on a fine day, to have noticed sundry small oblong fishes of the mackerel species which seemed to act as guides to the formidable looking sharks which accompanied them. Those same readers, if business or inclination has led them to traverse our streets at night, may have noticed a class of small boys who act in the same relation to sailors and soldiers, who are strangers here, as the pilot-fish does to the shark. But here our simile ceases, for while the pilot-fish leads his follower to his prey, the pilot-boy leads his follower to become the prey of sharks (male and female)—sharks that not merely devour his hard earnings, but also the body and soul. It would be well if parents informed themselves of the manner in which their boys pass the evenings away from home, and perchance they may thus save them from prostituting themselves in childhood to an occupation from which even adult rowdyism generally shrinks.

ANOTHER SON COME HOME.—We understand that another son of Portsmouth,—not a congressmen nor a soldier, but a faithful and well tried officer in the navy of the United States, has just come home to vote; and that he will vote to sustain the Government which he has sworn to serve, and to carry on the war, which he believes to be waged by us in self-defence against the rebellion. His attachment to democratic principles is undoubted, and his membership in the democratic party is unquestioned; but he does not subscribe to the creed of Pierce, Vallandigham and the Woods,—and therefore he will vote against it. His example may be followed by numbers.

☞ The 10th lecture of the Citizens' Lyceum Course is to be delivered at the Temple this evening by Rev. A. J. Patterson, of this city. Subject: "Nature's Prices." The Portsmouth Cornet Band is also to give a Concert, and with such attractions the Temple should be crowded, even if it is Lection night. The Lyceum Orchestra will perform as usual.

☞ Perham's Mirror of the Rebellion is to be exhibited in this city, at the Temple, on Wednesday Evening. The Newburyport Herald says: "The Mirror of the Great Rebellion, is a beautiful painting and is well delineated. No better panorama of the war has ever been exhibited here, and it is deserving of full houses. Let all see; and especially the young should go, that the facts of this war may be impressed on their minds forever."

☞ Lieut. Com'r Thomas C. Harris, U. S. N., of this city, has been detached from the command of the Chippewa, and ordered North.

THE ELECTION for State and County officers takes place to-day. The vote will probably be large, and the contest close.—Every man who can, be his political principles what they may, should exercise his privilege of voting.

The Democratic nominations for Representatives are as follows:—

Ward One—Stephen Tobey, Moses H. Goodrich and John Ellerson.

Ward Two—Richard Jenness, Charles H. Peaslee, and Reed V. Rand.

Ward Three—Henry F. Wendell, and Benjamin Odiorne 2d.

In Ward One, Benjamin Canney is nominated for Selectman.—We have already published the Union ticket in the several wards.

We shall, as usual, publish all the returns received up to the time of going to press, in to-morrow's Chronicle.

☞ It is to be distinctly understood that tickets for Miss Evans' lecture will *not* be sold on Sunday, at the door or elsewhere. They are for sale at the Bookstores of Messrs. Shores and Foster, where they can be had during the week, or until all are sold.

☞ The storm rendered the tides unusually high in the harbor on Monday.—Many of the wharves were submerged, and lumber and wood piles were somewhat diminished by the rising waters.

☞ Orders were received at the Provost Marshal's office in this city on Monday from Provost Marshal Gen. Fry, stating that the government bounty will be continued until April 1.

☞ Acting Ensign Charles C. Ricker, U. S. N., of this city, has been ordered to the U. S. ship Relief, at Charlestown Navy Yard.

☞ Acting Assistant Surgeon James R. May has been detached from the Portsmouth Navy Yard, and ordered to the Kingfisher.

☞ Complaint is made by U. S. officers stationed at San Francisco that they are unable to meet their legitimate expenses with their salaries, inasmuch as gold and silver are the only circulating mediums in that region, and they are paid in "greenbacks," one hundred dollars worth of which only procures sixty-seven dollars worth of gold.

James 1st once went out of his way to hear a noted clergyman, who, upon his entrance into church, left his text to declaim against swearing, for which the King was notorious. When he had finished, James thanked him for his sermon, but asked what connection swearing had with it? "Since your Majesty came out of your way to hear me," said the clergyman, "I could do no less than go out of mine to meet you."

The Sanitary Fair Managers have, in deference to clerical protest, rejected the original painting by Raffaelle.—(*Leader.*

Why is a rejected councilman like a bad key? Because he doesn't suit the ward.

He only is independent who can maintain himself by his own exertions.

LIFE ASSURANCE.

"A POLICY OF LIFE ASSURANCE is always an EVIDENCE OF PRUDENT FORETHOUGHT; no man with a dependent family is FREE FROM REPROACH if not insured."—LORD LYNDHURST, late Lord Chancellor of England.

"A POLICY OF LIFE ASSURANCE is the CHEAPEST AND SAFEST mode of making a CERTAIN PROVISION FOR ONE'S FAMILY. Many a widow and orphan have had great reason to be grateful that the advantage of LIFE ASSURANCE was understood and embraced by the husband and father."—BENJ. FRANKLIN, 1769.

STARTLING! BUT TRUE.—The volunteers are braving the dangers of fever, scurvy, wounds and cholera. Many a gallant fellow will leave his bones to bleach, who, by the aid of Holloway's Pills and Ointment, would have returned to his family strong and healthy.—Soldiers, try them! Only 30 cents per box or pot. 226

"Be thou chaste as ice and as pure as snow, thou shalt not escape using unhealthy compounds in your food," was a true maxim, until Herrick Allen's Gold Medal Saleratus came to our relief. Since using it, we feel that there is one article in the way of Saleratus that all can use with safety results. We have almost cured our dyspepsia, and thanks to the Gold Medal Saleratus for it. Try it, and you will say with us, that perfection has been obtained, and the inventor has immortalized his name forever. Most of the Merchants have it.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as heroic as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanency, and think that diseases can only be cured by the "slow recuperative process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all HEREDITARY DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paralysis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Strumo, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

[Arthritic], Lumbago, Neuralgia, Sciatica, Gout, The Dolorous.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced—cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering woman will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Imagination, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES,

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing the Scrofulous Poison causing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twelve years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy, of the Tumbe of abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much stir is being made.

Broken-Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Company, Fear of Disease, Dimness of Vision, Dry Hot Skin and Extremities, Want of Sleep, Nervous, Pale Haggard Countenance and Lastitude of the Muscular System, all requisite the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases**, either of the Nose Throat, Tongue, Spine, Forehead, or Scalp, no remedy has ever proved its equal.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unpleasant to the young girl as the blacker, A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition of the organ, accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the result. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES.

It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the food—Those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Morning Chronicle.

THE RETURNED VETERANS.

I saw the soldiers come to-day
From battle-field afar;
No conqueror rode before their way
On his triumphal car.
But captains, like themselves, on foot,
And bearers sadly torn,
All grandly eloquent, though mute,
In pride and glory borne.

Those banners, soiled with dirt and smoke,
And rent by shot and shell,
That through the serried phalanx broke—
What powers they could tell!
What tales of sudden pain and death
In every cannon's boom,
When even the bravest held his breath
And waited for his doom.

By hands of steel those flags were waved
Above the carnage dire,
Almost destroyed, yet always saved,
Mid battle-clouds and fire.
Though down at times, still up they rose
And kissed the breeze again,
Dread tokens to the rebel foes
And true and loyal men.

And here the true and loyal still
Those famous banners bear;
The bugles wind, the fifes shrill,
And clash the cymbals where
With decimated ranks they come,
And through the crowd-lined street
March to the beating of the drum
With firm though weary feet.

God bless the soldiers! cry the folk
Whose cheers of welcome swell;
God bless the banners, dashed with smoke
And torn by shot and shell!
They should be hung on sacred shrines,
Baptized with grateful tears,
And live, embalmed in poesy's lines,
Through all succeeding years.

No grander trophies could be brought
From patriot sire to son,
Of glorious battles nobly fought,
Brave deeds sublimely done.
To-day, tears chased down with pride
And solemn joy to see
Those remnants from the bloody tide
Of victory!! —Frank Benjamin.

☞ According to the Richmond Whig, the hire of a slave in that city costs $1,170 a year, while the highest cost of a negro at auction ranges from $2,200 to $2,500, showing that the owners of slaves have no great confidence in the article as a permanent investment, the rent of a year and a half equalling the whole cost. On the gold basis the hire of a slave is about $5 a year, and the slave represents about $120 of capital.

— Henry Ward Beecher, in a recent sermon on "Heroism," related the case of an assay officer, who saved over $80,000, which by law he might keep, but which he handed over to the Government, and did not think there was anything of merit in the act.

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.
CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus or Whites in females; where all the old nostrums make some faint trial.
It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.
It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.
CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are soothing, healing and *strengthening*; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain so generally experienced with nearly all the *cheap quack injections*.
☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION, all pernicious humors in the same have ceased—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.
For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.
Price—CHEROKEE REMEDY, $2 per bottle, or three bottles for $5.
Price—CHEROKEE INJECTION, $3 per bottle, or three bottles for $8.
Sent by express to any address on receipt of price. Sold by all druggists everywhere.

INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES.
CHEROKEE
CURE.
An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all Diseases consequent upon self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the dreadful complaints issued by departing from the path of nature.
☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with those who have used it it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.
☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medicine, we would advise the use of the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed.
☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail to any one desiring the same, a full treatment on receipt of 10 cents.
☞ Prices $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.
Sold by all respectable druggists everywhere.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

"THE CONSTITUTION AS IT IS."—This Constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made; or which shall be made, under the authority of the United States, shall be the SUPREME LAW of the land; and the judges in every State shall be bound thereby, anything in the *Constitution* or laws of any *State* to the *contrary* notwithstanding.

The Senators and Representatives before mentioned, and the members of the several State Legislatures, and *all* executive and judicial *officers*, both of the United States and of the several States, shall be bound by oath or affirmation, to support this Constitution.—*Constitution U. S.*

A ROADSIDE COLLOQUY.—"And so, 'Squire, you don't take a country paper?"

"No, Major, I get the city paper on much better terms, so I take a couple of them."

"But, 'Squire, the country papers often prove a great convenience to us. The more we encourage them, the better the editor can afford to make them."

"Why, I don't know any convenience they are to me."

"The farm you sold last Fall was advertised in one of them, and thereby you obtained a customer. Did you not?"

"Very true, Major; but I paid three dollars for it."

"And you made more than three hundred dollars by it. Now, if your neighbors had not maintained the press and kept it ready for us, you would have been without the means to advertise your property. But I think I saw your daughter's marriage in those papers—did that cost you anything?"

"No, but—"

"And your brother's death with a long obituary notice. And the destruction of your neighbor Rigg's house by fire. You know these things are exaggerated till the authentic accounts of the newspapers set them right."

"O, true, but—"

"And when your cousin Splash was up for the Legislature, you appeared much gratified at his defense—which cost him nothing."

"Yes, yes; but these things are news to the readers. They cause the people to take the paper."

"No, 'Squire Grudge, not if all were like you. Now, I tell you, the day will surely come when somebody will write a long eulogy on your life and character, and the printer will put it in type, a heavy black line over it, and with all your riches, this will be done for you as a grave for a pauper. Your wealth, liberality, and all such things will be spoken of, but the printer's boy as he spells the words in arranging the type to these sayings, will remark of you—'Poor mean devil, he is even sponging an obituary!' Good morning 'Squire!"—*Ex.*

"SOJOURNER TRUTH."—The remarkable old negro woman, known as "Sojourner Truth," lives at Battle Creek, Mich., and is as bright as ever. The following new anecdote shows that she still has her wits about her:—

Not far from the city of Battle Creek, Michigan, resides one J. A., a well known "conservative," of what peculiar type it is difficult to determine; but one thing is certain, he does not like an abolitionist. A few weeks since, Sojourner Truth was preparing to visit her friends of the 1st Michigan regiment of colored men, and was seeking aid to pay her expenses. She met J. A., in a store, and appealed to him, but without success. Some conversation ensued—enough to reveal to the shrewd old lady his character. He turned to leave, and she called out, "Who be you?" "I am the only son of my mother," was the response. "Thank God, there are no more," said Sojourner. It is needless to add that the "conservative" left about that time.

☞ "And a little child shall lead them," is a Scriptural prophecy of the "good time coming" when wickedness is to cease and the lions of iniquity will be so tamed that they shall lie down in submission with the innocent lamb. Here is an instance of the unconscious power of a child wielded over the mind of a father, more effectually, perhaps, than a score of temperance lectures:

"Father, ain't you opposed to monopoly?" cried a little fellow, as his parent took up the brandy bottle.

"Yes, my boy," was the reply.

"Then give me a drink too."

The father threw the bottle into the street, and has not tasted liquor since.

It is related of Methuselah, that when five hundred years of age, an angel said to him, "Arise, Methuselah, and build thee a house, for thou shalt live yet five hundred years longer," and that the old gentleman replied, "If I am to live but five hundred years longer, it is not worth while to build me a house—I will sleep in the open air, as I have been used to do."

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (*under the Act of 1837.*)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
Hence, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved to inventors.

TESTIMONIALS.
"I regard Mr. EDDY as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made twelve rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been used in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or dadage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed.—Notice this, address all letters to

WEDNESDAY, MARCH 9, 1864.

NEW HAMPSHIRE ELECTION.

The weather on Tuesday was unusually fine, and with other circumstances called out a large vote in city and country. The preparatory electioneering campaign had been spirited and active, though short on the Union and Administration side. On the Democratic, the great guns were fired on the fourth of July last, at Concord, by an ex-President and other distinguished personages, who made up the platform of opposition to the Administration, the war and emancipation.

The vote of Portsmouth is seen to be very much enlarged, chiefly by working men who have come hither for employment; and Gov. Gilmore's majority is increased by the same means.

Wards I. and II. have chosen Union representatives,—four each—by handsome majorities; and Ward III. as usual, two Democrats, by a small majority.

Concord, 8 P. M.—A very full vote has been thrown. Returns up to this hour are insufficient to establish the result, but show considerable Union gains from last year. The roads are soft and occasion some delay in getting returns.

15 towns in Grafton county give a Union gain of 283.

Concord, 10:30 P. M.—Seventy-seven towns give Gilmore 17,530, Harrington 13,279, scattering 81. Gilmore is elected by 4000 majority. All five of the Republican councillors are probably elected, nine of the twelve senators, and a very large majority of the Representatives. There are heavy Union gains in every town heard from except three.

Concord, 11:15 P. M.—Returns from 21 towns give Gilmore 5401, Harrington 3886, with 25 republican, and 8 democratic representatives. 19 of these towns last year gave, Gilmore 3676, Eastman 3796, Harriman 195; Gilmore's gain 1631. The Union men here are celebrating their victory with fireworks, music, a procession, &c.

The Union gain in Manchester is 397. There were 21 scattering votes in Concord.

The vote of Coos county shows a Union gain of about 200.

Concord, 1:15 A. M.—155 towns give Gilmore 30,[illegible], Harrington 24,292, scat. 83. Gilmore's majority, 5,885. The Union men probably have 80 majority in the House, 10 of the 12 Senators, and all of the Councillors.

THE BOOK OF DAYS. Parts 19 and 21. J. B. Lippencott & Co., Philadelphia. J. H. Foster, Portsmouth:—

The story of the "Diamond Necklace" here will attract the lovers of the marvellous in jewelry. "Punch and Punch Bowls" will be appreciated by a certain class; also a short account of those most notorious frequenters of Westminster Hall—John Doe and Richard Roe—will attract the attention of students of the law.

— William McFadden, in California, celebrated New Year's Day by stabbing himself in the breast and neck with a common table fork, while in a fit of insanity superinduced by liquor.

— Jacob McLellan, Union, was re-elected Mayor of Portland, Me., on Monday, by a majority of 1130, against a majority of 195 last year. All the Wardsweat Union.—Lewiston, also, re elected its Union Mayor.

— The Bay State notices great activity in the shoe business at Lynn. The total amount of revenue collected there on shoes alone for the month of January, is $23,789,52. At three per cent. this gives the amount of sales $792,984, or nearly $800,000.

— The Portland Press states that in that city the loss since the introduction of steam fire engines has been regularly decreasing, until the past municipal year, during which two fires occurred so far from the location of the engines that they had got well underway before the engines could be got on the ground.

NEW HAMPSHIRE ITEMS.

—— The Boston Journal understands that the managers of the Belknap Mills, at Laconia, contemplate moving the machinery connected with a portion of their mills to Boston or its vicinity, in consequence of the high rates of freight and the scarcity of operatives at their present location.

—— The 3d N. H., 260 strong, Capt. Randlett commanding, and the 4th N. H., 430 men and officers, under command of Col. Bell, all re-enlisted veterans, reached Concord on Monday afternoon on a furlough of thirty-five days. In passing through Worcester and Nashua the heroes were greeted with great enthusiasm, and the Nashua Cornet Band accompanied the Third to Concord.

—— A portion of the train which left Boston on Monday morning on the Concord & Manchester Railroad, from the Boston and Maine depot, was precipitated into a chasm near Salem, N. H., by which the engineer, Mr. Phineas Drew, and the fireman were instantly killed. The heavy rains had washed away the track bedding, and the rails gave out in consequence on the approach of the train. Fortunately no passengers were injured.

—— The U. S. transport steamer Guide arrived at Boston at twelve o'clock Monday night, with the re-enlisted men of the 10th and 13th N. H. Regiments, from the Department of North Carolina. The vessel left Fortress Monroe on Friday last, and has had a fair passage. There were seventy-five men of the 10th regiment. The detachment of the 13th regiment numbers two hundred and eighty men, and they belong mostly in Concord, Dover and Portsmouth.

☞ A Washington correspondent says:

The failure of Gen. Kilpatrick's expedition does not cause much disappointment here, no very brilliant results being anticipated from it. But few military men have any faith in capturing Richmond with cavalry, though Gen. Halleck and the President approved of Gen. K.'s plans, and promised him every co-operating movement of the army to cover the raid, which was, of course, faithfully carried out. Col. Streight, as I wrote you a few days since, declared freely that Kilpatrick could not take Richmond, nor does he believe that any large force of cavalry moving on the city will ever meet with success. It is his opinion that a small force of picked men and horses could, by rapid marching, make a bold dash, capture all the pickets and get into the city before an alarm could be given. In this way it may be a success; but just so long as the rebels have pickets out ten and twenty miles to communicate an alarm it will be impossible for any considerable body to get within the fortifications. It is apparently as impossible as it would have been for Stuart to enter this city during his raid only a few miles to the north of it last summer. In the destruction of railroad and telegraph communication between Lee and Richmond the raid is reported to headquarters as a great success.

☞ The War Committee—the New York Times' Washington correspondent says—had Gen. Meade before them on Saturday for over three hours. He denied the charges preferred against him by Gens. Sickles and Doubleday, and gave the committee a full history of all the circumstances attending the battle of Gettysburg, and also of his subsequent conduct. The order, which it is alleged he wrote, directing a retreat of the army to Taneytown, after the first day's engagement, was explained. He declared that it related to matters entirely foreign to those contained in the charges of Sickles and Doubleday. The committee intend to follow up the matter, and have sent for Gen. Butterfield, who wrote the orders. Gens. Wadsworth and Hancock will also be called.

☞ Mr. William Hume, of Sacramento, Cal., has been presented with a fine silk plush hat, for superiority in duck shooting. Although highly delighted with the gift, and sincerely thankful to the giver, the recipient finds himself in a quandary. His business is that of hunting wild fowl. He is certain that with this hat—the tip of the fashion and the perfection of art—on his head he will never be able to get within gunshot of either goose or duck, and is quite fearful that his old ox will be equally unapproachable, and that his co-operative services will thereby be lost. On the whole, Hume concludes that the only way to do justice to the hat, the hatter, the donor and himself, will be to make a trip to Paris, where he may wear the prize without the fear of frightening wild geese, stampeding oxen, or exciting the envy of his fellow citizens.

☞ A private letter from Havana, dated March 1, states that the U. S. gunboat De Soto was in the dry dock there. The blockade runners and secessionists in Havana had threatened to burn the vessel, and also threatened the officers with violence. The Spanish authorities, however, had given the officers of the De Soto permission to wear their side arms, and they now visit the city fully armed.

A BURGLAR PROOF vault has been invented, in which a space between two of the plates is filled with balls about an inch in diameter, perfectly loose. The plates cannot be drilled through, as a drill must strike one of those balls, which would rotate with the tool, instead of submitting to the perforating process. One of these vaults has been put in the Chicago customhouse.

HENRY WILSON.—A Farmington, N. H., correspondent of the Rochester Courier relates the following incidents in the early life of Senator Wilson of Massachusetts, who is a native of Farmington:

Perhaps to illustrate the saying that "the boy is father to the man," we may be allowed a personal reminiscence in connection with him. I well remember how, when a boy of twelve or thirteen, attending the town school, Henry Wilson, then a boy of sixteen or seventeen, serving his time with a farmer and attending the same school, endeavored to interest the other boys in forming a debating club, such as he had read of in other places. Some five or six accepted his proposition and met with him in the evening in the old wood-colored school-house. We raked open the coals in the wide old fire-place, and, having brought some candle ends with us, we lighted them by the fire, (matches were then unknown to us) and to make them stand erect we let a few drops of the melted tallow run down on the seat, and placing the lower end on this as it cooled, our lights were arranged. Proceeding to organize, we had just members enough to have a president, two disputants on a side, and perhaps one for an audience. The first question was, "Was Columbus the first discoverer of America?" Wilson proposed the question and took the negative. We had learned in all our geographies that "Christopher Columbus discovered America," and thought the question a most absurd one. But when it came up for discussion, we found we had reckoned without our host. Henry had been reading historical works, lent him by Mrs. Nehemiah Eastman, sister of Levi Woodbury, (who, with a true woman's instinct, had perhaps already divined the boy's latent talent,) and astounded us all with an account of the previous discovery of America by the Northmen. The idea so startled me as to impress the whole thing on my memory. The club lived through only two or three meetings; the rest of us were either so young or so stupid that Henry had it all his own way. Notwithstanding his desire for knowledge, he served his time out with his master, laboring faithfully on the farm nine months in the year, and having no advantages for an education except borrowed books and three months schooling in the winter at the town school. When he was twenty-one he was to have two suits of clothes—a working and a better one—and one hundred dollars in money, but for some reason he arranged the money part by taking a yoke of oxen instead, which he afterwards sold for ninety dollars. He became of age just before our annual March meeting, and I well remember seeing him there in his freedom suit of brown, and also of his having a few votes for selectman. He left the place immediately after and went to school till he had used up the money obtained for his oxen. He then went to Natick, where he learned to make sale shoes, taking the first money he earned there to go to school again. Whether he did so more than once I do not remember. At one time, while working on the bench and bantering with his fellow workmen, he resolved he would make sixty pairs of shoes without sleeping, but fell asleep on the forty-ninth pair. He afterwards became a shoe manufacturer.

In 1840, when about twenty-five, he made his first appearance as a public speaker, stumping the State as the Natick cobbler. He was soon afterwards a representative and then senator in the Mass. legislature, and was chosen United States Senator. Since that time his history is so interwoven with the history of the country, that it is needless to follow him farther. Whoever may differ from him in his political career, all must accord him energy, industry and ability of a distinguished character. Farmington may well be proud of him, and her poor boys should take courage by his example, and remember that "where there's a will there's a way."

DR. TEBBETTS'

PHYSIOLOGICAL

HAIR REGENERATOR

—AND—

UNIVERSAL HAIR RESTORER.

ITS MODUS OPERANDI.

Immediately beneath the scalp there are very small Glands, or, more commonly Roots of the Hair. It is from these Glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, or is sold loose. Sooner or later the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.

To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Tannin, Sulphur, &c., and producing only a sort of yellow or flax color, it will, if properly applied restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in its application.

2. It will certainly RESTORE the hair from a gray to a beautiful *Black, Brown, Auburn*, or whatever might have been its original color.

3. It will effectually prevent the hair from falling off, remove all Heat, Inflammation and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.

4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.

5. It will cure the most inveterate itching and neuralgia of the scalp, and being highly perfumed, is affords a most delightful article for the toilet.

We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator; and it is positively certain that in a very short time it will have a world wide reputation.

HOME TESTIMONY.

BEDFORD, N. H., Dec. 17, 1863.

Messrs. Tebbetts Brothers—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and now it is almost *black*. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diptheria; it stopped it immediately on its application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only used one bottle, and I think one more will fix our heads up in good shape. J. C. CUTLER.

MANCHESTER, Dec. 20, 1863.

Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be prepared. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, when, at our two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, since it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. JACOB J. ABBOTT

—OF—

Valuable Real Estate,

ON RICHARDS AVENUE.

Under a license from the Hon. Judge of Probate, I shall sell at public auction, on the premises,

On SATURDAY, the 26th day of March next, at 12 o'clock, noon,

The Real Estate of the late JOSEPH GREEN, situate on the westerly side of Richards Avenue, (formerly Auburn street,) being the Homestead occupied by the deceased in his lifetime. The lot has a frontage of thirty feet on the Avenue, and a depth of eighty feet, extending back as far as the estate of Dr. Wm. Preston. It has upon it a convenient house, two stories high, and large woodshed. The garden has many excellent fruit trees in good bearing order. The fine situation of this estate, with its extensive prospect, the excellence of the neighborhood, and its accessible location, render this a rare opportunity for purchase, either for investment or occupancy.

Terms of sale—Cash. The purchaser will have no difficulty in obtaining any reasonable sum upon a mortgage of the premises, if desired.

THE REBELLION.

A St. Louis dispatch states that Capt Hopkins, well known in that city before the war as a river captain, arrived there on Saturday from Mobile 18th ult. He says there are but 8000 troops in Mobile, and though the fortifications in the rear of the city were good, they could be carried by a large force. Gen. Sherman's movements frightened the people terribly, but a desperate resistance would have been made had he attacked the city. Every male there between 18 and 55 years was a well drilled soldier. There is no distress in the South, but the people are willing to accept peace on almost any terms. The leaders, however, are determined to fight to the last. Of the gunboats in Mobile bay, four are ironclads, the Tennessee being the most formidable. Generals Pemberton and Lovell were at Columbia, shelved. Gen. Price had not gone to Mexico, but was still in command of his Missourians in Arkansas.

Brig. Gen. Gibbon denies that one of the corps commanders at the battle of Gettysburg had in his pocket on the 2d of July an order from Gen. Meade directing the army to retreat.

It is rumored that Gen. Grant is to take Gen. Halleck's place immediately, while Gen. Hooker is to take command of the Army of the Potomac. Also that Adm. Dupont is to take command of the South Atlantic squadron.

— Fernando Wood on Monday, was very low with pneumonia at his residence in New York city.

— A large amount of Government five-twenties were sold in New York on Monday for Amsterdam.

— The estimated proceeds of the Brooklyn Sanitary Fair, which closed on Saturday, are $400,000.

— Carlyle praises Mr. R. W. Emerson because, in a never-resting locomotive country, he is one of those rare men who have the invaluable talent of sitting still.

— Gens. Burnside and Hancock report to the War Department great success in raising troops under their respective orders.

— A side wheel dispatch steamer and two tugs were captured by rebels in the Chesapeake, a day or two ago. The dispatch boat was bonded for $20,000 and released. $1,100 was stolen from the captain. One of the tugs was burnt and the other taken up the Rappahannock.

☞ It is to be distinctly understood that tickets for Miss Evans' lecture will *not* be sold on Sunday, at the door or elsewhere. They are for sale at the Bookstores of Messrs. Shores and Foster, where they can be had during the week, or until all are sold.

☞ See yon fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

STARTLING! BUT TRUE.—The volunteers are braving the dangers of fever, scurvy, wounds and cholera. Many a gallant fellow will leave his home to bleach, who, by the aid of Holloway's Pills and Ointment, would have returned to his family strong and healthy.—Soldiers, try them! Only 30 cents per box or pot. 226

Constitution Life Syrup,

COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician, Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup

HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and doubtable diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opinions as herculean as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases can only be cured by the slow, imperceptive process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

"CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not dwell here, but state that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation. Weight on Stomach, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Strumo, Glandular Swellings, Ulceration, Kidney Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

(Arthritis), Neuralgia, Gout, Lumbago, Sciatica, The Dolorous.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most severe cases are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or virulous, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Hereditarily to weak, suffering women, will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of Mercury, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a grating or filing sound), Dropsy of the Heart and all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken-Down and Delicate Constitutions, Suffering from Indigestion or Exhaustion, Pain in the Back, Loss of Memory, Forebodings, Horror of Insanity, Fear of Disease, Dimness of Vision, Dry Hot Skin, and Extremities, Want of Sleep, Nervousness, Pale Haggard Countenance and Languor of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases**, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved its equal.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition of that organ, accompanied with burning and other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, so usually developed in the young, Hip Disease, Neuralgia, Female Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES

It is the safest and most efficient medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the food—those who have used it think it indispensable. It is highly valued both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Morning Chronicle.

☞ Apropos of the arrival in England of Lady Elgin, a London paper makes the following sad reflections:—

The man by whose side she left her country sleeps far away from it now, among the rhododendrons and oaks of the Himalaya. He is one more in the long roll of the English who lie in an Indian grave; and she one more in the list of those who come back, never to bear the name of the costly country without thinking of the little spot in it which is hers by the title-deed of tears. She survives her husband. Her predecessor in the saloons of Government House,—Lady Canning—the graceful hostess in Calcutta, the accomplished friend of her Majesty here—died before Lord Canning, adding to his great anxieties for the suppression of the mutiny the load of an irreparable loss. Lady Canning's predecessor, again—Lord Dalhousie's amiable wife—departed this life before her husband. Can any incident of domestic loss seem sadder? She had quitted India, obliged to fly from its cruel sun for her life—but all too late.—Her husband caught the tidings of her death at sea from the hoarse bawling of the newspaper-boys, as he drove in the evening along the Strand at Calcutta, and re-entered his palace a lonely man. Three Governors-General, and two Vice-Queens dead in fifteen years—such is the gloomy retrospect suggested by the arrival of Lady Elgin; that is the price we pay, enviers of England, for the country which we water with our tears and fertilize with our blood.

The institutions of New England take deep root in her children. Here is a little story showing how the baked beans come to be more relied on than R. B's almanac. In a family of our acquaintance, of a Sunday morning, one of the boys was missing. Not being found on enquiry, aunt went out to hunt him up. When a short distance from the house, she heard the sound of a hatchet, and called out, "Jemmy." "What," was the response. "What are you doing?" "Chopping!" "Why, my child, do you know what day 'tis?" "No." "Well, it's Sunday!" Instantly, dropping his hatchet, and looking up with a face from which his honest puritan heart shone right out, he exclaimed, "We did'nt have beans this morning, did we?" You see, some family matter had made it necessary to omit the usual dish.—*Amesbury Villager.*

☞ During one of the performances lately in the theatre at Rouen, a note was thrown on the stage. The director was called upon to read it. He refused, whereupon, a letter states,—

"Two young men sprang upon the stage from the parquette, seized the director, and compelled him to read the contents of the note. It substantially begged the management to discharge an actress who had during the previous fifty years played the role of young women and lovers. The writer thought that people had been constant enough during the fifty years, but that they were not married to the lady. A long and prolonged scene of laughter followed the reading of the contents of the note."

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Invigorator, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Strictures, Gravel, Gleet, Gonorrhœa, and is especially recommended in these cases of Fluor Albus or Whites in females; where all the old nauseous nostrums have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which lead to disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and detersive*; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION, these two medicines at the same time all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle, or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

LAST AND BEST.

THE MODEL COOK.

AN AIR-TIGHT STOVE,

WITH TWO OVENS,

And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either size, when needed.

In it no pains expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and elegance are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water, also a large warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, cools and refreshes, and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headaches so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of air through the fire-pot, which ignites them as they pass off into the flue, saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Chases, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Meadum,
Henry E. Wendell, John Sise, and others.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

HOW EGGS SHOULD BE BOILED.—Everybody knows Mr. Charles "Forbes" Claffey, of the St. Nicholas Hotel, New York, and with what grace and courtesy he presides over the gentlemen's great parlor of that establishment—his tasty dress, the grand gold chain, the London-made watch, (as true as the sun), the brilliant diamond studs, and the glittering ring on the little finger of the right hand. He was here last week attired in Ackerman's best and decorated in Tiffiny's brightest, and suffered with us, in common, during the recent "cold snap," at the Atlantic Hotel.—To Mr. Forbes Claffey's imagination, the Atlantic hitches. He pronounced the beds hard, the towels coarse, the heating contrivances of the hell bad, decidedly, and the servants dull. He never could get his eggs done to suit him. On Friday last he called Apollo, an old darkey, and stated his grievance. "Here," said he to the servant, "take my watch, and boil my eggs with it just three minutes." "Yes, Massa," said Apollo, "I'll do that ar," and so saying, he bounded off to the kitchen. In due time he returned, three eggs on one plate and the smoking watch and chain on another plate. "My God, man!" shouted Mr. Forbes Claffey, "what have you done?" "Jus what de Massa tol me: "boil dem eggs with it, jus tree minutes, as you said, Massa." The guests saw what had happened, and the table was in a roar of course. Apollo alone stood mute. He seemed searching in his stithly imagination for some solution of the sudden merriment of the breakfasting party. Mr. Forbes Claffey could not refrain from laughing at last, and turning to his neighbor, he said: "I am in the condition of the profane man, the tail-board of whose cart came out as he was ascending the hill, and spilt his potatoes. "There is no use in swearing; I cannot do justice to the subject;" and so saying, he pocketed his watch and proceeded to devour his morning meal.—*Norfolk, Va., New Regime.*

HOW ENGLAND MAKES WAR.—England was much shocked at the beginning of the rebellion, with our mode of making war, particularly in closing the harbor of Charleston. An English Journal, the London Daily News, has a letter from its correspondent in Japan, which shows how England makes war:

"In August last, in Japan, not a building with 2000 beings in it, but a whole city of 170,000 souls, was suddenly burned to ashes in a few hours—a city of paper and bamboo, covering many square miles, filled with its women and children, the sick and the infirm, the blind, the halt and the maimed. It turned like straw on many sides at once, reddening the ocean for leagues with its flames. It was fired without warning by bombshells, and red-hot shot rained incessantly during two days in our midst. In that vast conflagration it is morally certain that full 2000 helpless creatures must have perished. No brilliant pen has painted for us the hideous incidents of their last agonies and the horrors of an infernal fire, before which that of Chili burns but pale and feebly. That death was dealt out to these innocent beings in Japan by English sailors—purposely, unsparingly and boastfully—not in war, not in necessity, not in self preservation, but in order to strike terror into a harmless people whom we are bent upon forcing into trade."

INSTINCT OF THE WREN.—A wren in the Penrhyn slate-quarries used to fly from her nest at the ringing of the bell that gave notice to the workmen that an explosion was about to take place. In order to exhibit this phenomenon to strangers who visited the place, the bell was rung at other times. At first the bird left her nest as before, but after a time paid no attention to the signal, except when she observed that the workmen also went away as they had usually done.

LONG SLEEP.—A newspaper writer, speaking of a sudden death, says, he "fell into that sleep from which he will awake not until the Heavens are no more."

He who has most of heart knows most of sorrow.

EYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some of your SWEETS PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no doubt, but she was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it." JOSIAH JENKINS.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. TOWLE.
From ELDER I. CHESLEY, *Lee, May 31, 1841*
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No 7 High street, Portsmouth, N. H., promptly attended to. mav26

THURSDAY, MARCH 10, 1864.

THE REBELLION.

Admiral Lee telegraphs to the Navy Department from Yorktown, that the expedition sent out to afford relief to any of Col. Dahlgren's command, succeeded in rescuing five of his men near West Point, one of them a body servant of the Colonel who says the latter was killed in a skirmish.—The rebels stripped him of all his clothing and left him lying on the ground naked, and with his ring finger cut off. The rest of his command surrendered themselves prisoners of war after his death.

The rebels are besieging Gen. Peck at Newbern, and nearly every other post in North Carolina. Gen. Kilpatrick's cavalry are in that department, and their opportune arrival may do much good.

Richmond papers publish what they pronounce to be the orders to Col. Dahlgren, found on his person. They were in effect to endeavor to release the prisoners from Belle Isle first, and having seen them fairly started, to cross the James river into Richmond, destroy the bridges and exhort the released prisoners to destroy and burn the hateful city. The men were enjoined to keep together and obey orders strictly.—All mills were to be burned and the canal destroyed, and also everything which can be used by the rebels, including the boats on the river. They were also to stop at Belloua arsenal and totally destroy it and everything else but hospitals: then follow on and rejoin the command at Richmond with all haste, and if cut off cross the river and rejoin them.

Rebel papers state that Gen. Sherman destroyed a very large amount of rebel property in his expedition.

The Savannah Republican reports a successful rebel attack on Camp Finnegan.

☞ Hall's Journal of Health for March, contains Parental Corrections, Frenzy, Fidelity, the Mitten, &c. Price, hereafter, $1.50 per annum.

— It is estimated that nine hundred persons were killed by the explosion of a powder magazine at Morocco.

— Lord Palmerston has announced that orders were sent to the Cape of Good Hope to release the privateer Tuscaloosa, the international law not justifying her detention.

— It appears from a report of the late Admiral Foote, just made public, that after an examination of several sites in the West, he recommended Carondolet for a naval depot, with an auxiliary depot at Cairo. The subject is now before Congress.

— At Machias, Me., last week, two boys entered the attic of a church, drew up the chain to which the chandelier was attached, and then let it go "by the run"—of course, smashing the chandelier, and distributing the Kerosene over the carpet. The promising youths were bound over for trial.

— The Palmetto Herald is the name of a handsome little sheet published at Port Royal by S. W. Mason & Co. Sam Mason is well known to the press in Boston and elsewhere as a gentleman of much enterprise and experience in the business, and deserving of the best success in his new undertaking.

— Gen. Witowski, Mayor of Warsaw, recently issued 600 invitations to "a ball of reconciliation." Only ninety accepted, including eleven Polish ladies, not one of whom knew how to dance; and, consequently, the Russian officers, for want of better partners, were obliged to dance with each other.

— The Bath Times says, a valuable horse, owned in that city, was bitten by a mad dog some weeks since. Soon afterwards the horse gave unmistakable proofs of hydrophobia, and breaking from his stall, jumped through a window, knocked out his own teeth and smashed up things generally. The animal was shot.

— A 68 pounder gun recently burst at the breech at its trial in the Woolwich arsenal in England, and was shattered to pieces. This was occasioned by a bar of wrought iron, apparently weighing about eight or ten pounds, which had fallen into the casting metal, and was found embedded in one of the fragments.

— Vermont, New Hampshire, Rhode Island, Connecticut, Indiana, Illinois, Iowa, and Michigan have raised their full quotas under the call for five hundred thousand men. The quotas of Ohio, Wisconsin, Missouri and Massachusetts are nearly full, but Pennsylvania and Kentucky are a long way behind.

— It is explained that the order to retreat from Gettysburg after the first day's fight, proved before the Committee on the Conduct of the War to have been given by Gen. Meade, was issued with a view to give battle on ground selected by him some miles east of Gettysburg before he reached that place. After reaching it and perceiving the position held by our troops he countermanded the order and directed the concentration of the army around Gettysburg.

BOSTON CORRESPONDENCE.

[From our Regular Correspondent.]

BOSTON, March 7, 1864.

Editor Chronicle:—As this letter will appear in your paper at the same time as the reports of the results of the election in New Hampshire, I shall make it a short one, as I know the latter would be the most acceptable news to your many readers. Your correspondent had hoped to throw a vote for Hon. J. A. Gilmore, but the Selectmen of Ward 3 of Portsmouth "couldn't see it in that light." More interest is felt in this city in relation to your election than to local matters. Judge Upham's speech at Concord was widely read and commended as a patriotic and able argument in support of the government.

During the past three weeks we have raised 378 recruits in Boston, and with credits for naval enlistments and the reenlistment of veterans, we are in hopes to fill the quota by the 1st of April. Mr. John Leslie, formerly of Portsmouth, enlisted as a recruit for the 2d Mass., but was transferred to the 20th. He was formerly a typo at the Portsmouth Journal office.

Messrs. Heath and Jones, the efficient detectives who were mainly instrumental in discovering the murderer of young Converse, at Malden, last December, have been offered $500 apiece as a reward, but the Directors of the Malden Bank offered a reward of $5000 and are now showing a disposition to be illiberal in the matter.

Adjt. Gen. Schouler will publish his report about the 1st of April. It will be a document of between 700 and 800 pages, giving a history of the nine months' troops, among other interesting items. Last Tuesday evening, at the lecture of the Parker Fraternity, Wendell Phillips denounced Gen. Banks in severe terms, saying that Banks was "styled the Waltham hypocrite." A storm of hisses followed from the indignant audience. Such a speech smacked too much of a desire for notoriety, and has injured the reputation for honesty of intention Phillips has heretofore enjoyed even with opponents.

33 members of Co. D, 3d N. H., having re-enlisted, have arrived North, with about 230 others of the regiment. The 3d has been changed to a cavalry regiment and has gone into camp at Hilton Head.—Lieut. John H. Tredick, of the 3d, and Lieut. John H. Brewster, of the 4th, both Portsmouth boys, remained at Port Royal, the latter in command of 60 men at Beaufort, S. C.

Here's hoping every brave soldier boy will have a chance to vote to-morrow, though from the condition of the railroads many may be denied that privilege.

Count Joannes will have a benefit at the Boston Theatre, Saturday. The Count will make a speech, his grievances no doubt being the subject. Thomas Barry, Esq.; the first manager of the Boston Theatre, will have a complimentary benefit on Wednesday evening. There will be a crowded house, as Mr. Barry is deservedly popular with the theatre going public.

MANNING.

NEW HAMPSHIRE ITEMS.

—— There are 230 towns in this State.

—— George Swain was confirmed by the U. S. Senate on Tuesday as Deputy Postmaster of Nashua.

—— The Exeter News-Letter says: "On Friday afternoon last, as Mr. Joshua W. Bradley, the Superintendent Baggage Master at the Exeter depot, was coaling up, his foot slipped, and his leg was instantly broken."

—— Capt. W. H. D. Cochrane, formerly of Manchester, and recently Quartermaster of Gen. Getty's brigade, stationed at Portsmouth, Va., has at his own request been relieved and ordered to report for duty to Gen. Meade.

—— We are indebted to the publishers of the Concord Statesman and the Independent Democrat for early copies of their extras announcing the result of the election. They give returns from 162 towns, which foot up as follows: Gilmore, 31,057 Harrington, 25,135; scattering, 65.

☞ The Military Committee of the Maine Legislature, says the Kennebec Journal, have reported a bill for the reorganization of the militia, which contains seventy-five sections, and is an important one in its provisions. It requires the enrollment of all able-bodied men between eighteen and forty-five, and then provides that the whole of the militia shall arm and equip themselves. This, however, is not required to be completed until a year from next May.

An annual training, inspection and review is provided, with a commutation of fifty cents for rations on muster day if the soldier has performed all his military duties. An active volunteer corps of not over 6,000 men is provided for, 2,000 to a division—to be armed and equipped by the State.

☞ Theodore Parker writes in his Diary for April, 1843:—"Went to Medford.—Saw Thos. Starr King—capital fellow, only 19. Taught school three years—supports his mother. Reads French, Spanish, Latin, Italian, a little Greek, and begins German. (He is a good listener.)"

WORSE THAN A BATTLE LOST!

STARR KING IS DEAD!

A Eulogy by Rev. Dr. Bellows, in his Discourse on Sunday, March 6.

Notes by "X." our N. Y. correspondent.

On Friday night, while preparing in my study for this holy day, I was startled, grieved, almost heartbroken, by the sudden receipt of three telegrams, which, flashing over thousands of miles of wire, told that but a few hours previous, on that same day, a brilliant light in the West had faded, and sank below the horizon. One read, "Thomas Starr King died suddenly, this, Friday, morning at eight o'clock. Disease—diptheria. Sick only a few hours. Conscious to the last, and willing to go. Our loss is irreparable." And soon another friend telegraphed, "Worse than a battle lost—Starr King is dead!"

Twenty-two years ago, being then settled over a small Universalist society in Charlestown, Mass.,—for he commenced his ministerial career at an early age—Thomas Starr King came to New York, and called to see me.

The geniality of his disposition, the clear sparkle of his opening eye, his eager earnestness, attracted me toward him, and upon my recommendation he preached for the society of the Church of the Messiah, then recently deprived of their beloved pastor, the Rev. Dr. Dewey.

They were charmed with him. But from their recent loss, and a few technical objections—his youth, inexperience, and his not being a graduate of Harvard College, prevented his securing an unanimous call, and it was with my entire approval that he returned to Boston, and commenced to officiate at Hollis street.

There he endeared himself to his whole society—first conforming himself to his ministerial duties, and afterward enlarging his sphere of influence by exchanges in the pulpit, and by lectures throughout the States—pleasing, persuading, affecting, vitalizing, electrifying every audience he addressed, moving over the country like some brilliant comet, the streaming splendour of his happy genius exciting the reverence and love of every one with whom he came in contact.

He was always grateful for his kind reception here, and a thousand times alluded to it as among the most pleasant incidents of his life.

Four years ago he went to California,—I may say mainly at my instigation.

The understood intent of the journey was to secure him rest, exemption from lecturing, a new field in which he could preach his old sermons, and find labor less laborious. But in this new field he could not refrain from exerting himself with the same eagerness and earnestness which had characterized his labors in the old, and there he enlisted that same respect and admiration, that same love and affection, that same cordial welcome everywhere, which he had left here.

He was ever a welcome guest at the fireside of his friends, and the sweetness of his disposition, the tenderness of his character, his taste and refinement, his wit and humor, which never ceased to flow in one continuous, softly-murmuring stream, made them unwilling to relinquish him, even when hour after hour had been whiled away, to the instruction, interest and amusement of all.—His last letters, written less than a month ago, breathed full of his tender remembrance of his dear New England—his yearning, melting eagerness to hear from, or to see his old friends and companions.

At the time Californian sentiment was hanging in the balance, when the State was in momentary danger of seceding from the Union, he lectured in every town and hamlet, exhorting the people to be loyal and steadfast, and so successful were his efforts, that they secured him from the authorities of the State, and indeed from the President and officials at Washington, the encomium that "Thomas Starr King saved the Golden State to the Union." My friends, we can hardly estimate the value which her accession would have been to our opponents.

He early took a lively interest in the Sanitary Commission, and it is but just that I should with gratitude acknowledge, that much of its success and present position is due to his suggestions and cordial support and sympathy,—and without disparaging the efforts of any other, I may say that a large proportion of the million of dollars forwarded from the Golden State was secured, not entirely, but mainly by the efforts of Thomas Starr King.

You must pardon me for so extended an allusion to a bereavement, which has, perhaps, more of personal than general interest, but I could not refrain, when I feel that we shall never meet on earth again, that I shall never feel the soft pressure of his hand, never look into the clear depths of his eyes, never enjoy the lively, sparkling attractiveness of his companionship. I could not stay this farewell to a friend, when the ties of affection bind to me so closely, this tribute of gratitude for the cordial endorsement, the ready support and assistance he was ever eager to extend.

He died on Friday. Probably to-day, perhaps at this hour, his face is upturned for the last time before the altar where he has been wont to officiate. Death is the commerce of the world. He has crossed the ocean between the two lands. "Conscious to the last, and willing to go." He cannot come to us, but we shall one day go to him, into the company of the spirits of just men made perfect.

His generosity and gentleness, and goodness and godliness, his amiability, affection, application and assistance will ever be green and fragrant in our memories.

Farewell! gracious, noble friend! thou hast gone from those who loved thee well unto Him who loves thee best.

Thus the eulogy closed,—and the tear in many a moistening eye in the congregation glistened in the sunlight which streamed through the richly-stained windows, as a dew-drop on the floweret at morn.

—The commission which tried Generals Rosecrans, McCook and Crittenden does not acquit those officers altogether but recommends that no further proceedings be taken. General Negley is acquitted.

— The New England Kitchen in the Brooklyn fair made $10,000.

— The Portland papers report much religious interest among the soldiers at Camp Berry, Portland.

— An ambitious boy at New York, who mounted a house top, Saturday, to fly his kite, fell therefrom and was instantly killed.

— Connecticut river is free of ice from Bellows Falls to its mouth, and navigation has been resumed at Hartford.

— The election in Memphis passed off quietly, resulting in the choice of a majority of the conservative candidates.

— The famous Mexican General Santa Anna passed through Havana recently, on the way from St. Thomas to Mexico.

— A celebrated horse, "Fillmore," was sold in San Francisco, Dec. 30th, for $3,550.

— Babies seem to be lying around loose down east. On Saturday one was found in a dock at Bath, and another in a barn at Gardiner.

— There is a wizard now on his way to Gotham, who insists on calling himself the "Basiliconthaumaturgist." His real name is Simmons.

— An Odessa lady has been surprising her intimate friends by sleeping sixteen days at a stretch. She remained without sustenance the whole time.

— Lucy Aiken, the English authoress, died in London on the 29th of January, aged 81 years. Her last work, a Life of Addison, was published 20 years ago.

—The steamer Bohemian has unquestionably fallen apart and all hope of saving the vessel is past; a large proportion of the cargo is destroyed.

— One result of Prof. Agassiz's visit to Chicago, is the establishment of a Museum of Natural History. At one meeting $50,000 were subscribed.

—The Government is said to have under consideration the propriety of a call for an additional two hundred thousand men, to be organized into two large bodies as reserves.

— The Bath, Me., city election was held on Monday. There was no organized opposition to the Union ticket. Mayor Putnam was re-elected, it being his sixth successive election to that office.

— An Irish funeral at Marblehead, Mass., Sunday afternoon, ended in a row, and divers broken heads, black eyes and bloody noses. One man had his nose and lip bitten off. The principal parties were arrested.

— Advices from Bombay, Jan. 28, states that it is feared that two other American ships—the Southern Rights and Naples—have fallen victims to the pirate Alabama. These vessels both left Bombay for Montmain about the middle of January.

Local.

☞ The Portland travel to and from Boston now goes over the Eastern Railroad, as the Boston & Maine has extensively given out since the recent freshet. The down train on Wednesday morning arrived here drawn by two locomotives.

It is stated that the Maine folks are accustomed to be loud in their talk that the Eastern R. R. has many bridges on its line, but the recent washing out of the embankments at New Market and elsewhere on the Maine road, shows that earth embankments will at times prove more unsafe than bridges.

On Monday night, after the disaster at Newmarket, which caused much of the deep embankment near the depot in that town to be washed away, through passengers in the Boston & Maine cars at the So. Berwick junction desired to go to Boston by way of the Eastern Road, but they were kept by the assurance of the conductor that it was all right, and the train would not be delayed, when the R. R. people well knew the contrary to be true. The result was, the Eastern R. R. passengers arrived in Boston as usual, on time, while those who remained on board the Maine cars spent the night in the cars, engaged in discussing the veracity of the officials of the Maine Road, and came through via Portsmouth the next morning, since which time the through passenger travel and freight passes over the Eastern Road.

☞ The Union men of our city celebrated on Wednesday evening their signal victory in the State election. Their houses were illuminated, a salute was fired, fireworks were displayed, and a long procession, headed by the Portsmouth Cornet Band, marched through our streets, cheering till cheers became tiresome and hoarse voices were the ruling "style." Meanwhile the bells rang out their joyful peals, and at almost every window the belles manifested in many ways their devotion to the Union cause. A very free and easy meeting at Jefferson Hall, at which brief congratulatory speeches were made by several gentlemen, closed the public celebration of a victory most gratifying to Union men.

☞ Col. John H. Jackson 3d N. H. Vol. arrived in this city on Wednesday evening from Hilton Head, Friday, 4th inst. Continued ill health has compelled him to resign, and on recommendation of his surgeon he was discharged. The prospect is the Colonel will receive an appointment in the Invalid Corps soon.

PERHAM'S MIRROR OF THE REBELLION opened last evening at the Temple to a large and enthusiastic audience. Everybody was delighted, and it may well be said that the inauguration of this great work of art in this city is a decided success. We shall see the hall crowded no doubt this and every evening while it remains here, and all should remember that it positively closes on Saturday evening.

☞ The hay which is being shipped to Washington from this port is bought up by Government agents, instead of being contracted for, as has been formerly the custom. This plan of furnishing supplies to the army is being adopted in all portions of the Quartermaster's department.

☞ N. K. Hinkley, Light House Clerk for the 1st District, announces that the Spar Buoy on Fishing Island Ledge, Portsmouth harbor, has broken from its moorings and gone adrift. It will be replaced as soon as possible.

☞ Our city is making rapid strides in the fine arts. A juvenile boot-black has appeared on our streets, who will polish the understanding of the community.

THE ELECTION in New Hampshire has resulted much more favorably to the Union cause than its most ardent friends dared to expect. Returns thus far received give Gov. Gilmore 5,857 majority. Last year he received 3,798 votes less than Mr. Eastman, the Democratic candidate; Mr. Harriman, Union, receiving 4,372.

Last year the Republicans had a majority of 49 in the House of Representatives; now their majority is thought to be at least 75. All the Councillors, and 10 of the 12 Senators have also been chosen by the Union party.

REPRESENTATIVES ELECTED. — *East Kingston*—A. B. Currier, rep.
Kingston—Jesse Marshall, rep.

☞ The N. Y. Evening Post says the Government is considering the subject of the propriety of issuing two new coins, to be of bronze—one and two cent pieces.—The price of nickel is extremely high, and it is proposed to substitute some other metal for it. The owner of the only nickel mine in the country was before the Committee of Ways and Means at Washington a few days since.

— Beauregard wrote a letter in August last in which he said, "We will yet have to come to making this 'a war to the knife,' when no quarter will be asked or granted. I believe it is the only thing that can prevent recruiting at the North."

The radicals seem to think that the soldier's first duty is to vote.—*Ex.*

What any radical may *think*, we know not; but we have never heard any one *say* so. Whether it be his *duty* or not, it is undoubtedly his *right* and *privilege* to vote if he sees fit, not because he is a soldier, but because he is a man and a citizen. On the other hand, no good reason has been given, or can be given, why soldiers should *not* vote,—by any of the brawlers who have opposed their voting. They have only urged some fancied constitutional obstructions, which might be easily *removed* if those who interpose them *wished* for fair play. These obstructions have been *avoided*, in part, in New Hampshire:—and they should be *removed*, this year, by all means, in simple justice to our volunteers, who should, to say the least, enjoy as many civil rights as are enjoyed by cowards, sneaks, or traitors. U. T.

☞ A letter from Charleston harbor to the Boston Herald, dated 29th ult., reports that the Housatonic has settled down into the mud, and nothing is to be seen of her but the top of a mast above the water. Two of her anchors have been raised, and by the aid of divers, her battery of thirteen guns will be recovered. An additional monitor has been added to the fleet of ironclads off Morris Island, and more are daily expected. The Admiral has adopted every precaution to prevent a recurrence of the sad fate which befel the Housatonic. The bombardment of Charleston is kept up with vigor. Our shells are doing their work of destruction to a greater degree than the rebels wish to have made known. On the night of the 26th, one of the boats of the gunboat Nipsic, in charge of Acting Master's Mate Kitchen and five men, was captured by the rebels, while on picket duty near Sumter. They were taken to Charleston.

☞ The funeral of the late Rev. Thomas Starr King took place in San Francisco, on Sunday, and was very imposing. The assemblage of people was greater than on any similar occasion in that city for years. All the Christian denominations, the Masons and the military participated. The Governor and the principal Federal and State officials were present. Minute guns were fired during the service.

☞ It is to be distinctly understood that tickets for Miss Evans' lecture will *not* be sold on Sunday, at the door or elsewhere. They are for sale at the Bookstores of Messrs. Shores and Foster, where they can be had during the week, or until all are sold.

☞ The horrors of war can be greatly mitigated by that sovereign remedy, Holloway's Ointment, as it will cure any wound, however desperate, if it be well rubbed around the wounded parts, and they be kept thoroughly covered with it. A pot of ointment should be in every man's knapsack. Only 30 cents per pot. 227

A NURSERY COMPANION.—In every nursery there should be a box of Grace's celebrated Salve, which is so soft, penetrating and emollient that it suits the tenderest infant, and allays the irritation of chafing. It cures ringworm, scaldhead and all diseases of the skin, and contains nothing of an injurious nature. It is the best remedy for cuts, burns, scalds, bruises, insect bites, and all inflammations of the lips and eyelids. Indeed, practice has shown it to be an universal external remedy. 25 cents a box.

[From the New York Tribune.]

Oh! that men and women would read and ponder on the "Lists of Mortality" published weekly, monthly and yearly in our city.—There is ever a fearfully great proportion of consumption cases. The statistic tables prove that while other diseases slay their thousands, consumption slays its tens of thousands. In the early stages of throat and lung complaints, we consider Madame Zadoc Porter's Curative Balsam infallible.

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

SYMPATHY.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Herrick Allen's Gold Medal Saleratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will use any other Saleratus or soda, if this article can be purchased. We see most of our Merchants have it. One trial will convince any one. Their depot is 112 Liberty Street, New York.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D., Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!
What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cases which have no parallel at the present day.
Our medicine is peculiar, by if the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by older physicians—are **Invited to use Constitution Life Syrup.**
During the past five years we have contended with obstacles and overcome opposition as heroic as ever encountered by any Reformers.

Rapidity of Cure.
Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases can only be cured by the "slow recuperative process of Nature." This is our reply:
In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,
A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.
Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.
It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.
Indigestion, Liver Complaint, Constipation, Weight at Stom'h, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.
Struma, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.
This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.
(Arthritis), Neuralgia, Gout, Lumbago, Sciatica, The Dolourex.
If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and kindred affections. The most intense pains are almost instantly alleviated, enormous swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness.
Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St. Vitus' Dance.
Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering woman will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.
Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.
Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup
Eradicates, root and branch, all Eruptive Diseases of the Skin, like
ULCERS, PIMPLES, BLOTCHES.
And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,
Either of the Face, Neck or Female Breast, and should be taken at once as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.
All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy of the Chest or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the womb, are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.
Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a grating or filing sound), Dropsy of the Heart Cancer and all the kindred ills of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.
Broken Down and Delicate Constitutions, Suffering from Indisposition to Exertion, Pain in the Back, Loss of Memory, Forebodings, Horror of Calamity, Fear of Disease, Dimness of Vision, Dry Hot Skin and Pimples, Want of Sleep, Restlessness, Pale Haggard Countenance and Lassitude of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.
For all forms of **Ulcerative Diseases**, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved its equal.
MOTHERS FRIENDS for the female face, depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.
In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition of that organ, accompanied with burning or other unpleasant sensations, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.
☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*
Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.
THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.
PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.
TO MOTHERS AND MARRIED LADIES. It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and improves the food—Those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

SONGS OF SEVEN.

SEVEN TIMES SIX—GIVING IN MARRIAGE.

To bear, to nurse, to rear,
To watch and then to love!
To see my bright ones disappear,
Drawn up like morning dews—
To bear, to nurse, to rear,
To watch and then to lose:
This have I done when God drew near
Among His own to choose.

To bear, to bed, to wed,
And with thy lord depart
In tears that lie, as soon as shed,
Will let no longer smart—
To bear, to bed, to wed,
This will thou dost I smiled,
For now it was not God who said,
"Mother, give me thy child."

O fond, O fool, and blind,
To God I gave with tears,
But when a man like grace would find
My soul put by the fears—
O fond, O fool and blind,
God guards in hopper spheres;
That man will guard where he did bind
In hope for unknown years.

To bear, to bed, to wed,
Fair his thousandtime choice.
Thy mother's tenderest words are said,
Thy face no more she views;
Thy mother's lot, my dear,
She doth in nought accuse;
Her lot to bear, to nurse, to rear,
To love—and then to lose.

—[Jean Ingelow.

FASHIONABLE FLOWERS.—One of the most singular phenomena in the horticultural world is the fashion for certain flowers which suddenly comes in, and gradually works itself up into a perfect "rage," or mania. The passion of the ancient Romans for roses, and that of the Dutch for tulips, is a matter of general history, and there is no saying whether our own times may not supply instances of enthusiasm. During the last hundred years, however, the feeling has not taken an extreme form. We have paid £200 for orchids, but what is that in comparison to thousands once willingly paid for a single tulip? The modern fashion for any kind of flower is very fickle. At the utmost it lasts but a few years, and then turns out a new favorite. About sixty years ago, auriculas, picotees, carnations and pinks were generally grown. Balsams were also greatly in vogue. About 1815 pansies were coming into fashion. The first of the red geraniums was raised about 1822, by Mr. Davy, in Chelsea, and the other geraniums became fashionable about sixteen or eighteen years ago. The red variety of the Indian azalea was brought into notice about 1825. The fuchsia is said to have been introduced by a Captain Firth, in the year 1768, but there is a sentimental story connected with it which enabled Messrs. Lee, of Hammersmith, to bring the plant prominently before the public. Dahlias began to attract the attention in 1821, but the fine double varieties did not come up until 1830. The scarlet verbenas were becoming general about 1836. Cape heaths, poteas, and bulbs, Australian plants, and American cactuses, all had their day. At present we seem to have fixed our attention principally upon fine "leaf plants." This phyllomania can be traced directly to Japan, where plants distinguished for their elegant and remarkable foliage have for ages been great favorites. The Dutch acquired it from the Japanese, and gradually imparted it to the Continental nations, and ultimately to ourselves. The fern, of which about 1000 species are cultivated in our gardens, one part of their popularity to their elegant foliage. The rage for orchids seems to be on the wane, the great growers begin to act upon the pernicious principle of "selection, not collection," and its application is always a sign that real enthusiasm is cooling down.—*Athenæum.*

It is stated that the judgment of the British Privy Council on the appeal in the case of Dr. Williams and Mr. Wilson, two of the writers of "Essays and Reviews," decides these three most important logical points: "That the English Church does not require the clergy to believe in the inspiration of *all* portions of the Bible; that she does not require them to believe that Christ's atonement for us operates by the *substitution* of his sufferings for ours; that she does not require them to construe the "everlasting fire" of the last clause of the Athanasian Creed as necessarily final and hopeless. In the whole of this judgment the Bishop of London concurred. The Archbishops of York and Canterbury protested against the doctrine that the English Church does not expect her clergy to believe in the inspiration of all portions of the Bible.

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Obstructions of the Urinary Stone in the Bladder, Strictures, Gravel, Gleet, Gonorrhœa, and is especially recommended in these cases of Fluor Albus or Whites (Females) where all the old nostrums medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in connection with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. *Its effects are healing, soothing and destroyer*, removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and energy.

For full particulars get our pamphlet from any drug store in the country, or write us and we will send free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

LAST AND BEST.

THE MODEL COOK.

AN AIR-TIGHT STOVE,
WITH TWO OVENS,

And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also

The fire being placed in the centre of the stove, with air ovens for either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either size, when needed.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and comfort are desirable, should be without one.

We refer to some parties who have purchased the Model Cook:—

A Great Variety of Cheaper Stoves
FOR WOOD OR COAL.
E. A. STEVENS'S
House Furnishing Establishment,
NO. 46 MARKET STREET

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and and trout heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, and no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat in the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for failure is, that the combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This is obvious, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as those who use it with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

"THE CONSTITUTION AS IT IS"—This Constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme LAW of the land; and the judges in every State shall be bound thereby, anything in the *Constitution* or laws of any *State* to the *contrary* notwithstanding.
The Senators and Representatives before mentioned, and the members of the several State Legislatures, and all executive and judicial *officers*, both of the United States and of the several States, shall be bound by oath or affirmation, to support this Constitution.—*Constitution U. S.*

A DONATION TO ARTISTS.—The New York correspondent of the Philadelphia Press writes:

Every one must remember Doctor Townsend, or "Sarsaparilla Townsend," the patentee of patent medicine, who astonished the Fifth Avenoodlelites by suddenly unmasking a large fortune and building himself a magnificent dwelling in their very midst. Misfortunes overtaking the Doctor, he sold the mansion, which subsequently became a young ladies' boarding school.—Now it is being levelled to the ground, and carted away by ruthless iconoclasts. It is an instance of that well known poetic truth, which inculcates most sedulously that, break the vase if we will, the scent of the Sarsaparilla will hang round it still. The author of this dismantling process is Mr. A. T. Stewart, the merchant prince of Broadway. He purchased the "vase;" and that which cost its thousands and tens of thousands was by him sold to a gross materialist of a builder, who agreed to tear down and cart away at his own expense, and pay the sum of fifteen hundred dollars for the materials.

On the site of the mansion the great merchant is about erecting a vast marble edifice, noted for its architectural beauty and its roomy capacities. This is to be a house for American artists. A vast picture gallery, devoted exclusively to productions of native painters, will occupy a prominent position on the architect's plan. Roomy studios, with every advantage of light and convenience, are to stud the corridors, and here our native Titians, Angelos, and Marc Antony Browns will be enabled to luxuriate, and paint "good, bad, and indifferent" pictures, without—as some contend—the fear of inexorable landlords clamoring for payment, and disturbing the elevated rhapsodies of pictorial genius by the presentation of bills with cruel unliquidation grinning from every item.

On the death of Mr. Stewart this magnificent edifice is to become a donation to the city and the cause of American art. In the meantime it will probably be occupied by artists as though it were already the property of the metropolis.

WHY THE ROMANS WENT TO BED EARLY.— History tells us that ancient Rome, even in times of festivals, was always as quiet as the grave after the closing in of the night—a fact which De Quincy thus accounts for:

"They went to bed early in those ages simply because mother earth could not afford them candles. She, good old lady, or young lady, (for geologists know not whether she is in that state of her progress which corresponds to gray hairs, or to infancy, or to a 'certain age,')—she, good lady would have shuddered to hear any of her nations inquiring for candles. Candles indeed!" she would say, 'who ever heard of such a thing? and with so much daylight running to waste as I have provided gratis? What will the wretches want next?' The Romans, therefore, who saw no joke in sitting round a table in the dark, went off to bed as the darkness began. Everybody did so. Old Numa Pompilius himself was obliged to trundle off in the dark. Tarquinius may have been a very superb fellow, but I doubt whether he ever saw a farthing rushlight. And though it may be thought that plots and conspiracies would flourish in such a city of darkness, it is to be considered that the conspirators themselves had no more candles than honest men; both parties were in the dark."

This world is not made for a tomb, but a garden. You are to be a seed, not a death. Plant yourself, and you will sprout. Bury yourself, and you can only decay. For a dead opportunity there is no resurrection. The only enjoyment, the only use to be attained in this world, must be attained on the wing. Each day brings its own happiness, its own benefit; but it has none to spare. What escapes to-day is escaped forever. To-morrow has no overflow to atone for the lost yesterdays.

Why is John Bigger's boy larger than his father? Because he is a little Bigger.

The day I did not sweep the house, there came to it one I did not expect.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (*under the Act of* 1837,)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him (no doubt, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

For a Medicine that will cure COUGHS, INFLUENZA, TICKLING IN THE THROAT, WHOOPING COUGH, Or relieve CONSUMPTIVE COUGH, as quick as
COE'S COUGH BALSAM.
OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known.
We have, in our possession, any quantity of certificates, some of them from
EMINENT PHYSICIANS,
who have used it in their practice, and given it the pre-eminence over any other compound.
It does not dry up a Cough,
but loosens it, so as to enable the patient to expectorate freely.
☞ *Two or three Bottles will invariably cure TICKLING IN THE THROAT.* ☜
A HALF Bottle has often completely cured the most
STUBBORN COUGH.
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In cases of CROUP we will guarantee a cure, if taken in season. **No Family should be without it.** It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident that one bottle will secure for it a home in every household.
Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can; and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a speedy and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured many cases, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoicing in all manner life could wish, and more happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of the terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. FRIDAY, MARCH 11, 1864.

THE REBELLION.

A dispatch to the Cincinnati Commercial, dated Chattanooga, Mar. 4, says: "Our army has returned from its reconnoissance and now holds a position in advance of our old lines. We have closed Parker's and Hooker's Gaps, and the army is in splendid condition. Col. Harrison, who, from Bald Face Ridge, had a full view of Dalton, estimates the rebel force there on Friday at 30,000, nearly all of whom came up from the rear on Thursday afternoon."

A dispatch from Knoxville, Mar. 5, says: "Gen. Schofield is in town. The rebels are beyond Greenville (74 miles above Knoxville) still slowly and sullenly retreating. They lately shot seven deserters, and are relentlessly hunting down conscripts. They have sent 40 pieces of artillery to the Great Virginia Salines, which place they will doubtless stubbornly hold under Buckner and Breckinridge, and from it they threaten Kentucky. They are not fortifying Bell's Gap."

It is reported that troops for a new expedition are about to rendezvous at Annapolis, Md., and sail thence for some vital point of the enemy's country. Burnside's expedition to North Carolina started from Annapolis.

Richmond papers say that Gen. Bragg has ordered 1500 cavalry to be permanently stationed at Richmond to protect the city from raids.

We have many rumors from Washington:—among others that an important military council was held on Wednesday, and that Gen. Grant then recommended the capture of Richmond as the first step of the spring campaign. It is also stated that he is to review the Army of the Potomac and ascertain by personal inspection what the hindrances to its efficiency are. He regards Richmond of great strategical value, Cincinnati as well as Washington being threatened by it.

Gen. Wm. Smith, late of the Army of the Cumberland, reached Washington on Wednesday. The fact has given rise to the renewal of the reports that he will supersede Gen. Meade. It is claimed that Gen. Grant urges him for the head of the Army of the Potomac.

Gen. Sherman's expedition penetrated 55 miles beyond Meridian, and destroyed all the railroads in the vicinity, 32 locomotives and a large number of cars. His loss in killed, wounded and missing is 500. There was no fighting after leaving Canton, where Wirt Adams' cavalry was encountered.

— T. Starr King's life was insured for $25000.

— Fernando Wood is out of danger from his illness.

— The Newburyport Almshouse is occupied by a smaller number of paupers than at any time before for years.

— The pirate Alabama was spoken Jan. 256, in lat. 9 N., lon. 85 E., by a French vessel at Calcutta.

— The Chesapeake pirates have been discharged by Justice Ritchie, of St. John, N. B., before whom they were brought on a writ of habeas corpus.

— "I am here on business; I want to finish it up and be off," said Gen. Grant, when he declined to receive visitors at the hotel in Washington.

— A new "wrinkle" in the gas business is an attachment of a small marine clock to street lamps, whereby the gas is turned off at precisely the moment desired.

— The Daily News says the Society of Friends in London are about to make efforts to raise funds for the liberation of negroes in America.

— The census report exhibits the fact that not one State declined in population from 1850 to 1860. Vermont increased the least—about one-third of one per cent.

— Rascally urchins in Philadelphia stick nails into the crevices of the brick pavements, and then lay back to enjoy the entanglements which result to hoop skirts and long dresses.

— Two of the Italian conspirators against the life of the Emperor Napoleon have been condemned to transportation for life, and the other two to 20 years imprisonment.

— Capt. Charles Baker, of Belfast, Me., has been appointed by the Governor commander of the batteries there and at Castine, with orders to enlist a company of 100 men for that service. The men will count on the quota of their towns.

— Mr. Peletiah Perit, an old and leading merchant of New York city, died on Tuesday at New Haven, Conn., aged 78 years. He was connected with the commercial interests of the city for more than forty years.

— The vote in the State of New York, so far as reported, shows that, though but few votes comparatively were cast, there was a large majority in favor of the amendment to the State Constitution, which will enable soldiers in the field to vote.

A DISTINGUISHED GUEST.—At 5 o'clock on Tuesday afternoon, an officer, leading a child by the hand, quietly and modestly entered the dining-room at Willard's, in Washington, and took a place at the table. A gentleman from New Orleans and his daughters recognized him, rose from their seats and shook hands with him cordially. In a flash, as by electric communication, the news that Gen. Grant was in the room spread through the immense hotel, and the hundreds of guests, Senators, Representatives, Supreme Court Judges, women, officers, lawyers, and all the customary boarders of Willard's, sprang from their seats and cheered in the most tremendous manner, and crowded around the blushing and confused object of this sudden ovation, and overwhelmed him with their admiring interest. When his meal was concluded and he left the room, it was but a fall into another scene of enthusiastic love that awaited him in the lower hall. His retreat from this superior force up the stair case and to his room was characterized by the most unsoldierly blushing. The reception of Gen. Grant at the President's levee in the evening was more furious than any scene that ever transpired in the East Room. He was literally lifted up for a while, and in obedience to a demand and a necessity, so great was the desire to have a fair look at him, he was obliged to mount a sofa, under the auspices of Secretary Seward, who preceded him to that elevation. It is said that there had never been such a coat-tearing, button-bursting jam in the White House as this soldier occasioned. The cheering and waving of handkerchiefs was in the customary fury of Americans over popular favorites.

PRESENTATION OF GEN. GRANT'S COMMISSION.—President Lincoln on Wednesday afternoon formally presented to Maj. Gen. Grant his commission as Lieut. General. The ceremony took place in the Cabinet chamber in the presence of the entire Cabinet, Gen. Halleck, and others.—Gen. Grant having entered the room, the President rose and addressed him thus:

"Gen. Grant—The nation's approbation of what you have done, and its reliance upon you for what remains to do in the existing great struggle, are now presented with this commission, constituting you Lieutenant-General of the army of the United States. With this high honor devolves upon you a corresponding responsibility. As the country herein trusts you, so, under God, it will sustain you. I scarcely need to add, that with what I hear speak for the nation goes my own hearty personal concurrence."

To which Gen. Grant replied as follows:

"Mr. President—I accept this commission with gratitude for the high honor conferred. With the aid of the noble armies that have fought on so many fields for our common country, it will be my earnest endeavor not to disappoint your expectations. I feel the full weight of the responsibilities now devolving on me, and I know that if they are met it will be due to those armies, and above all to the favor of that Providence which leads both nations and men."

The President then introduced the General to all the members of the Cabinet, after which the company was seated, and a half hour spent in social conversation.

☞ Last year, in August, a lady passenger from Salem for Boston, when called upon for her ticket, found that her pocket memorandum book was missing. There were in the book $30 in one place and $20 in another. Inquiries were made, but the search was unavailing until last week, when a foot passenger found on the side of the track a memorandum book containing $20, which has been identified as the one missed so long ago. The grass around the spot had been burned and the book scorched. It is supposed that some adroit thief had picked the lady's pocket, and after taking, as he thought, all the valuables from the book, had thrown it from the car window. This is a strange story, but a true one, says the Salem Gazette.

☞ The Salem City Government have made a liberal appropriation for the purchase of another steamer. Steam fire engines are appreciated in that vicinity, for Salem has twice furnished assistance at large fires in Beverly, once in Lynn, once in East Boston, and once in Gloucester; and last, at Fort Pickering, where the large steamer was taken last week, and played the first day nine hours, and the second day six hours, pumping out of the canal some 400,000 gallons of water, (which was nearly all accumulated through the winter). And now Lynn is to have two, Gloucester two, and Newburyport one.

☞ The President has prescribed the necessary regulations for enlisting seamen from the army into the navy, and the Secretary of War has designated the entire number, not exceeding 12,000, which it is desirable to have at each of the naval stations fixed upon by him, as follows: At Cairo 1000, Boston 2000, New York 3000, Philadelphia 2000, Baltimore 1000. The following quotas are accepted: To the Department of the East 3000, Middle Department 1500, Department of Virginia and North Carolina 1500, Department of Washington 2500, Department of the 500, Northern Department 100.

NEW HAMPSHIRE ITEMS.

—— On Monday night, about 12 o'clock, a two-horse team, driven by James Halpine, started from Concord for Manchester, to carry two soldiers to vote there. A mile or two from Hooksett, the road was overflowed, and the team probably got out of the road and Halpine and the horses were drowned. The soldiers got out. Mr. Halpine was a respectable Irishman, and leaves a wife and three children.

—— It is stated that the voters in South Hampton indulged in a free fight on Tuesday. The town was supposed to be equally divided, and much excitement existed when the meeting opened. The first blood was drawn by a copperhead, and two republican noses were smashed. Then the check list was torn up. Thereupon the Republicans rallied, and held their opponents at bay till the business was transacted, which resulted in a Union victory by 10 majority.

A WAR DEMOCRATIC JOURNAL ON GEN. MCCLELLAN.—The Green Bay Advocate, one of the leading Democratic journals in Wisconsin, owned and edited by Ex-Governor Charles Robinson,—always staunch in its adherence to Democracy, and in partizan opposition to the present Administration, although giving earnest and patriotic support to the war, and repudiating the Democracy of all Wood-Vallandigham peace factions—expresses itself this wise concerning George B. McClellan, and the "dead weight" which he has made himself upon the country in its prosecution of the war: —

We have been reading the prominent passages in the Report of Geo. B. McClellan. They are the passages which are selected by such papers as the New York World and others favorable to him, to give him the very best show before American citizens. His letter of February 3d, 1862, to Secretary Stanton, setting forth the plan of the Peninsular campaign is he would have had it, is masterly in its conception, and shows the highest military talent in its details. That is as it seems to us. Nevertheless the plan may have been faulty; it certainly was, for good or for evil, not carried out. Its projector has, for good or for evil, parted company with the great struggle for the Union, and seems to have thrown himself, with his heavy, dead weight, upon all efforts to go on with the war.

What matters it here, in this time of peril, whether McClellan's or somebody else's plans and theories, in 1862, were better?—It is precisely of as much consequence as the question of Grouchy's fidelity at Waterloo. It is a matter with which history has to deal—not we here in the trenches, resisting an assault upon the life of a nation.

Suppose Gen. McClellan to have been badly treated. Shall the earth and the sun stand still until he is attended to? Give him a court-martial, or a committee of inquiry, if he wants it; shoot him or Stanton—whichever is found to be in fault—do anything in reason that he wants done; but let us go on meanwhile with more pressing and important matters.

Joe Hooker had as good a right to growl and grumble, and hump himself up. Did he do it? Go and ask him down there in Tennessee, good naturedly smoking his cigar under the shadow of Lookout Mountain. John Pope, as brave a fighting man as ever lived, never had the hundredth part of the time, the favor, the patient waiting, that were given to Gen. McClellan to do something with the Army of the Potomac—did he fall back, glum and cross, and demand that nothing should be done until he was avenged? He came from the command of a great army to a mere Indian border war, as gaily as though it were a holiday excursion.

Burnside did not cope with Longstreet at Fredericksburg, and was summarily sent away; but sought another trial and gave him hard knocks at Knoxville. McDowell, the earliest victim of ill-luck, has been vainly urging, ever since, not the endorsement of his plans at Bull Run, but a command to lead once more at the rebel army. Gen. Rosecrans, the beloved of all, who was blown out after the battle of Chicamauga, as you would blow out a penny candle, referred to the druggist instead of the Government about the opium question. Even Scott, the greatest General living, who was set aside gently but firmly, takes his morning walks in the Fifth Avenue, and if he doesn't encourage, he doesn't discourage the attempts we are making to save this country.

Up to the advent of Meade every General who has had command of the Army of the Potomac, has been relieved from it under circumstances which they probably did not regard as flattering. But of them all, there has been only one who has undertaken to inflict his wrongs—if they were wrongs—upon the country. That one is Geo. B. McClellan. He asks the country to take notice that not only his military plans but his ideas as to the policy of war, are different from those which have been pursued. He publishes old letters to the President. He charges Stanton, the existing Secretary of War, with having connived at his defeat and the destruction of the army. He advocates the election of a man to the Governorship of Pennsylvania who decides that the draft is unconstitutional. And he permits himself to be named as the Presidential candidate of the Fernando Woods, the Vallandighams, and the other dead weights hanging on this war. It is one of the fatalities, which seem to attend that class of politicians, that they are making a candidate of that kind. So long as they keep control of the Democratic party, so long will it be beaten.,

— Telegraphic communication having been completed between San Francisco and Portland, Oregon, the Mayor of the latter city has exchanged compliments with the Mayor of Portland, Maine. Of course they said something pretty.

☞ Mary Johnson sued the city of Zanesville, Ohio, for damages in the death of her husband, who was killed by the falling of the market house in January, 1863. The jury returned a verdict in favor of the plaintiff for $3,156 damages.—The accident was caused by the immense weight of snow on the roof. Several other persons were injured, and one or two beside Johnson were killed. The market house was an old one, and was not considered safe, and hence the verdict.

☞ The British blockade runner steamer Don, was captured on the 4th inst., by the gunboat Piquot, off Wilmington. The night before, a white painted side-wheel blockade runner went ashore, twenty-five miles south of Beaufort. Three of our cruisers had gone in search. A blockade runner steamer, name unknown, was captured on the 22d ult. in lat. 33, lon. 79 30, by one of our gunboats, which was seen putting a prize crew aboard.

☞ A feeling is growing up amongst the minor Sovereigns that Prussia and Austria are aiming at a division of Germany into Southern and Northern, the former to be under the hegemony, if not direct rule, of Austria—the latter under that of Prussia. In this way, it is supposed, the allied powers hope to secure German quality—if not German unity—and to extinguish, virtually or actually, the minor Potentates.

DR. TEBBETTS' PHYSIOLOGICAL

HAIR REGENERATOR

AND

UNIVERSAL HAIR RESTORER.

ITS MODUS OPERANDI.

Immediately beneath the scalp there are very small Glands, or, more commonly Roots of the Hair. It is from these Glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle. Soon or later the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.

To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Tannin, Sulphur, &c., and producing only a sort of yellow or flax color, it will, if properly applied restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in its application.

2. It will certainly restore the hair from gray to a beautiful *Black, Brown, Auburn*, or whatever might have been its original color.

3. It will effectually prevent the hair from falling off, remove all Heat, Inflammation and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.

4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.

5. It will cure the most inveterate Itching and redness of the scalp, and being highly perfumed, it affords a most delightful article for the toilet.

We have a great abundance of testimony to prove beyond a doubt all the properties of the Regenerator; and it is positively certain that in a very short time it will have a world wide reputation.

HOME TESTIMONY.

BEDFORD, N. H. Dec. 17, 1863.

Messrs. Tebbetts Bedford—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and now it is almost black. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diphteria, it stopped it immediately on its application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only used one bottle, and I think one more will fix our heads up in good shape. J. C. CUTLER.

MANCHESTER, Dec. 26, 1863.

Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be prepared. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, when at out two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. JACOB J. ABBOTT

The Metal Roof Painting Company

Will apply Mineral Paints to Tin, Copper, Zinc, Iron Doors, Fences and Steam Boilers, on reasonable terms.

For cheapness and durability for painting Tin and Copper Roofing, it is unrivaled by any thing ever brought before the public. This paint has the elastic qualities so long needed to meet the expansion and contraction of metal exposed to excessive heat and cold. Price, 12 cents per foot.

Sore Throat. Cough. Cold.

And similar troubles, if allowed to progress, result in serious Pulmonary, Bronchial and Asthmatic affections, oftentimes incurable.

Brown's Bronchial Troches

are compounded so as to reach directly the seat of the disease and give almost instant relief.

One of Hunnewell's Great Remedies.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a Syrup from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only true Syrup by which THROAT and LUNG COMPLAINTS can be effectually cured. To prevent seeking attention to long stories of great cures, where local causes make almost all such complaints different in effect, I would ask confidence which will be secured in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and RHEUMATIC COMPLAINTS, WHOOPING COUGH, ALL THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

Local.

☞ Miss Evans of Wales, (sixteen years of age,) who has produced so much excitement in the Old World by her eloquent addresses on the subject of Temperance, is to lecture at the Temple in this city on Sunday evening next. She is a wonder to all who have heard her. Her character is beyond all reproach, and notwithstanding her extreme youth, she is modest and seems not to have an undue estimation of her powers.

She has addressed great audiences in London, Liverpool, Manchester, Dublin, New York and Boston,—and has held them spell-bound for an hour or more, as she has in her eloquent manner set forth the terrible evils of intemperance. We doubt whether the world has produced another orator so young who can sway multitudes of men and women by the magic influence of the voice and brain. Those who wish to hear her should secure tickets at once, as no tickets will be sold on Sunday.

POLICE COURT, Monday, March 7, before Justice Bufford.—Paul Jones, of Exeter, for being unlawfully drunk, was fined $3; costs $3.86. Committed.

Wednesday 9, before Justice Odell.—John Sheehan, for brawl and tumult, fined $3; costs $5.80. Same man, for being drunk, fined $1; costs $2.86. Appealed, and gave bonds.

☞ Advertisements, posters and notices tell us that no tickets for Miss Evans lecture next Sabbath evening can be purchased on that day or evening and that all deserving to hear her *must* purchase tickets during this week. This is no idle talk, but a matter of her own arrangement, and a condition which must be complied with by all who would be fortunate enough to hear her. Her motto is not to do unnecessary worldly business on the Sabbath, and we doubt not the whole community will say to her, "it is well so." W.

☞ The Newburyport Herald states that the guns fired in this city on Wednesday evening in honor of the Union victory in New Hampshire, were heard in Newburyport.

☞ Acting Master Edward D. March, U. S. N., of this city, has been ordered to report to the commanding officer of the Pacific squadron.

☞ The U. S. steamer Colorado was placed in the dry dock at the Portsmouth Navy Yard on Thursday, for repairs.

☞ Perham's Mirror of the Rebellion is attracting large audiences at the Temple. To-night is the last night but one of its exhibition in this city.

☞ The number of tickets to Miss Evans's lecture is limited to nine hundred, that all who purchase may be sure of seats.

☞ A special dispatch to the Boston Traveller gives Sec. Chase's letter declining to be a candidate for the Presidency. The letter is eminently patriotic, declaring that "it was never more important than now that all our efforts and all our energies should be devoted to suppressing the rebellion and to the restoration of order and prosperity on a solid and sure foundation of Union, freedom and impartial justice;" and Mr. Chase urges "all with whom his counsels may have weight to allow nothing to divide them while this great work, in comparison with which persons and even parties are nothing, remains unaccomplished."

THE LATEST BOSTON NOTION.—Walking on Washington street, Boston, the other day, we were astonished to notice that the Puritanic propriety of that staid and quiet city was shocked by the assemblage of a large crowd, when a closer look showed that the rush was occasioned by a desire to look at the window of Piper's bookstore, where was displayed a large pile of Confederate bibles, testaments and prayer books, which were captured with the blockade runner Ella and Anna, and taken to Boston. Piper, with an eye to business, bought the lot, and, with the rebel sword blades (bearing their valiant motto) also captured before being put to use, had a big display of the Bible and the sword in his window. These are rapidly bought by an eager crowd as curiosities, to be kept for future generations and will doubtless be enjoyed by the descendants of the purchasers.

☞ We learn from the Newburyport Herald that the storm of Sunday was severely felt on Plum Island, where the sea broke with much force, and the water made a clean sweep over the island. The cellar of Mr. Parks, the Light keeper, was filled, occasioning him some loss; and the water was to the belly of his horse in the barn, and came near drowning his cow. The light-house has been so undermined that it is liable to fall over. The turnpike to the island was filled with broken ice, so that it was impassable for two days, and is badly washed and damaged.

— Gen. Rosecrans, it is said, is a hard worker, and spends fifteen hours out of twenty-four in his office, regulating the affairs of the department of Missouri. He is about to make some sweeping changes.

— The report in the London Morning Post that France was renewing negotiations with a view to the recognition of the rebels by Great Britain and France, and, in case of the failure of a negotiation, then for France to act alone, is pronounced by the State Department to be entirely groundless.

— The bark Alma arrived at Halifax a few days ago, after a tedious passage of 95 days from Liverpool, having been buffeted about the Atlantic for that length of time by severe gales. The provisions gave out on the voyage, and for eight days the crew subsisted on sugar and ale, taken from the cargo.

SHORT SCIENTIFIC LECTURE—*By Jo Bows.*—My hearers: You have invited me to deliver a course of scientific lectures before you, and I comply. The first subject to which I invite your attention is the "Elbow." You have had lectures on the hand, the foot, the features of the face, etc., but the elbow, although it plays a very important part in physical economy, has been overlooked, if not altogether elbowed out by all scientific lecturers before me. Elbow is taken from the Saxon, except in cases of amputation, when it is taken directly from the arm.

As the foot plays an important part in all the various walks of life, to say nothing of the hop, skip and jump, so the elbow is intimately connected with very many of the shifting scenes of human existence—The lover presents his elbow with all tenderness to the blushing maiden by his side, as they take an affectionate stroll together, and as it touches the neighborhood of her beating heart, her hand fluttering upon his arm, meanwhile, like a frightened bird, what a thrill runs from that elbow along the nerves of his arm, and thence diffuses itself through his entranced corporality!—The elbow plays an entirely different part when a strong man, impatiently or angrily, elbows his way through a crowd.—Hearts don't flutter, but ribs ache consumedly.

It is upon the elbow that the lover rests when he reclines

"Neath yonder nodding beech
That wreathes old fantastic roots so high,"

and muses upon his mistress, and it is upon the elbow, too, that the dying man often supports himself to look for the last time upon the setting sun.

It is a fine thing to be able to crook the elbow. A stiff elbow would render that old-fashioned social custom, shaking hands, a very awkward proceeding, and make it impossible for a lover to adjust a coat sleeve around the waist of his mistress with anything like grace or satisfaction.

While there are great manifest inconveniences attending an inability to crook the elbow, thousands have gone to premature graves on account of crooking that useful appendage too readily and too often, so that it would have been better for them had they been born with stiff elbows and never recovered from the disorder.

Whether the operation is performed elegantly and gracefully by young men at a fashionable bar, or awkwardly and bunglingly by trembling, blear-eyed old sots at a Bucktown groggery, it is equally ruinous in its tendencies, and results frequently in transforming the elbow-crooker into a student of Natural History, with colonies of snakes and other reptiles in his brogans.—My hearers, if you crook your elbow before a bar-keeper, do it with your thumb on your nose, accompanied by a digital gyration in token that he "can't come it."

☞ The horrors of war can be greatly mitigated by that sovereign remedy, Holloway's Ointment, as it will cure any wound, however desperate, if it be well rubbed around the wounded parts, and they be kept thoroughly covered with it. A pot of ointment should be in every man's knapsack. Only 30 cents per pot. 227

SYMPATHY.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Herrick Allen's Gold Medal Saleratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will use any other Saleratus or soda, if this article can be purchased. We see most of our Merchants have it. One trial will convince any one. Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Rejiots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, that we cheerfully invite the investigations of the liberal minded and scientific to cases which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as herculean as ever encountered by any Reformer.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that disease can only be cured by the "slow recuperative process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weakness of Stomach, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Swelling, Glandular Swellings, Ulcerated Neck, King's Evil, Erysipelas, Tumors.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Lumbago, Sciatica, Tic Doloureux.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The cures in these are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St. Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering women will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, foul caring mouth, Oak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES,

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of our community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus, are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Syrup will remove entirely. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely removed without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation), Disease of Valves—producing a grating or filing sound), Dropsy of the Heart Case and all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Insanity, Fear of Disease, Dimness of Sight, Eruptions on the Skin and Extremities, Want of Sleep, Restlessness, Pale Haggard Countenance and Lassitude of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases**, either of the Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved its equal.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unpleasant to the young lady or married lady. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an uneasiness or concentrated condition of the organ, accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from disease, for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Modern and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women, and if the constitution is neglected in youth, disease and early death are the result. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES. It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the food—those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Morning Chronicle.

SNAKES.—Snakes are some of the most dangerous foes that Europeans have to cope with in the tropics. A traveler of the name of Bailie one morning startled his companions by the dreadful cry of "A snake! a snake!—look!" They all stared at him, as he was lying in his hammock, and, to their astonishment, behold a monstrous serpent twisted round the rope which supported his hammock, with its head at some distance, darting out its forked tongue, and examining him as he lay stretched below. "Lie still," cried the fiscal; "he won't hurt you;" and calling in two or three of the natives, he pointed it out to them.

One of these men advancing toward it, caught its eye with his own; the animal now appeared to move its whole body with fear or pleasure. The native stepped backward without turning the sight of his eye from the fierce orbs of biscenny; and, as he kept backing, the snake, with its head steadily advancing, gradually uncoiled his body from the rope round which it was twined. At length its whole body trailing on the ground, moved slowly along after this colored man—eye fixed upon eye—until a youth, making a dash from behind a bush, in an instant flattened the head of this dangerous monster with one blow of his club; and although the body still undulated like the waves of the sea, it was now perfectly harmless.

☞ The N. Y. Journal of Commerce advises the farmer to plant large crops:—"Should Europe be engulphed in war before another twelve-month, which is more than possible, adding to the demand already existing, the American farmer is likely to be rewarded for his industry as never before. The support of large armies at home, the operation of the conscription laws upon the labor market, the troubles which agitate the Old World, all go to help the agricultural classes in the United States." Therefore plant every acre of arable land that is possible. Wheat and corn are chiefly needed for export, but all the small grains, such as are produced plentifully in the Eastern and Middle States, to say nothing of potatoes and other vegetables, will find a ready market."

☞ The Catholic Telegraph says that members of that denomination, who, within a few months, would not think on the subject of abolition, are now most anxious for its success, and their good sense is convinced that the worst use to which you can put a human being to is to make him a slave. The Telegraph favors a constitutional amendment abolishing slavery in all the Union.

It is stated that every shell thrown at Fort Sumter or Charleston costs, including wear and tear and transportation, from $300 to $800.—*Manchester Union.*

Shells are apt to "wear and tear."

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CURES FROM ONE TO THREE DAYS

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fever Albus or Whites in females where all the old nostrums medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which induce disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, soothing and demulcent; removing all scalding, heat, chordee and pain, almost of the character and with the peculiar pain that is experienced with nearly all the cheap quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

THE GREAT INDIAN MEDICINE, COMPOUNDED FROM ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Dryness on the Face, Pale Countenance, Consumption, Insanity, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one to which old can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been such sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and to all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

DR. WRIGHT'S REJUVENATING ELIXIR, OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of the old and well known remedies.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.
A few doses cure Hysterics in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and full vigor of youth.
A few doses restore the appetite.
From one to three bottles cure case of Impotency.
A few doses cure the low spirited.
One bottle restores mental power.
A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man or student, whose nervous system is prostrated, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

LAST AND BEST.

THE MODEL COOK.

AN AIR-TIGHT STOVE,

WITH TWO OVENS,

And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with twice the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either side, when needed.

In fact, no pains or expense have been spared to make this a PERFECT STOVE, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

A Great Variety of Cheaper Stoves FOR WOOD OR COAL.

E. A. STEVENS'S House Furnishing Establishment, NO. 46 MARKET STREET.

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and cad-iron heater combined, by which the odor of broiling fish are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming oven attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and use of this valuable Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and none of the air which is once in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to confine the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 50 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

Those Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and we would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

No. 30 Hanover Street.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only; to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and registered without extra charge.

IMPORTANT TO THE AFFLICTED

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has made the treatment of peculiar cases of the unfortunate females that have never, since he first introduced them, failed to cure the most alarming cases.

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of Gonorrhœa, Ulcers, pain and distress in the region of pregnancy, Inflammation of the Bladder, Kidneys, Hydrocele, Abscesses, Humors, Rheumatism, Swellings, and the long train of horrible symptoms attending this class of diseases, are made to become as harmless as the simplest ailing of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret or military habit, which ruins the body and unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Confusion of ideas, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, Nervous feelings, avoidance of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be treated with pleasant rooms, and charges for board and lodging.

Medicines sent to all parts of the country. Full directions for use, on receiving description of your cases. Dr. Dow has also for sale the Dr. Capotian, warranted the best preventive. Sent by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health

DR. DOW, Physician and Surgeon, No 7 ENDICOTT STREET, Boston, is consulted daily for diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, all treated upon new pathological principles, and speedy relief guaranteed in a few days. So reliably certain is the new mode of treatment, the most obstinate complaints yield under it, and afflicted persons soon rejoice in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under treatment.

Dr. Dow, since 1845, having confined his attention to an office practice, for the treatment of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic cases of every name and nature, having unwearied attention and extraordinary success, and gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stand higher in the profession than the celebrated Dr. DOW, No. 7 Endicott street, Boston. There need the services of an experienced physician or surgeon should give him a call.

☞ Dr. Dow imparts a valuable book, free, on receipt of 25 cents, entitled the FRENCH SECRET. Or, sent by mail. Three for $1 and a red stamp.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love-truth, do good, be just and fair with all;
Exalt the right, though every sim fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

"THE CONSTITUTION AS IT IS."—This Constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the SUPREME LAW of the land; and the judges in every State shall be bound thereby, anything in the *Constitution* or laws of any *State* to the *contrary* notwithstanding.

PHYSIOLOGY OF FIDDLING.—The violin's sympathetic and expressive tones, and the passionate music of which it is the dramatic interpreter, have incontestably a sensible influence on the "moral" of the violinist. He is usually impassioned, irritable, of uncertain temper, proud, impressionable to excess, but timid. His gaiety, like the violin's, has a touch of folly—of the burlesque often. In his pleasantries, he juggles with words exactly as he juggles with notes when he performs Paganini's "Carnival of Venice," or Pilet's "Malbrook." He is sad with no cause for sadness, and passes without transition from the sombre fourth string of his humor to the petulant merriment of his treble string. You speak to him and his thoughts are occupied with some totally different subject. The violinist has presentiments and visions, and is fond of reading fairy tales. "The Devil's Sonata," necessarily, is the composition of the violinist. In person, the violinist is eminently distinguished. His countenance, perfectly oval, is pale; his nose is long and fantastic; his mouth is wide; his eyes are small, but full of power and fascination. His figure is slender. Did you ever see a violinist of real genius who was fat? As an additional characteristic, he wears his hair long.—In dress he is extremely particular, and likes to bedeck himself with jewelry. Several of the trinkets he wears were given by great personages in token of their satisfaction, but others were purchased by himself, although he passes them off as royal gifts. The violinist was the last man in France to cease wearing straps to his trousers. He always keeps his coat buttoned, and the varnish of his boots is irreproachable. The hat alone, among all the details of the toilette, is sometimes of the shocking bad sort; but a bad hat passes in certain societies where the head takes precedence of the thing which covers it. When he performs in public the violinist endeavors to excite the interest of his audience by strange attitudes and flashing glances. His object is to produce the effect of a supernatural being; it is his fixed idea, and also one of the elements of his success. A violinist, with easy gestures and a face like a thriving tradesman, would not be a violinist, but simply a player on the violin—which is a completely different thing. With the above mentioned qualities it is not difficult to conceive what must be a violinist's love. It is passionate and timid. He feels for the woman whom he loves an indescribable mixture of opposite sentiments, which oppress and agitate his heart. His pride tells him that he is not unworthy of the passion which he might inspire even were he to court a duchess; but his timidity suppresses the avowal of his lips, and he mostly confines himself to loving and suffering in silence.—*All the Year Round.*

— The Black Hawk stallion "Outlaw," formerly the property of the late Gen. Kearney, died on Friday, at Fort Washington, Md. He was owned by Capt. C. R. Deming, and valued at $1000. He is said to have been the most beautiful horse in the army.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast amount of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications into form to secure for them as early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leaves me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* received applications SIXTEEN APPEALS, EVERY ONE of whom was decided in *his favor*, by the Commissioner of Patents.

SATURDAY, MARCH 12, 1864.

THE REBELLION.

A rebel paper reports Longstreet as again advancing on Knoxville.

A Newbern dispatch, Mar. 7, states that everything is in readiness for the reception of the enemy in North Carolina, whose mysterious movements are difficult to understand. Refugees from the interior state that the rebels are garrisoning the State with troops at all the prominent points, for the purpose of checking the Convention movement.

Gen. Thomas's new position in front of Chattanooga is considerably in advance of the one held during the winter. General Palmer's lines, embracing the Chicamauga battlefield, Ringgold, and Taylor's and White Oak Ridges to Cleveland Gap, is strongly fortified. The rumors of skirmishing, heavy firing in front and rebel raids on railroads, so prevalent a few days past, are said to have no foundation whatever.

Gen. Sigel has assumed the command of the Department of West Virginia. His headquarters are at Cumberland.

Our forces entered Suffolk, Va., on Thursday morning, after a brief struggle, and now hold the place.

The bombardment of Fort Powell, below Mobile, continued vigorously on the 1st.—The rebel batteries replied, but none of our vessels were seriously damaged. The only casualty on our side was the wounding of one man on the Octorara. A letter from the fleet says Admiral Farragut intends to silence Fort Powell, so as to send his mosquito fleet into Mobile Bay. By so doing he will cut off Forts Morgan and Gaines. The Bay is said to be obstructed three miles below Mobile in such a manner that vessels are compelled to pass under the guns of two iron-clad forts and a battery on the shore. The west side of Mobile is defended by a complete line of intrenchments. Indeed Mobile is defended strongly at every point. The ram Tennessee still lies in the Bay. Mobile was almost entirely free of soldiers, 30,000 having gone to meet Gen. Sherman. Non-combatants had all left the city. A Key West letter has a rumor that one of Adm. Farragut's vessels had passed Fort Morgan, under a terrible fire, and another rumor was he had captured the works.

Gen. Grant was received by Gen. Meade and the Army with the greatest enthusiasm, and returned with Gen. Meade to Washington on Friday afternoon, whence he was to start immediately for Nashville.

MISSOURI ITEMS.—A St. Louis letter in the New York Post says it is believed that the promise of permanent peace in Missouri is better now than at any time since the war broke out. Bushwhacking has proved unprofitable, and the vigilance of the Union cavalry is so efficient that the men who have had a season's taste of guerrilla warfare are not over anxious to resume it now. Deserters from Price's army are constantly returning and bringing reports adverse to the prospects of the rebel cause, and great lukewarmness now exists among the female portion of the population—one of the surest signs that the hope of the rebels in the success of the rebellion is waning.

Three thousand two hundred negro troops have been enlisted in Missouri since November 1, and as about half are men of family, it is estimated that the recruiting officers have lessened the number of slaves legally held in Missouri some twelve thousand.

THE RECORD OF GEN. GRANT.—The ceremony of commissioning Gen. Grant as lieutenant general having been performed by the President, he is now the first officer of the United States army who has been invested with that honor—Gen. Scott being a lieutenant general by brevet. The following is the shining record of the officer thus worthily rewarded:

Palo Alto, May 8, 1846.

☞ A Union soldier, who recently escaped from the Goldsboro' prison, informs Gen. Peck that a great riot occurred at Raleigh on the occasion of hanging the native Union soldiers at Kinston, and that Gen. Pickett's rebel troops from that place passed through Goldsboro' with all possible dispatch to quell the outbreak in that city, where the stars and stripes were conspicuously displayed, and so much violence and excitement prevailed. The press was not allowed to speak on the matter.

NOTES OF FORMER DAYS.

Collected and Collated—By UNCLE TONY.

Portsmouth projects for the Capture of Louisburg, 1745.

It has been said, that a plan of this famous enterprise, was first suggested by William Vaughan, a son of Lieutenant Governor Vaughan of New Hampshire.—Several other persons have claimed the like merit. How far each one's information or advice contributed toward forming the design, cannot now be determined.

Vaughan was largely concerned in the fishery on the eastern coast of Massachusetts. He was a man of good understanding, but of a daring, enterprising and tenacious mind, and one who thought of no obstacles to the accomplishment of his views. An instance of his temerity is still remembered. He had equipped, at Portsmouth, a number of boats to carry on his fishery at Monhiniens. On the day appointed for sailing, in the month of March, though the wind was so boisterous that experienced mariners deemed it impossible for each vessel to carry sail, he went on board one, and ordered the others to follow. One was lost at the mouth of the river, the rest arrived without difficulty, but in a short time, at the place of their destination.

Vaughan had not been at Louisburg; but had learned from fishermen and others, something of the strength and situation of the place; and nothing being in his view impracticable, which he had a mind to accomplish, he conceived a design to take the city by surprise; and even proposed going over the walls in the winter on the drifts of snow. This idea of a surprisal forcibly struck the mind of Shirley, and prevailed with him to hasten his preparations, before he could have any answer or orders from England.

In the beginning of January, 1745, he requested of the members of the general court, that they would lay themselves under an oath of secrecy, to receive a proposal from him, of very great importance.—This was the first request of the kind which had ever been made to a legislative body in the colonies. They readily took the oath, and he communicated to them the plan which he had formed of attacking Louisburg.

The secret was kept for some days; till an honest member, who performed the family devotion at his lodgings, inadvertently discovered it by praying for a blessing on the enterprise. At the first deliberation, the proposal was rejected; but by the address of the governor and the invincible perseverence of Vaughan, a petition from the merchants concerned in the fishery, was brought into court, which revived the affair; and it was finally carried in the affirmative by a majority of one voice, in the absence of several members who were known to be against it. Circular letters were immediately dispatched to all the colonies, as far as Pennsylvania, requesting their assistance, and an embargo on their ports.

With one of these letters, Vaughan rode express to Portsmouth, where the assembly was sitting. Governor Wentworth immediately laid the matter before them, and proposed a conference of the two houses to be held on the next day.

The house of representatives having caught the enthusiasm of Vaughan, were impatient of delay, and desired that it might be held immediately. It was accordingly held, and the committee reported in favor of the expedition; estimated the expense at four thousand pounds, and desired the governor to issue a proclamation for enlisting two hundred and fifty men, at twenty-five shillings per month, one month's pay to be advanced. They also recommended that military stores and transports should be provided, and that such preparations should be made as that the whole might be ready by the beginning of March.

All this was instantly agreed to, on condition that proper methods could be found to pay the charges. This could be done in no other way than by a new emission of bills of credit, contrary to the letter of royal instructions. But, by the help of Shirley, a way was found to surmount this difficulty; for on the same day, he wrote to Wentworth, informing him that he had, in answer to repeated solicitations, obtained a relaxation of his instructions relative to bills of credit, so far, as to have leave to consent to such emissions as the exigencies of war might require; and advising him, that considering the occasion, it was probable, his consenting to an emission would rather be approved than censured by his superiors. The next day, he wrote again, assuring him that he might safely do it, provided that the sum to be emitted, were solely appropriated to the service of the expedition. He also sent him a copy of the instruction, enjoining him to let no person know that he had sent it. Shirley himself had consented to an emission of fifty thousand pounds, to be drawn in by a tax in the years 1747 and 1748.

NEW HAMPSHIRE ITEMS.

—— Merrimac and Grafton Counties have been redeemed from Copperheadism.

—— The exact number of towns, wards, plantations, etc., in this State is 268.

—— The Boston Post speaks of "Stratton, N. H.;"—means Stratham.

—— Representative returns from 141 towns show the election of 141 Republicans and 71 Democrats.

—— Returns from 184 towns—foot up as follows: Gilmore, 33,795—Harrington, 27,415—Scattering, 61. Gilmore's majority, thus far, 6,319.

—— Some individual in Amherst didn't wish to see the stars and stripes flying on election day, and so, under cover of the darkness of Monday night, cut the halyards of the Union flag-staff on the Common.

—— A Concord dispatch, Friday morning, states that returns from 220 cities and towns (leaving 10 to hear from) stand thus: Gilmore, 36,757; Harrington, 30,759. 4 of the 5 Councillors and 9 of the 12 Senators elect are Union Republicans. Majority in the House, about 75.

—— The Amherst Cabinet says: "At Enfield there is a very interesting work of grace. Rumsellers have poured their liquors upon the ground, and the gay managers have left the ball-room, and while their companions have run the giddy round of false pleasure, they have sought substantial happiness in the service of God."

—— The following promotions have been made in the 1st N. H. Battery:—Orin W. Tabor, 1st Sergeant, to 2nd Lieutenant; Gilman Stearns, 3d Sergeant, to 1st Sergeant; Charles E. French, 1st Corporal, to Sergeant, all to date from Mar. 18th. The Concord Democrat says these are all eminently deserving and fit to be made, the individuals receiving them being men who from the first enlistment of the Battery to the present time have most nobly and faithfully discharged their duties on all occasions and at all times.

— Saxe's Poems have gone through 27 editions in the past twelve years.

— The Newburyport Herald recommends General Banks as a candidate for the Presidency at the next election.

— A lad about 8 years of age was taken from one of the public schools in Portland on Thursday, in a state of intoxication, and put into the watch house to get sober.

— The Knights of the Golden Circle are said to be again active in Illinois and Indiana, and to control the Copperhead organizations in those States.

— A dispatch to the Boston Advertiser states that Gen. Halleck formally reported to Lieut. Gen. Grant for orders on Wednesday, expressing satisfaction at the opportunity of serving under such a commander.

— A letter from the Army of the Potomac says an order has been issued directing that all ladies within the lines shall leave as early as practicable, and that no more passes shall be granted to such visitors.

— The principal artists of Boston have sent a letter to San Francisco, in which the services rendered by the late Rev. T. Starr King to American art are feelingly commemorated.

— The Louisville Democrat of the 6th inst. says: "In the course of the next ten days nearly thirty thousand recruits will pass through this city on their way to the front."

— At a funeral in a neighboring town not long since, while the mourners were leaving the tomb, one of them approached the sexton, and taking out his pocket-book, proceeded to settle the burial charges upon the spot.

— A correspondent of the Belfast Age, describing a logging camp, says: "Directly above it [the fire] was a large square smoke hole, which was six by four feet square, and extending about four feet above the roof!"

— In Beverly, Mass., on Thursday morning, a boy from Salem, evidently on a gunning expedition, met another, a comparative stranger, in the street and asked him to go into some house and get him something to eat. On his declining to do so, he was threatened by his assailant with shooting; but not supposing that the threat was really in earnest, he paid no attention to it. The other immediately levelled his musket and fired, lodging several shots in and about his face. He is not dangerously, though somewhat seriously wounded.

DR. TEBBETTS' PHYSIOLOGICAL HAIR REGENERATOR
——AND——
UNIVERSAL HAIR RESTORER.

ITS MODUS OPERANDI.

Immediately beneath the scalp there are very small Glands, or, more commonly Roots of the Hair. It is from these Glands that every hair of the head is formed and secreted. As long as the scalp is free from diseases, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.

To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Tannin, Sulphur, &c., and producing only a sort of yellow or flax color, it will, if properly applied restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in its application.
2. It will certainly RESTORE the hair from a gray to a beautiful *Black, Brown, Auburn*, or whatever might have been its original color.
3. It will effectually prevent the hair from falling off, remove all heat, inflammation and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.
4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.
5. It will cure the most inveterate itching and neuralgia of the scalp, and being highly perfumed, it affords a most delightful article for the toilet.

We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator; and it is positively certain that in a very short time it will have a world wide reputation.

HOME TESTIMONY.

BEDFORD, N. H., Dec. 17, 1863.

Messrs. Tebbetts Brothers—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and now it is almost *black*. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diptheria; it stopped it immediately on its application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only used one bottle, and I think one more will fix our heads up in good shape. J. C. CUTLER.

MANCHESTER, Dec. 20, 1863.

Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be prepared. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, when about two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. JACOB J. ABBOTT.

Administrator's Sale
OF
Valuable Real Estate,
ON RICHARDS AVENUE.

Under a license from the Hon. Judge of Probate, I shall sell at public auction, on the premises,
On SATURDAY, the 26th day of March next, at 12 o'clock, noon,

The Real Estate of the late JOSEPH GREEN, situate on the westerly side of Richards Avenue, (formerly Auburn street,) being the homestead occupied by the deceased in his lifetime. The lot has a frontage of thirty feet on the Avenue, and a depth of eighty feet, extending back as far as the estate of Dr. Wm. R. Preston. It has upon it a convenient house, two stories high, and large woodshed. The garden has many excellent fruit trees in good bearing order. The fine situation of this estate, with its extensive prospect, the excellence of the neighborhood, and its accessible location, render this a rare opportunity for purchase, either for investment or occupancy.

Terms of sale—Cash. The purchaser will have no difficulty in obtaining any reasonable sum upon a mortgage of the premises, if desired.

Local.

☞ Advertisements in the Daily Chronicle and the Weekly Journal, and posters about town, make known to the citizens of Portsmouth the gratifying intelligence that the youthful and eloqent oratress, Miss Susannah Evans, is to speak upon the subject of Temperance in the Temple, tomorrow evening. The price of admission is a mere trifle, and it is earnestly hoped that the friends of the cause will use every exertion for a "grand rally," that the house may be filled. Let Portsmouth give her a reception such as shall convince her that its citizens possess hearts which are warm and ready to aid in advancing the great moral reform which she urges upon individuals and communities. Doors open at 6 1-2 o'clock: lecture will commence a 7 1-2 o'clock. G.

[Correspondence of the Chronicle.]

GOSPORT, March 10.

THREE CHEERS FOR GOSPORT.—*Mr. Editor:*—Our election at this place resulted as follows: Whole number of votes cast, 28—13 Republicans, 9 Democrats.—Scattering none.

For Representative, Elvin Newton, Republican, received 17 votes, in place of Origen S. Caswell, declined. This gives the Union party a gain of 6 over the Copperheads since last spring.

ORIGEN S. CASWELL, Town Clerk.

Correspondence of the Chronicle.

HAMPTON, Mar. 9.

TOWN OFFICERS ELECTED.—Thomas Leavitt, jr., Moderator; John J. Leavitt, Town Clerk; Thomas Leavitt, jr., Representative, Rep.; Joseph Dow, Jacob T. Brown, Edmund Mason, Selectmen; Edwin J. Hobb, Collector. The vote was—Gilmore, 179; Harrington, 116. *J. J. L.*

☞ Mr. Shores favors us with a copy of the Testament and Psalms—pocket edition of the British & Foreign Bible Society, which appears, by a label on the cover, to have come "From the cargo of the Anglo-Rebel Blockade Runner Minna, captured Dec. 6, 1863, off Wilmington, by the Government Dispatch Ship Circassian, Capt. W. B. Eaton." We do not know that this item adds to its value; but it is a neat book and its history is curious.

☞ We should have mentioned earlier, that Rev. Mr. Patterson's lecture at the Lyceum on Tuesday evening was a fine one, very satisfactory to the audience; and that he generously declined to receive any pecuniary reward for it. The election has occasioned our delay in the matter, and we now copy a few appropriate remarks from the Journal.

POLICE COURT, March 11, before Justice Odell.—Pelatiah Moulton, for stealing hens from Robert Manson, of Newington, fined $9, (three times the price of the hens) and sent to jail for 30 days. Also for breaking into said Manson's house, and stealing hens and rye, Moulton was bound over in $100, to appear at the S. J. Court: committed.

☞ If you like a good exhibition of pictures from life, go to the Temple tonight. If you wish to encourage a great reform, come and go and see the Mirror.—If you would take a chance in a first-rate distribution of property, secure a ticket in Perham's scheme. Saturday is the last day here.

☞ We are glad to know that tickets for Miss Evans' lecture (the youthful oratress) are selling rapidly. Those who want to hear her should secure tickets at once.—There is every prospect of a crowded house on Sunday evening. R.

☞ The last chance to see Perham's Mirror of the Rebellion, this afternoon (for ladies and children especially) and this evening.

☞ The last column on this page contains our selections from the Journal.

☞ The Portland papers are talking about Wood's hotel again. Mr. Wood now proposes to the Board of Trade to give a clean mortgage of the whole establishment when completed, if $150,000 can be raised to finish it. The building has already cost $150,000.

— The U. S. Senate, on Thursday, passed the bill equalizing the pay of the soldiers, by a decisive vote. A bill granting the franking privilege to the President and Vice President of the United States was also passed.

— A dispatch to the Boston Herald says several returned prisoners reached Washington from Richmond on Thursday night, and among them is Admiral Paulding's son, who says the rebels placed several barrels of powder under the Libby Prison to blow it up if Kilpatrick succeeded in forcing his way into the city.

— Mr. S. S. Cox is reported indignantly to deny the truth of the N. Y. Herald's recent story that Gen. McClellan was unwilling to be a candidate for the Presidency. The Herald itself seems to have no faith in the story, for it has dropped its advocacy of Gen. Grant and returned to the support of Gen. McClellan.

— Fast Day in Connecticut March 25—Good Friday.

— A silver half-dollar of 1838 brought $55, and a silver dollar of 1852 $40, at a sale of coins in Philadelphia.

— It is reported on the authority of the captain of the gunboat De Soto that a rebel privateer, barque-rigged steamer, is cruising to the westward of Havana.

— The National Lancers, of Boston, give a grand military and civic ball at Andrews Hall next Tuesday evening, 16th inst. Capt. Slade, and Lieuts. Sanborn and Hull are the committee of arrangements, and the Germania Band furnish the music.

— In refutation of the partisan charges brought against President Lincoln for his alleged agency in the matter of the Florida expedition, the Washington correspondent of the Chicago Tribune says: "The fact is the President has not himself issued a military order since early in last July."

— Eighteen or twenty naval vessels ready for sea are now detained for the want of seamen. The recent act of Congress authorizing the enlistment of sailors from the army to the number of 12,000, will, it is thought, supply as many as are at present needed.

— Three more of the gunboats fitted out at Cincinnati are almost ready to leave for some point where their services are needed. This will make in all thirteen vessels of this character sent from that city since the beginning of December. The greater number have been dispatched to join the fleet under Farragut.

☞ The horrors of war can be greatly mitigated by that sovereign remedy, Holloway's Ointment, as it will cure any wound, however desperate, if it be well rubbed around the wounded parts, and they be kept thoroughly covered with it. A pot of ointment should be in every man's knapsack. Only 50 cents per pot. 227

SYMPATHY.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Herrick Allen's Gold Medal Saleratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will use any other Saleratus or soda, if this article can be purchased. We see most of our Merchants have it. One trial will convince any one. Their depot is 112 Liberty Street, New York.

Constitution Life Syrup HAS PRODUCED A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cases which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as heinous as ever encountered by any Reformers.

Rapidity of Cure.

☞ Some say, "Your cures are too quick," while others doubt their permanence, and think that disease can only be cured by the "slow recuperative process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Struma, Glandular Swellings, Ulceration, King's Evil, Erysipelas.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritis, Neuralgia, Gout, Lumbago, Sciatica, Tic Doloureux.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intolerable pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St. Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering woman will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of Mercury, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so much the young portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a feeling of filing sound), Dropsy of the Heart Case and all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Insanity, Fear of Disease, Dimness of Vision, Pain in the Side, Hot Skin and Extremities, Want of Sleep, Restlessness, Pale Haggard Countenance and Lassitude of the Muscular System, all require the aid of the CONSTITUTION LIFE SYREP.

For all forms of **Ulcerative Diseases**, either of the Nose Throat, Tongue, Spine, Scrofulous or Scalp, no remedy has ever proved its equal.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcer affected or organic condition of that organ, accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYREP.

☞ *It is a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and spine, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES

It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the food—those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

THE ELECTION.

"As goes New Hampshire now, so goes the Presidential Election next November," was the emphatic assertion of the copperhead papers in New Hampshire before the election. It was about the only truth they gave utterance to. Do they still hold to it? Or with the desperation of their brother rebels, will they fight it out to the bitter end, and like those with whom they sympathize "die in the last ditch."

Our State has done better than our highest expectations. It has shown to the whole country that she can not only send her full quota to the battle field when the Union is endangered—but that she can also retain enough friends of the Union at home to keep in abeyance the party which their great leader had said would crimson our streets to aid the rebellion.

And where is that Franklin Peirce now? Has any body seen him since Tuesday? What does he think of his prospects for the Senatorship? Is that "Mausoleum of Hearts" yet constructed? If not, spare no time in preparing it. Let it be capacious enough for all copperheads, where, following their great leader, they may wiggle in, quirl their tails around them, and retire from the Union.

CAPT. MARCY.—His speeches in Congress have not been published in the Globe. But as it is the fashion for Members of Congress to send home printed speeches to their constituents, Capt. Marcy last week prepared a letter, principally extracts from Sec. Chase's report, had it corrected and printed, and sent it home, stating that he should not leave his seat to come home to election, as his vote might be needed. Nevertheless, the Captain arrived home on the very day the letter was published!

In Congress he has voted against the employment of negro soldiers, thus endeavoring to compel more of our Northern white men to be sent upon the battlefield, where the services of the blacks would be equally valuable. An incident of Tuesday shows that he has no more real sympathy for a white soldier than he has for a slave, and that he lacks the first particle of humane feeling for those who have sacrificed upon the altar of their country, the dearest offering, a beloved son. Among the first to volunteer for his country's cause, was Mr. William E. Oxford, who was wounded at the first battle at Bull Run, and died a prisoner in rebel hands soon after, leaving a circle of bereaved friends at home, whose hearts have never healed from the agony of the affliction.

Mr. John R. Oxford, the father of William, has in his employ as a teamster a worthy and intelligent contraband—the ideal of degradation to the eye of Captain Marcy. To this black man, on the evening before election, Capt. Marcy took occasion to say—"Don't none of you niggers go down to vote to-morrow—if you do, you will get your—necks broke."

On the morning after the election, Marcy in passing on Market square, heard Mr. Oxford talking with another man on the Copperheads. He turned at once and volunteered the unfeeling remark—"You have lost a son by the war—*but you have got one to take his place,*" referring to the Contraband.

Mr. Oxford felt the uncalled for and inhuman insult, and in no measured terms denounced the contemptible spirit which prompted it—alike disrespectful to personal feelings, and to the cause for which his son had given his life.

LYCEUM.—Rev. Mr. Patterson gave an excellent lecture at the Lyceum on Tuesday evening. His subject, *Nature's Prices*, was a practical one. In the various phases it presented, the debt and credit were clearly shown. The prices Nature demands for violations of her laws are fixed, without fluctuation, whether they be of the physical, moral or political organization. The subject extended to the present times, and the lecturer put upon the shoulders of the promoters of the rebellion so heavy a burden of debt, that they may well crawl into some "Mausoleum" to escape the penalty. Mr. P. is always at home when the love of country is his theme.

A Lyceum lecture by one of our own citizens is so rare an occurrence, that it is worthy of some note. It reminds us of the early days of the Lyceum, about thirty years ago. For several years the lectures were all by Portsmouth men. Lawyers, physicians and divines were called upon and gave their services gratuitously. Every seat in the Cameneum was filled, and we think some better lectures were given than have since been delivered by strangers with larger fees.

PERHAM'S MIRROR OF THE REBELLION.—This is the "Mirror" to which Mr. Perham has already given a wide spread renown from sundry excursions to visit it in Boston, and is really a good exhibition—in some respects very fine and life-like. It has stamina enough to stand upon its own merits, without any side shows.

It will be open at the Temple this (Friday) and Saturday evenings and Saturday afternoon. See advertisement.

AN UNPUBLISHED INCIDENT OF THE 22D.—Mrs. Mary Pray, who lives on Pray street, was born on Washington's thirty-seventh birthday in 1760, and is now the oldest lady in Portsmouth. Capt. Daniel Fernald, who is one, year and 3 months older, the oldest man in Portsmouth, lives but a quarter of a mile from her residence. On that day he paid her a congratulatory visit. The widow of 95 and the widower of 96 were taking their cake and currant wine, when unapprised of any of the circumstances a visit was made by her pastor. Some might have thought that the latter was the only one needed to give completeness to the visit. Their recollection is good of early days, and the events of the Revolution they can discuss together as though they took place but last year.

THE RAIN.—There was quite a freshet from the rain on Sunday and Monday last. Ladd swamp, back of the Woodbury seat, was covered to considerable depth and extent. On Sunday night it overflowed the dam at the brewery, and the water rose five feet in the lower story, doing more than a thousand dollars damage.

Morning Chronicle.

VANISHED.

Out of the wild and weary night
I see the morning softly rise;
But, oh, my lovely, lovely eyes!
The world is dim, without your light.

I see the young buds break and stay
To freshen life when winter's cold;
But, oh, my rose-red mouth! no more
Will kiss of yours delight my heart.

The worm that knows not hope nor trust
Comes forth with glorious wings dispread;
But oh, my little golden head!
I see you only in the dust.

I hear the calling of the lark,
Despite the cloud, despite the rain;
But, oh, my snow-white hands! in vain
I search to find you through the dark.

When the strong whirlwind's rage is over,
A whisper bids the land rejoice;
But, oh, my gentle, gentle voice!
Your music gladdens me no more.

But though no earthly joy dispel
The gloom that fills my life with woe,
My sweetest and my best! I know
That you are still alive and well.

Alive and well: O, blissful thought!
In some sweet clime, I know not where;
I only know that you are there,
And sickness, pain and death are not.

The Long Sought For Discovered at Last.

CURES FROM ONE TO THREE DAYS

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all disorders of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in these cases of Fluor Albus (or Whites in females) where all the old nostrums have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and strengthening the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an auxiliary assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, soothing and demulcent; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all impure discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $1 per bottle, or three bottles for $3.

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This Elixir has been prepared by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.
A few doses cure Hysterics in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and full vigor of youth.
A few doses restore the appetite.
Three bottles cure the worst case of Impotency.
A few doses cure the low spirited.
One bottle cures any kind of nervous disease.
A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing victim of sensual indulgence.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the mental suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

LAST AND BEST.

THE MODEL COOK.

AN AIR-TIGHT STOVE,

WITH TWO OVENS,

And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the oven, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either side, when needed.

In fact, no pains or expense have been spared to render this a PERFECT STOVE, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where but one stove is employed, and is to the housewife who does her own work, lightening it at least one-half.

We refer to some parties who have purchased the Model Cook—

A Great Variety of Cheaper Stoves
FOR WOOD OR COAL.
E. A. STEVENS'S
House Furnishing Establishment,
NO. 46 MARKET STREET

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the CELEBRATED AND UNEQUALLED MAGEE COOK STOVE, as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this very valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, more agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over cruder methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the ebullient or hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert E. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to ascertain the exact changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

DELICATE AND DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the greatest facility of presenting the unfortunate with remedies that have never, since its first introduction, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Ulcers, pain and distress in the region of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of childhood.

SEMINAL WEAKNESS.

Dr D., devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and minds, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Limbs, Pains in the Back, Dimness of Sight, Palpitation of the Heart, Dyspepsia, Nervousness, Debangement of the digestive functions, symptoms of Consumption, &c. The fearful effects on the mind are to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, timidity, &c., are some of the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capottes, warranted the best preventive. Ordered by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, the most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stand higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Bound to no party—to no sect confined:
To world our home; our brethren all mankind.
Our aim, our end, be just and fair with all;
Exalt the right, though every firm fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—It is common and continual mischiefs sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of a popular form, it is seen in its greatest rankness, and is truly their worst enemy.!—*Washington's Farewell Address.*

"THE CONSTITUTION AS IT IS."—The Constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the SUPREME LAW of the land; and the judges in every state shall be bound thereby, anything in the Constitution or laws of any *State* to the *contrary* notwithstanding.

The Senators and Representatives before mentioned, and the members of the several State legislatures, and all executive and judicial *officers*, both of the United States and of the several states, shall be bound by oath or affirmation, to support this Constitution.—*Constitution U. S.*

FASHION RIGHT FOR ONCE.—Madam Fashion has just been introducing a change—and a change for the better—in the manners and custom of her votaries in New York. Heretofore, it has never been ton to go to an evening party earlier than nine or ten o'clock, so that before one well had time to look around and make himself acquainted with the company, it was pretty well on to daybreak. This nuisance is now abated. It is fashionable to go at five and come away about midnight. Some of the first class parties lately given have observed this formula, to the infinite satisfaction of anxious mothers and fathers—and henceforth, of course, all the smaller fry will go and do likewise.

THE DOOR LOOKING AFTER THE KEY. Alexander, fourth Earl of Kellie, was rather a hard liver. He married Anne, daughter of third Earl of Balcarres, and in the first confidence of early married love, entrusted to her keeping the key of the wine cellar. Lady Kellie, on the first occasion that he invited his boon companions to dinner and drink, gave out as much wine as she thought good for them, and walked quietly up to Carnbee with the key of the wine cellar in her pocket, to take her four hours with the minister's wife. The party soon discussed the modicum she had left out for their consumption, and on his lordship sending for more he learned how matters stood. He had the cellar door forced forthwith from its hinges, and desired the servant to take it to the manse, with his compliments to her ladyship, and, if she asked any questions, to say:—"That it was the cellar door come to look for the key."

VERSATILITY OF AMERICAN SOLDIERS. There are two mills which supply our soldiers at Pulas, Tennessee, both steam flouring and saw mills. They are under the superintendence of Capt. W. H. Hill, 81st Ohio, a practical miller and driving business man. In less than a month, during half of which time only one mill was running, he has furnished to Captain Carpenter, Commissary of Subsistence, over 100,000 pounds of flour. This has been done, too, by grinding usually only at night, the saw being run during the day. It is a novel sight to go through these mills. How perfectly at home are our sturdy sergeants, corporals, and privates, all covered with dust and flour, as they walk about the mill on their various duties. The ease with which our troops adapt themselves to anything is a matter of surprise to the natives of Tennessee. Yankee labor is so manifestly superior to that which has been employed heretofore, that they actually want the troops to continue to run the mills.—The thrift and enterprise displayed by our men make decided impressions on the people in favor of free labor.—*Scientific American.*

"BORDER BABES" is the name assumed by the band of brigands under Maj. Harry Gilmor, who made a raid upon the Baltimore & Ohio Railroad, and robbed the passengers. They plunder both sides indiscriminately—call themselves "Jessie Scouts" when rebels are made to suffer, and guerrillas when Union men are their victims.—They are deserters from both armies, a set of "Dick Turpins" and "Jack Sheppards"—are outlawed by the rebel military authorities, and should be hunted down like public robbers as they are. Their field of operations is well adapted for their purposes. It lies between Martinsburg and Harper's Ferry on the north, and Woodstock and Front Royal on the south, and from the Blue Ridge on the east to the North Mountains on the west. It is traversed by an intricate net-work of roads, which they scout at night with all the impunity of infallible familiarity and impenetrable disguise. Gilmor, the leader, is of good family and well educated, but is a coward, and the leader of cowards and thieves.

BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given of the time of my Patent Office, and the fact that THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate. The business practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay thereby, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN Applications, on all but ONE of which patents have been granted, and that is now *pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.—JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

Twenty years devoted to this one particular branch of practice, enables him to perform cures such as other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the old World,) to obtain the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Groin, Blotches, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscess, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
TO YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of married life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every town of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody—startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sents to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 30,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays, from 9 to 12 P. M.

MONDAY, MARCH 14, 1864.

THE STATE ELECTION.

The Concord Statesman has returns from 220 towns (all but 10) which foot up as follows: Gilmore, 36,757; Harrington, 30,759; scattering, 76. The 10 to hear from last year voted, Gilmore, 231; Eastman, 654; Harriman, 79: and the Statesman thinks Gov. Gilmore's majority will be about 5600. The whole vote last year was, Gilmore, 79,035; Eastman, 33,101; Harriman, 4,372; scattering, 34.

The list of Representatives so far as heard from, 109 towns, stands 204 Union and 107 Democrats. The towns not received will probably return 3 Republicans and 17 Democrats; making the total number elected to the House, 331; 207 Republicans and 124 Democrats; Republican majority 83.

In the Senate, the Union men have elected all the members except in Districts Nos. 6, 8, and 12. They have also elected all the members of the Council except in the Fifth District, in which there is probably no choice.

THE REBELLION.

Gen. Grant, it is said, favors concentration of our scattered forces.

Gen. Kilpatrick's cavalry are returning to the Army of the Potomac.

The people of New Mexico are fearful of a rebel raid.

Kit Carson has subdued the Navajo Indians, killed their principal chief, and arrived at Santa Fe with 280 prisoners.—He left 500 prisoners with Col. Canby.

A Washington dispatch says:

Gens. Sherman's and Smith's raids into the enemy's country have accomplished all that was expected they would do, and more. Gen. Grant expresses himself highly pleased with the result. Gen. Smith was 5000 men stronger when he returned than when he went away, and Gen. Sherman reinforced his army from the enemy's country three fields that number. Rebel papers acknowledge that the rich sections of the country through which Smith and Sherman passed were completely impoverished. All rebel supplies, railroads and telegraphs were destroyed. There were other important military advantages gained by the two expeditions.

There was some skirmishing near Suffolk, Va., on Wednesday, occasioned by the rebels threatening an attack.

Advices from Vicksburg state that Gen. Sherman's expedition has returned to that place, except the 17th and the 18th Corps, which will remain at Canton until further orders. They did not proceed beyond Meridian. There was no fighting of consequence. The loss was small, mostly from straggling. Four thousand prisoners and six thousand negroes were brought in.

The negro troops at Haine's Bluff made a descent on Yazoo City on the 24th ult., and after a sharp fight occupied the town. Our loss was thirty killed and wounded.

It is emphatically stated that the order alleged by the rebel papers to have been written by Col Dahlgren, is a forgery.

Lee has sent out his cavalry in all directions to seize forage and subsistence for his troops, who are suffering from the want thereof.

There are 5000 or 6000 rebels in West Louisiana, under Dick Taylor. The rebels are fortifying on the Black and the Ouachita rivers. The rebel gunboat Webb recently showed herself at the mouth of Red river; quite a fleet of Union rams and iron-clads are collecting there. Three rebel rams are building below Shreveport.

It is now thought at Knoxville that Longstreet has been ordered to North Carolina.

☞ The rebel papers are greatly dissatisfied with Gen Bragg's appointment to the supreme command of the rebel armies.—The Atlanta Confederacy says "Mr. Davis could not devise any measure which is so largely calculated to weaken his own position in the public confidence, and derange the status of military affairs and opinions."

— Another dead baby has been found down-east, this time in Portland, in a cigar box, in a cemetary.

— Gerrit Smith drew, at the Albany Bazaar, the President's autograph copy of the Proclamation of Freedom,—a curious circumstance.

— The dead soldier in a patriot's grave is to be envied rather than the citizen who living strives to fatter the hands of his Government that it may not strike down the traitor.

REVIEW OF THE ELECTION.

Now that the election is over, the returns received, and days enough have gone by for hot heads to cool, Uncle Toby deems it a good time to make a calm review of it, in words few and plain as may be.

The result of the New Hampshire election establishes several facts, and settles several questions, so thoroughly and decisively that they cannot be easily disputed or re-opened for years.

It is a fact that the leading peace democrats, as they call themselves, or the copperheads, as some opponents call them, do *not rule* the State; nor are they able, by using the *name*, and controlling the *machinery* of the democratic party, to draw or drive the whole *mass* of that party into voting for their men, or approving of their measures

The term abolitionist has lost its power, as a word of reproach: if a man claims to be a democrat, somebody will ask him what *kind* of a democrat he is; and party names are only conventional. So far as we have seen, no loyal papers in the State claim the result as a success of the republican party; but they call it a Union victory, and so it is,—for the War Democrats of last year, by voting for Harriman, prevented the State from passing under the Vallandigham and Pierce dynasty; and the war democrats of this year, joining their votes with those of 1863, swelled the Union majority a thousand or two,—and thus aided in condemning rebellion abroad and treason at home.

It is well understood now that our volunteer soldiers generally are not copperheads, though many of them were and are democrats, as they understand the term, and as the word really means. They, too, coming *home* to vote, (after re enlisting) helped to swell the majority for Gov. Gilmore. If any body doubts this, let him listen for a moment to the hissing and spattering of copperhead nests and dens, in the State and out of it. And if any one condemns it, just ask the *reason* why the citizen soldier should *not* vote. As no good reason can be given, his answer will probably show a cloven foot or a copper head.

It is plain as daylight that a *few democrats* in almost every town in the State, amounting in the whole to a large number, say 1000 or 1500, would not and did not vote for their old leaders,—but voted the Union ticket. We have this from the returns, and also from the highest copperhead authority, which says there is scarcely a town in the State "where the Democratic ticket has not *lost* on the vote of 1863."

It is also plain that New Hampshire will go for the Union next Autumn. The same high authority speaks of the shallow and discreditable policy of the democratic party in the late election—and proposes a change, as "the *only course* for the Democratic party to pursue, if they desire an existence on American soil after the Presidential election of next November."

This proposed change would be neither more nor less than the placing of this State *openly* on the Woods, Pierce and Vallandigham platforms. If such a change should be made, at least 10,000 more loyal Democrats would vote the Union ticket. The dozen leaders here, and similar dozens elsewhere, might agree on something of the sort, but their followers would desert by brigades and divisions. U. T.

THE FRESHET.—The Newburyport Herald states that on Thursday the ice in the Merrimac was "loosening." The stoppage was opposite the Laurel Grounds; and there was considerable damage in consequence. It is reported that $20,000 would not more than cover the loss in Haverhill. Below, the roads are washed and some of the small bridges by the river torn away. In some places the ice piled from ten to thirty feet high. At Curson's Mill it went over the road and tore up the dam; and on some of the low farms on the river bank it plowed their fields, broke down apple and other trees, and damaged the grounds. At the Merrimack Hat Factory on Salisbury Point, it piled up against the building so that persons walked over it into the windows of the second story; and all the windows below were broken. The ice has brought down a large quantity of timber, lumber, and wood, which will set to work all who like the excitement of picking them up in boats.

The Ballot states that Exeter river was swollen to a great degree, and on Monday and Tuesday great portions of ice came down the raging current, doing considerable damage to the old barns and sheds upon its banks. At the Paper Mill Village the bridge between the mills and a considerable quantity of wood were carried away, to the damage to the Messrs. Flagg of about one hundred dollars. A small bridge in Kensington was also swept away, by which communication between that town and Exeter was temporarily interrupted.

— The Lewiston Journal says that the copperheads in Durham, Me., deny that their selectman who decamped recently with a fair but frail one, has swindled the town, but refuse to take such measures of investigation as will determine the facts, or to allow the Union men any facilities for reaching an understanding as to affairs.

NEW HAMPSHIRE ITEMS.

—— Peter Fannon, an Irishman, was suffocated in Rochester on Tuesday, while removing tan, the high mass falling upon him as he was filling his wheel-barrow.

—— Roswell Elliot, Esq., of East Canaan, was instantly killed on the night of Feb. 28th, by being thrown from his wagon, his horse taking fright.

—— The Democrats of Grafton, on Tuesday, elected all their officers, as usual, and then discovered that they had neglected to have their Moderator sworn in. So on the next day they "went through the motions" again.

—— Capt. A. C. Cumming commanding detachments, requests men of the 2nd, 5th and 12th New Hampshire Regiments, now on furlough, to report in Concord, on the 15th of March inst., for transportation to their several destinations.

—— The Phœnix factory in Peterborough is soon to be started up by Jonas Livington, of Claremont, who has purchased an interest in the mill, and will soon remove there to take charge of it. Mr. L. formerly resided in that town but went to Claremont to take charge of the mills there many years ago.

—— The Concord Statesman speaks truly when it says that, although at a little past midnight on election day, the noise subsided, the gas was turned off along the streets, and the sovereign people went into that bodily condition during which victories and defeats are temporarily forgotten, in the printing-offices exhausting work began just where that of most folks ends.

—— The copperheads in Goffstown on election day collected in a dense mass near the desk, completely blocking the avenue,—and there remained during the day; and all efforts to dislodge the conspirators proved unavailing. This was ostensibly done because the Selectmen refused to put the name of a person on the check list, who was brought by two Democrats a few minutes after the polls were opened. On Wednesday, however, the Union men went to the polls prepared to maintain their rights, even if summary measures were necessary to sustain them. But it fortunately happened that the copperheads wisely declined jeopardizing their heads in a conflict where justice and law were against them, and the ballot proceeded without resistance, resulting in the choice of two Union Representatives.

MILITARY CHANGES.—A Washington dispatch to the Boston Advertiser gives a list of an important series of changes in the armies of the Union, made by order of President Lincoln. Lieut. Gen. Grant is made Commander-in-Chief, with headquarters in the field. Gen. Halleck is relieved from duty as General-in-Chief, and made Chief-of-Staff of the army. Gen. Sherman succeeds Gen. Grant in the command of the division of the Mississippi; and Gen. McPherson succeeds Gen. Sherman in the command of the Department of the Tennessee. Gen. W. F. Smith was on Friday nominated for Major General of Volunteers, as a necessary preliminary to his assignment to the command of the Army of the Potomac.

☞ The Chesapeake pirates at St John, N. B., have been discharged on a writ of habeas corpus, by Justice Ritchie, who held —1st, that there had been no proper requisition for their rendition; 2d, that being charged with an offence against the law of nations, they were justiceable in the Provinces, and not in the United States, where they had not been after the commission of the crime; 3rd, that Mr. Gilbert who gave a decision to deliver them up, had gone beyond his jurisdiction as a Justice of the Peace; and 4th, that the warrant on which they were detained was bad on its face and insufficient in law to warrant the detention. So this matter is ended and the gallows will lose its due.

NEW HAMPSHIRE ELECTION.—The aggregate vote of the State is very large, and the aggregate gain of the Republicans is much larger in comparison. Some of the city and town votes are rather astounding. Mr. Representative Marcy, who votes in Congress upon all measures with Fernando Wood, will be surprised, without doubt, to see that his native place, which gave to him a plurality at his election, now throws a majority of nearly six hundred votes against the party to which he is attached. The vote of the city of Portsmouth is 1229 for Gillmore and 659 for Harrington. The gain for the Republicans in other important towns and cities is smaller, but it is equally significant.—*Boston Transcript.*

[Capt. Marcy did *not* have a plurality in this city, when he was elected to Congress. Eastman had 166 plurality here.—*Chron.*]

☞ We call the attention of merchants, booksellers, druggists, painters, and others, to the advertisement of "The Croton Manufacturing Company," of No. 10 Cortlandt street, New York, in another column.—This Company stands at the head of the Trade, both in quantity and variety of the goods they manufacture and import. As they are constantly manufacturing, they keep up a full assortment at all seasons of the year, and are fully prepared to fill orders for goods in their line at any time.

— Newfoundland is said to be a country without a reptile, and the Chattanooga Gazette says Vallandigham is a reptile without a country; he ought to "move" to Newfoundland.

DR. TERBETTS'
PHYSIOLOGICAL
HAIR - REGENERATOR
AND
UNIVERSAL HAIR RESTORER.

ITS MODUS OPERANDI.

Immediately beneath the scalp there are very small Glands, or, more commonly Roots of the Hair. It is from these Glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.

To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Tannin, Sulphur, &c., and producing only a sort of yellow or flax color, it will, if properly applied restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in its application.

2. It will certainly restore the hair from a gray to a beautiful *Black, Brown, Auburn*, or whatever might have been its original color.

3. It will effectually prevent the hair from falling off, remove all Heat, Inflammation and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.

4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.

5. It will cure the most inveterate Itching and peculiarities of the scalp, and being highly perfumed, it affords a most delightful article for the toilet.

We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator; and it is positively certain that in a very short time it will have a world wide reputation.

HOME TESTIMONY.

BEDFORD, N. H., Dec. 17, 1863.

Messrs. Tebbetts Brothers—The person who you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and now it is almost *black*. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diphtheria; it stopped it immediately on its application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only used one bottle, and I think one more will fix our heads up in good shape. J. C. CUTLER.

MANCHESTER, Dec. 20, 1863.

Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be prepared. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, when about two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. JACOB J. ABBOTT

Administrator's Sale
—OF—
Valuable Real Estate,
ON RICHARDS AVENUE.

Under a license from the Hon. Judge of Probate, I shall sell at public auction, on the premises,
On SATURDAY, the 26th day of March next, at 12 o'clock, noon,

The Real Estate of the late JOSEPH GREEN, situate on the westerly side of Richards Avenue, (formerly Auburn street,) being the homestead occupied by the deceased in his lifetime. The lot has a frontage of thirty feet on the Avenue, and a depth of eighty feet, extending back as far as the estate of Mr. Wm. R. Preston. It has upon it a convenient house, two stories high, and large woodshed. The garden has many excellent fruit trees in good bearing order. The fine situation of this estate, with its extensive prospect, the excellence of the neighborhood, and its accessible location, render this a rare opportunity for purchase, either for investment or occupancy.

Terms of sale—Cash. The purchaser will have no difficulty in obtaining any reasonable sum upon a mortgage of the premises, if desired.

A LIBEL ON THE DEAD.—Will the reader believe that a newspaper printed in the town where Starr King was known and beloved in his school-boy days,—and known and honored to the end of his life,—would so outrage public feeling, as to insult his memory by a dirty paragraph?

We could not have believed such a thing, had we not seen it for ourselves: but here it is. Under the head of "Review of the Week," it reads:

Saturday, March 5.—We have news from California that Rev. Thos. Starr King, a ranting abolition traitor priest, is dead.

We believe it to be our solemn duty, says Uncle Toby, to bring this flagrant offence to the notice of respectable people here, who might never see it in the print where it originated; and thus to hold it up, with the editors, owners and managers, to the notice and condemnation of *decent people* of all parties.

Starr King a *traitor?*—to what? His treason consisted in opposing rebellion, and holding California loyal. A ranter? pronounced so only by the miserable tool of a miserable faction.

Starr King's memory cannot suffer at such hands: but the reputation of Portsmouth is disgraced by the whole concern which we thus describe but will not name.

U. T.

☞ We are pleased to acknowledge the receipt, from the Committee of Arrangements of the Boston Lancers—of an invite to their grand ball to be held to-morrow evening. Circumstances promise to prevent our meeting with that splendid and gallant corps on this gay and festive occasion; but like the farmer who was urged by his pastor to attend church, we shall try to "go ourself or send a hand."

WRECK AT FOSS'S BEACH.—A schooner from Bucksport for Boston, loaded with 3500 bushels of potatoes, struck on Sunk Rock, off Foss's Beach, on Friday afternoon, and during the night drifted in on the Beach. The crew reached the shore in their boats in safety. The vessel lies in a very critical position, and will probably become a total wreck.

☞ Our readers will recollect that the Rockingham County Agricultural Society voted at their last meeting to hold a Fair next Fall. The place is not yet decided on. The Trustees will soon hold a meeting, to arrange and issue the premium list, &c.

STEAM FIRE ENGINES.—In a recent letter from the Chief Engineer he says that with the hand engines it cost the city of Manchester "$11,000 per year, but with three steam engines it costs but $5000."—It is thought by some that as there is a steam fire engine at the Navy Yard, it is not so necessary to have one in this city.—Although to some extent this is probably true; still, as there now is a larger amount of property at the Yard than there has been heretofore, if the wind should be in a direction to blow the cinders that way, the engine would be needed at that place. But there is another reason why we need a steam fire engine more in this place than most others. A large proportion of our firemen go to the Yard, and in case a fire occurs here when they are there it takes some time for them to cross over and get to the fire; while perhaps with a steamer the fire could be put out while they were coming. Besides, in most cases it might not be necessary for the men to cross over, and consequently not be subjected to a loss of time or diminished pay at the Yard. B.

POLICE COURT, Saturday—Odell, J.—Frederick A. Eaton, of Seabrook, for being drunk, was fined $3, and costs $3.86.

☞ Officers and employees of the P. S. & P. Railroad, together with several Mail Agents, express messengers and other gentlemen,—all warm personal friends of Mr. Payson Tucker, conductor on that road, (as is everybody who knows anything about him,) presented him, on Friday evening, with a Badge of solid gold. The Portland Press says it is in the form of a shield, very massive, and bears upon its surface the Stars and Stripes in polished gold, raised upon a surface of dead finish; in the centre is a raised circle within which is inscribed in diamonds and gold, the letter T in old English type. In among the stars in the crest of the shield appears in prominent letters of burnished gold the word—"Conductor." Attached to the badge is a heavy gold guard chain. An appropriate inscription is made upon the back; and the gift is altogether one of the richest and most perfect piece of workmanship we have ever seen. It cost $165.

☞ There have been three Lieutenant Generals in the United States service—Geo. Washington, who was thus appointed in 1798, Winfield Scott (now on the retired list), confirmed under a special act of Congress in November, 1861, and Ulysses S. Grant, appointed under an act of Congress approved by the President on the 26th ult. The present appointee will be but forty-two years old on the 27th of next month.

☞ The Concord Stateman says that Hiram J. Carter and Orrin Carter, brothers, both of Concord, and members of Capt. Long's company of Heavy Artillery at Fort Constitution, performed a pedestrian feat on Monday night which it is proper to put in print. They left Portsmouth in the afternoon train, expecting to reach Concord in the evening, but at Newmarket it was ascertained the cars could not proceed with safety. Determined not to be defeated in the purpose of depositing their votes for the Union cause, they purchased a lantern, and started at once for Manchester on foot,—a distance of somewhere about thirty miles. Several Democrats at Epping told them it was impossible to reach Manchester, as the water was in some places two or three feet over the road. But the Carters, "not having been born in the woods to be scared by an owl," pushed their way through mud and water, going at times upon "the double quick," although becoming very weary before their undertaking was half completed. Their purpose was to reach Manchester in season for the first train to Concord; but so bad was the travelling and dark the night, they failed; not reaching Manchester until after 10 A. M., Tuesday forenoon. But they went to Concord in the 3 P. M., train, and voted in Ward 5 for Gilmore and the Union. This instance of perseverance under difficulties deserves public mention.

SYMPATHY.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Herrick Allen's Gold Medal Saleratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will use any other Saleratus or soda, if this article can be purchased. We see most of our Merchants have it. One trial will convince any one. Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!
What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigation of the liberal minded and scientific to cures which have no parallel at the present day.
Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from Advertised Medicines, those who cannot be cured by other physicians—are **Invited to use Constitution Life Syrup.**
During the past five years we have contended with obstacles and overcome opposition as heroic as ever encountered by any Reformers.
Rapidity of Cure.
Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases can only be cured by "slow and recuperative process of Nature." This is our reply:
In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.
CONSTITUTION LIFE SYRUP,
A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.
Paralysis.
Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.
It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.
Dyspepsia.
Indigestion, Liver Complaint, Constipation, Weight at Stom'h, Biliousness, Want of Appetite, Flatulence, Bad Breath.
Scrofula.
Strume, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.
This taint (hereditary or acquired), filling life with painful misery, is by all usual medical remedies incurable.
Rheumatism.
Arthritis], Neuralgia, Gout, Lumbago, Sciatica, Tic Doloureux.
If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.
Nervousness.
Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St. Vitus' Dance.
Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering woman will this medicine prove an inestimable blessing, directing their footsteps to a Hope which fulfils more than it promises.
Mercurial Diseases.
Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.
Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.
Constitution Life Syrup
Eradicates, root and branch, all Eruptive Diseases of the Skin, like
ULCERS, PIMPLES, BLOTCHES.
And all other difficulties of this kind, which so much disfigure the outward appearance of both sexes and females, often making them a disgusting object to themselves and their friends.
CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,
Either of the Face, Neck or Female Breast, and should be used as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so much of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.
All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is expeedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operation of any kind.
Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a grating or filing sound), Dropsy of the Heart Case and all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.
Broken Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Calamity, Fear of Disease, Dimness of Vision, Dry Hot Skin and Extremities, Wakefulness, Restlessness, Pale Haggard Countenance and Lassitude of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.
For all forms of **Ulcerative Diseases**, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved so equal.
MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.
In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.
☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*
Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.
THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.
PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do, not delay when the means are so near at hand, and within the reach of all.
TO MOTHERS AND MARRIED LADIES. It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the food—Those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.
Constitution Life Syrup
Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Morning Chronicle.

CARL SCHURZ ON THE WAR.—Gen. Schurz was among the speakers at the Tammany Hall meeting, Monday evening, in aid of recruiting for Gen. Hancock. In the course of his sensible observations, he said that every sober-minded man must know that to lose the resources of the country slowly is to waste them, and he added:—

It is my profound opinion that the downfall of the rebellion is but a question of time. But it is also my profound conviction that the question of time is the principal question for us to look at. To lose time is to lose resources, is to lose money, is to lose ground.

A WAR DEMOCRAT.—Judge Upham's address, delivered in Concord on Wednesday evening, March 23, was an able and thoroughly loyal piece of reasoning upon "The War, Slavery and Peace." Judge Upham is a life-long Democrat, but he will not be a Copperhead. In common with other sensible and loyal men, he considers the great contest now waging in our land, as something above and beyond mere party. He recognizes slavery as the *cause* of rebellion, and that there can be no permanent peace save one founded on the removal of the cause—one founded on liberty and justice.—*Ind. Democrat.*

☞ A band of English operatives from Lancashire—about forty adults, male and female, with a fair proportion of little folks—arrived at Waterville, Me., the other day, en route for the mills at North Vassalboro'. They are shorter by a head than the Maine Yankees, but hardy, intelligent-looking people, says the Waterville Mail. Snow was a novelty to them, and as they moved on from the depot on their first sleigh ride, they vented their feelings in loud exclamations of delight.

— The Boston Advertiser says that "architectural plans have been recently prepared for an iron-clad church in Charleston." Now that the church leads, it will be but a step further for the rebel leaders to become iron-clad, in anticipation of the future.

— "The Ohio," says a correspondent, "is a sickly stream." Yes, replies the Louisville Democrat, it is confined to its bed.

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CURES FROM ONE TO THREE DAYS

CHEROKEE REMEDY

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY is the great Indian Diuretic, cures all Diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Retention of the Urine, Stone in the Bladder, Spasms, Gravel, Gleet, Gonorrhea, and is especially recommended in those cases of Fever Albus or Whites so much to be dreaded by the married and those about married.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

Its diuretic qualities are effective in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing the cause of those dreadful pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an adjunct to the CHEROKEE REMEDY, and in all cases of Gonorrhoea, Gleet, Fluor Albus or Whites, its effects are boning, soothing and healing, removing all scalding, heat and pain, relieving the burning and almost unendurable pain that is experienced with nearly all the cheap quack nostrums.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor, strength and tone.

For full particulars get our pamphlet from any drug store in the country, or write to us and we will mail it free to any one who asks it.

Price—CHEROKEE REMEDY, $2 per bottle, or three bottles for $5.

Price of CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

Sent by Express to any address on receipt of price. Sold by all druggists everywhere.

THE GREAT INDIAN MEDICINE, COMPOUNDED FROM ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhea, Seminal Weakness, Nocturnal Emissions, and all diseases created by self-pollution, such as Dullness, Confusion of Ideas, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Palpitation of the Heart, Dyspepsia, Pale Countenance, Insanity, Consumption, and all the dreadful consequences caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, and they think themselves beyond the reach of medical aid, we would say, *Despair not*; the CHEROKEE CURE will restore you to health and vigor, and those who have quack doctored and spent their money freely and received no benefit

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, to just and fair with all;
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy!"—*Washington's Farewell Address.*

"THE CONSTITUTION AS IT IS."—This Constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land; and the judges in every State shall be bound thereby, anything in the *Constitution* or laws of any *State* to the *contrary* notwithstanding.

The Senators and Representatives before mentioned, and the members of the several State Legislatures, and *all* executive and judicial *officers*, both of the United States and of the several states, shall be bound by oath or affirmation, to support this Constitution.—*Constitution U. S.*

☞ A convention of the Choctaws has been called to meet in the middle of April. It will embrace all the leading chiefs of the tribe. The rebel Gen. Maxy has failed to induce the Choctaws to continue their relations with the rebel government. The convention, it is said, will propose the old terms of allegiance to the United States. The chief, Jack McCurtain, circulated over 4000 copies of the President's Amnesty Proclamation, which was received with real favor by the Semicoles, but the Chickasaws were still obdurate, owing mainly to the influence of Gen. Cooper, their old Indian Agent.

The result of the election in New Hampshire is one of the greatest victories of the war. The Granite State is now fully and fairly in the Union. It is not a simple victory, but the recovery of a State. The plan of redemption was simple; the citizens fraternized with the soldiers. We want to see this good example followed in the South. When the Union men and the army act in concert, we may have hope of even South Carolina.—*Newburyport Herald.*

Those who walk most are generally healthiest; the road of perfect health is too narrow for wheels.

When our cup runs over, we let others drink the drops that fall, but not a drop from within the rim, and complacently call it charity.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, No. 7 and 8 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of hospital and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have, never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Secretal Gonorrhœa, Ulcers, pain and distress in the regions of procreation, inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Bubos, Syphilitic Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and lasting effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Disease of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The mental effects the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, gloomy fears, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use on receiving description of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 8 Endicott Street, Boston, is consulted daily for all diseases incident to it female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE,

In all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his long experience and extraordinary success acquired a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of a skillful and experienced physician and surgeon should give him a call.

P S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

EXE, N. H., Feb. 26, 1863. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

POUNSBOURN, April 21st, 1862.
I have for several years been afflicted with dizziness at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I. CHESLEY, *Lee, May* 31, 1861
DR. SWETT:—Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1860, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 2 Dix street, Portsmouth, N. H., promptly attended to. may26

TUESDAY, MARCH 15, 1864.

THE REBELLION.

The departments of the Cumberland and the Ohio have been added to that of the Mississippi, and all placed under Gen. Sherman. Gen. Meade has not sufficiently recovered from his late attack of pneumonia to warrant his entering upon another campaign with the Army of the Potomac, and will probably retire for a while from active service. Gen. Lew. Wallace, it is said, is to command the Middle Department,—head-quarters at Baltimore.

The Washington Intelligencer denies that Gen. Meade's health is impaired.

Fitzhugh Lee, with 45 other rebel officers and 600 privates, was sent up to City Point by Gen. Butler last week, for exchange.

Gen. Butler sent a portion of Gen. Kilpatrick's cavalry, under Colonels Onderdonk and Spear, to King and Queen Court House, to deal with citizens claiming to be non-combatants, who ambushed Col. Dahlgren. Col. Onderdonk reports that the 5th and 9th Virginia cavalry, with citizens, 1200 in all, were driven from their camp, the camp taken and a number killed. Twenty prisoners were taken. The rebels were also driven from the Court House. A large amount of grain, mills and store-houses were burned.

A Norfolk letter of the 11th confirms the news of the expulsion of the rebels from Suffolk and our occupation of the place on the 15th. This is later than the reported repulse of our troops, which is stated to have occurred on the 9th.

There are reports that the rebels are preparing another piratical expedition from some of the small inlets in Chesapeake Bay.

The Wheeling Intelligencer says letters from Braxton county Western Virginia, report that Jackson and Imboden, with a force of several thousand rebels, are within a short distance of Fulton, preparing for a raid.

Advices from Jacksonville, Fla, are unimportant. Gen. Seymour is still in command. Some skirmishes have occurred.

Hilton Head letters report that the firing on Sumter and Charleston ceased last Tuesday.

Gens. Gilmore and Seymour, it is said, have been summoned before the Committee on the Conduct of the War.

The N. Y. Times' dispatch says that the commission to investigate the conduct of Gen. Rosecrans at the battle of Chickamauga has fully exonerated him from blame.

The army gunboat Foster, with a detachment of volunteers, surprised a guerrilla camp at Fairfield, N. C., and captured the whole company.

The Savannah News of the 2d inst. reports the capture of the rebel ship Amelia by a U. S. steamer off Tampa Bay. Cargo valued at $20,000.

☞ A Washington dispatch states that "Connecticut and Indiana, through their Representatives in Congress, have protested against the decision of the Provost Marshal General that the draft under the present call should be enforced in the districts which had not filled their quotas, although the State might have done so. The matter was referred by the Secretary of War to Mr. Solicitor Whiting for advisement. The opinion of the Solicitor will reverse the decision of the Provost Marshal General, and that, therefore, no draft will take place in States which have filled their quotas."

☞ Now that another man has been elected, and the blockade of the Pennsylvania Senate broken up, to the discomfiture of the copperhead conspirators, the rebels have released Senator-Major White. Their principal reason for holding him was removed by the choice of the new Senator! Can any one fail to see the close alliance between the rebels and the traitors?

In what tone should a ghost speak? Tomb-tone.

— A wholesale system of plundering by the porters in the employ of Messrs. Horace B. Claflin & Co., dry goods merchant, New York, has been brought to light. Over $15,000 worth of goods have been taken. All the parties were arrested and a portion of the goods recovered.

— At the request of General Butler, President Lincoln has granted a full pardon to Cincinnatus W. Newton, of Norfolk, one of the electors from Virginia who voted, in the rebel electoral college, for Jeff. Davis for President of the Southern Confederacy. He is a brother of Maj. Gen. Newton of our army.

— Gen. Beauregard's wife died on the 2d inst., and the funeral on the 4th was the largest ever seen in New Orleans. Over 6000 persons attended, and the cortege was over one mile in length. Gen. Banks kindly extended to the family the use of the steamer Nebraska, to convey the remains a few miles up the river to her father's plantation. The body was followed to the levee by thousands of ladies, who wished to take a farewell of one who was loved and esteemed by all.

COMING HOME TO VOTE.—On this topic the Concord Statesman says:

In the matter of soldiers' voting, if the Legislature had made a law authorizing them to vote in the field, as the soldiers of Ohio and other Western States did last fall, this travel and cost would have been avoided, and a full expression of the wish of all legal voters of New Hampshire, now in the army, would have been obtained.—The Democrats, although constantly declaring that they have more voters in N. H. Regiments than the Republicans, took good care to defeat the bill before the Legislature last June—very certain evidence that their declaration was not believed by themselves.

In the matter of soldiers coming home to vote, there is certainly no impropriety, but eminent fitness in it. No men have had better opportunities to appreciate the nature of the struggle, or to realize the importance that the country be delivered out of its distresses by the complete overthrow of the rebel power. They come from scenes of danger and of conflict, to testify anew their devotion to the Union and the Constitution, and no fault can properly be found with them.

We commend this subject to the attention of the Legislature, just now chosen.—Our Judges gave an opinion that *the bill* drawn for this purpose last year, was unconstitutional. But *no one* of those judges will say that the *spirit* of our constitution would interpose any obstacle in the way of citizen soldiers' voting. We copy here the only provision of our constitution on the subject.

And every person qualified as the constitution provides, shall be considered an inhabitant for the purpose of electing and being elected into any office or place within this State, in the town, parish and plantation where he dwelleth and hath his home.

The reader will perceive that these words neither authorize nor forbid voting by proxy,—and we see no *prohibition* of voting in camp by our citizens who are abroad in our own regiments.

The above constitutional provision says nothing about check lists, or six months residence in a town; though our *laws* do say a great deal about them, and even seem to contradict the *letter* of the constitution by their efforts to secure and carry out its *spirit*.

The object of the provision above quoted is to secure a *full and fair* vote in the places where the people *dwell* and have their home.

As exigencies have arisen, our laws have been made, one by one, to *explain* the constitution, and *fix* the meaning of its terms for actual use.

The rebellion has created a new state of things. Say 10,000 voters are in the field, 500 or 1000 miles away. Suppose three-quarters of them to be old line Democrats. Would it be wise or righteous for the Abolitionists to place this very slender constitutional barrier as an obstacle to their voting? Or would the "unterrified" submit to it?

We know the boot happens to be on the other leg; but that cannot change the principle one jot or tittle. And every man, (not excepting the judges,) knows that these soldiers *ought* to vote.

It would seem the duty of our Legislature, then, to make a plain law, authorizing a vote in every N. H. regiment, battery, squadron of horse, and company,—for electors of President next autumn,—and for Governor, etc., next spring, if need be, to have their votes tell in their homes.

The constitution as above cited, certainly does not forbid it, unless by some *fanciful* fine drawn *construction*. The ends of public justice and honesty demand it. U. T.

NEW HAMPSHIRE ITEMS.

—— Exeter boasts of a smart thunder shower on Friday night last.

—— About 100 feet of the embankment on the Northern Railroad at West Concord, at the confluence of the stream which supplies the mills there with the Merrimac, gave way, as a freight train was passing it, on Thursday. It had been undermined by the water in the Merrimac, which has been very high since Monday. The train consisted of engine, tender and fourteen cars, all but one of which were precipitated into the chasm, twenty feet deep, and almost buried out of sight in the mud. Singularly, no person was hurt. The engineer, Mr. George Wright and the fireman, Mr. True Straw, had a very narrow escape.—Both jumped off before the locomotive went down. The engineer discovering a rail was out of place, shut off steam and reversed the engine. Fortunately he was running slow.

☞ The Navy Department has received information of the capture, on the 6th inst., of steamer Mary Ann, by the Grand Gulf, off Wilmington, N. C. The Mary Ann is a new side-wheel steamer, built on the Clyde, and dispatched from Glasgow in June, 1863. She is reported to be a faster vessel than the Giraffe alias Robert E. Lee, and to have made nineteen statute miles per hour on her trial trip. The Mary Ann has been running the blockade on the coast of Florida, sailing from Havana.

H. Browning.

FRANKFORT, Ky., March 12.—It is understood that Gov. Bramlette has addressed an earnest remonstrance to the President against the enrollment and enlistment of slaves in Kentucky, and has notified the President that he will execute the laws of Kentucky against all who attempt to take slaves from their owners without their consent. He claims that Kentucky has furnished more than 50,000 of her sons to defend the Government, and is willing to furnish all that is allotted to her, that she has proved her loyalty and must be treated as a loyal State, and that her constitution and laws must be respected.

☞ The additional quantity of goods found on board the prize steamer R. E. Lee, at Charlestown Navy Yard, on Friday, comprised so large a number of cases as to nearly occupy the deck of a steam tug. These articles are valued at about $6000. Among them was a complete uniform for a rebel Major-General. They were found in what was supposed to be a coal bunker.

DR. TEBBETTS' PHYSIOLOGICAL HAIR REGENERATOR AND UNIVERSAL HAIR RESTORER.

ITS MODUS OPERANDI.

Immediately beneath the scalp there are very small Glands, or, more commonly Roots of the Hair. It is from these Glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.

To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Tannin, Sulphur, &c., and producing only a sort of yellow or flax color, it will, if properly applied restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in its application.

2. It will certainly remove the hair from a gray to a beautiful *Black, Brown, Auburn*, or whatever might have been its original color.

3. It will effectually prevent the hair from falling off, remove all Heat, Inflammation and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.

4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.

5. It will cure the most inveterate itching and scaly diseases of the scalp, and being purely perfumed, it affords a most delightful article for the toilet.

We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator; and it is positively certain that in a very short time it will have a world wide reputation.

HOME TESTIMONY.

BEDFORD, N. H., Dec. 17, 1863.

Messrs. Tebbetts Brother—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and now is almost dark. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diptheria, it stopped it immediately on its application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only used one bottle, and I think one more will fix our heads up in good shape. J. C. CUTLER.

MANCHESTER, Dec. 20, 1863.

Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be prepared. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, when about two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. JACOB J. ABBOTT

Valuable Real Estate,

ON RICHARDS AVENUE.

Under a license from the Hon. Judge of Probate, I shall sell at public auction, on the premises,

On SATURDAY, the 26th day of March next, at 12 o'clock, noon,

The Real Estate of the late JOSEPH GREEN, situate on the westerly side of Richards Avenue (formerly Auburn street,) being the homestead occupied by the deceased in his lifetime. The lot has a frontage of thirty feet on the Avenue, and a depth of eighty feet, extending back as far as the estate of Dr. Wm. R. Preston. It has upon it a convenient house, two stories high, and large woodshed. The garden has many excellent fruit trees in good bearing order. The fine situation of this estate, with its extensive prospect, the excellence of the neighborhood, and its accessible location, render this a rare opportunity for purchase, either for investment or occupancy.

Terms of sale—Cash. The purchaser will have no difficulty in obtaining any reasonable sum upon a mortgage of the premises, if desired.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 40 different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER. ja20

Local.

☞ We are pleased to learn that the Police of our City have it in contemplation to provide themselves with a neat uniform of navy blue, with brass buttons,—the uniform to consist of cap, coat, vest and pants. The police in nearly all our principal cities are now uniformed, and the result has been found everywhere very satisfactory. The officers are readily distinguished from chance passers-by on the street; while a neatly fitting uniform on such a corps of city officials goes far to impress favorably the minds of strangers. Perhaps, also, in cases where the services of an officer are needed, the fact that he makes his appearance on the spot with the unmistakable evidences of his position, may give his words additional force, and tend to convince the disturbers of the public peace that it is time to disperse. For the general appearance of a man, his "commanding presence," often has a weight and influence with others which might at first thought, seem strange and unexpected. Our present police force is worthy of every encouragement from our citizens: Now their pay is not so unusually large that they are ever troubled by the inquiry what to do with their money, and this suggests the question: as the city is to receive nearly all the advantages to be derived from having our Police uniformed, does it seem exactly just that the officers themselves, with their small salaries, should pay for those uniforms? Their number is not large, and it would take but a small sum to "fit them out" in a style creditable to the city, and gratifying to the citizens.—Indeed, we do not know but it would be gratifying to a criminal to be arrested by a well-dressed officer, if he must be arrested at all.

SAGACITY OF A CAPTURED HORSE.—Coming from Newcastle with a friend on election day, just after the polls had closed there, we met a horseman vainly striving to urge his horse across the bridge. He could not get him far enough for the toll-man to shut the gate behind him. "He used to be a rebel's horse," said the almost exhausted rider; "I don't believe I'll get to the Island with him to-day." "I don't think you will," observed H——, "your rebel horse doubtless knows the result of the election there." F.

☞ Many suppose that all or nearly all of our mechanics and laborers are employed at the Navy Yard, but an inspection of the ship-yards in and about this city will tend to remove this impression. Messrs Tobey & Littlefield are erecting a large and staunch steamer for Messrs. R. B. Forbes & Co., which when completed will vie with anything built by the U. S. government in point of strength, symmetry, and neatness of detail.

At Fernald's yard, Christian shore, a bark of 860 tons burthen is being contracted, and is now nearly ready for launching. We understand that as soon as this latter vessel is launched a schooner of 325 tons, already contracted for, is to be built.

At Marcy's ship yard, at the South End, Mr. Badger is building a schooner of 250 tons, designed for general coasting.

Workmen are also getting out the frame of a schooner of 325 tons at the ship yard of Mr. John Neal, Kittery Foreside, to be built under the supervision of Messrs. John Neal & Co.

We know not why the business of ship-building should not be brisk in Portsmouth, so long as vessels of any kind are wanted, inasmuch as we have among us men noted for their peculiar enterprise in this branch of industry. We presume no one (except, perhaps, some envious down-easter) will dispute this statement, and if there should be a doubting one desiring anything in the above line, let him try them.

MISS EVANS attracted a large audience to the Temple on Sunday evening, and yet although so many were present, the manner in which the Unsuccessful and the Procrastinating sought to obtain tickets on Saturday evening and through Sunday, was fearful to the managers. The audience listened with close attention to the youthful speaker, till the close of her address, which seemed to them only too brief. She is modest, has a clear, pleasant voice, and speaks most distinctly and correctly, without awkward pauses or the least shadow of hesitation. She is self possessed and easy on the platform, and her earnestness, with the evident sincerity which underlies all she says, explains much of that power which she has been found to have over the wayward and erring.

She has announced her intention to give to the U. S. Sanitary Commission, for the benefit of our soldiers, $1000, and to raise this amount cartes de-visite of herself are offered for sale wherever she speaks. 144 of these pictures were sold at the close of the lecture on Sunday evening.

It will gratify those who heard her on Sunday evening, as well as those who were unable to obtain tickets, to learn that she has been engaged to lecture in this city on Tuesday evening next, Mar. 22.

☞ The third edition of Mr. J. H. Head's "Home Pastimes" has just been published, —neatly got up, on tinted paper. It now retails at $2.

THE EASTERN RAILROAD.—The Boston Advertiser learns that the sterling bonds of the Eastern Railroad Company held by the Massachusetts Hospital Life Insurance Company and other parties in this country, have been taken up by the Eastern Railroad Company, which has given to the holders in exchange U. S. bonds of the same amount, the interest and principal of course payable in coin. The past due coupons on the railway bonds have been paid in coin. The controversy on the subject has thus been happily settled on terms satisfactory to both parties. We are pleased to hear that the affairs of the Eastern Railroad are in a highly prosperous condition and that its business is heavy and largely remunerative; the gross receipts for the quarter lately ended having exceeded those of the same quarter last year by $60,000, and the earnings exhibiting a gain of $18,000.

MISSING FISHING VESSELS. — The Gloucester Telegraph says the two missing vessels of the Georges fishing fleet are doubtless lost, since nothing has been seen or heard of them since the westerly gale. These vessels were the schooners Gorham Babson, 84 tons, three years old, valued with outfits at $7000—insured $4500 at the Gloucester Mutual, and $1000 at the Washington office, Boston. The master, Daniel McPhee, of Gloucester, was 35 years of age, and leaves a widow and one child, who were burned out, losing their all, by the late fire. Her crew consisted of nine young men, most of whom belonged to Gloucester, and three or four of whom have left families. The other vessel is the schooner Raven, 83 tons, 12 years old, valued at $3600 and insured for $3150 at the Gloucester Mutual. Her crew consisted of 9 persons, four of whom were married and leave 12 young children. The master was John Kennedy, of Gloucester, about 50 years of age, and leaves a widow and three children. Last year none of the Georges winter fishing fleet were lost, but in 1862 15 vessels and 138 men were lost in the great February gale.

STEAM FIRE ENGINES are all the go.—Recently Lynn has voted to have two, Salem one, Gloucester one, and Newburyport one. Our Committee went to Portland to purchase, on Thursday. Danvers, Beverly and Marblehead are also moving in the same direction. As the means of extinguishing fires become more numerous and certain, the rates of insurance ought to decline, and should they not, then people should form home insurance companies for self-protection. Now we are paying enormously, and a large part of the profits of insurance is going out of the State, and some of it even out of the country. Either, the Insurance Companies should lower the rates, or they should pay a part of the expenses of fire engines.—*Newburyport Herald.*

☞ The Peace Democrats in Washington and New York have virtually declared war against the War Democrats;—and the latter return the compliment. So in New Hampshire, while one coppery print proposes an entire rebel platform, calls loyal men traitors, and says, We dont care much about McClellan or any one else who has been mixed up with this war! the Dover Gazette on the other hand says that next fall, "with Gen. McClellan our standard bearer, and the Country our cause, we will bear down all opposition, rout all the enemies of the Republic, restore peace," &c.—There *seems* to be some difference between these two programmes.

☞ The horrors of war can be greatly mitigated by that sovereign remedy, Holloway's Ointment, as it will cure any wound, however desperate, if it be well rubbed around the wounded parts, and they be kept thoroughly covered with it. A pot of ointment should be in every man's knapsack. Only 30 cents per pot. 227

SYMPATHY.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Herrick Allen's Gold Medal Saleratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will use any other Saleratus or soda, if this article can be purchased. We see most of our Merchants have it. One trial will convince any one. Their depot is 112 Liberty Street, New York.

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y., formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Reports, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored; those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as herculean as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanency and think that diseases can only be cured by the "slow recuperative process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all hereditary DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stom'h, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Struma, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritis, Neuralgia, Gout, Lumbago, Sciatica, Tic Doloureux.

If there is any disease in which the Constitution Life Syrup is a specific, it is Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or virulent, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thought, Epilepsy, Loss of Power, Shattered Nerves, St. Vitus' Dance.

Thousands who have suffered for years will bless the day on which they first used this. Particularly to weak, suffering woman will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of Mercury, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES & BLOTCHES.

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Enlargement from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy, of the limbs or abdomen; and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease known as Coltsfoot Swelling, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a grating or filing sound), Dropsy of the Heart, Lung and all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain in the Back, Loss of Memory, Loss of Appetite, Nervousness, Fear of Disease, Dimness of Vision, Dry Hot Skin and Extremities, Want of Sleep, Restlessness, Pale Haggard Countenance, Disorder of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Venereal Diseases**, either of the Nose Throat, Tongue, Spine, Bones and or Scalp, no remedy has ever proved its equal.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Diseases of the Liver, giving rise to languor, dizziness, congestion, weak stomach, or an ulcerated or cancerous condition of that organ accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, so usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases for which they are ashamed to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

THE GOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES.

It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases the quantity of the food.—Those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

ROWING GUARD.—In the British and French Navies it is customary when a ship is at anchor to have a boat rowing guard around her all night, whenever the weather permits. This rule is strictly observed both in peace and war. But we have reason to believe that it is not general in our Navy at any time, and to its absence may be attributed the loss of several vessels during the war. The two gunboats recently captured in the Rappahannock, by open boats from the shore, and more recently the destruction of the Housatonic, are cases in point. If these had been watched by guard-boats, they would not have been lost. If we were so disposed we could mention the names of several valuable vessels which might be captured and burned from boats, while lying at anchor. We hope this subject will meet the notice of the Navy Department, and be acted on without delay.—*Com. Bulletin.*

TURKISH POLITENESS.—A few years ago there was a generous Turkish ambassador in England. When any lady happened to praise one of the handsome shawls that decorated his person he immediately presented it to her. This led to a very general expression of admiration for his excellency's shawls, and, in consequence, to a great diminution of the embassadorial wardrobe. At last, when his excellency's stock was reduced to the one he wore, upon a lady fondly expressing her admiration of its beauty, instead of his former reply, "Madam, it is at your service," he said, with Turkish composure, but with more than Turkish gallantry, "Madam, I am glad you like it; I shall wear it for your sake."

Josh Billings, the Philanthropis, begs leaf to state:

That onions are good for a bad breth.

That Rockaway clams are a good opening for eany yung man.

That ships are kalled *she* because tha always keep a man on the *lookout*.

That "turning water into wine" is a mirakle in these days, worth at least 300 per cent.

That boys aint ap to turn out well who dont git up till 10 o'clock in the morning.

That, if a man is going to make a business of carving the Lord, he likes to see him do it when he measures up onions as well as when he hollers glory hallelujer.

That wisdom aint nothing more than edukated cunning.—*Poughkeepsian.*

CURIOUS ORIGIN OF A CHRISTIAN NAME.—In Canada, Delina is a common and rather pretty name for girls. It origin would not easily be suspected. A clergyman from France had a child brought to him to baptize, and was requested to christen it by this name: "This is not a fit name," was the reply. "You should give her the name of some saint." "But, M. le Cure, it is a saint's name." "No, there is no such saint in the calendar." "Why, M. le Cure, don't you know Ste. Rose de Lima?" He certainly did, and found that people finding Rose de Lima too long, dropped Rose, and ran Delima together.—*Historical Magazine.*

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Strictures, Gravel, Gleet, Gonorrhœa, and is certainly unrivalled in these cases and Vapor, than Water in fevers, which many of the old remedies have failed.

It is prepared in a highly concentrated form, the dose will be from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all and original purity and vigor, thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, soothing and detersive; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all impurities are thus given are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write to us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Sent by express to any address on receipt of price. Sold by all druggists everywhere.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES.

CHEROKEE
CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nervous Debility, Impotency, and diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Nervous Irritability, Dyspepsia, Trembling, Wakefulness, Irregularities of the Face, Pale Countenance, Insanity, Consumption, and all other fearful complaints caused by imparting from the youth of manhood.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with those results treated it has yet failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not.* The Cherokee Cure will restore you to health and vigor, and after all quack doctors have failed.

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.
Prepared from Pure Vegetable Extracts,
Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discovery, the valuable properties being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few doses cure Hysterics in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

Three bottles restore the appetite.

Three bottles cure the worst case of impotency.

A few doses cure the low spirited.

One bottle cures Nervous Headache.

A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and dispirited victim of indiscretion.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from the effects of a long standing disease, will find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, sent to any address by express, on receipt of money, to any address.

Sold by all druggists everywhere.

CHEROKEE PILLS!
SUGAR-COATED.
FEMALE REGULATOR.
Health Preserver!!
CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Insurance of Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by restoring the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Hysterics, Fatigue on slight exertion, Palpitation of the Heart, Loss of Spirits, Hysterics, Fits, Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, but are perfectly adapted to substate strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, except during the first three months, during which the enfeebling nature of their action would infallibly prevent pregnancy.

All letters for advice, information or advice will be promptly, freely and discreetly answered.

Full directions accompany each box.

LAST AND BEST.
THE MODEL COOK,
AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single item of coal, or cord of wood, than with double the quantity in any common stove or range—and it less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either side, when needed.

In fact, no pains or expense have been spared in making this a CHEAPER stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and Cleanliness are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

A Great Variety of Cheaper Stoves
FOR WOOD OR COAL.
E. A. STEVENS'S
House Furnishing Establishment,
NO. 46 MARKET STREET.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall Stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this very valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The results are obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the best in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the drum can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace flues away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

"THE CONSTITUTION AS IT IS."—This Constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the SUPREME LAW of the land; and the judges in every State shall be bound thereby, anything in the *Constitution* or laws of any *State* to the *contrary* notwithstanding.

The Senators and Representatives before mentioned, and the members of the several State Legislatures, and *all* executive and judicial *officers*, both of the United States and of the several States, shall be bound by oath or affirmation, to support this Constitution.—*Constitution U. S*

TEMPERANCE.—We notice that many of the towns in Essex County, Mass., are waking up to the importance of keeping the rum power in proper subjection. In some towns they have passed formal votes instructing the officers to prosecute; as in Andover, West Newbury and Gloucester. In the latter towns about two thousand dollars have been subscribed to meet any expenses that may be incurred in this work, and an extra police force has been put on, consisting of men who make the extermination of grog shops their sole work, and who will not be turned to the right or left till that is fully accomplished. The Newburyport Herald, noticing these facts, offers the following comments:

We wish that some such effort might be made here. We do not desire radical measures that cannot be sustained by the public sentiment; but every place where liquor is sold to be drunk on the premises is a nuisance, and should be dealt with as such; and if connected with gaming and the rooms are kept open all night and on the Sabbath, as some gambling and drinking places are here, they become ten fold nuisances, and should be abated at once If Gloucester stops the tippling shops of that town, she will stop a worse evil than was her recent fire. Property is nothing in comparison with burning out the brains and vitals and character of the young men, which the tippling shops do, devouring their victims, soul and body, with a rapacity at which starving wolves would shudder.

It takes worse than a mad brute—a semi-devil to entice victims into their infamous dens, at hours when honest men are with their families, to rob their pockets, their head and hearts, and then send them forth to seek their sorrow-stricken homes, where wives, daughters and mothers sit watching their return, and yet fearing to meet them. Respectable and loving mothers who would have poured forth their lives for the welfare of their children—who have prayed with and for their sons, whom they would bring up to be ornaments to society, till heaven has been filled with their petitions, have had their boys inveigled into these gilded saloons to be robbed, brutalized, kicked into the streets and sent home, like him who fell among the thieves in olden times, to give fresh anguish to hearts already broken. We know of a recent case of this kind, at the rehearsal of which the most hardened and debauched would shudder.

In God's name is there no remedy for this? Are we to rear children with love and tenderness—are we to school them, feed and clothe them, till we begin to hope that they will honor themselves, their friends and the community in opening manhood, and then see them so wrecked and ruined? Are we to lament the hour that gave them birth, or, more fortunate, follow them to early graves, and yet never lift a finger or voice to stop this infernal business? To us it seems time—high time, that the people were aroused to this evil—this crime, and that for self protection every tippling shop in this city and this county should be closed.

☞ The Liverpool papers give disgusting details of the deaths, within a short time of each other, of "Hon." Augustus Yelverton, (uncle of that Major Yelverton whose matrimonial affairs have made him so notorious,) and the wife of that nobleman. They were a drunken and dissolute pair. After living together, the pest of society by their disorderliness and riotous mode of living, the man died in a low lodging house in Liverpool, two or three months ago, and on the night of the 20th ult., the woman was found lying dead, and almost naked, in a gutter, in Douglas, in the Isle of Man. The twain had passed a large portion of their married life in different jails, had scarcely a place in which to lay their heads, and were abandoned vagrants. They had children, but the law long ago took them from the custody and the example of their "noble" parents.

American and Foreign Patents.
R. H. EDDY.
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (*under the Act of 1837.*)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Examinations made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessary of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now *pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the old World,) of obtaining medicines as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of Dr. Teller's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsle and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Michel's Italian Female Monthly Pills. The sale of more than 30,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 10 to 3 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, MARCH 16, 1864.

THE REBELLION.

A dispatch from Cumberland Gap, Mar. 13, gives a report, deemed reliable, that Gen. Longstreet's headquarters are at Greenville, Tenn., and Gen. Buckner's at Bull's Gap. Their main forces are between these two points, and their pickets eight miles above Morristown. Gen. Vaughan is at Rogersville and Gen. Gaines at Log's Mills, eight miles below Jonesville, Va.

Vicksburg advices of the 2d says that all the boats in that place have been pressed into the Government service, owing to the reported movement to be made on Black, Red and Washita Rivers to Monroe, thence by land to Shreveport. Gen. Steele will co-operate from Little Rock.

The official order assigning Gens. Grant, Halleck, Sherman, and McPherson to their new positions, is dated March 12. The headquarters of the army will be in Washington, and also with Lieut. Gen. Grant in the field. The order says:—

In relieving Maj. Gen. Halleck from duty as General-in-Chief, the President desires to express his approbation and thanks for the zealous manner in which the arduous and responsible duties of that position have been performed.

The N. Y. Times' Washington dispatch says the Military Committee have agreed to report in favor of increasing the pay of soldiers to $18 per month.

The Court of Inquiry in the cases of Gens. McCook, Crittenden and Negley reports that the former did his entire duty at Chicamauga, but made a mistake, arising from error of judgment, in going to Chattanooga. Gen. Crittenden is held entirely blameless, and is commended. Gen. Negley is also exonerated.

Gen. Sickles starts on his tour of Western inspection this week.

The N. Y. Herald's dispatch says Gen. Hunter declines the tender of the command of the department of the Pacific, desiring active service. The Middle Department was also refused on the same ground. It also states that it is believed in the reorganization of the Army of the Potomac under Gen. Smith, Gen. Hunter will command the First corps, Gen. Hancock the Second, and Gen. Warren the Third. The Tribune's dispatch says Gen. Warren has been appointed to the command of the Third corps.

An expedition, in which the larger part of Gen. Hurlburt's corps is engaged, left Vicksburg some days since.

— Two iron-clad turret boats were launched at Carondelet on Saturday.

— An auxiliary to the U. S. Sanitary Commission has been organized in London.

— Counterfeit 5s on the Rockland Bank, Roxbury, Mass., are in circulation.

— They adjourned a town meeting in Waterville, Me., last week, on account of a storm.

— Whilst a good figure is nice to look upon, sound lungs, a well developed chest and good health are better to live upon.

— Connecticut election—first Monday in April; Rhode Island election — first Wednesday in April.

— The Boston Advertiser's dispatch states that the call for an additional 200,000 men has been positively decided upon.

— Bonds of the rebel loan to the extent of £71,000, repayable at par, have been drawn on London for the 1st of March.

— The Mobile Tribune has a rumor that Beauregard has been ordered to the command of the Department of the Mississippi.

— Clams are now worth nine dollars a barrel, and it used to be considered only a fair day's work for two men to dig a barrel.

— The Portland Argus says kid gloves are getting deuced common in that city since the unfortunate Bohemian affair.

— Postmaster Wakeman of New York offers employment for six boys whose fathers have lost their lives in battle during the present war.

— The U. S. steamer Kearsarge remained at latest dates off Boulogne, supposed to be watching for the Rappahannock, ready for sea at Calais.

— Five or more transport sailing vessels are expected in Portland this week, to convey the cavalry troops to their destination.

— Funds to build a dry dock in Portland are subscribed to more than the requisite sum, $110,000, and the books are closed.

— Until this year no political party has ever carried all the wards in Portland, but now the Union men have made a clean sweep.

— Sir Rowland Hill has resigned the Secretaryship of the English Post Office, and retires from public life, owing to ill health.

— The Italian frigate Gelantomas is supposed to have gone down with all on board—406 souls, on the night of Mar. 7. She spoke a vessel, and it consented to lie by during the night, but the frigate disappeared between 9 and 10 o'clock, in the darkness.

FOREIGN CORRESPONDENCE.

EXTRACTS FROM PRIVATE LETTERS.

Lyons is the largest manufacturing city in France, and is a much finer city than I had supposed, and from the heights of Fourriere one is shown a landscape finer than anything else in Europe, so far as I know. From Lyons we went to Nismeo, a place famous for its Roman remains, and where there is an amphitheatre, second only to the Coliseum, and in almost perfect preservation. The city is still supplied with water through the old Roman Aqueduct, which is as complete and effective to-day as when it was first built. There is also here a Roman Temple, the "Maison Carree," almost a fac simile of the Temple of Fortune at Rome, though in a much more perfect condition.

The Gulf of Lyons has a very bad reputation, and sensitive stomachs dread its waters as much as those of the Channel between Dover and Calais.—Our boat stopped only at Valencia, and here we saw a capital instance of the tenacity with which the Spaniards adhere to their old customs. The boats stop at Grusa, from which V. is two miles distant, and the only conveyance is a covered, two-wheeled cart, without springs, the driver seating himself on the shaft. It has been likened to a gondola on wheels, and a more rude, clumsy and uncomfortable contrivance can hardly be imagined. We were fortunate enough to find a driver who spoke a "leetle" English, and in reply to our question how in these modern days they could use so clumsy a vehicle, he said "Our fathers did and we think it good enough for us." After riding a half-mile we were glad to descend and walk. Our driver proved a good cicerone and we saw most of the prominent streets and public buildings, including the finest bull ring in Spain. The town has an active, bustling appearance, and the cries of the various venders are perfectly deafening. We bought pomegranates for two cuartos (about one cent and a quarter) and capital grapes for a real (5 cents) per pound, which the guide said was dear.

The currency here seems to an American, (at least us old fellows,) quite familiar, being what was our only silver coin in dollars, quarters, eighths, sixteenths. The pesittas, our old pistareen, are much more common than quarter dollars. These had almost faded from my memory and seeing them seemed quite like a dream of old times.

The climate of Valencia is considered very favorable for invalids having pulmonary difficulties, being nearly or quite equal to that of Malaga, and much superior to the places most resorted to in Italy.

We called on our Consul, George Kent, Esq., making a most agreeable though hurried visit. Mr. K. formerly resided in Concord, but more recently in Maine. I wish we were as well represented by all our consular agents abroad: and here let me mention Mr. John A. Little, son of the well known and successful bookselling firm in Boston, to whom we were indebted for valuable and unceasing favors. Mr. L's intelligent services have been more than once recognized and acknowledged by the Government.

We left Valencia at 5 o'clock P. M., and reached Malaga at 9 A. M., having had another most successful voyage. The truth is, that in fine weather coasting on the Mediterranean is one of the most agreeable modes of travel imaginable, but it is proverbially a treacherous sea, and woe betide the traveller who is caught in a storm—one would suffice for a lifetime. The coast is lined with a succession of mountains admirable in form and outline, but devoid of vegetation. "A stern and rock-bound coast" is V., quite as much as that which first greeted the gaze of our Pilgrim Fathers.

☞ A Washington dispatch says that Gen. Grant, having escaped from the height of the sofa in the East Room, where he had been sandwiched for exhibition between two heads of departments, and got out of doors, declared, energetically, that he had "had enough of the show business," and declined, in rapid succession, a public dinner in New York, a reception on the floors of Congress, and a complimentary review of the Army of the Potomac, and hurried off West to his unfinished work.

It is understood that he will be back in eight days to take command of the Army of the Potomac. Also, that a change of programme will give Gen. Halleck the command of a Department somewhere west of there. In variation of the above, it is stated that Gen. Grant will, on his return, reorganize the Army of the Potomac, lead it in his first movement, then place Baldy Smith at the head of it, and afterward from Washington direct the five fighting departments and those only.

— The President has signed the whiskey bill, and it is now a law. It provides a tax of sixty cents per gallon on all domestic liquors manufactured or removed for sale after the passage of the act until July 1, 1864, and 40 cents per gallon on imported spirits on hand.

NEW HAMPSHIRE ITEMS.

—— The Calvinist Baptist Society at Lancaster dedicated their new church to the worship of God, on the 1st inst. The edifice is a very neat affair, and in fitting it up the society have received aid in donations by citizens of Concord and other places.

—— The two companies of N. H. Sharpshooters, whose furloughs have expired, left Concord on their return to the army, Saturday afternoon. The Sixth Regiment started with the Sharpshooters, but on reaching Manchester received an order from Gen. Hinks to return to Concord.

—— On Friday morning a fire broke out in the store of Charles H. White, in Deerfield, and damaged the whole stock of goods, and badly burnt out the store. The fire was put out before the building was destroyed. The proprietor built a fire and went to breakfast, and the fire caught while he was absent.

—— The citizens of Haverhill assembled in their Town Hall on the evening of the 10th inst., to celebrate the recent Union triumph at the polls, and extend a welcome to a band of New Hampshire's brave soldiers who are at home on furlough. The hall was finely decorated for the occasion with flags and pertinent mottos, songs were sung, a bountiful repast provided for the brave veterans, and eloquent and spirited speeches made by a number of gentlemen. The occasion was of much interest.

—— A letter from Prof. Fairfield, at Rome, to the Morning Star, contains the following notice of a New Hampshire artist:

Mr. Tilton is a landscape painter exclusively. He is from London, New Hampshire, and a genuine enthusiast in his art, who has attained to no mean skill. The Campagna, with its ruins of the old Claudian aqueduct, stood out upon his canvas as I had before seen it upon the spot. The picturesque city of Venice is his especial admiration, and well it may be of any painter. He told us that he had been there every year for the last thirteen.

—— The Independent Democrat says, alluding to Franklin Pierce's 4th of July speech, that northern treason has been "coerced" by the "moral suasion" of the ballot box, and that Copperheadism has been committed to the "Mausoleum of Hearts." Says the same paper: "Pro-slavery, rebellion-sympathizing Democracy is dead in New Hampshire. There is no 'next year' for it. This victory at the ballot-box is worth the best victory that military valor can achieve in the field. It will rejoice the heart and strengthen the hands of Abraham Lincoln; it will nerve the arms of our noble soldiers to strike mightily the final blow at tottering Rebellion. Jefferson Davis will hear of it with fear and trembling."

—— The Manchester Mirror gives a list of 22 towns in this State which were redeemed from copperhead control at the recent election. The total gain in these towns was 854; average gain, 39. The average gain in the State is about 22 per town. The Mirror, in commenting on the election, says:—

Another most significant fact is, that Mr. Marcy's Congressional District gives the largest Union majority ever given in a Congressional District in this State. The majority against Mr. Harrington, in the first district, with five small towns to hear from, is 2530! Rockingham county, which is Mr. Marcy's county, gives 1806 Union majority, and is the banner county of the State. Its gain over last year is 1273, being one fourth of the entire gain in the State. Portsmouth, Mr. Marcy's home, last year gave 169 Union majority, and 570 majority this year. Union gain 401. If ever man was rebuked and condemned by the polls, by an outraged and insulted constituency, that man is Daniel Marcy.

☞ Mr. Grimes introduced in the U. S. Senate, on Monday, a bill in relation to naval supplies, which was referred to the Committee on Naval Affairs. It provides for the appointment at each Navy Yard of a disbursing and purchasing agent, a naval storekeeper, and an inspector or receiver. Purchases must be made on requisition of the Navy Department, and requisitions for money be approved by the Commandant and drawn from the Bureau on the Department ordering supplies. The inspector and receiver must take charge of all supplies furnished to the yard, except those for the Bureaus of Medicines and Surgery, provisions and clothing and navigation and ordnance; must inspect the weight, measure, or count the same, and the certification of bills, and upon approval deliver them to the Naval Storekeeper. This officer is a check upon the inspector, and must keep a record of supplies received and issued. The Bureaus exempted above are placed under similar restrictions and safeguards. Contractors for these supplies are obliged to enter into bonds for the complete fulfilment of their contracts, and for attempted frauds are punishable by imprisonment for five years and a fine of $1000.

☞ The City Marshal reported to the Mayor and Aldermen that there were 65 places in Newburyport where spirituous liquors were sold. To show the accuracy of his inspection the Herald refers the Mayor and Aldermen to the U. S. Assessor, who has issued 83 licenses; and the Herald thinks the number of places where liquors is sold is probably one hundred and fifty.

— The Imperial Library of Paris now contains two millions of printed books, and two hundred thousand manuscripts. It contains also a collection of three millions of prints, five hundred thousand maps, topographical charts, views, &c.; besides a large and rich collection of medals and antique objects.

— The Bangor city election on Monday resulted in the unanimous choice of Hon. S. H. Dale for Mayor. All the Union candidates for Aldermen, Councilmen and ward officers were elected, without opposition. Nearly all the towns in that part of the State have been carried by the Union party, by overwhelming majorities.

DR. TEBBETTS' PHYSIOLOGICAL HAIR REGENERATOR

—AND—

UNIVERSAL HAIR RESTORER.

ITS MODUS OPERANDI.

Immediately beneath the scalp there are very small Glands, or, more commonly Roots of the hair, from these glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.

To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Lunain, Sulphur, &c., and producing only a sort of yellow or flax color, it will, if properly applied restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in its application.

2. It will certainly restore the hair from a gray to a beautiful *Black, Brown, Auburn*, or whatever might have been its original color.

3. It will effectually prevent the hair from falling off, remove all Heat, Inflammation and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.

4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.

5. It will cure the most inveterate itching and neuralgia of the scalp, and being highly perfumed, it affords a most delightful article for the toilet.

We have a great abundance of testimony to prove beyond a doubt all that we claim for the regenerator; and it is positively certain that in a very short time it will have a world wide reputation.

HOME TESTIMONY.

BEDFORD, N. H., Dec. 17, 1863.

Messrs. Tilbetts & Barker—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and now it is almost black. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diptheria; it stopped it immediately on its application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only used one bottle, and I think one more will fix our heads up in good shape. J. C. CUTLER.

MANCHESTER, Dec. 20, 1863.

Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be procured for the hair, without any apparent cost. My gran to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, when about two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. JACOB J. Valuable Real Estate,

ON RICHARDS AVENUE.

Under a license from the Hon. Judge of Probate, I shall sell at public auction, on the premises,

On SATURDAY, the 26th day of March next, at 12 o'clock, noon,

The Real Estate of the late JOSEPH GREEN, situate on the westerly side of Richards Avenue, (formerly Auburn street,) being the homestead occupied by the deceased in his lifetime. The lot has a frontage of thirty feet on the Avenue, and a depth of eighty feet, extending back as far as the estate of Dr. Wm. R. Preston. It has upon it a convenient house, two stories high, and large woodshed. The garden has many excellent fruit trees in good bearing order. The fine situation of this estate, with its extensive prospect, the excellence of the neighborhood, and its accessible location, render this a rare opportunity for purchase, either for investment or occupancy.

Terms of sale—Cash. The purchaser will have no difficulty in obtaining any reasonable sum upon a mortgage of the premises, if desired.

Sore Throat. Cough. Cold.

And similar troubles, if allowed to progress, result in serious Pulmonary, Bronchial and Asthmatic affections, oftentimes incurable.

Brown's Bronchial Troches

are compounded so as to reach directly the seat of the disease and give almost instant relief.

One of Hunnewell's Great Remedies.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a freedom from every component calculated to debilitate, and by stem to allow the greatest freedom of use, day or night, as the only true theory by which THROAT and LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, when local causes make almost all such complaints different in effect, I would ask confidence which will be accorded, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, WHOOPING Cough, all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

Local.

☞ A correspondent of the Manchester Mirror learns from his friends in this city that Capt. John E. Herbert, a native of Portsmouth, has escaped with his brother from the rebel army and arrived at Brownsville, Texas, after traveling 500 miles. Capt. Herbert is a lawyer by profession and at the breaking out of the Rebellion held a commission as Captain of a company of Texas Rangers. He was offered a commission as Colonel in the rebel army, but refused it. He resided at Hampstead in Guines Co., Texas, and had amassed considerable property, which he was compelled to leave in charge of his wife. Previous to his departure a party of seven attacked him at his home, but with the assistance of his brother, they were driven off with a loss of two killed.

☞ The January Pay Roll of the mechanics and laborers employed on the Portsmouth Navy Yard is now being paid. About eighty-seven thousand dollars is thus distributed in and about this city. There has been considerable delay in the payment of this roll in consequence of neglect by the Department at Washington to forward the draft for the money necessary to pay it, for some reason unknown, but it was doubtless unavoidable. There are about 1900 workmen at present employed on the Yard.

☞ As all persons in the navy are to be credited to the town or city in which they are enrolled, it is important that those who may have entered the navy in other cities, whose residence is Portsmouth, should be placed to the credit of this city. Those having friends or relatives in the navy should furnish the Mayor or City Clerk with their names.

POLICE COURT, Tuesday,—Odell, J.—Patrick Kiley, for an assault on John Dwyer, was fined $5, and costs $6.74, which he paid, and gave bonds in the sum of $30 to keep the peace and be of good behavior.

William S. Marston, for habitual truancy, was sent to the Reform School.

☞ Any of our citizens who unfortunately dwell in houses having leaky roofs should read the advertisement in our columns of the Metal Roof Painting Company, of which Messrs. Stead & Co., Boston, are the agents. They have already fulfilled several orders in this city, and have thus far given complete satisfaction. Mr. Stead will be in town again in a few days, and can be consulted personally.

— The U. S. steamer Sacramento, Com. Walker, was at Fayal Feb. 18, having made the passage from Boston in eight days.

— The U. S. steam transport Merrimac arrived at Portland, from New York, Saturday morning. She will take on board 200 men and horses of the 2d Me. Cavalry as soon as she receives her supplies.

— Benevolent citizens of Springfield, Mass., are moving in the matter of founding in that city an asylum for the children of deceased and disabled soldiers. One offered $1000 toward the object.

— The Democrats carried Biddeford, Me., on Monday, by 120 majority; last year their majority was 230. This year they carry 4 of the 7 wards; last year they carried them all.

— The King of Denmark has spoken strongly for a vigorous perseverance in his policy. The Danish journals oppose a conference on the basis proposed, and the movement has apparently made no progress.

— It is said the rebels have not liberated Maj. White, the Pennsylvania Senator. He is still in close confinement at Salisbury, N. C. It was another officer of the same name, Maj. H. A. White, of the Pennsylvania cavalry, who was liberated.

— The St. John Globe says, upon the advice of their Counsel—the soundest piece of advice, perhaps that they ever received, —Kenney, Collins and Seely, the Chesapeake pirates, left for parts unknown to the many, immediately after their discharge.

— The Bath Times thinks it somewhat anomalous for young ladies to recite accurately at a school examination the principles of physiology, while some of them appear to be so tightly bound around the chest by their clothing as to be unable to lift their hands above their heads.

— A new work, "Woman and her Era," is in press in New York city. The author, Mrs. Eliza W. Farnham, has devoted her attention for a score of years to the subject, and has discovered enough to enable her to talk about "the absolute superiority of Woman as the most exalted being on earth."

— The Sultan of Turkey recently went out to hunt the wild boar; but the wild boar turned upon and hunted the Sultan, disrespectfully knocked him over, and would have made a harem full of widows had not some of the faithful rescued the sportsman and put the boars to flight. Bismillah! boars are brutes!

— On Wednesday evening, Mary McCoy was found dead in the basement of a house in Brooklyn. During the absence of the family, the woman broke into the house, and finding a quantity of oil of whiskey in a bottle, intended for bathing purposes, mistook it for whiskey, and drank part of it, from the effects of which she died in a short time.

[For the Chronicle.]

Having lately seen several items in your paper, in which the public were informed that the inhalation of Nitrous Oxyd Gas had been attended with fatal results, I will state a few facts in my experience and observation. I only wonder that there have been so few cases reported of fatal results. I fully expected to hear of many more, considering the way in which dentists have rushed into the use (or rather, I might say, the abuse) of this popular anaesthetic. In the first place, I *know* that hundreds of dentists have even *dared to administer the Gas without any instructions whatever*, and have constructed their own apparatus to manufacture the gas—not knowing, or caring to observe common prudence, whether they used a *pure gas* or not.

It requires an apparatus carefully constructed, besides sufficient chemical knowledge to understand fully the constituent parts of the gas, (oxygen two-thirds, nitrogen one-third) and what effect different degrees of heat produce upon the nitrate of ammonia, when the gas is being evolved.

I manufacture my own gas through *fresh water every time I make it;* and the apparatus I use has been pronounced by the State Chemist of Massachusetts perfectly satisfactory for manufacturing *positively* a *pure gas*.

Another thing of great importance. Many dentists have been accustomed to give the gas without any inquiries whatever, viz.: a patient comes into the office, and says:—"Doctor: I would like to take the gas, and have some teeth extracted." "Certainly—please sit down in the operating chair;" and *immediately* the Doctor (?) commences to *experiment* with the gas. What could the public expect but several fatal results, with such practice and experiments. I am accustomed to question my patients carefully, in regard to the strength of their lungs, &c. I have extracted several thousand teeth during the past few months, under the influence of the gas, and to my knowledge, have met with no injurious or even disagreeable results. It is used in New York and Boston by the best practitioners, and with entire success. Finally I regard it not only superior in chemical constitution, and the nature of its primary effects upon the economy, but also in leaving a permanent feeling of general invigoration, instead of that sedation and lassitude always in a greater or less degree attending the action of Ether or Chloroform; and moreover in being in a large measure unattended with the immediate or subsequent danger which renders the latter in the main so objectionable. DR. E. B. GOODALL.

GYMNASTICS.—A thorough system of gymnastics, connected with our plans of education, would deserve to be regarded as a means of grace; and a hall dedicated to the training of our youth in athletic exercises, might well claim for its opening a ceremony of solemn thanksgiving and religious consecration. I cannot help believing that even the apostles were the better men, the sterner in self-denial, the more elastic under discouragement, the braver in suffering, the truer models of temperance and soberness, for their physical discipline in the Galilean fishing boats, and Paul, for his labor at tent-making.—*A. P. Peabody.*

— Sir William Brown, Baronet, head of the well known firm of Brown, Shipley & Co., died in Liverpool on the 3d inst.

☞ The horrors of war can be greatly mitigated by that sovereign remedy, Holloway's Ointment, as it will cure any wound, however desperate, if it be well rubbed around the wounded parts, and they be kept thoroughly covered with it. SYMPATHY.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Herrick Allen's Gold Medal Saleratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will use any other Saleratus or Soda, if this article can be purchased. We see most of our Merchants have it. One trial will convince any one. Their depot is 112 Liberty Street, New York.

☞ See you fair maiden in another column, picking Sambuci Grapes for Spear's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Phy sicians and Surgeons, N. Y.
formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by if the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as heroic as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that disease can only be cured by the "slow and cooperative process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Biliousness, Want of Appetite, Flatulence, Foul Breath.

Scrofula.

Struma, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

This taint hereditary or acquired, filling life with unmeaning misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritis, Neuralgia, Gout, Lumbago, Sciatica, Tic Doloureux.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly allayed—enormous swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thought, Epilepsy, Loss of Power, Shattered Nerves, St Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering woman will this medicine prove an inestimable blessing—directing their footstepe to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Erpptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disgure so many of the younger portion of the community from one to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitutional taint, and these cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia, Dropsy, in the Limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus, will be immediately cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors in the Ovaries, Tumors of the Breast, the swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a grating or filing sound), Dropsy of the Heart (Case and all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Calamity, Fear of Disease, Dimness of Vision, Dry Hot Skin, Nervous Irritability, Weak Appetite, Languid Feelings, Pale Haggard Countenance and Lassitude of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases**, either of the Nose Throat, Tongue, Spine, Forehand or Leg, no remedy has ever proved equal.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. Constitution Life Syrup will correct the liver, correct the secretion, and remove the deposit which is directly under the skin.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition of that organ, accompanied with burning pain and other symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, Spinal Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES. It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the food—Those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

FORWARD.

"But if a man live many years, and rejoice in them all, yet let him remember the days of darkness; for they shall be many. All that cometh is vanity." -*Ecclesiastes* 11: 8.

Shall this life of mine be wasted?
Shall this vineyard lie untilled?
Shall true joy pass by untasted,
And this soul remain unfilled?

Shall I hear the free bird singing
In the summer's stainless sky,
Far aloft its glad flight winging,
And not seek to soar as high?

Shall this heart still repeat its treasures
On the things that fade and die?
Shall it court the hollow pleasures
Of bewildering vanity?

Shall these lips of mine be idle?
Shall I open them in vain?
Shall I not, with God's own bridle,
Their frivolities restrain?

Shall these eyes of mine still wander?
Or, no longer turned afar,
Fix a firmer gaze and tender
On the bright and cloudless star?

Shall these feet of mine, delaying,
Still in ways of sin be found?
Having snares, and madly straying
On the world's bewitching ground?

No—I am not born to trifle
Life away in dreams of sin!
No—I must not, dare not stifle
Longings such as these within!

Swiftly moving, upward, onward,
Let my soul in faith be borne;
Calmly gazing—skyward, sunward,
Let my eye unshrinking turn!

Where the cross, God's love revealing,
Sets the fettered spirit free;
Where it sheds its all-power discharges are removed, and the weakness of disease speedily restored to full vigor and strength.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND LEAVES,

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nervous Debility, Impotency, and the train of evils produced by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Nervous Irritability, Dyspepsia, Sleeplessness, Trembling, Nervousness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the diseases resultant, caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has never failed to a speedy cure. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have suffered through their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* This medicine is now offered to the public, health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of age.

One bottle will cure General Debility.
A few doses cure Hysterics in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and full vigor of youth.
A few doses restore the appetite.
Three bottles cure the worst case of Impotency.
A few doses cure the low spirited.
One bottle restores a sallow face to health.
A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

MARKET STREET,

PORTSMOUTH.

LAST AND BEST.

THE MODEL COOK,

AN AIR-TIGHT STOVE,

WITH TWO OVENS,

And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into use at pleasure), all the heat from the fire is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either size, when needed.

In fact, no pains or expense have been spared to make this a PERFECT STOVE, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family or three families for fuel, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and comfort are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and oven heater combined, by which the odor of broiling meats will be prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin wash-boiler attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, shoot off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

SAMBUCUS TREE, OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

a few well known gentlemen and physicians who have tried the Wine:

Gen. W. Scott, U. S. A. Dr. . . . Newark, Gov. Morgan, N. Y. State Dr. Wilson, 11th St., N. Y. Dr. Parker, N. Y. City Dr. Dougherty, Newark Dr. J. H. Chilton, " Dr. Parish, Phila. Drs. Darcy and Nicholl, Newark, N. J.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J." is over the cork of each bottle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, live just and fair with all:
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and it truly their worst enemy."—*Washington's Farewell Address.*

"THE CONSTITUTION AS IT IS."—This Constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the SUPREME LAW of the land; and the judges in every State shall be bound thereby, anything in the *Constitution* or laws of any *State* to the *contrary* notwithstanding.

The Senators and Representatives before mentioned, and the members of the several State Legislatures, and all executive and judicial officers, both of the United States and of the several States, shall be bound by oath or affirmation, to support this Constitution.—*Constitution U. S.*

A YOUTH'S HISTORY OF THE REBELLION.—We are glad to see that Rev. William M. Thayer, author of the "Pioneer Boy" and other popular works, is engaged upon a History of the Rebellion for the young, and that Messrs. Walker, Wise & Co., of Boston, will issue the first volume about the first of April. The importance of such a work cannot be over estimated. The young ought to understand the nature and history of this struggle, as a means of inspiring their hearts with patriotism, and attaching them with all the ardor of youth to free institutions. There are lessons for them in this war that can be derived from no other source; and we rejoice that they are going to appear in permanent shapes. All intelligent parents will desire to have their children instructed on this subject, that they may not lose the lesson of the hour.

The value of this History will not be confined to the young. Many families cannot afford to purchase either of the histories of the rebellion written avowedly for adults, the cheapest of which will cost seven or eight dollars. As this work of Mr. Thayer's, when completed, will not probably cost half that, and yet will contain the substance of the larger works, families who cannot afford the larger works (made large by the introduction of public documents, long speeches, &c., that few desire to read) will find this a valuable history for their use, whether they have children or not. Condensation—the most in the smallest space—is what our people crave; and this, we understand, will be a characteristic of this History of the rebellion for the young.

This work, the price of which we learn from the publishers is to be $1.25, should attract the attention of book-agents, as it is destined to have an immense sale all over the country.

The Argus assigns—in an elaborate leader—four reasons for the Democratic defeat in New Hampshire. Ten days after the nominations were made, says that paper, the Democrats would have won; but four causes were put in operation: 1st, the clergy went to work; 2d, office-holders took the stump; 3d, money was used, and 4th, the soldiers came home to vote. The office-holders and the money could have been easily overcome, because with such instrumentalities the Democrats are perfectly familiar, but the *clergy* and the *soldiers* were too much for copperheadism. The old song (new version) has it:

"When Christians pray the devils run,
Halle-hallelujah;
The soldiers spoil the traitors' fun,
Glory hallelujah!"
—*Portland Press.*

PUT THIS AND THAT TOGETHER.—A paper just east of us, says that our election "resulted in the triumph of Abolitionism." Another paper, just about as far to the west, says that this result is "disastrous to the Democracy of New Hampshire, and ominous of the fate country."

Nothing more likely than that the fate of the country is to have slavery utterly abolished: and if any party, whether called democracy, whiggery or toryism, stands in the way, it must meet with disasters, as it did in New Hampshire. U. T.

A vote for Gilmore is a vote to saddle yourselves and posterity with a debt which the next ten generations will be unable to pay.—*Manchester Union.*

Our people seem to like that kind of a "saddle" better than one that would link the names of their posterity on the side of traitors to their country.—*Mirror.*

— Military necessity has coined a new word—scatterization.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, [under the Act of 1837,]
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE EARLIEST DATE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to secure a late a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able to attention, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure patents, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy,* and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending.* Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *once* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor,* by the Commissioner of Patents. R. H. EDDY.
